# **WELCOME**

We would like to thank all who have supported us in our previous sales we value your patronage and would like to welcome you to our 3rd On Property Bull Sale which consists of 24 rising 2-year-old bulls and 16 long yearling bulls (16-17mths)

All in our industry have felt the worry and stress of the dry over the past year or so, in some places it has been the worst they have ever seen it. We all hope that the break comes soon.

This years draft of bulls due to the conditions have meet a stringent culling process. Cattle that are easy doing definitely come to the top in tough times. We have concentrated over the years on purchasing easy doing cattle and this is reflected in our herd today.

We have 2 Millah Murrah sires in Katich and Laker with 3 and 7 bulls respectively in the catalogue. The Katich sons at last years sale averaged a \$1000 above the sale average as well as topping the sale. While these are the first of the Laker sons to sell we are also extremely happy with his female progeny. He will add muscle and doing ability.

The SAV Resource and SAV Renown (full brothers) sons are extremely thick, just like their dads.

The Plattemere Weigh Up sons are very consistent again this year and will add growth.

There is only one LD Capitalist son and he is a very impressive bull.

## **OUR NAME**

Our stud name Heart Angus comes from the brand of the upside down heart over the dumbbell that was handed down through the family from Chris' Great Grandmother Alice May Paterson from the property 'The Glen' at Dyers Crossing.

## **BREEDING GOALS**

Simply, our aim is to produce productive cattle to suit all markets.

With our focus being on breeding easy doing, fertile animals which are deep bodied and well muscled. We are continually seeking to look at new genetics to improve our herd with Chris taking biennial trips to USA to view suitable genetics to improve consistency across our herd.

# **Millah Murrah Nectar N334**

With genuine genetic diversity, a pedigree beyond compare, a balanced and versatile data set, virtually perfect structure and a phenotype to die for, Nectar is the Hector son the breed has been looking for.

- With near perfect structure, Nectar achieved straight 5's for feet and leg structure, C+ muscle score, fat score 3, capacity score of 5 and 4 for sheath and navel.
  - Nectar carries one of the more extraordinary pedigrees in the breed based on the performance of his relatives. His dam is the only cow in the breed with three sons to sell for \$40,000 or more. His aunt (dam's full sister), is the record priced mature cow of the Angus breed, selling for \$54,000 to East West Angus last year. His grand dam, Prue C48 had sons and daughters aside from H112 & H113 that sold for \$15,000 or more on several occasions.
