BONNYDALE'S PROVEN, POWERFUL & PREDICTABLE GENETICS

Mike Introvigne, - Bonnydale Black Simmentals, WA. Willie Altenburg - Altenburg Simmentals, USA. Rob Introvigne - Bonnydale Black Simmentals, WA.

Julie and Diane Introvigne, - Bonnydale Black Simmentals, WA.

Tyson Introvigne Bonnydale Black Simmentals.

Bonnydale Black Simmental's is proud to put forward an increased offering of 74 outstanding Black Simmental and Simangus sires on February 4th 2019. The sale will be held at Bonnydale's new selling complex on 118 DeZotti Rd, Bridgetown and will be clearly sign posted on the day (please see map inside catalogue). The new facility features ten large pens, each holding seven to eight bulls, primarily aimed at allowing prospective buyers to thoroughly inspect the bulls on offer. As usual a major selection focus has been sound temperament which will facilitate safe and relaxed inspection. The increased offering is a result of the strong demand for Bonnydale genetics and our desire to ensure every intending purchaser has the opportunity to secure a Bonnydale sire.

While enduring a tough season, by WA standards, it was most rewarding to see how our cow herd performed under such circumstances. These females provided the bulls with a solid start and once weaned have continued to develop and will be sure to impress on sale day. Utilising balanced breeding

values with carefully designed mating plans has provided a group of sires with a combination of ideal phenotype and breed leading performance. The selection pressure has been greater than previous years as the registered cow herd grows. The 74 sale bulls have been through a stringent selection process to ensure successful purchasers secure a sire that is guaranteed to perform and backed by Bonnydale's renowned after sales service program.

As is standard practice at Bonnydale, all bulls are guaranteed for fertility, structural soundness and temperament.

They are also ear notch tested and vaccinated to comply with the Zoetis Star program. All bulls are vaccinated with 7in1, Pestiguard, Longrange (Botulism) and Vibrovac. Those destined for Queensland will also be vaccinated for 3 Day Sickness and Tick Fever (where required) free of charge.

Each bull is performance recorded with the American Simmental Assoc. (ASA)

utilising Genomic Enhanced EPD's and is DNA parent verified. Several bulls in the catalogue, which are by homebred sires, show "Not Verified To Sire", we have been assured that they will be verified by sale time as there has been a delay in testing of these sires.

Bonnydale's primary registry with Simmental Australia provides Breedplan EBV's for those wishing to utilise this system. The move to utilise ASA's performance register is a decision based on the significant value offered by the massive International Genetic Solutions (IGS) database and ASA's utilisation of Genomics to evaluate performance data. IGS is a collaboration of twelve breed associations and has over 17 million animals on its database with 400,000 new animals added annually. This powerful multi breed evaluation offers unprecedented benchmarked performance data on every animal in the system. Bonnydale has made a significant investment by collecting and submitting DNA on each and every animal in the herd. This considerable undertaking is aimed at delivering

unprecedented Genomic Enhanced performance data which improves the accuracy and predictability of data presented on each bull offered for sale. In turn this delivers superior genetic gain in the commercial herds these sires are put to work in.

Bonnydale is the only Simmental herd in Australia known to be offering bulls with DNA verified pedigrees and Genomic Enhanced performance data in 2019. This improves accuracy and predictability of pedigree and performance evaluation which provides prospective buyers with enhanced genetic selection parameters to add to the visual assessment of each sire.

Sires represented in the catalogue include; RCR Augustus, Bonnydale Augustus L84, Bonnydale Cruiser, LRS Unlimited, HSF High Roller, BBS True Justice, Gibbs Element, Bonnydale Missouri, Bonnydale Montana, Bonnydale Jim Beam, WLE Last Call, Bonnydale SA Tank and Bonnydale SA Elevator. The offering includes 21 SimAngus sires and 9 specially

selected sires suitable for mating heifers.

With a very even line-up of bulls there are always some exceptional sires on offer with the following three selections not only being outstanding individuals but also the heaviest bulls at weaning.

A true stud sire prospect is lot 2, Bonnydale Lincoln P99 by Bonnydale Augustus L84 and out of Bonnydale Josie K208 which provides his pedigree with the maternal power of USA donor GLS S82 Josie on both sides. He is the image of his sire, phenotypically outstanding and strides out commanding attention. With performance to match having a birth weight of 36kg and thirteen of eighteen EPD traits in the top 30 percent. He will add tremendous value to any discerning cattleman's herd.

Lot 3 Bonnydale High Roller P70 is the result of an imported embryo by HSF High Roller 12T and out of ASR Fine Art A3205, one of Willie Altenburg's elite females. He is a power sire with exceptional body capacity and

muscle and commands attention. He has thirteen of eighteen EPD traits in the top 30 percent. A moderate birth weight with top end growth and carcass figures combined with excellent structure he is sure to turn heads.

Leading the SimAngus team is lot 5 Bonnydale SA Tank P356 displaying all the power of his sire, the proven performer, Bonnydale SA Tank K299. His dam, Bonnydale SA Kate F305 is by renowned sire HC Hummer 12M with an exceptional Ardrosson Angus maternal background. He has exceptional growth EPD's with a top five percent REA and top one percent docility EPD.

All bulls sold at auction come with free delivery Australia wide. Inspection of the sale team is welcome any time prior to sale day.

On sale day bulls will be penned for inspection from 10.30am, complimentary refreshments and lunch served from 12 noon with the sale commencing at 1.00pm WST.

Improve your pastures with Super Phos and Super Phos Extra.

Super phos is vital for your pasture's performance and your grazing profitability. Our fertiliser range including the new Super Phos Extra which contains trace elements in every granule, is manufactured locally and ideal for WA pastures.

To discuss your fertiliser requirements contact your local CSBP area manager today.

BONNYDALE BLACK SIMMENTALS - THE DEPENDABLE BRAND

Integrity

1. Every animal is registered with Simmental Australia and the American Simmental Association.
2. Records taken for Calving Ease, Birth Weight, Weaning Weight, Yearling Weight, Docility, EMA, Fat, IMF& Mature Cow Weight.
3. All sale bulls Zoetis Star Accredited.
4. All sale bulls semen tested and breeding soundness examined by an accredited vet.
5. No sale credits utilised ensuring every prospective purchaser is on a level bidding field.
6. All bulls covered by our comprehensive guarantee and after sales service program.

Innovation

1. The first Western Australian seedstock operation to offer yearling bulls to benefit the industry. All bulls sold as yearlings.
2. Offering free delivery Australia wide.
3. Utilisation of additional science to back every animal bred at Bonnydale (American Simmental Association's massive data base).
4. Utilising a partnership with Altenburg Simmental Ranch, Fort Collins, Colorado, USA to provide industry leading genetics.
5. Utilising Genomic testing to enhance performance data - all bulls offered with Genomic Enhanced EPDs.
6. Every stud female DNA tested with ASA's CHR program to improve cow herd genetic predictability.

Investment

1. Imported embryos from Altenburg Simmental Ranch with leading USA genetics utilised on an ongoing basis.
2. Purchase of semen rights to new proven sires.
3. All stud females registered with Simmental Australia and the American Simmental Association.
4. Regular visits to the USA to identify new genetics that will enhance our client's commercial operations.
5. Continued investment in animal recording technology and linked livestock weighing systems.

ROAST BEEF LUNCHEON AND REFRESHMENTS PROVIDED

- All bulls semen tested by Landmark Breeding Services
- All bulls to be ultra sound carcass scanned on 22nd January 2019
- All bulls guaranteed for temperament, structural soundness and fertility
 - All bulls Zoetis Star accredited and tested negative for BVDV
 - All bulls vaccinated with, 7in1, Pestiguard, Vibrovax, Longrange (Botulism).
- Bulls destined for Queensland will also be vaccinated free of charge for 3 Day Sickness and Tick Fever where required.

AGENTS REBATE

A 3% rebate will be paid to any Outside Agent who introduces new clients to the stud in writing to both the Vendor and their Agent 24hrs prior to the sale. The Agent must accompany and assist their client on the sale day.

FREE DELIVERY AUSTRALIA WIDE

The vendors will provide free delivery, to all mainland states, for bulls purchased at auction. The vendors will deliver bulls as soon as possible after the sale.

INSURANCE DISCLAIMER - Insurance risk of stud animals sold at auction transfers to the purchaser at the fall of the hammer including animals remaining on the vendor's property. Purchasers therefore are advised to insure their animals at the completion of the sale. Stud Animals are not covered by commercial livestock insurance at any point.

CSBP are proud sponsors of the Bonnydale Bull Sale.

CSBP would like to wish the Introvigne Family and prospective buyers all the best for this years sale.

For more sponsorship information please contact your local CSBP area manager.

YEARLING BULLS

Why Use Yearling Bulls

To ensure you achieve the best from your yearling bull they have been specially selected and specially prepared for service this season. With a little extra care, post mating season, your yearling will grow into the sire you expect and provides the opportunity to access his genetics a year earlier. In the long term the decision you have made to secure a yearling sire will enable you to achieve a higher return on your bull investment dollar.

Using Yearling Bulls

The yearling bulls have been specially prepared for use this season. We recommend that they be used on no more than 30 to 35 cows in the first year. At Bonnydale we have been using yearling bulls for many years with excellent results. Reports from clients who have purchased yearlings in previous years confirm our recommendations. By giving your yearling bull some special attention you have the opportunity of maximising the use of your sire for his full productive lifetime

Carcase Scanning

All yearling bulls will be carcass scanned and weighed prior to sale day. This information and updated performance data will be available on our website prior to sale or you can request it be emailed to you. To comply with performance recording systems bulls must be a minimum 300 days of age at time of scanning. All bulls will also have scrotal size measured and undergo a veterinary health check and semen test prior to sale.

Bonnydale Black Simmentals continues its policy of not utilising sale credits, therefore prospective buyers at Bonnydale's 23rd Annual On-Property Bull Sale can bid with confidence and can rest assured that no one bidding at the sale has a credit inducement providing them with an unfair bidding advantage.

Can't make the sale?

Register in just seven easy steps and log onto AuctionsPlus to bid from anywhere on your phone, tablet or desktop.

- 1 REGISTER ONLINE**

Updated Genomic Enhanced EPD's and DNA Coat Colour results will be posted on the website prior to sale day. Supplementary sheets will also be available on sale day

AMERICAN SIMMENTAL ASSOCIATION

QUICK REFERENCE TO ASA EPDS AND \$ INDEXES

Expected Progeny Differences (EPDs):

EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing what units they are expressed in. For example, if the above case referred to weaning weight EPDs, A would be expected to sire 15-pounds more weaning weight than B. If calving ease were the trait, A would be expected to sire 15-percent more unassisted births in first-calf heifers; in other words, if B sired 30 assists in a group of 100 heifers, we'd expect A to require 15 assists.

A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www.simmental.org.

Listed below are the units ASA EPDs are expressed in:

All-Purpose Index (API): Dollars per cow exposed under an all-purpose-sire scenario. (See below for more details.)

Back Fat (BF): Inches of backfat.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Carcass Weight (CW): Pounds of carcass weight.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning weight due to milk.

Marbling (MRB): Marbling score.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of ribeye.

Warner-Bratzler Shear Force (WBSF): Pounds of force required to shear a steak.

Stayability (STAY): Percent of daughters remaining in the cowherd at 6 years of age.

Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario. (See below for more details.)

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of yearling weight.

Yield Grade (YG): Yield grade score, the lower the better.

\$ Indexes: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on your bottom line. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

All-Purpose Index (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (TI): Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using API and TI: First, determine which index to use; if you're keeping replacements use API, if not, TI.

Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr. = \$6,000).

A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www.simmental.org.

The genetic trends displayed right have a direct impact on the Bonnydale herd because we have chosen to exclusively utilize superior USA Black Simmental genetics.

PASCOES ACCOUNTING & ADVISORY

INTEGRITY - INNOVATION - SERVICE

Pascoes Accounting & Advisory is your locally based accounting firm with a variety of industry experience with a specialisation in Agribusiness. Our dedicated team of accountants and staff can assist you not only in your accounts and taxation preparation but in all aspects of your business with business advisory services, succession planning and access to industry relevant government subsidies and benefits.

When it comes to your income taxes we've got your total tax position covered, we'll integrate optimal tax strategies into a dynamic business plan. While your next tax return is firmly in our sights, we're focused on long term hassle free compliance. As well as making this happen, we identify tax opportunities that support your big picture goals for profitability and growth.

If you are looking for an accounting firm to give you grounded, practical, up to the minute advice on tax and business matters in your business please contact any of our offices.

INTRODUCING THE ALL-NEW KUBOTA IMPLEMENTS RANGE

The Kubota Implement range includes a large variety of machinery which specialises in Spreading, Cultivation and Seeding Equipment. Kubota Spreaders offer the best spreading pattern for even distribution. A variety of spouts for different applications including dairy farms, vineyards, general agriculture and golf courses makes it possible to spread fertilizer, seeds, sand, salt, pellets or any other granular product. The Cultivation equipment range includes speed discs, power harrows, ploughs and mulchers. With weather conditions differing considerably from year to year and also various crop rotations make it difficult to have just one implement to meet all requirements. This is why Kubota offers a wide range and accessories in order to provide the right implement for all various conditions. The Kubota Implement series are well known across the world because of its working quality, reliability and its great versatility. For more information, contact the Sales team at Bunbury Machinery on (08) 9792 3923

POWERFUL PERFORMANCE. ANYTIME. ANYWHERE.

The MF7600 tractor series from Massey Ferguson has been specifically designed to meet the needs of farming professionals to contracting businesses. With a wide choice of transmissions, cab specifications, hydraulics and PTO options. Massey Ferguson has nine models in the MF7600 Series ranging from 140 - 255 hp and was the first agricultural tractor manufacturer to use the successful SCR emissions technology. This provides the customer with a very low maintenance system, as well as providing exceptional fuel efficiency.

Purchaser: Price:

WESTERN AUSTRALIA'S LEADING FEEDLOT SUPPLIER.

A better mix means better herd health, lower operating cost and increased production/gains. A Supreme vertical mixer is powerful, accurate and provides the best TMR mix on the market. Unlike other mixers, a Supreme is built to last and keep providing exceptionally accurate mixes through it's entire life.

Why is a Supreme the WORLD'S BEST TMR?

- Supreme uses AR200 steel for the tub walls and auger flighting, which increase the life over normal carbon steel.
 - Supreme offers a 12GA stainless steel top pan on all conveyors as standard equipment.
- Due to high quality of workmanship all parts fit perfectly, are chemical washed, primed and painted with high gloss, UV resistant paint, designed specifically for Supreme.
- Supreme's mixing tubs have been carefully designed for easier loading, better mixing and longer life. Supreme mixer tubs have been designed with a sloped walls so feed will slide easily from the top to the floor.

For more information on the Supreme & Segue Mixer range contact the Sales team at Bunbury Machinery.

Leptospirosis
can put you
flat on your back
for months.

Most beef producers know leptospirosis can damage the performance of their herd, but many forget it can also make people extremely ill as well. If you pick up lepto when handling cattle, you could be out of action for months with severe flu-like symptoms that often develop into an ongoing chronic fatigue like illness. Who would look after your property if that happened? Protect your herd, your family, employees and yourself. Vaccinate your cattle with Ultravac® 7in1.*

Protecting much more than cattle.

*See product leaflet for details of administration and product claims. For more information talk to your Zoetis Cattle Product Specialist on 1800 814 883. © 2013 Zoetis Inc. All rights reserved. **WINNER OF THE POWER FARMING
 TELEHANDLER OF THE YEAR!**

JCB LOADALLS: THE WORLD'S MOST FAVOURITE TELEHANDLER.

Telescopic handlers are now one of the world's favourite agricultural vehicles, and no wonder; these machines are packed with remarkable versatility and performance into a compact, efficient machine. JCB has been pioneering the Telehandler concept since 1977, since then they have remained the world's first choice and now offer over 30 different models from compact models for accessing restricted sites to 4.1-tonne payload, 17m lift height machines with a vast choice of attachments.

Bunbury Machinery are your local south west JCB dealer for sales, service and spare parts.
 For more information contact the sales team on (08) 9792 3923

With a wealth of cattle experience, Elders has the team to get the job done

We have a team of experienced auctioneers aided by livestock staff and agents backed by an extensive branch network to work with clients to improve both their stud and commercial profitability.

The cattle industry has always been an integral part of the Elders business and with 175 years behind it, Elders really is the livestock expert.
