NT SENEPOLS

INVITATIONAL SALE

10am Monday 24/06/2019

CQLX Gracemere

Namoona Trig Senepols Col, Janelle & Blair Godfrey Ph 0427 524 755

We are about to hold our 1st annual NT Senepols Invitational Sale at Gracemere, the sale will be conducted by Savage, Barker & Backhouse.

We still remain committed to our Emerald clients and will be providing free transport of bulls purchased at auction to the Emerald Saleyards.

The Senepol is a polled Tropical Bos Taurus breed of cattle that combines the adaptation of the Tropical Breeds with the temperament & carcass qualities of the British Breeds. Add these qualities to a cross breeding commercial operation, with significant hybrid vigour thrown into the equation. Throw in the legendary slick coat & we have a breed with a unique combination of desirable qualities particularly suited to the tropical & subtropical regions of Australia.

All bulls presented will be fertility tested & guaranteed, scan data will also be provided.

The cattle presented will have received a raft of vaccinations, these include 7 in 1, 3 Germ, 3 Day, Vibrio, Pesti & Botulinum. The majority of the draft are coastally bred & will thrive almost anywhere.

The cattle will be available for inspection at CQLX Gracemere from Wednesday 19th of June minus a few that will be on display at Ag Grow, Emerald. Contact the agents to arrange an inspection. Auctions Plus will be live streaming the sale.

Savage, Barker & Backhouse Rockhampton.

NAMOONA TRIG SENEPOLS

Although we have been selling into central QLD via Auction since 2011, This year marks the first occasion that we have held our own Invitational sale with only a handful (3 bulls) from invited vendor Silverleigh Senepols. The entire draft is JBAS 7.

Namoona Trig Senepols is located in a sub coastal environment near Casino in the Northern Rivers of NSW. As such our cattle are subject to a coastal, subtropical climate with plenty of fly. After a short settling period the cattle will perform well almost anywhere.

The stud commenced in 2006 following the purchase of quality cattle at the AACo dispersal. Since then we have purchased over 200 Senepol Australia purebred registered females. This has given us a wide selection base, and allowed us to utilise harsh culling practices. As a result we have varied bloodlines & produce the quiet, meaty, growthy, adapted cattle that we're achieving today.

Namoona Trig will be offering 40 registered purebreds and 1 7/8 bull all sired by our homebred sires. These sires include senior sires Nocona 2, Charles Barkley and King Kunta. We've found over the years that we've had far greater success using homebred sires rather than outside sires. These bulls will thrive almost anywhere & will sire calves that will improve your bottom line.

These cattle been prepared on Riverina pellets in a rocky Rhodes/Setaria hill paddock; as such they have very good feet and are very athletic. As a result of the drought, these guys were early weaned & have had a longer preparation than usual. Despite there challenging life as calves they will be presented in very good order.

Namoona Trig Senepols has the largest number of purebred Senepol Australia registered cattle of anybody in Australia.

We think this is the best lot of bulls we have offered for sale and you are sure to be impressed.

We first sold bulls in Emerald in 2011, we topped this sale, we also topped last years sale at Gracemere & have topped a number of sales in between. We consider these to be the best draft we've offered at auction. Buyers now have the opportunity to purchase bulls of a quality that represent the strict culling practices that we've followed. These bulls also represent the superior selection pressure placed on our homebred stud sires.

To avoid disappointment come and inspect the bulls from the Wednesday prior to the sale at Gracemere. We'll also have 4 of the sale bulls on display at Aggrow.
