# WELCOME

## Welcome to Barana Simmentals 19th Annual On-Farm Bull Sale

**Stud principal, Peter Cook has worked hard for almost 40 years breeding Simmentals that reinforce Barana's long held reputation with both commercial & stud cattle producers. We have sold bulls nationwide and secured a solid client base over many decades. We are a 'hands on' family business. We live & work on our farm so we understand the hardships & challenges our clients face because we are exposed to those same challenges. We extend our sincere thanks to our valued clients for their continued & solid support.**

On offer at our 2019 sale will be 36 bulls, predominantly polled, 10 specially selected registered unjoined stud heifers & 7 unjoined, good quality, purebred unregistered polled heifers. Of this year's Barana sale draft, the majority are soft, early maturing, middle-of-the-road type bulls. This style of bull will introduce cattle into your herd that will eat less, have the ability to finish with a higher yield & put more dollars in your pocket. Use purebred Simmental or crossbreed to gain the advantages of hybrid vigour for added performance, weight gain, carcass, fertility, softness & longevity. Our sale draft includes 3 Angus bulls & 2 Shorthorn bulls. The females to be offered exhibit the superior maternal traits for which traditional Simmentals are renowned. With drought upon us again our Simmental herd is holding condition - another trait we've noted over the years. The many attributes of the Simmental breed are gaining recognition in recent times particularly after their triumph at BEEF 2018. It is rewarding to see Barana pedigrees in many successful stud programmes and Barana genetics breeding on for our clients. The benefits of Barana breeding are evident.

Throughout the drought this year's sale bulls have been supplemented on a ration of straw, hay, Molafos & a light grain mix plus protein lick blocks. Bulls will present in good, strong condition on sale day. Barana bulls are not overdone on feed as we value longevity in the bulls we breed & no foot trimming has been performed on any of the cattle presented.

As in past sales, objective data will be available for each bull & all inspections & guarantees will be provided. All bulls must pass stringent veterinary tests for breeding & soundness. These bulls will be semen tested, Breedplan recorded and scanned for EMA, FAT & IMF. Barana maintains a Level 7 J-BAS [Johnes Beef Assurance Score] status.

Each Zoetis STAR certified bull in this catalogue has been tested to show that they are not a BVDV Persistently Infected (PI) animal. All sale bulls have

been vaccinated against BVDV with Pestigard®, against Leptospirosis with Ultravac® 7in1 and Vibriosis with Vibrovax®. All sale bulls have been given 2 vaccinations of each product to ensure they have full immunity which is valid for 12 months. This is your assurance that we have taken all available steps to protect our animals against introducing disease into your herd and to ensure their continued performance. We recommend that you continue with annual vaccination to help protect the health of your herd and maximise the productivity of your business. All sale bulls have also been vaccinated against 3 day sickness & tick fever [3 germ blood] to suit our Queensland clients.

Free cartage will be offered to bull buyers within a 300 km radius of Barana and for interstate bull buyers, free cartage along the major route from Coolah to Goondiwindi & from Coolah to Wodonga. Queensland bull buyers will also be offered free cartage to Roma. Conditions apply. Please contact Peter Cook to enquire.

Please note that free cartage does not apply to the female lots.

The sale is interfaced with AuctionsPlus & will be conducted live online in real time.

The catalogue will be available for preview on our website [www.baranasimmentals.com](http://www.baranasimmentals.com). You can also follow us on Facebook, Twitter & Instagram or subscribe to our Newsletter via our website.

Barana Simmentals offer quality, guarantees, reputation, performance & results. We look forward to seeing you on sale day.

## STUD HISTORY

**Barana Simmentals was founded by Stud Principal, Peter Cook in 1980 on traditional European and New Zealand bloodlines. Peter began showing at major Royal Shows in 1986, securing many Champion awards and earning a name for breeding good, sound, functional cattle. He ceased showing cattle in 2001 after 15 years exhibiting & achieving success at all major shows. Peter has worked hard for almost 40 years through good & bad seasons to secure Barana's long held reputation with both commercial & stud cattle producers around Australia.**

Barana is one of the largest Simmental breeders in the eastern states with the stud herd including 200 registered & commercial breeders. Great importance is placed on breeding for ease of calving, milk production & fertility and females must be able to rear a calf under natural conditions. Barana has endeavoured to breed bulls that produce steers that are quick growing with good carcass characteristics and the ability to finish. We have enjoyed success in the Australian National Field Days Grass-fed Steer and the RAS NSW Feedlot JapOx Competitions & the Scone Beef Bonanza where we secured the Champion Purebred Carcass with a total point score of 90.867.

Barana bulls get results with clients reporting Simmental Cross Vealers straight off their mothers consistently dressing out at 58% & outdoing other breeds in weight for age. Barana clients have succeeded in gaining a rare Championship/Reserve double in the heavyweight division steer carcass judging at Brisbane Royal with a Simmental Cross Steer sire by a Barana bull. Our clients have topped the annual Bindaree Beef Weaner Sale with a pen of Simmental Cross Steers & won best pen of Euro or Euro Cross Steers in the competition section. Barana clients have topped the Casino Weaner & Grower Sale with 10-11 month old Simmental Cross Weaner Steers consecutively and secured top pen of Euro bred steers at the sale. Our bull buyers report that the introduction of Simmental bulls in their herd has significantly lifted weights in the weaner steers they turn off.

Peter purchased Karewa Jester, a polled son of German sire Eizenherz from New Zealand in 2000. This bull bred well in Barana's polling programme. German genetics were utilised with Zimbo and Gowrie Yankee [P] producing excellent progeny. In 2007 we purchased Bullock Hills Buster [P] and Corinda Downs Buckshot [AI] [ET] [P] – both by South African bred bulls.

At Beef 09 in Rockhampton, eight of the broad ribbon winners were sired by Barana bulls and the top priced bull at the 2010 Woonallee Simmental sale in South Australia was sired by Barana Yearleigh.

At the Queensland Royal in 2011 Barana secured Senior & Grand Champion Bull & Reserve Champion Female. At the Upper Hunter Beef Bonanza in Scone in November 2011 Barana took out the Champion Purebred Carcass with a total point score of 90.867. Our success continued at the Dubbo Beef Spectacular in March 2012 where we won Senior & Grand Champion Female, Res Senior Champion Female, Junior Champion Female, Senior Champion Bull & Most Successful Exhibitor of all Breeds.

Callendale Jasper [P] and Woonallee Jumbo, homozygous polled, were purchased in 2015 & have produced low birthweight, easy calving, early maturing offspring. We purchased Woonallee Looking Glass in 2017.

*"Barana genetics have been ongoing proven performers for us & our clients over many decades earning champion awards in both the show ring & carcass competitions."*

It is rewarding to see Barana pedigrees in many successful stud breeding programmes and Barana genetics breeding on for our clients. The benefits of reliable Barana breeding are evident.

We acknowledge our friend John Horne's place in our stud history. He was a great promoter of our cattle & offered genuine support to our family & to our stud cattle operation.

The Barana Sale is the premier sale in NSW for consistent quality & value for money. We hope to continue with the pleasing results achieved in the past at our 19th Annual On-Farm Sale.

## SALE INFORMATION

### **Location**

Barana is located 14 km north of Coolah, NSW, on the Black Stump Way. Refer to map on inside back cover.

### **GPS Coordinates**

Latitude -31.713504 Longitude 149.723482

### **Air Services**

The nearest regional airports are located at Dubbo & Tamworth approximately 1 ½ hours' drive from Barana.

### **Inspection**

Bulls can be inspected from 9am on the day of the sale. Inspections prior to the sale can be arranged through Peter Cook on 0427 775 233 or the selling agents.

### **Rebate**

Selling agents are Elders and Davidson Cameron & Co with 2% rebate to outside agents introducing their clients in writing by fax or email at least 24 hours prior to the sale and settling within 7 days. The agent must attend the sale with the client or on the client's behalf. The rebate will not be paid outside these conditions.

### **Phone Bidding**

Please contact the selling agents 24 hours prior to the sale to arrange phone bidding. Barana has very good Telstra mobile phone reception.

### **No Verbal Instructions**

Please complete a buyer's instruction sheet available on sale day from the agents ensuring your phone number is provided. To assist us with delivery of your bull please draw up a map of your property or delivery point indicating nearest roads, towns or prominent landmarks and include your contact phone number.

### **AuctionsPlus**

The sale is interfaced with AuctionsPlus & will be conducted live online in real time. For those not able to attend the sale, new users must register 24 hours prior to the sale in order to bid. Please see page 7 of this catalogue for further details.

### **GST**

All lots are sold GST exclusive i.e. if the bull is knocked down for \$5,000 you will be charged \$5,500.

### **Insurance**

There is no vendor insurance on sale bulls. It is the responsibility of the buyers to insure their purchases.

**PLEASE BRING THIS CATALOGUE TO THE SALE**

# SALE INFORMATION

## Transport

**NEW SOUTH WALES BULL BUYERS** will be offered free cartage within a 300 km radius of Barana.

**INTERSTATE BULL BUYERS** will be offered free cartage along the major route from Coolah to Goondiwindi and from Coolah to Wodonga.

**QUEENSLAND BULL BUYERS** will also be offered free cartage to Roma. Conditions Apply. Please contact Peter Cook to enquire.

Please note that free cartage does not apply to the female lots.

All care will be taken but no responsibility will be accepted for lots waiting for delivery or during delivery. Formal possession, risk & expense passes to the buyer at the fall of the hammer.

### Disclaimer

Barana Pastoral, the selling agents, officers, agents & employees, while exercising due care, provide all information without responsibility and do not warrant its accuracy. They also accept no responsibility or liability for accidents that occur on or about the venue. Any person attending the Barana Simmental Sale venue does so at their own risk.

**CONDITIONS FOR SALE BY AUCTION IN NEW SOUTH WALES WILL APPLY**

# VETERINARY NOTES

## General Health

- All cattle are TB & Brucellosis free. All bulls in this catalogue have been tested to show they are not a BVDV Persistently Infected [PI] animal. All sale bulls have been vaccinated against BVDV with Pestigard, against Leptospirosis with Ultravac 7in1 and Vibriosis with Vibrovax. All sale bulls have been given two vaccinations of each product to ensure they have full immunity which is valid for 12 months. The sale bulls have also been vaccinated against 3 day sickness & tick fever [3 germ blood].
- Barana maintains a Level 7 J-BAS [Johnes Beef Assurance Score] status.

## The Barana Sale Bull Breeding Soundness Evaluation

The sale bulls have been subjected to a number of strict assessments by our Vet to ensure they will be physically and reproductively sound.

## Structural Soundness Examination

All animals have been closely examined paying particular attention to the following; feet, legs, back, jaws, teeth & walking ability. They have been deemed to be within normal parameters.

## Semen Examination including Morphology

Just prior to the sale all bulls have been electro-ejaculated. At this time, the testes have been palpated and measured. The external genitalia are thoroughly examined and a gross and microscopic assessment of the semen is made including morphology. This suite of tests is very comprehensive. We have carried out these assessments to ensure that the bull performs satisfactorily.

## Carcase Information

Scan measurements and daily weight gain figures will be available on sale day.
