Red Angus Vendors

GARY & SHELLEY TURNHAM (BCC)

Lots: 5, 10, 11
42 Dixon Road
GISBORNE VIC 3437
T: 0418 521 791
E: gt@barregowa.com.au
BJD Status: J-BAS 6

ROBERT & SANDRA BOOTE (BOO)

Lots: G5
165 Ringin Road
DROUIN SOUTH VIC 3818
T: 03 5627 6233
E: bob@rsboote.com.au
BJD Status: J-BAS 6

DA & AT HOBBS (DAH)

Lots: 2, 7, 13, 17, 18, 48, 50, G1
'White Flats', White Flats Rd
MOLONG NSW 2866
T: 0427 511 345
E: dahobbs@bigpond.com
BJD Status: J-BAS 6

DOODLE COOMA PAST CO (DC)

Lots: 8, 14, 23
'Glandore', 2941 Sturt Highway
ALFREDTOWN NSW 2650
T: 02 6922 7705
E: daryl.schipp@bigpond.com
BJD Status: J-BAS 6

H&M CATTLE CO & KARAWI HILL STUD P/L (HMC)

Lots: 25
1553 Burnt Yards Rd,
ERROWANBANG NSW 2791
T: 0457 282 000
E: info@karawihill.com.au
BJD Status: J-BAS 6

CLIFF & MAREE DOWNEY (MCD)

Lots: 7, 3, 4, 51
1278 Glanville Road
Yambuna VIC 3621
T: 0427 283 300
E: cliff@redgumsgroup.com.au
BJD Status: J-BAS 6

PAUL RATHBONE & MICHAEL SEIFRIED (MCF)

Lots: 9, 19
Mt Charlie Farm, 269 Mt Charlie Rd
RIDDELLS CREEK VIC 3431
T: 0416 195 458
E: pr912@live.com.au
BJD Status: J-BAS 6

GP & SJ KNEE (MWD)

Lots: 52
72 Condons Rd
LOOMBERAH NSW 2340
T: 0427 699 151
E: gavin@burkesmyth.com.au
BJD Status: J-BAS 6

ELLIOTT AND ALLYSON CONNORS (NEC)

Lots: 12, 15, 22, 24
'Oakhaven', 1142 Warrah Creek Rd
WILLOW TREE NSW 2339
T: 0427 773 062
E: elliotconnors@hotmail.com
BJD Status: J-BAS 6

POWE FAMILY (PSP)

Lots: 6, 16, 20, 21, 26, 49, 53, G2, G3, G4
'Warrie Range', 406 Nanami Lane, CARGO

Sale Information

MONDAY 17TH
Breed Inspection
and Scanning

TUESDAY 18TH
11 am - Show

WEDNESDAY 19TH
11 am - Sale

6.30pm Dinner at the
Macquarie Inn and
Sale of Genetic Lots

BIDDING

A buying number system will be used on sale day. Prospective purchasers must register their name and address and obtain their individual buying number before commencement of sale. This will be done at the Agent's office.

REGISTRATION

All cattle are sold as herdbook registered and are eligible for transfer at vendor's expense. Please advise transfer details on your registration of buyer's number.

TRANSFERS

All animals sold must be transferred within thirty days of the sale to the purchaser. It is the vendor's responsibility to have any bulls sold to a current Stud member, DNA typed, and sire verified at point of transfer.

BUYING ORDERS & PHONE LINKUP

A person nominated by you to act on your behalf will diligently execute buying orders. Bidding by mobile phone will be available.

CONTACT

John Settree 0408 297 368
Paul Jameson 0428 667 998.

INSURANCE

Insurance is recommended and will be available on sale day through attending representatives.

REBATE

A 1% rebate is to be paid to outside registered agents attending with and settling on behalf of their clients within 7 days of receipt of invoice.

REFRESHMENTS

Breakfast available from 7am onwards. Lunch and refreshments will be available.

GST

All bids are made on the understanding they are exclusive of GST, that is GST is to be added to all prices gained on the day. Health Status: J-BAS status is shown for every lot indicating the Bovine Johnes status of sale animals.

At all times intending purchasers should consult with their local LLS District Veterinarian for health conditions applying for importing livestock into the district and crossing state borders.

EMBRYO LOTS

All Embryos must be collected before sale date. 4 embryos constitute 1 lot of any joining to sire and or dam. Vendor to guarantee 50% conception if done by mutually agreed technician between vendor & purchaser. Lots are to be offered on a per embryo basis. A copy of the flush sheet indicating the freezing technique must also be included with the entry form. Both the sire and the dam used in a flush to produce embryos for sale must be Red coated animals (R.A.S.A) and Herdbook registered.

WARRANTIES:

1. Females catalogued as unjoined are warranted fertile to natural service within 12 months of date of sale; the purchaser is to have the right to a full refund of the purchase price of the female (excluding any costs and expenses of the purchaser) on submitting a veterinary report after the expiration of 12 months to the effect that the purchaser has been unable to get the female in calf to natural service. The veterinarian must state that in his/her opinion there is no evidence that the female suffered any injury or illness since being sold to the purchaser, which could have affected her breeding ability. The veterinarian must also state that in his/her opinion there is no evidence that the female has been subjected to embryo transfer procedures. The veterinary report (together with a Statutory Declaration by the purchaser to the effect that the substance of the report is true and correct) must be forwarded to the vendor within 14 days of the first anniversary of the sale date.

2. Bulls under 14 months must be sold as being able to serve and settle after reaching 14 months of age. The buyer is expected to provide reasonable care and feeding. Should the bull prove to be a non-breeder, the buyer shall notify the seller within four months after the bull reaches 14 months of age. The seller shall then have six months to prove the bull to be a breeder. In no case shall the buyer be responsible for more than the selling price. Any issues arising from the sale of the younger cattle will not be the responsibility of the sale committee or Simmental Australia. Bulls over 14 months in the National Sale are to

be sold as fertile and capable of natural service. The purchaser is to have the right to a full refund of the purchase price of the bull (excluding any costs and expenses of the purchase) within 3 months of the date of the sale subject to submitting a veterinarians' report stating that the bull is infertile or incapable of natural service. The veterinarian must also state that in his/her opinion that bull has not suffered any injury or illness since being sold to the purchaser, which could have affected his breeding ability. The veterinary report (together with the Statutory Declaration by the purchaser to the effect that the substance of the report is believed by the purchaser to be true and correct) must be forwarded to the vendor within 14 days of the date being three months after the sale date. All bulls have passed a semen test and passed a Veterinary Inspection within four weeks of the sale.

REFUND RESPONSIBILITY

The responsibility to refunds based on conditions warranties lies with a particular vendor(s) of the lot(s). While the agents will assist in facilitating a refund if all conditions are met, the agents are not responsible for providing the refund regardless of the vendor's situation.

DISCLAIMER

All reasonable care has been taken by the breed societies and the designer to ensure information is correct at the time of publication, however we take no responsibility for the accuracy, reliability or for the use of this.

Explanatory Breedplan Notes

USING BREEDPLAN INFORMATION TO PURCHASE SUPERIOR CATTLE

BREEDPLAN allows the objective measurement of beef cattle to be transformed into estimates of genetic merit called Estimated Breeding Values (EBVs). EBVs should be used in conjunction with other selection tools like bull breeding soundness exams and structural assessments. The methodology behind BREEDPLAN has been around since the 1950's and has been continuously developed since then. BREEDPLAN itself has been around for almost 40 years and is used by 100+ breed associations in 15 countries. It is a proven technology with extensive scientific research and knowledge behind it.

HOW TO USE EBVS TO SELECT ANIMALS

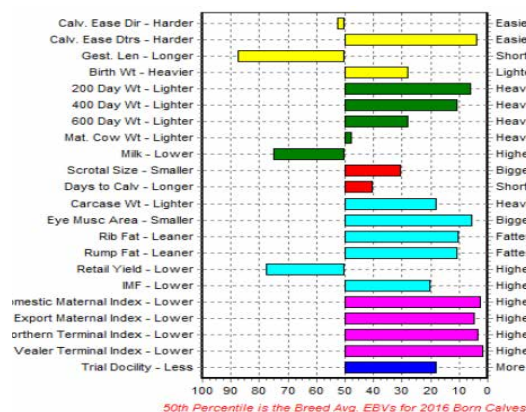

It is important to note that the Red Angus and Simmental GROUP BREEDPLAN EBVS contained in this catalogue can only currently be used within each breed and cannot be used to compare across the breeds.

Percentile Band	Day Wt (kg)
Top Value	+107
Top 1%	+84
Top 5%	+71
Top 10%	+64
Top 15%	+60
Top 20%	+56
Top 25%	+53
Top 30%	+49
Top 35%	+47
Top 40%	+44
Top 45%	+42

EBVs are expressed in the units of measurement for each particular trait. They are shown as positive or negative differences between an individual animal's genetics and the genetic base to which the animal is compared. For example, a bull with a 600-Day Weight EBV of +50 kg is 9 kg above a breed average of 39kg. This means that his progeny would be expected to be 5.5 kg (11 kg ÷ 2 as half the genetics come from the cow) heavier than the progeny of a breed average bull.

The breed average can also be found in the percentile tables (Top 50% line). These tables can be used to evaluate where each animal ranks within the breed for each EBV trait. For example, a +50 kg bull would rank in the top 30 % of the breed for the 600 Day Weight EBV.

Another useful tool is the EBV percentile graph which can be found on the BREEDPLAN Website. It is available by clicking on the graph symbol at the top left of EBV table for any animal. The EBV percentile graph shows which percentile band each animal is in for each trait. For most EBVs, it is desirable to have bars tending to the right-hand side of the graph, though there are exceptions (e.g. Mature Cow Weight) where moderate or the left hand side of the graph may be preferable. The bars are also colour coded with calving traits being yellow, growth traits green, fertility traits red, carcass traits light blue, other traits dark blue and selection indexes pink.

The Mating Predictor on the BREEDPLAN website can be used to predict the parent average EBVs of the potential offspring from any potential matings. This can be useful when contemplating what potential progeny you might get from purchasing a cow or bull and mating to animals you already have access to. The Mating Predictor can be found at the top of the animal search page of the each breeds BREEDPLAN search web page.

When using EBVs to assist in selection decisions, it is important to place emphasis on those traits that are important to the particular markets and environment the bull is to be used in. Not all EBVs are relevant to each production system and, for some, a low or a moderate EBV may be more valuable than a high EBV. Selection indexes (described later in article) take the hard work out by balancing the combination of EBVs available.

EBVS PUBLISHED BY BREEDPLAN

EBVs are published for a range of traits covering fertility, calving ease, growth, milking ability and carcass merit. The published EBVs are:

- Calving Ease Direct – more positive EBVs are favourable and indicate that 2 year old cows will have less difficulty birthing the progeny of this bull.
- Calving Ease Daughters - more positive EBVs are favourable and indicate easier calving of a sire's daughters at two years of age.
- Gestation Length - lower (negative) EBVs indicate shorter gestation which is associated with lower birth weights and easier calving.
- Birth Weight – lower EBV indicate lighter calves at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers or poorer calving cows of other breeds.
- 200, 400 & 600 Day Growth EBVs – more positive EBVs indicate faster growth to 200, 400 & 600 days of age, respectively.
- Mature Cow Weight EBV – indicates the size of the mature cow and thus how much feed she requires each year. Low to moderate EBVs are generally more favourable in self replacing or maternal production systems.
- Milk EBV - is an estimate of an animal's milking ability. For sires, this EBV indicates the effect of the daughter's milking ability, on the 200-day weights of her calves.
- Scrotal Size EBV – more positive EBVs indicate better semen quality and quantity in males and younger age of puberty in females.
- Days to Calving EBV – more negative EBVs indicate a shorter interval from bull-in date to calving and therefore higher cow fertility. This EBV is not currently available in the Red Angus analysis.
- Carcass Weight EBV – more positive EBVs indicate a heavier carcass weight at 650 days of age.
- Eye Muscle Area EBV – more positive EBVs indicate larger eye muscle area and therefore higher retail beef yields.

- Rib and Rump Fat EBVs – more positive EBVs indicate more subcutaneous fat and earlier maturity.
- Retail Beef Yield EBVs – more positive EBVs indicate higher yielding carcasses.
- Intramuscular Fat EBVs – more positive EBVs indicate higher levels of intramuscular fat and better MSA grading scores.
- Docility EBV - more positive EBVs indicates a higher proportion of progeny with acceptable temperament. This EBV is not currently available in the Red Angus analysis.

EBV ACCURACY AND TRAITS OBSERVED

Percentage accuracies are presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The actual traits observed for each animal can also be viewed when the animal is searched on the BREEDPLAN website. The higher the accuracy %, the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives.

In general, animals should be compared on EBVs regardless of accuracy. However, where two animals have similar EBVs, the animal with higher accuracy could be the safer choice, assuming other factors (e.g. structure) are equal.

SELECTION INDEXES

Ranking animals on their Selection Index value sorts them based on their progeny's expected profitability for the targeted production system. This takes the confusion out of looking at all of the EBVs and deciding how important each is to your farming system. Australian selection indexes rank animals based on their net profitability per cow joined.

RED ANGUS SELECTION INDEX DESCRIPTION

SUPERMARKET – Estimates the genetic differences between animals for a herd targeting the domestic supermarket trade and retaining daughters for breeding.

VEALER – Estimates the genetic differences between animals for a herd targeting vealer production and retaining daughters for breeding.

NORTHERN STEER – Estimates the genetic differences between animals for a herd in Northern Australia with Bos indicus cows targeting grass finished steers for export.

For more detail on the Red Angus Selection indexes, go to <http://breedplan.une.edu.au/tips/Interpretation%20Australian%20Red%20Angus%20Selection%20Indexes.pdf>

SIMMENTAL SELECTION INDEX DESCRIPTIONS

DOMESTIC MATERNAL INDEX - Estimates the genetic differences between animals for a herd in Southern Australia (e.g. Angus cows) targeting the domestic supermarket trade and retaining daughters for breeding.

EXPORT MATERNAL INDEX - Estimates the genetic differences between animals for herd in Southern Australia (e.g. Angus cows) targeting the export trade and retaining daughters for breeding.

NORTHERN TERMINAL INDEX - Estimates the genetic differences between animals for a herd in Northern Australia (e.g. Brahman cows) targeting the export trade.

VEALER TERMINAL INDEX - Estimates the genetic differences between animals for a herd in Southern Australia (e.g. Angus cows) targeting the vealer trade.

For more detail on the Simmental Selection indexes, go to <http://breedplan.une.edu.au/tips/Interpretation%20Australian%20Simmental%20Selection%20Indexes.pdf>

Judge Profile

MR ROBERT HUTCHINSON

The 2019 National Show and Sale Judge is Mr Robert Hutchinson from Victoria. He currently works as a livestock transport coordinator for a short feed domestic feedlot near Wangaratta in NE Victoria. Previous to this Robert ran a custom fitting and stud stock transport business for 28 years. He has been breeding commercial Angus and Angus Euro cross cattle for most of his life.

Associate Judge Profile

CHELSEA RAYNER

Based on North West coast of Tasmania, with a small seed stock operation of Simmental and Poll Shorthorn cattle that I run with my younger sister.

- I have been a Simmental breeder for 6 years.
- Involved with the seed stock industry for 9 years, this began through my involvement with the school cattle handling program.
- attended numerous youth camps, with a highlight being winning the Intermediate champion judge at Angus Youth Roundup 2015, and attending the Tocal Beef Cattle Assessment school as a prize
- Looking to study Agribusiness through the University of Tasmania
- Career aspiration of a livestock agent, with focus on seed stock

2019 DONATION HEIFER

- Pick of a herd -

Kindly donated by Bootehill Red Angus

Offering the purchasers the pick of the entire 2018 Bootehill registered Red Angus heifer calf drop. Some are April-May calves and other are August-September calves. The April-May calves will be joined to bulls in early June 2019.

GOONOO RED ANGUS

*Breeding from proven cow families
Visitors always welcome*

COOPERS[®]

EST. 1843

Australia's most complete
BRD vaccine

The only triple active
drench for cattle

Australia's best selling
calf scours vaccine[^]

[^] AHA Data. Doses sold.

As the judge said of Redgums 'Willy', we are focused on the profitable traits the industry needs. In the last 12 months we've sold twenty females mostly in calf, to Graeme Bruce and Esther at Lancefield Victoria to establish a Red Angus 'paddock to plate' operation utilizing a dry ageing coolroom on farm.

Bulls and females for sale

Enquiries welcome

This is one of the last opportunities to acquire this low birth weight super sound bull. He has produced some of the best cattle that we have bred over the years along with plenty of other producers. He breeds beautiful females with exceptional udders and his bulls are powerful correct sires with a lovely balance of muscle and fat cover. There will be 28 straws left after this and no more will be released. Semen stored at Holbrook artificial breeders.

The 2019 national grand champion Red Angus bull at the Fort Worth Stock Show. We saw PTO at Agribition last year and loved the thickness and soundness of this bull. He has a lot of power and performance but gets out there and moves. PTO is breeding well in the states and Canada with his son, L83 2Strong 13F named reserve grand champion bull to PTO at Fort Worth. Minimal release of semen in 2019 so get your hands on this sire while you can. 10 straws of semen

PURCHASER: PRICE:

GO3 KJHT POWER TAKE OFF (5 DOSES) & GOONDOOLA LONESTAR L18 (5 DOSES)

VENDOR: POWE FAMILY

AGENT: LANDMARK

Offering 5 x KJHT PTO doses, and 5 x Goondoola Lonestar L18 doses. PTO is an exciting new sire made available to Australian breeders, coming off the back of his 2019 national grand champion Red Angus bull win at the Fort Worth Stock Show. Lonestar is breeding well for us at Goondoola, adding growth and great outlook to his progeny. They tend to be long bodied, strong topped cattle with beautiful neck extension. Safely used over heifers at Goondoola. Sire of lot 49 and lot 16. L

A really exciting joining that we cannot wait to see the progeny of. Sired by the 2019 national grand champion Red Angus bull at the Fort Worth Stock Show and from our 2016 Sydney Royal Red Angus feature show supreme exhibit, these embryo calves are bound to be good. Sons of Miss D have averaged \$12,500, and even they are breeding the house down with one being named 2019 Sydney Royal supreme Red Angus exhibit. 4 embryos. 50% guarantee of pregnancy.

PURCHASER: PRICE:

G05 PICK OF 2018 BOOTEHILL HEIFER DROP

VENDOR: ROBERT & SANDRA BOOTE

AGENT: ELDERS

All proceeds donated to the Red Angus Society to raise funds for the promotion of Red Angus. Offering the purchasers pick of the entire 2018 Bootehill registered Red Angus heifer calf drop. Some are April-May calves and other are August-September calves. The April-May calves will be joined to bulls in early June 2019. Bootehill is based in Drouin South in Victoria. Bob and Sandi have been breeding Red Angus since 2002 were dairy farmers prior to this. The purchaser is responsible for all freight. Transfer of ownership is deemed to occur when the heifer is selected and the purchaser is responsible for insurance from that date. Bootehill has a J-BAS status of 7.

10 straws - Kev is an outstanding sire in anyone's books. He is a well-muscled deep bodied bull with a tremendous temperament and sound feet. He was one of our most award winning bulls and produced females and bull calves that took out ribbons at all the shows and topped markets across NSW and Victoria. This bull was a real show stopper. 10 straws held at Holbrook Breeders Australia.

Newham is a bull chock full of elite genetics. Sired by Bullseye who sired the Junior and Reserve champion heifers at Brisbane Royal last year with his sire, Power Eye, being the sire of the Canadian Western Agribition and Farmfair Supreme Red Angus female in 2017. Newham's dam is from the renowned Diffy cow family from the Red Angus Foundation herd Moorwatha. Newham is a long, soft, well balanced easy doing bull with an enormous top displaying excellent phenotype and temperament. His EBV's are above breed average for 200, 400 & 600 day weights as well as Carcase Weight and Retail Beef Yield.

Navigator is sired by Red Lazy MC Trooper who has been a great sire for us as well others. A Trooper daughter won the 2018 Royal Melbourne Shows Supreme Beef Exhibit as well as Royal Adelaide s Supreme Interbreed Female. Navigator s dam is from the renowned Diddy cow family from the Red Angus Foundation herd Moorwatha. He is a moderate framed bull who displays great muscle and softness with an impeccable temperament. With good EBV figures across the board, Navigator would be ideal on heifers and mature cows alike.

Nevada is sired by Red Lazy MC Benelli who has impeccable genetics on both sides and his calves are limited in Australia. Nevada s dam is from the renowned Diddy cow family from the Red Angus Foundation herd Moorwatha. A bull with loads of red meat who is well balanced with a thick top, enormous depth of body, great muscle pattern whilst maintaining softness and an awesome temperament. With balanced and herd improving EBV figures across numerous traits, Nevada is a great choice for any herd.

The youngest bull we have to offer and the only son we have to offer from out current herd T&R Judgement Day. Judgement Day calves have exceeded our expectations and match it with any of our AI calves. His mother is the type of female we like to breed. She puts everything into her calves. Her first calf was weaned off at 420kgs at 8 months and her body weight was only 480kgs. Nautilus is safe to use on heifers but will still give you that added performance at weaning time. 7 in 1, Vibrio & Pesti

Another Red Ter-Ron Parker son from a leading female in our herd. Night Rider's dam also produced the 2016 National Junior Champion Female. Night Rider is well muscled and thick topped but also has great length of spine and neck extension. Night Rider is currently in the top 10% for 200 and 400 day weight and the top 15% for 600 day weight. Use Night Rider to add muscle and high growth rates to your herd. 7 in 1, Vibrio & Pesti

Super calving ease bull from one of the studs best bull producing females. He won a big class at Beef 2018 and is always appraised for his faultless structure and mobility. He will add length and weight for age to his progeny. His sisters have all been retained in stud and his Dam is one of our leading donors, so he will also produce the goods with replacement females. Royal show broad ribbons lace his pedigree making him an asset to both stud or commercial operations.

If you want to breed show steers by abundance then look no further then this super carcass bull. He carries two Beef Australia Grand Champion females and the 2018 Brisbane Royal Champion of Champions Female in his pedigree, with the 2012 Beef female being his dam. He's stout, super soft, correct and mobile, with great bone, great feet and as square and wide as you will see. Easy calving and good hair type. Stud has retained semen for their use.

This guy is never without a ribbon! Winning his class at Beef 2018 and Res Junior at Brisbane 2018. Super mobile, super correct bull with faultless tracking ability making him a real stud sire prospect. Carrying the Red Hot cow family in his pedigree this bull will breed outstanding females. This guy is just good whichever way you look at him and favourite of this crop of calves. His sire has produced some outstanding progeny for us with a full sister retained at stud to be shown later this year. A must inspect if you're looking to add some style and many generations of proven red genetics to your operation.

A Traditional style, easy-doing bull with plenty of quality carcass, lots of softness, length and muscle attributes. Was on the Reserve Champion Simmental Female at last year Sydney Royal who is breeding the house down here at home. This bull is naturally polled, has excellent growth for his age and has a lovely temperament to go with him.

Well what can be said about this guy! His dam needs no introduction. She was the Champion of Champions Female and part of the Champion Pair at Brisbane Royal 2018 with him at foot, a feat that the breed has never achieved before. He was super low birthweight and has performed the house down. He will add performance, soundness, mobility and style to his progeny. His sire was the calf at foot on the 2016 Brisbane Royal Grand Simmental Female and is breeding consistently outstanding progeny proving his genetic predictability. With three Brisbane Royal Grand Females and two Beef Australia Grand Champion Females in this guys pedigree, he will have a massive impact your cow herd with the daughters he will produce. He will also pack performance, softness and soundness into his sons. A must inspect and an opportunity we are so proud to offer.
