

# BOOROOMOOKA ANGUS

Established 1926

*Your Quality Choice*

*Calving Ease*

*Good Growth*

*Highly Fertile*

*High Marbling*

## 236 Bulls

Friday 16th August 2019

12 noon at Keera, Bingara, NSW

# History and Breeding Principles

The Booroomooka Angus Stud was founded in 1926 by Mr H Gordon Munro. The stud is now run by Gordon's son Hugh and grandson Sinclair. In 1926 five stud heifers were purchased from Mr NL Forster, Abington, Armidale. In 1928 further heifers were introduced from Glenelg, Waiterenui and Matapihi Studs in New Zealand.

Over the years many bulls have been imported from Scotland, USA and New Zealand. More recently semen and embryos are sourced globally to take advantage of progeny test data. Booroomooka Angus Stud was very successful in the show ring for over sixty years.

The Booroomooka Angus Cow herd functions in a tough environment. An efficient, hardy, fertile herd has been developed since 1926.

Nowadays selection tools include Group Breedplan,

visual assessment, testing on property, genomic technology and structured progeny tests. Cattle are run in larger contemporary groups so that genetic differences can be assessed.

*Structurally sound, fertile, quiet bulls with the genetic potential to increase long term profitability.*

## Welcome to the Booroomooka Annual Bull Sale

Dear Friends,

It has been a tumultuous year for us and nearly all our regular bull buyers. We have had unprecedented dry weather in so many areas. Many have had to make drastic reductions in female numbers. Buyer competition will be limited for the high quality line up of bulls we are to sell. If you are in a position to buy bulls this year, we strongly advise you to take action and secure some of our **236** high quality bulls that will be sold at value prices on **Friday 16th August**.

This year we celebrate 94 years of breeding registered Angus Cattle. Our family has a long term commitment to the improvement of the Angus Breed and our integrity is never compromised. The Booroomooka Cow Herd is unique, developed on our hilly native grass country. The cows are resilient - adapted to cope with lower quality native grasses and seasonal fluctuations. They are not delicately managed, they need to be productive with good doing ability. Our functional fertile cow herd is imperative to the success of our bull customers.

Again we have worked hard to give you a quality choice of predictable bulls, from our proven breeding programme. Our strong commitment to increase marbling and have good growth has helped increase the demand for Booroomooka Angus sired progeny. Years of performance recording and selection of cattle with high carcase quality is being rewarded.

The Booroomooka Bulls are adaptable and have been successfully used in different production systems (grain fed, grass fed and organic) in our local area Northern NSW to Central Qld, Southern NSW, Victoria, Alice Springs, Tasmania, King Island, South Australia to WA. The bulls are in condition "ready to work" for you, passing a veterinary bull breeding soundness examination and have been independently evaluated for structural soundness and temperament.

Looking forward to seeing you on Friday 16th August where you have a quality choice of 236 Bulls at Value Prices.

Please let us know if you have any questions about the bulls.

Kind Regards,

Hugh and Sinclair Munro

**Agent Rebate** A 3% rebate is offered by the vendor to agents introducing buyers in writing prior to the sale and settling within 7 days.

**YOU ARE INVITED:** To attend a relaxed informative morning with the sale bulls on display at 10am on Friday 9th August. You can inspect the Bulls and discuss your requirements. Morning Tea and Lunch provided.

**More information at our website**  
**[www.booroomooka.com.au](http://www.booroomooka.com.au)**

## SALE LOCATION:

The Booroomooka Angus Sale is to be held on the property Keera, 5796 Copeton Dam Rd, Bingara, NSW, 2404.

Nearest commercial airports are Armidale, Inverell, Moree or Tamworth. Small planes can land on our Keera Property Airstrip or at Bingara. Please ring us – to advise landing time so we can arrange for you to be picked up. Bulls may be inspected from 9am on the morning of the sale, or at any other time by arrangement with the selling agents or vendors.

GPS: Longitude 29°59'45.3", Latitude 150°46'43.7" Keera is 28km east/south east from Bingara on the Bundarra Rd (or Copeton Dam Rd)

**From Armidale:** Approx 11/2 hours north west, travel to Bundarra and then Bingara

**From Goondiwindi:** Approx 2 hours south, travel to North Star, Warialda, Bingara

**From Tamworth:** Approx 2 hours north, travel to Manilla, Barraba, then Bingara.

**From Inverell:** Approx 50 minutes, travel on Copeton Dam Rd, from Copeton Dam travel towards Bingara.

## ACCOMMODATION

Bingara Imperial Hotel Motel	(02) 6724 1629
Bingara Fossickers Way Motel	(02) 6724 1373
Bingara Sportsmans Hotel	(02) 6724 1880
Bingara The River House	0428 834 281
Bingara Peranjou Cottages	0427 715 726
Bingara Riverside Caravan Park	(02) 6724 0081
Warialda Sunflower Motel	(02) 6729 1344
Inverell Top of the Town Motel	(02) 67222622
Barraba The Playhouse Hotel	(02) 67821109

## MORNING TEA AND LUNCH

Westpac Helicopter Support Group from Bingara will have available. Morning Tea and a BBQ lunch. The Munro family have again donated the meat. Bathroom facilities are available near the homestead.

## BUYER REGISTRATION

A Buyer Registration system will apply. To save time on sale day the buyer or buyer's agent can pre-register. On sale day collect your Buyers Instruction Slip, Souvenir Bid ID and two luncheon vouchers. Alternatively buyers can register on sale day.

## SALE CONDITIONS

All lots will be sold subject to the usual conditions governing auction sales, these will be displayed on sale day. The auction price will be exclusive of GST.

## DISCLAIMER

All reasonable care has been taken to ensure that the information provided in this catalogue is correct. However the vendor or the selling agent do not assume any responsibility for the correctness, use or interpretation of the information included in this catalogue.

## GUARANTEE

Booroomooka guarantees the structural soundness and fertility of the bulls. The entry of every bull constitutes a guarantee by the vendor that if a bull should prove infertile or breaks down to reasons other than injury, misadventure, disease, mismanagement or negligence. The vendor will provide you with a satisfactory replacement if available, or issue you with a credit equal to the purchase price minus salvage value. This credit may be used to purchase an animal at a future Booroomooka sale. Any request for replacement/credit must be lodged with the vendor within 11 months of purchase.

## INSURANCE

Facilities for insurance will be available at the sale.

## HEALTH

The vendor has a BioCheck Biosecurity Plan, with a JBAS-8 Score. The plan was done in consultation with veterinary advice. The plan is designed to ensure the farm has considered the major biosecurity risks and has appropriate risk management strategies in place. The herd is monitored negative TB and is confirmed free of brucellosis. In July all lots were drenched and treated for lice. They have had their booster vaccination for vibriosis and 7 in 1. All bulls have been tested PI free of pestivirus.

## FEET

None of the cattle offered for sale have received treatment for their feet.

## VET INSPECTED

All bulls offered for sale have undertaken a Bull Breeding Soundness Examination by Barraba Veterinary Clinic. All bulls were subjected to a physical examination of structural soundness, examination of the reproductive tract, including an internal examination and visualization of the penis. Each bull was also subjected to a semen collection and evaluation.

## GENETIC TESTING

The genetic status of individual sale bulls is displayed in the catalogue. If you require more information go to [www.booroomooka.com.au](http://www.booroomooka.com.au) - Upcoming Bull sales, Information for bull buyers.

## LOOKING AFTER YOUR NEW BULL

After purchasing your bull, please ensure you fill out the buyers instruction sheet which includes delivery instructions. The sale bulls have been prepared so that they are ready to go to work with your cows. For the past three weeks they have been fed hay. Previous to that they have been fed a nutritionally balanced high fibre silage based mix. When you get your new bull home do not put him with older bulls. Booroomooka bulls are used to being handled with horse, vehicles and respond to quiet working dogs. When your new bull is joined to your cows, inspect him at least weekly to ensure he is walking freely and his penis appears to be normal. If there is a problem take him out of the cows and report to a vet. Early treatment is vital. It is a good idea to have spare bull/s ready to work if a problem/s occur. When joining is finished, the bull would appreciate a drench and lice treatment. The minimum vaccinations required are an annual booster dose of vibriosis and 7 in 1 vaccine, commencing no later than May next year. If you have any questions regarding the bulls, the progeny etc please let us know. If you require more information go to [www.booroomooka.com.au](http://www.booroomooka.com.au).

**SALE DAY PHONE (02) 6723 6622**

Our Sale Bulls include our very best. To ensure genetic continuity we will retain semen access (rights) for specific bulls - the "Booroomooka  bulls.

Lots showing this elite logo  will require that Booroomooka shall retain the right to collect up to 400 straws for Booroomooka use only. Booroomooka will collect semen by agreement and at its cost and Booroomooka will reimburse for any extra expenses associated with the semen collection for Booroomooka's use.

### **NLIS Tag/Freeze Branding**

All bulls will have NLIS ear tags attached and we will transfer to your nominated PIC. All bulls will be freeze branded with the bull ID.

### **Save time! - Pre Register**

Attendees who pre register before 5pm Wednesday 14th August will receive two free luncheon vouchers and souvenir bid ID. Pre Registration Forms are attached to this catalogue, are available on the Booroomooka Web site – [www.booroomooka.com.au](http://www.booroomooka.com.au) – or may be faxed to you by contacting the Selling Agents, Davidson Cameron and Co, Gunnedah on Ph 02 6742 1828 or Fax: 02 6742 4082.

### **Genetic Improvement Tool**

To make genetic change in traits we use Angus Group Breedplan as a valuable tool. Angus Group Breedplan EBVs have been proven to be more accurate than raw performance measurements for assisting in the selection of breeding stock. Raw data in some cases can be misleading due to environmental factors. Raw measurements should not be compared unless the cattle are in the same contemporary group.

Whilst in the calculation of EBVs all available pedigree, genomic and performance information on each animal and its relatives (parents, ancestors, siblings, progeny, etc.) is combined to provide a single best estimate of an individual's genetic merit for each trait. In addition, allowance is made for environmental differences between properties, seasons and management groups on each animal's performance. Differences in heritabilities between traits and genetic associations between traits are also accounted for in the calculation of EBVs.

## **236 Bulls to Sell!**

- 94 Years of Breeding a Resilient Cow Herd run under Commercial Conditions
- Honesty, Integrity never compromised
- Veterinary Bull Breeding Soundness Evaluation
- Independent Accredited Structural Assessment
- Vaccinated for Vibriosis, 7 in 1
- Tested PI Free
- Progeny Recognition in the market place
- Bulls Ready to work for You !

## **Elite Lots**

6, 10, 11, 12, 13, 14, 19, 20, 22, 23, 25, 30, 31, 39, 44, 58, 59, 64, 69, 71, 72, 76, 102, 103, 104, 111, 118, 119, 133, 136, 153, 164, 175, 177, 181, 182, 192, 195, 203

## UNDERSTANDING ANGUS BREEDPLAN EBVs

### What is Angus BREEDPLAN?

Angus BREEDPLAN is the genetic evaluation program adopted by Angus Australia for Angus and Angus influenced beef cattle. Angus BREEDPLAN uses Best Linear Unbiased Prediction (BLUP) technology to produce Estimated Breeding Values (EBVs) of recorded cattle for a range of important production traits (e.g. weight, carcase, fertility).

Angus BREEDPLAN includes pedigree, performance and genomic information from the Angus Australia and New Zealand Angus Association databases to evaluate the genetics of animals across Australia and New Zealand.

Angus BREEDPLAN analyses are conducted by the Agricultural Business Research Institute (ABRI), using software developed by the Animal Genetics and Breeding Unit (AGBU), a joint institute of NSW Agriculture and the University of New England. Ongoing BREEDPLAN research and development is supported by Meat and Livestock Australia.

### What is an EBV?

An animal's breeding value can be defined as its genetic merit for each trait. While it is not possible to determine an animal's true breeding value, it is possible to estimate it. These estimates of an animal's true breeding value are called EBVs (Estimated Breeding Values).

### Using EBVs to Compare the Genetics of Two Animals

Angus BREEDPLAN EBVs can be used to estimate the expected difference in the genetics of two animals, with the expected difference equating to half the difference in the EBVs of the animals, all other things being equal (e.g. they are joined to the same animal/s).

For example, a bull with a 200 Day Growth EBV of +60 would be expected to produce progeny that are, on average, 10 kg heavier at 200 days of age than a bull with a 200 Day Growth EBV of +40 kg (i.e. 20 kg difference between the sire's EBVs, then halved as the sire only contributes half the genetics).

Or similarly, a bull with an IMF EBV of +3.0 would be expected to produce progeny with on average, 1% more intramuscular fat in a 400 kg carcase than a bull with a IMF EBV of +1.0 (i.e. 2% difference between the sire's EBVs, then halved as the sire only contributes half the genetics).

### Using EBVs to Benchmark an Animal's Genetics with the Breed

EBVs can also be used to benchmark an animal's genetics relative to the genetics of other Angus or Angus infused animals in Australia and New Zealand.

To benchmark an animal's genetics relative to other Angus animals, an animal's EBV can be compared to:

- ◆ the breed average EBV
- ◆ the percentile table

The current breed average EBV and percentile table is provided in these explanatory notes.

### Considering Accuracy

An accuracy value is published in association with each EBV, which is usually displayed as a percentage value immediately below the EBV.

The accuracy value provides an indication of the reliability of the EBV in estimating the animal's genetics (or true breeding value), and is an indication of the amount of information that has been used in the calculation of the EBV.

EBVs with accuracy values below 50% should be considered as preliminary or of low accuracy, 50- 74% as of medium accuracy, 75-90% of medium to high accuracy, and 90% or greater as high accuracy.

### Description of Angus BREEDPLAN EBVs

EBVs are calculated for a range of traits within Angus BREEDPLAN, covering calving ease, growth, fertility, maternal performance, carcase merit, feed efficiency and structural soundness. A description of each EBV included in this sale catalogue is provided on the following pages.

## BIRTH

<b>Calving Ease Direct</b>	(%)	Genetic differences in the ability of a sire's calves to be born unassisted from 2 year old heifers.	Higher EBVs indicate fewer calving difficulties in 2 year old heifers.
<b>Calving Ease Daughters</b>	(%)	Genetic differences in the ability of a sire's daughters to calve unassisted at 2 years of age.	Higher EBVs indicate fewer calving difficulties in 2 year old heifers.
<b>Gestation Length</b>	days	Genetic differences between animals in the length of time from the date of conception to the birth of the calf.	Lower EBVs indicate shorter gestation length.
<b>Birth Weight</b>	kg	Genetic differences between animals in calf weight at birth.	Lower EBVs indicate lighter birth weight.

## GROWTH

<b>200 Day Growth</b>	kg	Genetic differences between animals in live weight at 200 days of age due to genetics for growth.	Higher EBVs indicate heavier live weight.
<b>400 Day Weight</b>	kg	Genetic differences between animals in live weight at 400 days of age.	Higher EBVs indicate heavier live weight.
<b>600 Day Weight</b>	kg	Genetic differences between animals in live weight at 600 days of age.	Higher EBVs indicate heavier live weight.
<b>Mature Cow Weight</b>	kg	Genetic differences between animals in live weight of cows at 5 years of age.	Higher EBVs indicate heavier mature weight.
<b>Milk</b>	kg	Genetic differences between animals in live weight at 200 days of age due to the maternal contribution of its dam.	Higher EBVs indicate heavier live weight.

## FERTILITY

<b>Days to Calving</b>	kg	Genetic differences between animals in the time from the start of the joining period (i.e. when the female is introduced to a bull) until subsequent calving.	Lower EBVs indicate shorter time to calving.
<b>Scrotal Size</b>	cm	Genetic differences between animals in scrotal circumference at 400 days of age.	Higher EBVs indicate larger scrotal circumference.

## CARCASE

<b>Carcase Weight</b>	kg	Genetic differences between animals in hot standard carcass weight at 750 days of age.	Higher EBVs indicate heavier carcass weight.
<b>Eye Muscle Area</b>	cm <sup>2</sup>	Genetic differences between animals in eye muscle area at the 12/13th rib site in a 400 kg carcass.	Higher EBVs indicate larger eye muscle area.
<b>Rib Fat</b>	mm	Genetic differences between animals in fat depth at the 12/13th rib site in a 400 kg carcass.	Higher EBVs indicate more fat.
<b>Rump Fat</b>	mm	Genetic differences between animals in fat depth at the P8 rump site in a 400 kg carcass.	Higher EBVs indicate more fat.
<b>Retail Beef Yield</b>	%	Genetic differences between animals in boned out saleable meat from a 400 kg carcass.	Higher EBVs indicate higher yield.
<b>Intramuscular Fat</b>	%	Genetic differences between animals in intramuscular fat (marbling) at the 12/13th rib site in a 400 kg carcass.	Higher EBVs indicate more intramuscular fat.

## FEED EFFICIENCY

<b>Net Feed Intake (Post Weaning)</b>	kg/day	Genetic differences between animals in feed intake at a standard weight and rate of weight gain when animals are in a growing phase.	Lower EBVs indicate more feed efficiency.
<b>Net Feed Intake (Feedlot)</b>	kg/day	Genetic differences between animals in feed intake at a standard weight and rate of weight gain when animals are in a feedlot finishing phase.	Lower EBVs indicate more feed efficiency.

## TEMPERAMENT

<b>Dociility</b>	%	Genetic differences between animals in temperament.	Higher EBVs indicate better temperament.
------------------	---	---	--

## STRUCTURE

<b>Front Feet Angle</b>	%	Genetic differences between animals in desirable front feet angle (strength of pastern, depth of heel).	Higher EBVs indicate more desirable structure.
<b>Front Feet Claw Set</b>	%	Genetic differences between animals in desirable front feet claw set structure (shape and evenness of claw).	Higher EBVs indicate more desirable structure.
<b>Rear Feet Angle</b>	%	Genetic differences between animals in desirable rear feet angle (strength of pastern, depth of heel).	Higher EBVs indicate more desirable structure.
<b>Rear Leg Hind View</b>	%	Genetic differences between animals in desirable rear leg structure when viewed from behind.	Higher EBVs indicate more desirable structure.
<b>Rear Leg Side View</b>	%	Genetic differences between animals in desirable rear leg structure when viewed from the side.	Higher EBVs indicate more desirable structure.

## SELECTION INDEXES

<b>Angus Breeding Index</b>	\$	Genetic differences between animals in net profitability per cow joined in a typical commercial self replacing herd using Angus bulls. This selection index is not specific to a particular production system or market end-point, but identifies animals that will improve overall profitability in the majority of commercial grass and grain finishing beef production systems.	Higher selection index values indicate greater profitability.
<b>Domestic Index</b>	\$	Genetic differences between animals in net profitability per cow joined in a commercial self replacing herd targeting the domestic supermarket trade.	Higher selection index values indicate greater profitability.
<b>Heavy Grain Index</b>	\$	Genetic differences between animals in net profitability per cow joined in a commercial self replacing herd targeting pasture grown steers with a 200 day feedlot finishing period for the grain fed high quality, highly marbled markets.	Higher selection index values indicate greater profitability.
<b>Heavy Grass Index</b>	\$	Genetic differences between animals in net profitability per cow joined in a commercial self replacing herd targeting pasture finished steers.	Higher selection index values indicate greater profitability.

Purchaser..... \$.....

The Booroomooka Sale Bulls have been independently structurally assessed to maximise the quality of stock on offer. Any animals deemed inadequate have been removed from the sale draft. The Booroomooka bulls were assessed by Liam Cardile (Accredited Assessor 1033) of BEEFXCEL on 18/6/19.

The beef class structural assessment system uses a 1-9 scoring system for feet and leg structure. A score of 5 is ideal - but rare in two year old bulls.

A score of 4 or 6 shows slight variation from ideal.

An animal scoring 4 or 6 would be acceptable in any breeding program.

A score of 3 or 7 shows greater variation but would be acceptable in most programs.

A score of 2 or 8 are low scoring animals and should be looked at closely before purchasing.

A score of 1 or 9 should not be catalogued and are considered culls.

## CODES FOR STRUCTURAL ASSESSMENT

FC: Front Feet Claw Set

RC: Hind Feet Claw Set

FA: Front Feet Angle

RA: Rear Feet Angle

RS: Rear Legs (Side View)

RH: Rear Legs (Hind View)

LM: Muscle Score

TEMP: Temperament (note: scores 1 to 5, lower the score - more favourable)

SN: Sheath/Navel (note: scores 1 to 5, higher the score - more favourable)

## DISCLAIMER AND PRIVACY INFORMATION

### IMPORTANT NOTICES FOR PURCHASERS

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder nor owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, neither the vendor, Angus Australia or the selling agents assume any responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

#### Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name are as follows:

PV: both parents have been verified by DNA

SV: the sire has been verified by DNA

DV: the dam has been verified by DNA

#: DNA verification has not yet been conducted

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

#### Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

#### **BUYERS OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO ANGUS AUSTRALIA**

*If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.*

# 236 QUALITY BULLS AT VALUE PRICES

## High Quality Sons of Industry Leading Sires

### **Matauri Reality – 20 sons**

Easy doing calving ease sire with high marbling and large scrotal size. A New Zealand sire that adds finishing ability, good feet and is highly proven top 1% for calving ease, scrotal size and top 8% for marbling.

### **Esslemont Lotto L3 – 15 sons**

Exciting new sire with high muscle and top 1% marbling, with very good doing ability. Top 3% for both growth and fertility. Top 1% for Carcase weight, \$ABI and \$HGI. Bulls display heaps of thickness, shape and are packed with muscle.

### **Te Mania Emperor – 21 sons**

A highly proven all round sire with nice length, depth, good weight for age, calving ease and high marbling. Proven to produce cattle that perform. Daughters are highly fertile, with positive fat with good feet and legs.

### **Booroomooka Kingy K9 – 18 sons**

Exciting sire with superb phenotype and slick coat. Impeccable structure, combining growth, frame, length and doing ability. Proven in the Benchmark Progeny test to be a trait leader for marbling (top 1%), Days to Calving (top 1%) and \$ making traits being Top 1% for \$HGI. Maternal line is from the famous Tracy family – so it is no surprise that Kingy's progeny are so great.

### **EF Complement – 35 sons**

An absolute legend. Superior calving ease, growth and big EMA, positive fats and good marbling. Producing lovely functional daughters that have exceptional udder quality. Progeny exhibit heaps of muscle with strong tops, depth and capacity.

### **Ayrvale Bartel E7 – 14 sons**

Proven to be an outstanding sire that combines calving ease with good growth. Standout sire in the Angus Sire Benchmark Programme – producing valuable carcasses. His daughters are highly fertile with good milking ability – Top 1% for Days to Calving. Progeny have slick coats and nice muscle pattern. Top 1% for all Selection Indexes.

### **GAR Prophet - 25 sons**

An absolute legend. Superior calving ease, growth and One of the highest proven marbling sires in the USA and ranks in the top 1% for marbling in Australia. Bends the growth curve, being below breed average for birth weight and in the top 1% for 400day Weight. High EMA with positive fat. Progeny are quiet with slick coats. Top 1% of the breed for front foot angle.
