SALE INFORMATION

About Palgrove

The Palgrove stud is based in Warwick Qld, with our female herd also located at Ben Lomond and Inverell, NSW. Bull depots are also located at Emerald and Miles.

For over fifty years, we've adapted our Charolais genetics by committing to research, education, new technologies and a common sense 'cattleman's eye' to suit clients' environmental and management conditions. Palgrove now has the largest registered Charolais herd in Australia.

Our bulls are grown out on pasture with moderate sale preparation. We believe a bull's career begins on sale day, so our sale bulls are presented to you ready to work.

Auctionsplus

Auctionsplus is an alternate bidding option. Only available to registered users. Please register online at least 24hrs prior to the sale.

Breeding Soundness

All bulls offered for sale have passed a semen test by Veterinarian, Ced Wise. The Vet will examine all bulls for structural and breeding soundness to Australian Veterinary Standards and will issue a Soundness Evaluation Certificate.

Supplementary Sheet

The bulls have scan data supplied by certified scanning technician, David Reid for Eye Muscle Area, Rump & Rib Fat,

Marbling (IMF%) and will also have sale Weight and Scrotal Size measurements.

Guarantee

All bulls sold by Palgrove are guaranteed breeders. Any claim against the breeding ability of an animal purchased should be made in writing and accompanied by a Veterinary certificate within six months of the date of sale.

If a bull fails to breed, it may either be replaced with an animal of comparable value or credit to the full purchase price will be given at any of Palgrove's auction sales or by private treaty.

Health

Palgrove is an accredited TB and Brucellosis free herd and all Palgrove properties are recognised as Johnes Disease Protected (J-BAS 7), so stock are free to move anywhere in Australia (except WA) Palgrove is a Pesti-free herd.

All sale bulls have vaccinated twice with 7-in- 1, 3 Day Sickness vaccine & bled for Tick Fever.

Delivery

We take personal interest in the efficient delivery of all bulls after sale. The agents oversee all deliveries of sale bulls. We will assist in the delivery of bulls where possible in the Hunter Valley or on route to the Qld border via Tamworth or Gloucester.

The Markets

In our comments on most sale lots we've made some suggestions as to the most suitable market options for the progeny by the bulls. Some will fit a broad range. Several factors influence the outcome of breeding - such as the breed makeup of your cows; seasonal conditions during the growth stage; country and management. In making these market suggestions, we consider a number of factors:

- Pedigree and EBVs
- Maturity type and growth pattern
- Physical attributes like doing ability

We've had the advantage of watching these bulls grow from birth and know their pedigrees like the back of our hand. As buyers you only get a couple of hours to make an assessment, so we encourage you to use our knowledge to help you select the right bull for your operation. Call us - we're here to help you get the best out of your Palgrove bulls!

HERD SIRES

The sires below represent a selection of the genetics that have produced the bulls for this year's Hunter Valley Bull Sale.

We aim for consistency in our breeding program, but we recognise that our genetics must be adaptable and flexible enough to move with changing market specifications.

Our herd sires provide this flexibility and ensure that the bulls we offer for sale will produce progeny for a range of target markets. They'll offer year in year out consistency in the quality of progeny they produce in your commercial beef business.

Palgrove Justice (P)

Homozygous polled. His semen has been sold to France, Canada and the UK. An impact sire whose progeny excel for weight gain, softness & quality. Top 15-20% of breed for weight gain & top 5% of breed for EMA. First time his sons have been offered at Scone.

Rangan Park Bluegrass D55 (P)

The quintessential 'beef' bull who was still sound at 11 years of age. One of our most prolific breeding bulls. Sons are early maturing, consistent, thickset, quiet, beefy bulls that are ideal for the local trade markets. Breed Trait Leader for Milk. The last of his sons sell here at Scone this year.

Pleasant Dawn Chisum(P)

Outcross Canadian sire owned exclusively by Palgrove. Breed Trait Leader for low birth weight and has been used solely over first calf heifers. His progeny are born easily with good growth and carcass. His first son to sell at auction made \$15,000. 4 sons to sell in this sale.

Palgrove Legacy(P)

Equal high selling Charolais in Australia in 2017 at \$40,000. Breed Trait Leader for 200 and 400 Day Weight. A powerful pedigree featuring Evolution & Holster. Progeny are moderate framed, eye appealing, and really thick with plenty of fat cover. His first sons sell in this sale.

LOT 1

Palgrove Nixon (P) R/F
PK N1327E | Calved 27/09/17

Top 10% of the breed for Milk; Top 15%
for Rump Fat & Marbling; Top 20% for
Rib Fat; Top 25% for Scrotal.

Nixon's a bull that's "right for the times"
Moderate framed, easy finishing, super
thick and high yielding.

The first son of Just Smokin to sell at
auction.

Proven pedigree for low birth weight -
Red Smoke & D55. The D55 daughters
are highly regarded in the Palgrove herd
for their milk and fertility.

A top commercial bull that ranks top
of the table for Milk, Fat, Marbling &
Scrotal to kick off the 2019 sale.

Note a small white patch on his near
side flank.

LOT 2

Palgrove Nifty (P)

PK N571E | Calved 24/08/17

Top 5% of the breed for Milk; top 25% for Rump Fat.

Length – Thickness – Substance and sire appeal make Nifty a stand out of the draft.

A super bull to add weight for age in an ideal maturity pattern. He’s big butted, deep ribbed and wrapped in a soft supple skin.

We’re proud of our reputation for cattle with bred-in disposition and Nifty is a perfect example.

A ‘yield improving’ bull that will provide versatility in both domestic and export market categories.

This is a very special eye appealing sire.

LOT 3

Palgrove Necessity (P)
 PK N781E | Calved 01/09/17

The first of four sons from our consistent sire Kudos (PP), who is our 'go to' sire to add softness and substance. High seller in 2016 at \$40,000.

Dam - 7 progeny in 7 years (369 DCI). Recent seasons have highlighted the importance of highly fertile cattle.

His dam is moderate, easy keeping and has added strong maternal traits.

Necessity is a carcass specialist – thick butted, strong topped & extra length.

We love his natural balance, style & perfect foot & leg structure.

A bull that should really put his stamp on his progeny.

Top 10% of the breed for Marbling; 25% for Rib Fat.

LOT 4

Palgrove Nevada (P)

PK N143E | Calved 04/05/17

The predictability of 50 years breeding Charolais is again evident in this impressive bull.

He's smooth polled with plenty of thickness, doing ability and is a clone of his sire, Justice.

Moderate framed with the balanced combination of EMA and finishing ability that drives profit.

The consistency of the Eldorado daughters means their sons keep appearing at the front end of our sale catalogues.

Pedigree and performance that offers great versatility to any breeding program.

Top 15% of the breed for Eye Muscle Area, Rib & Rump Fat; Top 25% for Scrotal & N'th Terminal \$Index.

LOT 5

Palgrove Natural (P) ET R/F
PK N1079E | Calved 13/09/17

Homozygous Polled and Gold!

Full brothers have sold to \$27,000 with another retained by Palgrove.

Out of a super maternal donor dam, plus bred in calving ease and finishing ability from his sire, Red Smoke.

Equally at home in a stud or commercial program, his progeny should finish easily off grass.

A high \$Indexing bull with top rankings in Fat, Birth Weight and Calving Ease Direct.

Don't miss this impressive bull.

Top 5% of the breed for Rib Fat; top 10% for Rump Fat; top 20% for Birth Weight & Domestic & Export \$Indexes; top 25% for Calving Ease & Gestation Length.

LOT 6

Palgrove Newcomer (P) R/F
 PK N1193C | Calved 19/09/17

Newcomer is a top young commercial bull with a soft, supple skin and plenty of potential.

Dam – 7 progeny in 7 years (364 DCI)

We love what Kudos is adding to our herd – length, smooth muscle pattern with excellent constitution and bomb proof dispositions.

Suggest he's used over British breed cows to produce a line of replacement females or progeny to domestic or export weights.

Homozygous Polled

Top 15% of the breed for Rib & Rump Fat; top 25% for Milk.

LOT 7

Palgrove Nullabor (P)
 PK N419B | Calved 16/08/17

Super thick, moderate, commercial bull.

His sire, Skaggs is producing sons with length, carcass, big scrotal and fast early growth. All the Profit Traits!

Dam – 5 progeny in 5 years (370 DCI).

Suggest using Nullabor over British breed cows to produce progeny that will turn off quickly - grain or grass into the domestic market from vealers through to Coles/Woolworths specs.

Homozygous Polled

Top 20% of the breed for Scrotal; top 25% for Birth Weight & Rib Fat.

LOT 8

Palgrove Noah (P) TW
 PK N215C | Calved 29/05/17

Top 10% of the breed for Eye Muscle Area; Top 20% for Retail Beef Yield; Top 25% for Scrotal & Carcase Weight.

Noah will do a great job breeding great carcass or show steers or 'sale topping' weaners.

Typical of the Justice sons – smooth fronted, great skin, big scrotal, bomb proof disposition with perfect structure.

EMA ranking in the top 10% and positive Fat would indicate Noah's progeny should fit the premium markets targeting MSA specs.

A front paddock bull that has always impressed.

LOT 9

Palgrove Nadal (P)

PK N727E | Calved 30/08/17

Nadal's sire, Kruze was the highest selling bull in Australia in 2016 (\$52,000). We use him to add mass and performance in a moderate package and Nadal illustrates this phenotype.

Dam – 9 calves in 9 years; She's a super female Functional - Fertile - Efficient. Plenty of capacity in this bull – great temperament, softness and natural thickness - a real 3D sire.

Balanced set of numbers. Highly recommended to produce progeny with plenty of market options – domestic, export, grass or grain.

Top 5% of the breed for Carcase Wt;
Top 10% for 400D Wt, Eye Muscle Area
& Retail Beef Yield; Top 15% for 600D
Wt; Top 20% for Mature Cow Wt.

LOT 14

Palgrove Nolan (P)

PK N1434C | Calved 01/10/17

Appreciate the carcase, power and strength in this commercial bull – traits that we aim to breed into the Palgrove ‘homozygous package’.

Dam – 2 progeny in 2 years – the Casino daughters have fast early growth and perfect udders.

Nolan is the first legacy son to sell and typical of his sire – long, super thick with plenty of volume.

Powerful EBVs - ranks highly for growth and carcase.

Phenotypically should produce fast growth, easy finishing progeny with market flexibility.

Homozygous Polled

LOT 15

Palgrove Novel

PK N1102E | Calved 14/09/17

Novel is an extra thick, stout bull - typical of the D55 sons.

Dam - 4 progeny in 4 years (353 DCI) - easy keeping, functional female.

EBVs are high positives for growth, Milk, EMA and Retail Beef Yield - which we are seeing in all of the D55 progeny.

The right balance in the bulls in this draft we think - with EBVs and maturity patterns specifically selected for our clients in the Hunter.

His progeny should target the premium local trade market.

Palgrove Nockalong (P/S)

PK N467E | Calved 19/08/17

Top 5% of the breed for Milk.

A standout commercial bull stamped with that natural balance and smooth pattern we come to expect from the Harlem sons.

Appreciate the weight for age; great temperament; balance and extra softness.

Nockalong has a balanced set of figures. Moderate birth and growth numbers combined with top of the breed Milk and positive Fat.

A versatile sire that could be joined to any breed and produce top end progeny that will fit any market you choose.

Win for Palgrove in Primex MSA Feedback Trial 2019

Palgrove's team of 10 Charolais x Ultrablack steers were awarded Grand Champion Overall Performance Pen at the recent Primex MSA Feedback Trial held in Casino, NSW.

Teams were assessed for feedlot weight gain (70 days), carcass quality (yield, fat cover and EMA) as well as MSA Eating Quality.

The competition complies with the Woolworths MSA grain-fed program and aims to benchmark performance in conditions that replicate as closely as possible cattle entering the grain-fed, MSA graded, domestic supply chain.

The Palgrove steers averaged 2.6kg daily gain, had an average yield of

58.5% and 'near perfect' Fat and EMA points.

This was the first time we have benchmarked our Ultrablack x Charolais cross steers in any independent trials, so we were very keen to see the results.

It's pleasing to see Palgrove cattle performing at the top end of industry specifications in both export and domestic weight categories.

It provides us with verifiable data to demonstrate what our bulls can achieve in a variety of commercial markets.

Very few studs can validate the value of their genetics in 'real world' beef supply chains.

Ben Noller being presented with the Overall Winner prize by Jason Strong, Managing Director of MLA

2018 RNA Paddock to Palate win for Palgrove

When we were told we won top honours in one of Australia's most prestigious commercial cattle competitions, it was one of our proudest business achievements.

Palgrove was named the Overall Winner (100 Day) in the 'blue ribbon' Paddock to Palate competition at the Brisbane Ekka 2018. The purebred Charolais steers also won Reserve Champion Carcase (100 Days).

Some of Australia's best producers participate in what is the country's richest cattle competition. It provides us with opportunity to test our steers against the best and benchmark the commercial production focus we place on our genetics.

The event attracts the nation's top beef producers and consists of

three phases. The Overall Winner is awarded on the best aggregate points for a) weight gain in the feedlot b) a carcass appraisal and finishes with c) the MSA eating quality competition.

Palgrove was fortunate to have been named Runner Up Overall Winner in the 2017 event and in 2016, won the Highest Weight Gain phase of the competition. So to take out the top award in 2018 was a real honour.

We believe that when a producer invests in a bull, his genetics should add value to the whole industry – weight gain, optimum carcase and eating quality. These traits should be part of his DNA and the only way to get there is with a balanced approach to genetics and breeding.

PALGROVE

LOT 20

Palgrove Novak (P)

PK N668E | Calved 27/08/17

Novak is an upstanding sire with a touch more bone and frame who always catches your eye.

His sire was used as a yearling and later sold at our Annual Sale for \$24,000.

We love this bull's smooth muscle pattern; soft skin and depth from rib to flank and super disposition.

Great set of numbers in all the profit driving traits- check them out.

His progeny will benefit from extra weight and fat cover at an early age to hit the premium markets.

An MSA profit driver!

Palgrove Nepal (P)

PK N485E | Calved 20/08/17

We've had 50 years of breeding to build predictability into these Palgrove bulls.

Nepal has a 'bred in the purple' maternal pedigree that boasts, moderate birth and high milk.

You'll love the shape and early maturity in this bull plus he's thick butted, sleek skinned with a strong top.

He should produce 'sale topping' progeny at weaner sales that will feed on for the premium markets.

Top 5% of the breed for Milk; Top 20% for Marbling, & Rib & Rump Fat.

Palgrove Nightcap (P)
 PK N965E | Calved 09/09/17

Top 5% of the breed for Scrotal; Top 10% for Milk & Eye Muscle Area; Top 15% for Rib & Rump Fat.

Nightcap's sire Hombre (D55 son), is a specialist heifer bull who consistently produces these top commercial types. A lovely disposition; tremendous natural thickness; big scrotal and perfect skin. Low Birth to above average yearling weight; big Scrotal (top 5%); breed leading Carcase (EMA & Fat). Here is a strong set of EBVs to really back your judgment. Homozygous Polled.

LOT 42

Palgrove Nominee (P)
 PK N443C | Calved 18/08/17

Top 10% of the breed for Milk.

The sire of this bull was used in our herd to add softness, calving ease and performance. Nominee has low birth, moderate growth, positive fat and bred leading milk, which stems from Western Edge and Silver Bar. Natural thickness; plenty of length and a great "Palgrove" temperament. An all-rounder for any market option.

LOT 43

Palgrove Nuclear

PK N389E | Calved 15/08/17

Two super carcase bulls to finish off the sale and again, a predictable pedigree that is back by 50 years of strict selection.

He's sired by a 2W son over a Wind-Fall daughter - a 'never fail' combination.

Low birth, to above average yearling weight with top of the breed Scrotal, CED, Carcase and Fat.

Medium framed & maturity, thick as a brick, long as a train and a big scrotal.

A true 'beef bull' - use him to improve weight gain, carcase shape and yield over British bred cows.

Top 10% of the breed for Scrotal; Top 15% Calving Ease DTRS; & Eye Muscle Area; Top 20% for Rib Fat; Top 25% for Rump Fat.

LOT 44

Palgrove Newton

PK N1195E | Calved 19/09/17

A moderate, fast early growth, carcase bull to finish the 2019 sale.

Dam - 2 calves in two years. Our Panache cow family is one of the breed's most highly regarded pedigrees.

Curve bending EBVs - breed average for Birth to top 1% for yearling weight; top of the breed for EMA with positive Fat. His figures mirror his phenotype.

Newton is a real carcase specialist - he'll punch out those heavy, fast growing; early maturing weaners that scream 'profit'.

Top 1% of the breed for 200D Wt; Top 10% for Eye Muscle Area; Top 25% for Retail Beef Yield
