WELCOME TO WEERAN ANGUS

Dear Cattle Breeders,

Welcome to the 2019 Autumn Bull Sale! We are not sitting on our hands at Weeran Angus! Extensive ET and the introduction of some standout Herdbook Registered Females from Coolana, Witherswood, Wattletop and Anvil Angus Studs add genetic diversity and cutting edge genes to our future product. At Weeran, we are all totally pumped about the progress of our program and cannot wait to showcase them. Dispersal sales are a rare occurrence, and all four of these herds have spent decades developing their programs. Weeran were thrilled to attend all four dispersal sales, and cherry pick the cattle with the most potential in our opinion. A marvellous opportunity for us to fast track and develop our elite Stud Herdbook Program. These females have already been flushed and eggs transferred.

We will be offering the second year of star studded Millah Murrah bred embryo's alongside a number of excellent embryo progeny we have flushed from our own elite females. We are thrilled to be able to offer these industry leading genetics to both

Stud and Commercial breeders. We have an excellent run of sons by Ardcairnie F96, Wattletop Franklin G188, homebred sires Weeran Joel and Weeran Hooper, along with some of our first Millah Murrah Kingdom, Millah Murrah Docklands and Millah Murrah Klooney sons.

We are very excited with this year's sale bulls displaying exceptional type, deep bodied, heavily muscled, structurally correct cattle with excellent temperament. This year sees the introduction of Ardcairnie F96 and Franklin G188. Weeran Hooper and Weeran Joel's sons are performance specialists with some of the best calving ease, growth and carcass paperwork we have ever produced. F96, G188 and Joel are well performed graduates of the Angus Society Benchmarking Trial.

We are looking forward to welcoming you to the Beef Week Field Day and Bull Sale. We will have updated photos on AuctionsPlus, Facebook and Instagram. If you would like additional information, please give us a call.

Kind regards

Alec & Jo Moore and the Weeran Team!

DELIVERY

Weeran will organise delivery of your purchases free of charge up to 150kms. Over and above this by negotiation.

Can't make the sale?

Log on to AuctionsPlus and bid on your phone, tablet or computer.

IBMS GTS GRADING

IBMS GENETIC TYPE SUMMARY (GTS)

All Weeran bulls have been assessed on the GTS Type/Structure system. All the bulls in the catalogue are considered acceptable for soundness and muscling. The GTS system has been broken up into two distinctive trait groups.

DESCRIPTIVE TRAITS

Stature - Evaluation of bulls for frame size. A maturity pattern 25 is an average frame bull. This may be influenced by age of dam, particularly first calf heifers.

Capacity - Bull evaluation combines depth of fore rib along with spring of rib and width of chest floor, as well as depth of flank. Scores greater than 25 indicate larger capacity.

Body Length - Evaluation of body length from withers to pins. Scores greater than 25 indicate longer body length. Muscle - Scores higher than 25 indicate above average muscle.

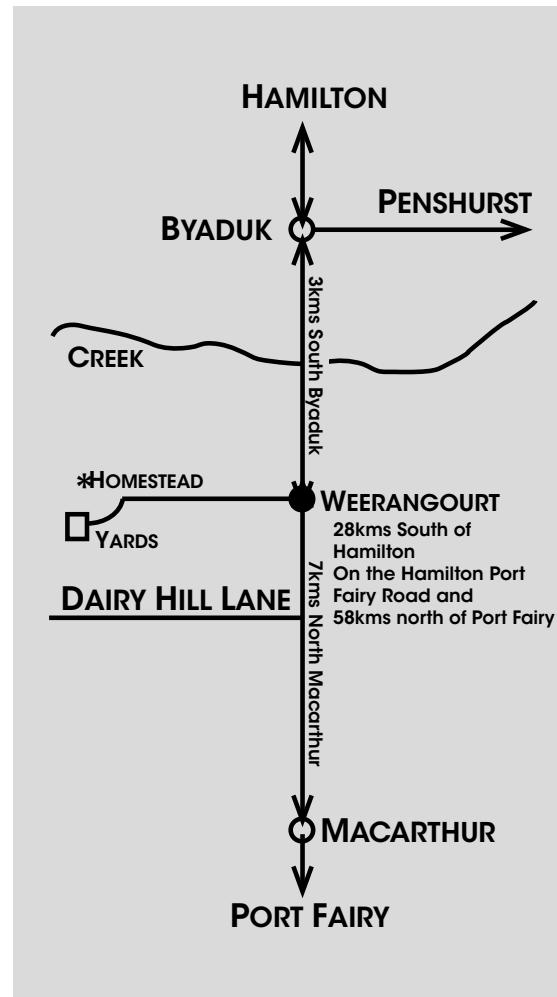

Doing Ability - Ability to lay fat relative to their peers under common management system.

STRUCTURAL SOUNDNESS TRAITS

The system is aimed at being as simple as possible. All structural traits (front and rear feet, rear leg angle and pastern scores) are presented in the same format. A score of 25 is the optimum. Scores of 23/24 and 26/27 represent a slight variation from ideal.

These animals would be acceptable in most breeding programs. Scores of 21/22 and 28/29 have a larger variation from ideal, but would be acceptable in most commercial herds, but seedstock producers should assess these animals carefully. Scores of 20 or 30 are low scoring and should be carefully evaluated prior to purchasing.

Bulls scoring outside these scores should be considered culs and not catalogued for sale. Structure scoring is only given to give potential purchasers a guide, it is not a guarantee of the lifetime structure soundness of an animal. Many thanks to Dick Whale for assessing all sale bulls. WEERAN GUARANTEES!

Hooper, dare I say it, is a fantastic son of TeMania Africa! Unprecedented birth to final, outstanding milk in the top 1% for the breed, extraordinary scrotal also in the top 1%, along with a Heavy Grass Index in the top 3%. This bull is as thick as a brick, and sound as a bell and is the best Africa son I have ever seen. His temperament is perfect & he is breeding very well. He has 234 progeny on the ground.

A graduate of the Angus Society Benchmarking Trial Cohort 3, F96 displays unparalleled calving ease and birthweight numbers with an exceptional growth curve. His EMA is in the top 19% of the breed and with his lean carcase delivers a retail beef yield in the top 4% of the breed. He has been used in 22 herds across the country and has 340 progeny analysed.

G188 was sold as a 2 year old at the annual Wattletop bull sale. Purchased by Rogers Livestock (Lock jnr and Liz Rogers). G188 continued to be used annually in the Wattletop AI and ET mating's and his daughters were becoming future power-houses of the Wattletop female herd. His stature as a true influential sire was realised at Stage 1 of the Wattletop female dispersal when his progeny sold to a sale high of \$38,000 and averaged \$14,187. A terrific result in a strong sale where all 259 females sold to average \$8,494. To highlight the quality of his pedigree, G188's mother sold to an equal top sale high of \$38,000 and his 10 year old grand-dam sold for \$16,000. He has 746 progeny across 47 herds. Lock describes him as a 'sleep at night' calving ease sire. Entered in the Angus Society's Benchmarking program, and gained a reputation as a complete all round bull.

Weeran Joel is the full package for performance which has been validated with his outstanding results in the Angus Society benchmarking trial, Cohort 6. With a group of 41 sires registered, Joel is in the leading pack of all traits recorded. He is number one in the cohort for Carcase Weight, 4th for 600 day weight, 6th for 200 day weight and 8th for EMA. He is a very complete performance package. Every time we download his figures, they just keep improving! A very exciting home bred sire! A standout calf from the start which we retained for stud use. The combination of calving ease, low birth, large scrotal & carcase quality has made him a very easy bull to use. He adds value to every mating you use him on! He has 354 progeny across 10 herds.

Millah Murrah Kingdom K35 is the \$150,000 Australian record priced Angus bull purchased by a syndicate including Witherswood Angus, Gilmandyke Angus, Ascot Angus and ABS Australia. Breeders who have used Kingdom appreciate the excellent impact he is having on the structure and style of his offspring. His daughters are receiving great praise for their capacity and structure, ease of calving, excellent udders and the job they are doing on their calves. Wherever they have been offered, with their sire's "paper shortcomings" moderated, Kingdom's sons sell at or near the top of the offering, said Ross Thompson. At the 2018 Millah Murrah sale, a Kingdom son broke the oldest record in the breed, when M192 sold for \$34,000 to break the \$27,000 mark set for an APR bull in 1991.

Gary and Julie Buller of Monterey Angus, Karridale, Western Australia, became the first WA Angus stud to purchase Millah Murrah genetics. The Buller's have been following the Millah Murrah program for many years, in particular the female herd, and jumped at the opportunity to purchase bulls from some of Millah Murrah's "leading cow families that breed bulls with great phenotype". The Buller's purchased the second-highest priced bull Millah Murrah Docklands J193 for \$17,000 in 2014. The 690 kilogram yearling sire Docklands J193, by Carabar Docklands D62 and out of Millah Murrah Brenda F123, was described by the Bullers as a "special bull with no holes in his structure complimented by sensational figures". J193 is a maternal brother to Ascot Hallmark. Information collected from Millah Murrah website.

Buyer Price \$

A Weeran homebred herdbook registered embryo out of Weeran Pride E68. A larger framed and very powerful donor cow. Easy to see she breeds this way influencing plenty of power into her progeny. Adding in the likes of Wattletop Kiwi and Carabar Docklands couples to the sheer power of E68 to produce this spectacular looking, high growth Kiwi son.

A very well put together Joel J13 son with paperwork to set your clock to. Calving ease in the top echelon with growth to match it, coupled with awesome carcass traits, making Weeran Nova a very attractive package. Out of a Future Direction grand daughter with Weeran Boomerang and B/R Ambush on the grand dams side showing plenty of maternal backing in this pedigree. Used here in the 2018 Spring back up program.

A combination of the two best bulls to come out of the Weeran stable.... Weeran Joel J13 and Weeran Hooper H20. Both these bulls rank in the top 1 or 2% for all indexes, whilst Weeran Napier ranks in the top 2% for ABI and Grass Index and top 4% for Domestic and Grain indexs. A real power house performer on paper. A superb heifer bull option out of a first calf heifer L80. Used here in the 2018 Spring back up program.

A 7 grading standout for type and temperament from day dot. As a calf, he was always the slowest in the mob whilst mustering, with not a care in the world, always with his head to the ground, sniffing out any bit of feed he could. From then, we were excited to see where he would end up and he did not disappoint. From an outstanding Regent son bred from Te Mania New Zealand, Te Mania 11 465, adding excellent carcass traits to the already well proven, Coolana Annabell family in K013 who we purchased at their 2017 Disperal sale. Used here in the 2018 Spring back up program. Herdbook registered.

The first of the 2019 Millah Murrah Herdbook registered embryos on offer here for sale. A 7 grading, absolute athlete with a phenotype similar to, if not better than, our record high priced \$30,000 Hallmark son of last year. A temperament to dream of makes him a real Stud Sire potential. Here, he's backed by cow making legends in 24J and 469 through his dam, with the tried and tested Rado family line at Millah Murrah in Rado F211, who sold for \$10,000 to Beldon Angus at Millah Murrah's 2017 Female Sale. Add in Hallmark and Emperor, a truly exciting pedigree to add to your replacement females. His full flush brother was the lead off sale bull at the record breaking 2018 Millah Murrah Angus bull sale where he sold for \$12,000. Used here in the 2018 Spring back up program.

Used here in both the Autumn and Spring Joinings of 2018 for his far superior calving ease traits. Going back to one of our Matriach dams, Weeran Lucy Z345, out of her outstanding daughter, Weeran Lucy J6, who has continued to do wonderful things here in the donor pen with 19 registered progeny. This smaller framed, deep sided Black Pearl Herdbook registered son is a real sleep easy at night bull. Whilst he doesn't pack the final growth of some of his peers, if it's calving ease you're after he's your bull. His full flush brother was the top priced yearling and 2nd top priced bull at our 2018 Spring sale for \$7,500.

The last of the used bulls here at Weeran on offer today. The Kingdom x Reality mix really has worked a treat here with Reality's smaller frame, and Kingdom's awesome power; combining to make a special bull. Throw into the mix his dead dog quiet docility makes him an easy bull to work with, and one sure to grab your attention. His full flush sister sold for \$10,000 to Mandayen Angus, whilst his dam, K27, sold for \$12,000 to Eaglerock Angus and is the maternal sister to the \$28,000 Millah Murrah Lincoln L119. Herdbook registered.

Another cookie cutter stamped Hallmark son. Awesome power and phenotype, with an atheletiic Stud Sire potential like the previous Hallmark son at Lot 4. Very similar style and fashion to lot 4, both descending from the Rado family line at Millah Murrah. His full flush brother sells at Lot 19. They are very impressive young guns! Herdbook registered.

A naturally conceived Weeran King of Hearts K41 son. K41 was used as a yearling in the Weeran spring program in 2015 to back up our AI program. He has been a standout bull from the get go. This son is a big deep sided bull with plenty of capacity and body length. Franklin on the maternal side gives him calving ease and good maternal traits.

One of two Millah Murrah Docklands J193 x Prue K79 Herdbook embryos on offer today, with his full flush brother selling at Lot 19. Millah Murrah J193 was the \$17,000 high selling yearling to Monterey Angus at the Millah Murrah Angus bull sale in 2014. From the same dam as Hallmark, he has grown into a massive volume sire, siring ultra-sleek coated, beautifully laid shouldered, soft fleshing cattle. These two are like two peas in a pod and provide great confidence with maternal backing of Millah Murrah Prue K79, who sold to Coolie Angus for \$20,000 at Millah Murrahs 2017 Female sale, whilst her first calf sold for \$16,000 at the 2017 Millah Murrah bull sale.
