

Veterinary Certificate Heifers  
28/06/2019

On 27/06/2019 at the request of David Woodley, I examined 7 Wagyu Heifers:

ROCFP01353, ROCFP01368, ROCFP01375, ROCFN01291, ROCFP00800, ROCFP01422,  
ROCFP01407

The physical examination included internal palpation of the uterus and ovaries, observation of the animals gait, legs, joints, head and eyes.

All the heifers where pregnancy tested not detectably pregnant.

In my opinion these are all satisfactory breeding animals.
