

Veterinary  
Certificate

28/06/2019

On 27/06/2019 at the request of David Woodley, I examined 3 Wagyu Bulls:

ROCFN01221 sc 37 cm

ROCFP00813 sc 35cm

RPCFN01222 sc 34cm

The bulls had a full Physical examination, including Scrotal circumference, palpation of the testicles, seminal vesicles, penis & sheath, observation of gait, legs and joints and examination of head & eyes.

In my opinion, based on this examination, these 3 bulls are satisfactory breeding animals.
