

All Colours Alpaca Auction

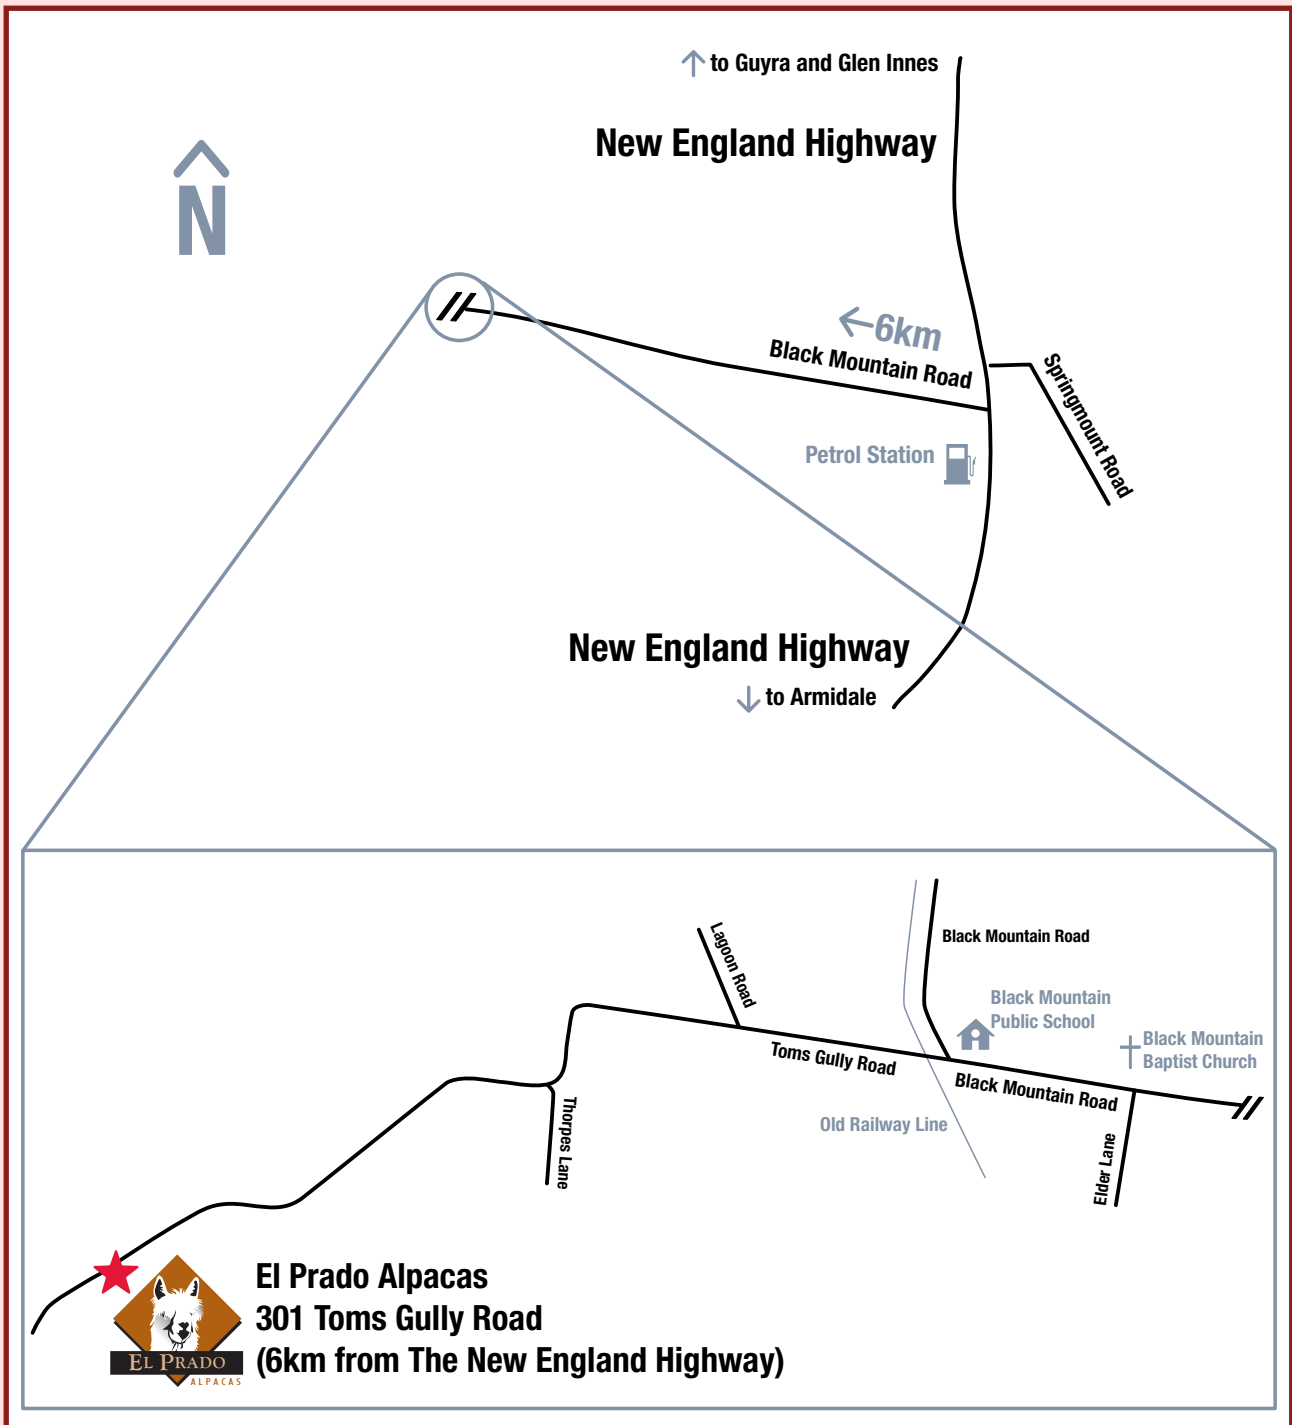

inc. El Prado Elite Suri Herd Dispersal

at El Prado Alpacas, in conjunction with
Green Gully Alpacas and Sunline Alpacas

Sunday 7th April, 2019
12 Noon, On Site

El Prado Alpacas
301 Toms Gully Rd
Black Mountain, NSW

How to Get to El Prado Alpacas by Road

El Prado Alpacas is located about 7 hours drive north of Sydney. Travel up the M1 Expressway to the Newcastle Interchange. Take the Hunter Expressway to Singleton. Continue along the New England Highway. After taking the Armidale bypass, the highway steadily climbs to Black Mountain. Turn left immediately after the BP Roadhouse on top of the mountain and proceed along Black Mountain Road to the village of Black Mountain (3kms), then across the old railway line to continue along Toms Gully Road.

El Prado Alpacas is located 3km from Black Mountain village, ie 6km west of the New England Highway.

El Prado Alpacas is also about 7 hours drive from Brisbane via the Cunningham and New England Highways.

El Prado Alpacas was established by Paul and Deanne Thibault in 2002.

Since that time, we have concentrated on breeding quality suri and huacaya alpacas with an emphasis on conformation and fineness of fleece. Our specific focus has been on suris (mainly white and fawn) and black and grey huacayas. Three years ago, we moved from a 100-acre property in the Hunter Valley to a smaller property of 27 acres in the New England high country of Black Mountain. At 1350m altitude, we believe it is the highest alpaca farm in Australia. Certainly, the conditions favour alpaca breeding particularly regarding health and wellness of the alpacas.

However, we are feeling the effects of age, and it has come time to make the difficult decision to reduce our herd numbers dramatically by having a complete dispersal sale of our elite suri herd. This is the herd that has performed best for the El Prado stud over the past 17 years. This elite suri herd has produced one National Champion (*El Prado Cortez*) and seven Supreme Champions, six of them females. Five of the Female Supreme Champions are for sale in this auction as well as other males and females that were awarded Championships.

Our suri genetics are quite unique and were built on four Foundation suris that were chosen for their specific qualities. These were *Peppertree Amadeus* (fineness and conformation), *Jindy Peruvian Conquerer* (lustre, density and conformation), *Jindy Tamarra* (fineness and handle) and *Jolimont Giogina* (density and lustre). Benoit Ernst, a pioneer in the Australian Alpaca industry advised us to keep our genetic pool tight, and we followed this advice to produce a typical El Prado Suri, with the prime characteristics of sound conformation, lustre, density and fineness that was maintained with age. Due to their rather unique genetics, the suris have qualities to add to, improve and complement any existing suri herd. In recent years, we had commenced developing the black suri herd and, although still a long way off the quality of the lighter suris, we believe we were heading in a positive direction with these, especially in producing a black suri that looks like a real suri.

The second part of the auction will contain Huacayas of All Colours. To provide a complete range of colours for sale in the huacayas, we have invited Green Gully Alpacas (Noel and Cathy Reid) and Sunline Alpacas (Jeff and Jill Willis) to join us in the 5th All Colours Alpaca Auction. All vendors' alpacas are Q Alpaca with the Sunline herd agisted at Green Gully Alpacas. Green Gully and Sunline produce huacaya alpacas with good conformation, beautiful stylish fleeces of many colours and excellent temperaments. Both studs are renowned for their successes in the showing in NSW and southern Queensland.

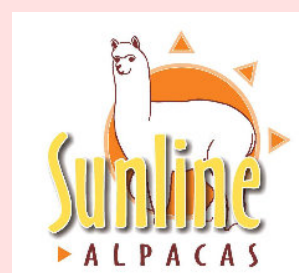

There are over 50 lots available with approximately half of them unreserved. The remainder have sensible reserves. The auction rules will require a minimum bid of \$300 for single lots and \$600 for females with a cria at foot. For the first time, this Auction will be run in conjunction with AuctionsPlus and the normal rules and requirements of AuctionsPlus will apply. When accessing the microns and other fleece statistics provided please keep in mind that all animals are in good condition and receive additional feeding supplements as required from time to time.

If you have any questions or queries prior to the auction feel free to contact Paul (0414 635 775) or the other vendors if applicable. We trust that your purchases will complement and lead to improvement in your herds.

DOB: 16/12/2016 **IAR:** 214815

Sex: Male

First Fleece: FD21.0 SD3.5 CF98.7%

Last Fleece: FD23.0 SD4.1 CF96.7%

Comment:

Very soft handling fleece with long staple length and low SD. Very dark brown but was judged as Black at NEAS where he was awarded 3rd place Intermediate Black Male Huacaya 2018.

Lot 55 Willis and Enzo

Grey Huacaya and Dark Roan Huacaya

Account: Green Gully

Sex: Pair of wethered males

Comment:

These handsome wethers, Willis (grey) and Enzo (dark roan) are offered together. At 14 months of age they would be ideal as pets on a small acreage or to join in another herd as companions. They both have soft fleece and are growing out well.
