Davelle 6th Annual Sale

8th Feb 2019 11:00am (SA time)

Supplementary Sheet

Pregnancy Testing

Lots 19 and 22 have been pregnancy tested not in calf and have been withdrawn.

All other late winter/spring calving females have been pregnancy tested in calf.

We have used the Idexx Blood Pregnancy testing service through NHD, it provides 98% accuracy. We can provide a copy of the results.

Regards
