Welcome

Welcome to the 2019 Choice Angus 3rd Annual On-Property Yearling Bull Sale

It's been another challenging year in NSW and anyone who has held onto their cows will be rewarded when the season does eventually break as cattle prices are holding up well and there is still optimism out there.

The yearling bulls are coming along well. They were weaned onto DDG pellets back in February and are now running in an oats crop with supplementary barley hay. They are showing great bone, depth and softness and have great structure and temperament, attributes which are very important to the Choice Angus program. Some of the sires that were selected this year have been used for their maternal traits with a smaller frame, good feet and udders and a lot of thickness and muscle which will leave you with some nice replacement females.

There are 11 Spickler Chisum 255 sons on offer this year. This bull has been said to be the most eye appealing bull they have seen in America and demand is strong for his semen, which was snapped up immediately when offered. This bull was used for his maternal strengths and low birth weight, all his progeny were born with low birthweights and will be ideal for heifer joinings. LD Capitalist 316 has 4 sons in this year's sale, breeders are drawn to him for his impressive thickness and muscle pattern. He is a smaller framed, early maturing bull with a low birthweight, also suitable for joining with heifers.

We purchased Ascot Kings Ransom K306 in 2016 from Ascot to bring frame and thickness with very good carcass traits into our herd and have been rewarded. He is proving to breed outstanding weight for age, his 400 day is now +110 and his IMF is now +1.8. He has some outstanding sons in this year's lineup.

Kansas Aberdeen F84 is a trait leader for growth with very sound feet and legs and has good eye muscle and enough marbling to get feeder steers to good marbling scores. His calves are very consistent and would be very beneficial to any commercial operation.

On behalf of the Choice Angus team we would like to thank you for supporting us at this year's sale and wish you the best of success with your purchases. Please stay after the sale for a catch up and a cold beverage.

Kind Regards

Tim Brazier and the Choice Angus Team

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder nor owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, neither the vendor, Angus Australia or the selling agents assume any responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Farmer focused.
Future driven.

Bathurst

Rural Bank was founded to support rural Australians and we're proud to be 100% Australian operated.

We're here for our farmers, their families and everyone who makes our rural communities grow and thrive.

We re-invest the money you deposit with us back into rural Australia to help farm businesses grow, now and into the future.

Sale Information

Location

Choice Angus Stud is located at 128 Norah Creek Rd, Molong, NSW.

Inspection

Inspection from 10.30am on sale day.

Catering

Lunch and refreshments will be provided by Choice Angus on sale day.

Insurance

It is strongly recommended that insurance is taken out on all purchases. Representatives will be available on sale day.

Health

All sale bulls have been vaccinated with 2 doses of Pestigard, Vibrovax and 7 in 1 and drenched with Cydectin Pour On prior to sale. All sale bulls have been vet inspected for structure and breeding soundness by Dr Hennie Strydom, Wellington Vet Hospital.

Guarantee

Choice Angus guarantees the structural soundness and fertility of their sale bulls. Choice Angus will provide a suitable replacement if available or a credit to the purchase value less salvage value if a bull is proven to be infertile or unable to serve naturally unless due to injury, illness or negligence for a period of six months from the sale date and must be accompanied by a vet certificate.

Delivery

Choice Angus will provide free delivery within 250km radius of Molong. Please inform us on your Buyers Instruction slip.

AuctionsPlus

The Choice Angus Sale is interfaced with Auctions Plus as an alternative bidding option to registered users if you can't attend the sale in person. Please register at least 24hrs before the sale.

Health & Safety of our Visitors (Rules and Advice)

All sale bulls have been screened for temperament and under normal circumstances are quiet to handle, however if an animal is stressed they can be unpredictable.

- Visitors enter pens at their own risk
- Children must not enter the pens
- Do not overcrowd the pens
- Be aware of your surroundings and keep noise and movement to a minimum

Disclaimer

All people entering this property for any purpose including the sale do so at their own risk. Choice Angus assumes no liability, legal or otherwise for any personal injury or death which may occur or for theft, loss or damage to property.

All reasonable care has been taken in compiling this catalogue however no responsibility is accepted for any errors that have occurred.

Yearling Bull Information

Using Yearling Bulls for Real Benefits

Nature intended bulls to work at 12-14 months of age as this is when they become sexually mature and are still light and agile enough to learn their new trade without a high risk of injuring themselves.

Bulls who are first put out as two year olds are at higher risk of injury as they are heavier when they are learning the trade.

Management

Yearling bulls are much easier to manage both in and out of the cows as they are out working when their testosterone kicks in and not in a mob of other bulls learning to fight and bully out of sexual frustration.

Joining Heifers

Just because he is a yearling bull does not make him a heifer bull. As with any bull, his effect on calving ease is determined

by genetics for birthweight and shape. However, suitable heifer bulls used as yearlings will mean less injuries in heifers as well. Due to their lighter weight they can be used over heifers for more years as you will have them for longer before they reach their mature weight.

Guidelines for using Yearling Bulls

- Don't put yearling bulls out with older and bigger bulls in their first year as the bigger bulls will injure the yearling bulls while they are serving.
- Only join to a maximum of 35 females in the first year.
- Only join for a maximum of 6 weeks in the first year.
- Ensure the bulls are up to date with parasite control and vaccinations.
