**W**e can't seem to catch break with the continued tough conditions, particularly for our friends further west. We are collectively looking to the skies for relief.

Our team has worked together to present an even group of bulls with growth and shape. Our young bulls in particular are some of the best we have offered.

The pressure of poor seasons has resulted in the need to carefully evaluate both our stud and commercial herds to ensure we invest in sound and proven cow families.

To enhance our current stud we have introduced quality, high performing cow family genetics. Families include Dream, Rosebud, Abagail, Mildred and Barra from Premier Angus.

This current group of sale bulls include the genetics of SAV Resource, Musgrave Mediator, Premier Guardian and our own Gilmandyke Jackpot. Our young bulls include new sires Nampara Liberty L21 and MAR Innovation.

To kick off the sale we have 50 well grown quality PTIC heifers. Sold in pens of 5, these heifers are Aled to Musgrave Mediator and backed up with our own Gilmandyke Reserve L532.

We could list all the reasons how these bulls will benefit your breeding program and add to your bottom line, but we would rather you come and see for yourself. The bulls will be available for inspection from 9.30 on the day of the sale or contact Jack to arrange a time prior to sale day.

GTSM are the auctioneers for the sale and pre-registration is available online. This year we are also engaging AuctionsPlus to facilitate livestreaming and online bidding for those who can't make it on the day.

Our Sale information can be found on our website including a recent video of the group. If you have any questions or queries please contact Jack Newham.

***We look forward to catching up at the sale.***
