Interbreed Champion 2015 Perth Royal Show

Supreme Suffolk Perth Royal Show 2008 - Pamellen 'Vulcan 20/07'

PAMELLEN

This has been a huge and emotional decision to disperse my Suffolk Stud.

People that know me, know how much I love the breed and the enjoyment I get from working with and selecting my animals.

I have decided it is now time to start striking things off our 'bucket list', pursue our hobbies and travel more.

As the old saying goes 'one sheep or a thousand, you have to be home to look after them, if you want to do the job well'.

So the time has come for me to let like - minded people fill my shoes and hopefully get as much enjoyment and reward out of the Suffolk breed as I have over the past 45 years.

Suellyn and I would like to thank our family, friends, clients and fellow sheep breeders that have helped, guide and support us during the journey.

Warmest regards

Pam and Suellyn

Brief History

My journey commenced in 1974 when my parents purchased 13 breeding ewes from Mr Arthur Pearce, 'Talawa Suffolk Stud' in Mount Barker, Western Australia.

Since then my Stud gradually grew and at its peak had approximately 230 breeding ewes.

Various rams were purchased from local and interstate Studs up until 1981 when the Stud purchased its first New Zealand sire and since then the majority of sires used have been from New Zealand genetics.

A 'Waterton' ram purchased in 1994 was our last live New Zealand ram imported into Western Australia due to quarantine restrictions and then semen has since been utilised.

Special mention to the 'Coleford Suffolk Stud' from New Zealand and the influence it has had on Pamellen.

The reason for New Zealand genetics was to introduce new bloodlines for clients, whilst maintaining the Pamellen type. This did impact performance figures as sires had no history in the lambplan system but that was never the driving force.

I started showing sheep at major shows in 1985 after a trip to Tasmania, when a dear friend and fellow Suffolk breeder encouraged me to go home and start showing.

The Stud has been fortunate in winning a number of awards, one that is memorable is the 1989 Supreme Champion All Breeds Sheep at the Perth Royal Show, as it was the first year a non-merino had won.

Competing in the show ring is a way to assess your breeding objectives against fellow breeders and other breeds. A lot of knowledge is gained from judges comments, listening to your peers, chatting in the lanes but always keeping the commercial industry needs in mind .

In 1996 Pamellen had a reduction sale as Suellyn and I purchased a poultry farm in the Perth Hills and in 1998 the Stud was moved from Gnowangerup up to Clackline.

The Studs focus has always been on conformation and balance.
