ASCOT
CHAROLAIS & ANGUS

Welcome to the Ascot 2019 Autumn Bull & heifer sale. 1PM (Qld time) Wednesday 10 April 2019.

Most importantly thank you to all our past sale supporters & friends. Thanks also for all the positive feedback about our bulls. It is rewarding for us to hear they are doing the job they were bred for.

At Ascot we strive to breed bulls that have good structure, phenotype, docility, fertility & weight for age combined with good Carcass EBVs (estimated Breeding Values). It's what we call BALANCE.

Our commercially focused approach remains with MSA as our target for carcass traits & breeding objectives.

As per our last 2 sales we have had all sale bulls & joined females independently assessed for feet, structural soundness & temperament by industry renowned accredited assessor Jim Green. Jim Has over 20 year's experience in doing this & this is all he does. He does it for many seed stock producers all over Australia. As can be expected he knows his stuff!! Ascot is one of only a couple of QLD beef studs they carry out this independent assessment. Each animal will have its structural & temperament result stated in our sale catalogue. We feel this is one more way we can give our buyers more comfort & confidence in the animals we are selling, whether you attend the sale or bid via Auctions plus, or over the phone.

All bulls will also be:

- Semen tested & vet checked.
- Vaccinated with 3 germ blood for tick fever
- Vaccinated with 7 in 1, Pesti virus, 3 day sickness & vibrio.
- Scanned prior to sale for fat cover, EMA & IMF.
- Fully Breedplan recorded.
- Tested negative to pesti virus.
- All registered except where mentioned in catalogue.

All females will be:

- Pregtested before sale (except unjoined heifers).
- Vaccinated with 3 germ blood for tick fever.
- Vaccinated with 7 in 1, Pesti virus, 3 day sickness.
- Fully breedplan recorded.
- All fully registered.

ANGUS SALE BULLS

This year we offer 31 very well grown, slick coated pure bred Angus bulls with ideal muscle & bone which will be approx. 20 months of age at sale time. For those not familiar with the Angus breed all PUREBRED Angus cattle are homozygous polled (which means all progeny should be polled or scurred regardless of whether dam is horned or polled).

Sires of sale bulls include some exciting new sires:

- Millah Murrah Loch Up. The \$85,000 top priced bull Ascot purchased in 2016. His calves show real carcass, doing ability & docility. His semen is being used extensively in Australia & NZ. These bulls will be the first real run of bulls by him to be sold.
- Ascot Lion Heart. The bull we sold to Ben Nevis Angus and Trio Angus for \$70,000. A truly outstanding sire in all carcass traits & phenotype. We continue to use him in our AI programs.
- K5X Legend. The \$30,000 bull with extra carcass, muscle & hind quarter.
- Clunie Range Kahlua. The bull we purchased from Clunie Range in 2016.

Other tried & proven sires represented strongly are:

- Ascot Hallmark (still a walking sire at Ascot) who sired the top priced Angus bull in Australia last year at the Millah Murrah sale & is the sire of Ascot Lion Heart. He continues to have a strong impact on the Angus breed.
- Millah Murrah Kingdom K35 the record-holding \$150,000 bull.
- Millah Murrah Highlander G7. Has bred bulls we have sold to \$18,000.
- Clunie Range Juno. The Top priced bull Ascot bought at Clunie Range sale in 2015.

All of the Angus sale bulls are predominantly mid maturity pattern. All bulls are ready for work. A good number of these bulls should suit heifer joinings & are identified in the catalogue.

CHAROLAIS SALE BULLS

This year's Charolais sale bulls exhibit, we feel, extra muscling & fleshing but also retain the "positive fat", easy finishing ability that the Ascot program strives for.

This sale includes 16 x 2 year old polled bulls & 10 x 20 month old polled bulls. Included are 12 DNA tested homozygous polled bulls. Sire lines include the exciting new bulls:

- Paringa Kilo Packer K330E. The Paringa top priced bull we purchased in 2016. He is a real meat machine with breed leading carcass trait EBVs in the top 1% & is also homozygous polled. His sons deliver outstanding weight for age in a polled, moderate, thick package. We are excited about his progeny & these are the first to sell at auction in Australia we believe.
- Rosedale Lump Sum. The top selling bull at Rosedale we purchased in 2016. He has extra bone, muscle & docility & is homozygous polled. The sons in this sale are the first to sell in Australia & are very impressive indeed. He works well over our positive fat females.
- Palgrove Kudos. The \$40,000 red factor homozygous polled bull we purchased in 2016. His sons exhibit great carcass traits like his sire & docile temperaments.

Other tried & proven sires represented include;

Ascot Eldorado, Ascot Juggernaut, Ascot Galaxy, Ascot Goldrush, Ascot Kingmaker & Ascot Julius Caesar.

A number of these bulls should suit heifer joinings & are identified in catalogue. The bulls are predominately medium framed & early to mid-maturity pattern bulls.

HEIFERS

We have catalogued 38 Angus & 26 Charolais joined, registered heifers. Pregnancy status will be marked in catalogue & confirmed prior to sale. All joined heifers have been independently structurally & docility assessed by Jim Green.

13 unjoined registered heifers will also be offered.

All heifers are excess to our needs & will suit stud or commercial duties.

ANGUS HEIFERS

The joined & unjoined heifers are ALL by breed leading sires similar to the bulls above including: Millah Murrah Loch Up, Ascot Hallmark, Ascot Lion Heart, Millah Murrah Kingdom, Te Mania Emperor, Millah Murrah Highlander G7, Clunie Range Juno, SAV International & K5X Legend - so you are accessing the latest genetics here.

The joined heifers have been joined to : Millah Murrah Might & Power, Millah Murrah Highlander G7, Clunie Range Juno, K5X Legend, Ascot Mogul M561(full brother to Hallmark) & Ascot New York N365 (MM Loch Up son).

CHAROLAIS HEIFERS

All of the Charolais sale heifers are polled with 12 tested homozygous polled.

Breed Leading Sires of the Charolais sale heifers include: Rosedale Lump Sum, Palgrove Kudos, Paringa Kilo Packer, Ascot Goldrush, Ascot Galaxy, Ascot Eldorado to name a few. Joined heifers have been joined to the homozygous polled sires: Ascot Goldrush, Ascot Galaxy, Paringa Easy gain M384 & Paringa Kilo Packer K330, so all progeny should be polled or scurred.

The sale will be interfaced on Auctions Plus with live video feed. Phone bidding is also available through agent of your choice.

Outside agents commission of 4% payable.

Free delivery is offered on Frasers Transport to the following centres: Emerald, Rockhampton, Goondiwindi, Roma, Toogoolawah, Glen Innes, Tenterfield, Inverell, Moree, Narrabri, Tamworth, Gunnedah, Dubbo & Casino, and some centres in Victoria. Insurance is recommended on all stock purchased & will be available on sale day.

Should you wish to inspect the cattle before sale please contact us otherwise will be available for inspection the morning of sale from 9 am.

Complimentary morning tea, lunch & after sale drinks will be available sale day.

We look forward to seeing you on sale day. Sale starts at 1 pm, Wednesday 10th April with all bulls first.

Yours Sincerely,

Jim & Jackie Wedge.

4% Commission to outside Agents

SALE INFORMATION

SALE DATE AND PRIOR INSPECTION TIME:

Selling will commence at 1pm on Wednesday 10 April 2019.

Bulls may be inspected from 9.00am on the morning of the sale, or at any other time by arrangement with the agents or vendor.

SELLING SYSTEM:

Sale of animals will be conducted under normal auction conditions. Please check with the Selling Agents to obtain a buyer's number if you are considering making a purchase. Successful Purchasers are requested to give written advice to the Selling Agents, regarding transport arrangements, at the conclusion of the sale.

REBATE:

4% Rebate to outside agents registering Bull buyers, in writing, PRIOR to the sale, and settling on their behalf within 14 days of the date of invoice.

PHONE BIDDING:

We have full mobile phone coverage at the sale. If you intend purchasing over the phone, please contact the selling agents to reserve a line.

GST:

All animals are sold exclusive of GST.

INSURANCE:

Bulls are like any other piece of valuable farm equipment and it is wise to insure them, especially for their first six months of working life. There are a number of options available through Elders Insurance at the sale venue.

While all care and attention will be taken liability of bulls falls to the purchaser at fall of hammer.

AUCTION PLUS

This year we will have live video and audio streaming all done through Auctions Plus. Please register 24hrs before the sale.

REGISTRATION:

Ownership transfer of bulls will be registered by the vendors with Angus Australia or Charolais Australia provided accurate transferee details are supplied with the Buyers Instruction form.

CATERING:

Please join us for complimentary morning tea, lunch and after sale drinks.

PHYSICAL EXAMINATION OF BULLS

All bulls and PTIC heifers offered for sale have been structurally assessed by Jim Green and vet checked. A veterinary bull breeding soundness evaluation certificate will be issued before sale date and animals only sold if deemed satisfactory for the following inspections:

- Palpation of internal genitalia
- Palpation of Scrotal Contents
- Semen Testing
- Physical examination of feet, legs, gait, head and joints.
- Structural soundness evaluation & temperament score.

TEMPERAMENT

The bulls have been handled with horses, ATV utilities and on foot. We know their temperament individually and are confident that under normal circumstances each animal in the sale is of sound temperament. Understandably each year on sale day an occasional bull misbehaves due to the big change to the yard area and the pressures of strange people invading their space.

HEALTH QA:

The bulls are ready for immediate use.

We have treated them as follows:

- Pesti tested Negative
- Double vaccinated them with Vibrovax
- Vaccinated for Tick Fever
- Double Vaccinated with 7 in 1 & Pestigard
- Double Vaccinated for 3 Day
- Drench with Cydectin Pour On prior to sale
- Botulism

JOHNES STATUS:

Each lot will have their Johnes Status listed, depending on their place of birth, as follows:

Ascot Warwick Qld property - JBas 7 (QLD, tested annually) *

Ascot Glen Innes property - JBas 7 (NSW, tested annually) *

ET calves originating from Glen Innes - JBas 6 *

*** Purchaser to ensure bull's entry eligibility meets their Johnes Status requirements. Please check with your state's relevant authority**

BULL HANDLING

On arrival at their new home it is important a suitable mob of animals is yarded to greet the bull and minimize the stress on the bull. Suitable animals include pregnant cows, steers, certainly not other bulls.

The bulls are in good joining condition at point of sale, but it is imperative to ensure good nutrition for the bull during the joining period. You should check the bulls regularly to see they are working, especially in the early stages of joining when the majority of problems occur and early intervention can minimize the damage to the bull and to conception rates.

When joining is complete, bulls should be drenched and placed on good pasture to get back into first grade health without being allowed to get over-fat.

FEEDING REGIME & MANAGEMENT.

The life cycle of our bulls consists of running on crop or pasture all of their lives until just prior to sale time when they receive a high hay base ration. This ration contains a nutritionist formulated supplement with added vitamins, minerals and antioxidants for foot, fertility and

general health. The high roughage ration also

includes chopped hay, straw and rolled barley at very low percentages. This ration also helps adjust the rumen to help them cope with whatever pasture conditions they encounter at their new homes.

DISCLAIMER

Every care has been taken during the compilation of the catalogue to ensure the accuracy of information supplied. However, no responsibility will be accepted for any errors that may have occurred.

WARRANTY

THE VENDOR WARRANTS THAT:

1. Bulls are fertile and capable of natural service within 6 months of date of sale to the purchaser ("Warranty Period"); and

THE VENDOR WILL EITHER:

1. Provide a satisfactory replacement or
2. Provide a credit for use at the next Ascot Cattle Co Bull Sale equal to the purchase price (excluding any costs and expenses of the purchaser in taking delivery) minus salvage value:

WHERE:

1. The purchaser claims a bull is infertile, upon purchaser submitting a veterinary report after the expiration of the Warranty Period stating that the bull is infertile or incapable of natural service, and a Statutory Declaration by the purchaser to the effect that the substance of the report is true and correct. The veterinarian must state that in his/her opinion there is no evidence that the bull has suffered any injury or illness during the Warranty Period which could have affected his breeding ability. The veterinary report and Statutory Declaration must be forwarded to the seller within 14 days of the Warranty Period expiring.

THE PURCHASER ACKNOWLEDGES THAT:

The purchaser does not rely and it is unreasonable for the purchaser to rely on the skill or judgment of the seller as to whether the bulls supplied are reasonably fit for any purpose for which they are being acquired.

To the extent permitted by law all other conditions and warranties implied by law in respect of the state, quality and condition of the bulls which may apart from this clause be binding on the Seller are excluded.

The Seller has no liability (including liability in negligence) to any person for any loss or damage consequential or otherwise suffered or incurred by that person arising from the sale of the bulls to the purchaser.

HEALTH & SAFETY OF VISITORS TO OUR SALE (RULES & ADVICE)

All the sale bulls have been screened for temperament and are quiet to handle under normal circumstances. However there are inherent risk associated with cattle handling.

VISITORS ENTER THE CATTLE PENS AT THEIR OWN RISK. CHILDREN MUST NOT ENTER THE YARDS.

People entering the yards are at risk of injury. Be especially alert of bulls fighting and if one is playful with you, do not respond by patting his head.

What a bull considers a playful nudge can break human legs! We do not expect the bulls to be aggressive with humans, but sale day places extraordinary pressure on them as they experience an entirely foreign environment. Remember the quietest bull is in fact an unpredictable animal.

Do not crowd the bulls or loiter inside the pens. We cannot cover every example of the dangers of cattle handling, so please use common sense and be alert at all times. Don't enter the pens unnecessarily.

Please call upon any of the agents for an escort through the bulls if required. The days of bravado with stock have passed under current OH&S legislation.

DELIVERY

Agents Elders, Landmark and Colin Say & Co will be handling the organisation of delivery of Sale Cattle. Free freight is offered to Emerald, Rockhampton, Goondiwindi, Roma, Toogoolawah, Glen Innes, Tenterfield, Inverell, Moree, Narrabri, Tamworth, Dubbo, Gunnedah & Casino.

Responsibility goes to purchaser at fall of hammer. We recommend insuring all bulls.

SEMEN RIGHTS

All bulls sell with 80% semen marketing rights attached. In doing this we leave the great majority of any potential semen revenue in the buyer's hands.

However, by keeping a 20% share, it gives us, as the breeder and party with the greatest knowledge of the bull's background, a seat at the table, in any possible negotiations with semen companies and other parties.

Should any purchaser wish to operate at the sale on the basis of 100% semen ownership, please contact the vendor at least 24 hours prior to the date of the sale.

Under all circumstances, the vendor retains the right to collect up to 200 straws of semen from a bull in the sale for use within herd. Any semen collection would be at vendor's expense and purchaser's convenience.

ACCURACY OF CATALOGUE

While every care and attention to details in catalogue has been made we cannot guarantee that some mistakes have occurred during printing or construction of catalogue.

POLL TESTING

Ascot Charolais bulls have been tested by the Animal Genetics laboratory at the University of Qld with the SEQ_POLL Prediction test to identify their poll status. While this is the most accurate poll test available to determine if an animal is PP (homozygous polled) there is no guarantee by Ascot that this is 100% correct. We rely on the university to determine an animals status. Therefore Ascot cannot bear direct liability or any consequential losses incurred by the purchaser should this test deemed to be incorrect.

SELECTING GENETICS FOR IMPROVED MSA

The different components affecting whether carcasses meet MSA compliance specifications are all influenced to some extent by genetics and can be improved through the selection of animals with appropriate genetics.

1. MEAT COLOUR & PH

Dark meat colour (ie. over an AUSMEAT score of 3), commonly referred to as 'dark cutting'; is associated with low muscle glycogen levels in the live animal prior to slaughter, thus resulting in an unappealing product for consumers. Similarly, if there is only a small amount of muscle glycogen present pre-slaughter, pH may not decline to the required level.

Maintaining glycogen levels pre-slaughter is consequently of utmost importance and can be achieved by minimising stress and/or activity both on-farm and in the lead up to slaughter. Cattle with poor temperament have an adverse effect on the cattle around them, all of which results in higher pH carcasses and a higher incidence of dark cutting.

Selection for improved temperament can be achieved by ensuring that all animals used in a breeding program have acceptable temperament, and when available, selecting animals with superior Docility EBVs. Docility EBVs are estimates of genetic differences in the percentage of an animal's progeny that will be scored with acceptable temperament, with higher EBVs associated with superior temperament. For example, an animal with an EBV of +20% would be expected to on average produce a greater percentage of progeny that have acceptable temperament than a bull with an EBV of -2%.

Research has also demonstrated that animals with higher muscle content, as defined by size of carcass eye muscle area (EMA) adjusted for hot standard carcass weight, is strongly associated with reduced incidence of dark cutting. A reduction in the incidence of dark cutting in high muscled cattle also complements the other advantages of muscular cattle, such as increased retail beef yield and processing efficiency.

Selection for increased muscle content in a standard weight carcass can be achieved by selection of animals with higher EMA EBVs. EMA EBVs are estimates of the genetic differences between animals in eye muscle area at the 12/13th rib site in a standard weight steer carcass, with higher EBVs associated with larger eye muscle area. For example, an animal with an EMA EBV of +4.4 mm would be expected to produce calves with larger eye muscle area than an animal with an EMA EBV of + 1.0 mm, relative to carcass weight.

2. RIB FAT THICKNESS & FAT DISTRIBUTION

Rib fat thickness is the measured depth of subcutaneous fat over the quartered rib site between the 5th and 13th ribs.

A covering of fat is needed to protect the high value primal cuts from rapid chilling, which can cause toughening, and to enhance eating quality and appearance.

In addition to minimum fat levels, a key requirement for all beef markets is to have adequate cover over the high-value cuts along the loin (back) and rump. MSA requires carcasses to have adequate fat coverage over all major primals, with an area of inadequate fat distribution not being greater than 10cm x 10cm over each individual primal.

Selection for adequate rib fat and fat distribution can be achieved by selection of animals with appropriate Rib and Rump Fat EBVs. Rib and Rump Fat EBVs are estimates of the genetic differences between animals in fat depth at the 12/13th rib and P8 rump site respectively in a standard weight steer carcass, with higher EBVs associated with greater fat depth. For example, an animal with a Rib Fat EBV of +0.4 mm would be expected to produce calves with more fat than an animal with a Rib Fat EBV of -0.6 mm, relative to carcass weight.

TAKE HOME MESSAGES

Whilst many of the factors that affect the eating quality of a carcass and its suitability for MSA programs are heavily influenced by animal handling and management, many factors are also influenced by the genetics of an animal.

Selection of animals with acceptable temperament, higher Docility EBVs, higher Eye Muscle Area EBVs and appropriate Rib & Rump Fat EBVs can improve MSA compliance, whilst selection of animals with higher IMF EBVs to increase marbling score, higher Growth EBVs to reduce ossification score, higher Rib Fat EBVs to increase carcass fatness and higher Carcass Weight EBVs to increase HSCW at the same maturity, will increase MSA Index values and thus increase the eating quality of your herd.

To further discuss breeding for MSA programs, please contact staff at SBTS and TBTS. More information about Meat Standards Australia is also available from the MLA website

www.mla.com.au

WORKING AGE YEARLINGS BECOMING POPULAR

In Australia and other parts of the world, there is a trend towards using bulls at yearling age (12-18 months). This allows introduction of superior genetic material into herds a year earlier than normal, resulting in faster genetic improvement.

Their introduction has the potential to allow breeders to extend the working lives of bulls by a year or more, lowering the bulls costs of a herd. This extra workload is achieved at the time in their lives when they are young, lean, fit and exuberant. They are free of the structural problems that beset older bulls.

Yearling bulls have much to offer, both genetically and financially. However, poor management can reduce calving percentages, compromise animal welfare and limit their lifetime potential. In order to harness the immense potential of yearling bulls, special management is required-their age and physiological status demands it.

SUMMARY

In order to harness the potential of yearling bulls there are three crucial management requirements:

1. Join them either alone or with bulls of the same age.
2. Join yearling bulls for 6-8 weeks (2 cycles) only, then spell them for at least 3 months.
3. After removing yearling bulls from their joining groups, place them on high quality feed in specially prepared paddocks.

Experience has shown that many young bulls have been ruined because they have been joined for too long and under conditions that have challenged their survival. If, at any stage, yearling bulls drop below 2 score condition, they should be withdrawn from their joining group immediately.

HOMOZYGOUS POLLED

All animals stated as Homozygous polled in this catalogue have been tested with the SEQ_POLL Prediction test at AGL, University of QLD prior to sale, and are PcPc or PcPf Homozygous.

HOMOZYGOUS POLLED EXPLAINED

Recently, candidate mutations associated with polled phenotype in European breeds of cattle were found. There are two independent origins of polled, one found in Holstein-Friesian and Jersey breeds (Pf), the other in many European breeds of Celtic origin (Pc) such as Angus, Blonde d'Aquitaine, Dexter, Limousin, Charolais and Hereford, among others. Polledness is dominant; a polled animal can have one or two copies of the gene. All offspring of a bull with two copies of polled (homozygous) will be polled. Genetic testing is a cost effective means to determine if a polled animal has 1 or 2 copies of the gene.

Pc/Pc Polled. Two copies of the Polled-Celtic molecular marker are present. All offspring will be polled.

Pc/Pf Polled. One copy of the Polled-Celtic and one copy of the Polled-Friesian molecular markers are present. All offspring will be polled.

Reference:

Medugorac I, D Seichter, A Graf et al. Bovine Polledness – An autosomal dominant trait with allelic heterogeneity. PLoS One 7(6): e39477, 2012. (as supplied by AGL,UQ,Gatton.Q.)

Poll testing: Ascot Charolais bulls have been tested by the Animal Genetics laboratory at the University of Qld with the SEQ_POLL Prediction test to identify their poll status. While this is the most accurate poll test available to determine if an animal is PP (homozygous polled) there is no guarantee by Ascot that this is 100 % accurate. We rely on The University to determine an animals status. Therefore Ascot cannot bear direct liability or any consequential losses incurred by the purchaser should this test deemed to be incorrect.

BETTER BREEDING DECISIONS

THE PERFECT COMPLEMENT TO YOUR HERD, ASCOT BULLS WILL ADD KILOS, CARCASE AND FINISHING ABILITY.

THE OPTION OF 2 BREEDS PROVIDES YOU WITH MORE OPTIONS AND GENETIC DIVERSITY FOR YOUR HERD.

2019 CHAROLAIS BREEDPLAN

2019 ANGUS BREEDPLAN

■ BREED AVERAGE ■ ASCOT AVERAGE

■ BREED AVERAGE ■ ASCOT AVERAGE

GENETIC INVESTMENT

- Renowned for investing in leading Charolais and Angus genetics
- Search Australia and the world to source genetics that meet their high breeding standards
- Ascot sires are now being used as AI sires throughout Australia & New Zealand

PERFORMANCE FOCUS

- Weight is money
- Focused on cattle that can grow quickly to MSA standards
- Breeding decisions are made with MSA carcass traits as our main focus
- Phenotype is a major part of our breeding program.
- Our bulls are quiet, thick, polled, have great skin type and exhibit good weight for age

POLLED FOCUS

- Polled cattle is a major focus at Ascot
- All PURE Angus are naturally polled, extremely attractive for commercial cross breeding programs
- Aim is to have a totally polled (nearly achieved) and eventually a totally homozygous polled herd
- We conduct a homozygous polled testing program

FERTILITY FOCUS

- Cattle are designed to breed and perform in a range of Australian climates
- Breeding herd is put under strict fertility pressure from conception to weaning.
- Non-performing females are culled, which makes for a very fertile herd

DATA & MEASUREMENT

- We weigh nearly every calf ensuring data accuracy
- We hold a 5-star rating for recorded traits for the Charolais Breed
- We submit data to the highest standard available with the Angus breed
- Ultrasound scanning for EMA, IMF% and fat cover is used for submission to Breedplan
- We supply this data to clients prior to sales

QUALITY ASSURANCE

- Every animal sold at Ascot is independently assessed for feet, structure and temperament by Jim Green
- All bulls are semen tested and vetted for soundness
- Vaccinated for Pesti Virus, 7 in 1, 3 day, tick fever, Botulism and Vibrio.
- Every animal sold comes with a fertility guarantee, plus our great after sales service and support

MARKET SUITABILITY

- MSA grading is the basis to our selection criteria
- Our bulls will add carcass value and eating quality to your progeny
- We select for early weight for age, positive fat cattle, (for both fertility and finishing ability) and for cattle that can exhibit marbling
- Our breeding program is a balance between carcass EBV's & phenotype

STRUCTURAL ASSESSMENT AT ASCOT

Jim Green – 0402 003 137

At Ascot we are 'Raising the Bar'

All sale bulls & PTIC females will be independently assessed for feet, structural soundness & temperament by industry renowned accredited assessor Jim Green. Jim Has over 20 years' experience in doing this & this is all he does. He does it for many seed stock producers all over Australia. As can be expected he knows his stuff!! Each animal will have its structural & docility result stated in our sale catalogue. We feel this is one more way we can give our buyers more comfort & confidence in the animals we are selling.

Good structure in cattle has a direct effect on growth and

reproductive performance of a beef herd. Structural problems have detrimental effects on longevity, conception rates, calving timeframes and therefore directly impact on profitability.

Leg and feet issues, and temperament are highly heritable, therefore identifying animals with these issues allows you to improve your herd through assessment and selection.

At Ascot, independently assessing structure and temperament, measuring and collecting data, along with the use of performance recording gives us a better picture of how individual animals perform. This aids genetic selection and helps us breed animals with desirable traits.

SCORING DIAGRAM

1-9 Scoring System for feet and leg structure

- A score of 5 is ideal. (Note: Temperament score of 1 is ideal)
- A score of 4 or 6 shows slight variation from ideal, but this includes most sound animals
- An animal scoring 4 or 6 would be acceptable in any breeding program
- A score of 3 or 7 shows greater variation but would be acceptable in most commercial programs. However seedstock producers should be vigilant and understand that this score indicates greater variation from ideal.
- A score of 2 or 8 are low scoring animals and should be looked at cautiously and inspected very closely before purchasing
- A score of 1 or 0 should not be catalogued and are considered immediate culls

Temperament

Temperament or docility score separates animals from the same contemporary on their calmness in a confined area. Animals which are extremely quiet score '1'. Animals that are aggressive and extremely agitated in the crush score as '5'.

HHV Percentiles for ASCOT HALLMARK H147 (AI)

COMMENTS

Angus Sire Benchmarking Program Cohort 5 – Hallmark is rated No.5 for 200D wt, No.7 for 400D wt, No.2 for 600D wt, No.5 for Rib Fat and No.2 for Rump fat.

Outstanding sire for the future by Te Mania Emperor out of a Millah Murrah D108 daughter.

Great temperament, good bone and great muscling complement his sire's outlook. Good footed. Tight sheath. Huge scrotal. Frame score 7.

- Growth: Top 1% 200, 400 & 600D & Carcase Wts
- Carcass: Top 5% Rump Fat, Top 15% IMF
- Fertility: Top 2% Scrotal size
- Indexes: Top 2% ABI, Heavy Grain & Grass Indexes

Top 25% 200D,400D,600D & Carcase wt,Milk. This is the first son to be sold in Australia & only son in this sale of the K5X bull that was purchased in 2016 for \$30,000. As with his sire, this bull exhibits extra muscling especially in his hind quarter, slick hair type, good sheath setting and is thick & deep flanked. Nice balance of EBVs with good docility makes this an attractive & useful bull to start the sale. His dam is one of the top 10 cows in the herd with perfect calving record. Dont miss this bull.

Top 10% Shorter gestation length.Top 20% Calving ease Dtrs & Feed efficiency.Top 25% 200D wt & Milk. This is the first of 7 Millah Murrah Loch Up sons in this sale. We purchased Loch Up for \$85,000 as the top priced angus bull in Australia in 2016. He is not disappointing us with his progeny as can be seen by this great young bull. He displays good thickness & a slick coat. Dam has 100% calving record.He has a nice balance of carcass EBVs & his LOWER BIRTH WEIGHT & CALVING EASE EBVs suggest he SHOULD SUIT HEIFERS OR COWS.

Top 1% Rump fat & Shorter days to calving. Top 5% Rib fat, 600D wt, Angus breeding & Heavy grass indexes. Top 10% 200D, 400D & Carcase wts, Scrotal size & Heavy grain index. Top 20% Calving ease Dtrs & shorter gestation length. An Ascot Hallmark son here & a very good one. Hallmark continues to make

his mark on the Angus world with last year siring the 2018 Australian top priced bull at the Millah Murrah sale (\$54,000), and in March 2019, the top priced bull at Banquet Angus (\$48,000). This bull has a very good set of carcass EBVs & indexes across the board that suggest he would suit the grass or grain fed market with very high growth, positive fats & high IMF. He has a slick hair type, extra length, tidy sheath setting, good size scrotal & is deep flanked. He is also very docile, balanced & exhibits great weight for age. Dam has 100% calving record. One of our favourites. Stud or top end commercial potential.

Top 2% Scrotal size. Top 5% 200D,400D,600D & Carcase wts, Retail beef yield. First of the Ascot Lion Heart sons in the sale. Lion Heart was sold in our 2016 sale to Ben Nevis & Trio Angus studs for \$70,000. He is breeding very well for them & us. This bull is a high growth deep sided bull exhibiting a slick coat, large scrotal & a tidy sheath setting, with good thickness & is deep sided. Dam has 100% calving record. Well worth considering.

Top 10% Rib & Rump fats, 200D wt & Milk. Top 15% 400D & 600D wts. Top 25% Nthn terminal index. The first bull to be sold in Australia by Rosedale Lump Sum - a bull we bought as their top-priced bull in 2016. He has added extra bone & muscling to his progeny. This bull is an upstanding bull that is very long, thick & wide topped. He has a beautiful skin type with strong sires head. A great bull here with good growth & positive fats Ebvs.

Top 5% Lower birth wt. Top 10% Rib & rump fats & Calving ease. Top 15% Domestic index & Shorter gestation length. Top 25% Eye muscle area & Milk. This is another very good Rosedale Lump Sum son. Super thick, deep & full of red meat & softness, with a huge hind quarter. He has a perfect head carriage & with a real sires head. To top it off he is exceptionally quiet & his EBVs suggest he should suit heifers or cows as a bonus. This bull could suit stud duties.

Top 1% Nthn terminal index. Top 2% 200D 400D 600D & Carcase wts. Top 5% Domestic & Export indexes. Top 10% Shorter gestation length. Top 15% Calving ease. Top 25% Rump fat. Scrotal size. Milk & Lighter birth wt. What a fantastic performance bull by Ascot Julius Caesar from who retained semen in & still love what he puts into his progeny. Heaviest bull in sale which backs up his Top 2% weight ebvs. This bull will suit any market being top in all age weight ebvs. On top of this is positive for fats & IMF, & is thick, long & clean coated. Nearly perfect set of performance data with docility & structure a bonus.

Top 1% 200D,400D & Carcase wts,Scrotal size & All Indexes.Top 2% 600D wt.Top 5% IMF.Top 10% Rump fat,Calving ease,Shorter gestation length & Lighter Birthweight.Top 15% Eye muscle area.Top 20% Milk. Look at the thickness, softness & weight for age of this young bull. Like most of our bulls he really lives up to his Carcass data EBVs. Low birth to top 1% all weights,big scrotal,high EMA, positive fats & high IMF. Really cant get much better than this. He is a tremendous industry bull with great thickness,deep flanked, broad backed, very soft & very docile. His EBVs suggest he SHOULD ALSO SUIT HEIFERS or cows as a bonus. He is an AI son by our top selling charolais bull in 2016, Liquid Gold who sold for \$28,000. One of the best bulls in the sale.

ANGUS HEIFERS LOT 58 - 98

- All heifers have been 3 germ blooded to suit tick areas & vaccinated for 3 day sickness, 7 in 1 & Pesti.
- All joined heifers have been independently structurally assessed by Jim Green.
- All heifers are being sold individually.
- All heifers are fully registered & Breedplan recorded. Registration will be transferred to new owners if requested at no charge.
- Photos & pedigrees of the reference sires & joining sires of heifers are in the front of the catalogue.
- All heifers are bred by leading AI sires including: Ascot Hallmark H147 (27 heifers by this bull averaged \$14,407 & topped at \$28,000 at the Millah Murrah female sale in 2017), \$150,000 Millah Murrah Kingdom, Millah Murrah Highlander G7, \$ 24,000 Clunie Range Juno, \$85,000 Millah Murrah Loch Up,\$70,000 Ascot Lion Heart, Clunie Range Kahlua
- The angus heifers are joined to: Clunie Range Juno (top priced bull at Clunie Range sale in 2015 for \$24,000), Millah Murrah Highlander G7, New sire the \$46,000 Millah Murrah Might & Power M176, Ascot Mogul M561 (Full ET brother to Ascot Hallmark H147) and the \$30,000 K5X Legend L16 sire. Joining & pregtest details are noted on each heifer in the catalogue. Final pregtests will be available about a week prior to sale for any not noted in catalogue.
- Guarantee: For any heifers within 12 months of sale that prove not unable to conceive we will refund the purchase price less salvage costs. (Evidence must be shown of non-breeding ability with vet certificate & disposal details)

CHAROLAIS HEIFERS LOT 99 - 134

- All heifers have been 3 germ blooded for tick areas & vaccinated for 3 day sickness, 7 in 1 & Pesti.
- All joined heifers have been independently structurally assessed by Jim Green.
- All heifers are being sold individually.
- All sale heifers are polled with 12 being DNA tested homozygous polled(noted in catalogue)
- All heifers are fully registered & Breedplan recorded. Registration if requested will be transferred to new owner at no charge.
- Photos & pedigrees of reference sires of heifers are at front of catalogue.
- Sires of heifers include: \$40,000 Palgrove Kudos, Paringa Kilo Packer, Ascot Goldrush (used by many studs around Australia), Ascot Galaxy , Ascot Eldorado (Sons have sold to \$30,000), Rosedale Lump Sum (Top priced bull at their sale that year), Ascot Julius Caesar J144.
- Charolais heifers have been joined to ALL HOMOZYGOUS POLLED BULLS (this means most of the progeny should be polled) : Ascot Goldrush, Ascot Galaxy, Paringa Kilo Packer, Paringa Linked In L410 (Top priced bull at Paringa sale in 2016 at \$25,000) or Paringa easy Gain M384. Joining & pretest details are noted on each heifer in the catalogue. Final pretests will be available about a week prior to sale for any not noted in catalogue.
- Guarantee: For any heifers within 12 month of sale that prove unable to conceive a we will refund the purchase price less salvage cost.(Evidence must be provided of non-breeding ability with vet certificate plus disposal details)

QUEENSLAND LIVESTOCK AGENTS ASSOCIATION LIMITED

STANDARD STUD STOCK - AUCTION TERMS AND CONDITIONS OF SALE

IMPORTANT NOTE: All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.

1. The highest bidder shall, subject to Conditions 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneer's absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.
 2. The sale will be conducted on a "Sale" or "No Sale" basis, whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.
 3. The details of the purchaser, the purchase price and the lot sold as recorded by the Sale Clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.
 4. The auctioneer expressly reserves the right, without giving any reason therefore to:-
 - (a) Refuse to acknowledge any bid;
 - (b) Withdraw any lot or lots before or during the sale;
 - (c) Exclude any person from the auction venue should it think fit.
 5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.
 6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these conditions as made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee, warranty or condition whatsoever was given or implied.
 7. In the event of any dispute in respect to the sale of any lot:-
 - (i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions;
 - (ii) The vendor and the purchaser shall resolve the dispute between themselves;
 - (iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and
 - (iv) No lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.
 8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.
 9. (a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidders' offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated and until property shall pass, the purchaser shall hold such lot as Bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-
 - (i) Rescind the contract on behalf of the vendor and repossess and resell any lot;
 - (ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the AMBA Bill Rate and two percentum. For the purposes of this condition, the expression "The AMBA Bill Rate" is the rate published by the Australian Merchant Banker's Association in good faith as at the date of the sale as its Bill Rate for 180 day Bills of Exchange expressed as a percentage per annum. If at any time the AMBA Bill Rate becomes unavailable for any reason, the auctioneer shall determine and advise the purchaser for the interest rate to apply for the purpose of this condition.
 - (b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.
 10. If the purchaser shall neglect or fail to comply with any of the within conditions any lot purchased by him may be immediately resold by Public Auction or Private Contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.
 11. Any vendor or purchaser removing the Sale Number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damages should the lot be wrongly delivered.
 12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions and shall jointly and severally carry out and perform sale.
 13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however that this condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.
 14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf, for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.
 15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.
 16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trades Practices Act or any applicable State legislation which cannot be contractually these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby executed. The auctioneer is not liable in respect of any error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.
 - (b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to remain with the vendor.
 17. In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser, and the auctioneer, while he shall use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions.
 18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.
 - (b) If any vendor brings to the premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right in its absolute discretion, to exclude from the sale venue or dispose of any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
 19. DELIVERY. Except at the discretion of the auctioneer, no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer, pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
 20. In these Conditions:-
 - (a) References to "auctioneer" shall be taken to mean as the contest so admits, the Selling Agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot.
 - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1.
 - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm.
 - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.
- IMPORTANT NOTICE The Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.
- All persons who attend the sale do so entirely at their risk and the Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

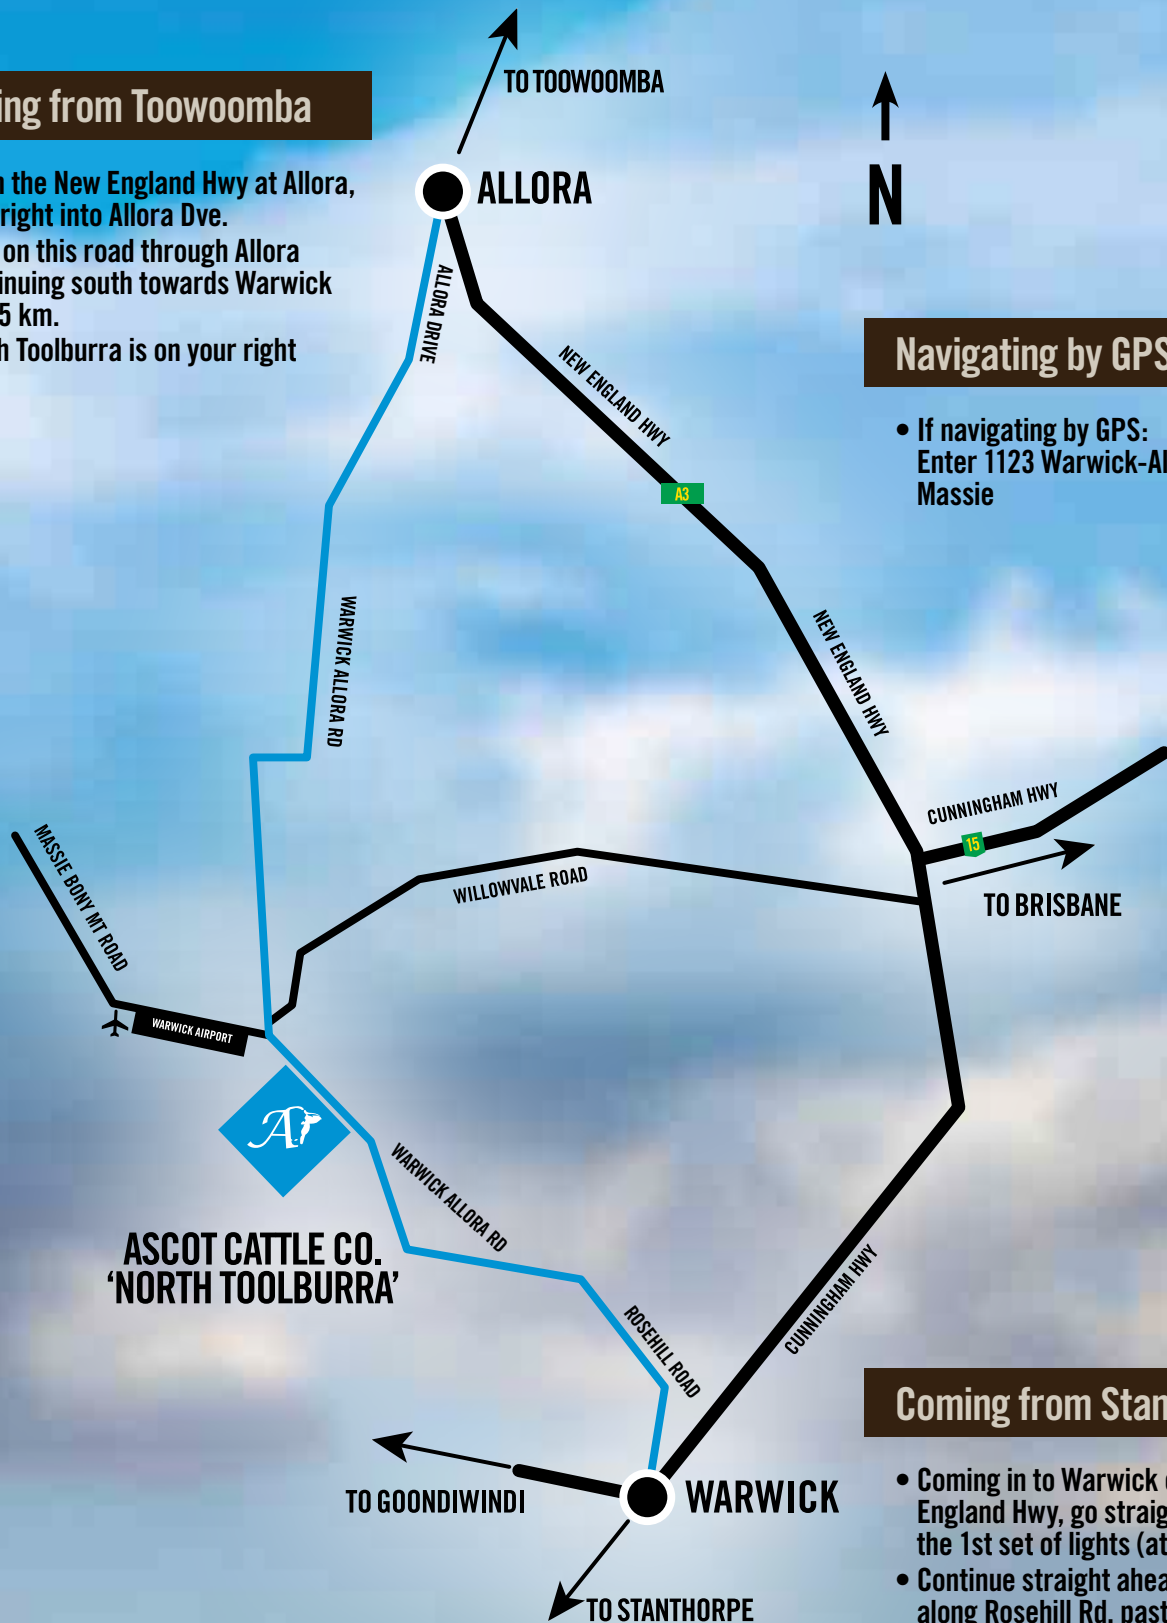

HOW TO GET THERE

ASCOT

Coming from Toowoomba

- From the New England Hwy at Allora, turn right into Allora Dve.
- Stay on this road through Allora continuing south towards Warwick for 15 km.
- North Toolburra is on your right

Navigating by GPS

- If navigating by GPS:
Enter 1123 Warwick-Allora Road,
Massie

Coming from Stanthorpe

- Coming in to Warwick on the New England Hwy, go straight ahead at the 1st set of lights (at Wood St.).
- Continue straight ahead along Rosehill Rd, past the Racecourse, and past John Dee Meatworks.
- Follow this back road to Allora for 9km past the meatworks.
- North Toolburra is on your left.
