

The **87 lots** offered for sale by **Auctions Plus on Fri 30 Aug** include heifers, PTIC cows, cow and calf, bulls, semen and embryos. The quality of the offering is reflected in the number of **top 5% animals on offer**. 36 of these 87 lots have one or more AWA Breedplan EBV or Index in the top 5% of the breed (2017 born). These are distributed across the categories:

Heifers	12
PTIC Cows	4
Bulls	8
Semen	4
Embryos	8

The quality of the offering is also reflected in the breakdown of the dominant sires in the 87 lots. There are 33 generation 1 sires represented in the 87 lots. These 33 dominant sires are tabulated below and grouped as:

- Progeny proven sires - widely used, Breedplan recorded, with Breedplan carcass marble score EBV accuracy > 90%
- Young sires – no Breedplan carcass records, limited number of Breedplan recorded herds, limited Breedplan accuracy
- Intermediate Sires – increased number of Breedplan carcass records, increased Breedplan carcass marble score EBV accuracy
