- ▶ Heifers were examined by real time ultrasound pregnancy scanning on March 18, 2019, by Damien Sotter, Beef Genetics.
  - ▶ Bodyweights, fat and muscle scans were collected on March 21, 2019, by Roger Evans, Bovine Scanning Services Pty Ltd.
  - ▶ Scrotal size measurements were collected on February 19, 2019, by Dr Stuart Geard, Holbrook Breeders.
  - ▶ Of the purebred females, note that Lots 31 and 32 have run in different paddock conditions to the remaining purebred females.
- ^^^ **LOT 32, JAD N5**, was detected as being in the early stages of pregnancy on 5/2/19, however was detected as having slipped this calf when re-scanned on 18/3/19. This heifer is being sold as preg tested empty (PTE) at present, however we will hold her at our property ("Greenvale", Yeoval) and join her naturally to the buyer's choice of either Minnamurra Marlin M4 (MPC M4) or Gin Gin Manitoba (AST M57). No agistment payable. She will be pregnant within six months of sale and payment for this heifer is not due until pregnancy has been confirmed. If for some reason pregnancy cannot be achieved, zero payment will be due.
- \*\*\* **LOT 39, JAD N72**, was detected as being pregnant on 24/1/19, however was detected as having slipped this calf when re-scanned on 18/3/19. This heifer is being sold as preg tested empty (PTE) at present, however we will hold her at our property ("Greenvale", Yeoval) and join her naturally to the buyer's choice of either Minnamurra Marlin M4 (MPC M4) or Gin Gin Manitoba (AST M57). No agistment payable. She will be pregnant within six months of sale and payment for this heifer is not due until pregnancy has been confirmed. If for some reason pregnancy cannot be achieved, zero payment will be due.

## COMMERCIAL HEIFERS - 50 x 16-18 month old heifers of outstanding quality and disposition.

If you're seeking a different pedigree or chasing a black bull for your operation, then check out JAD Nocturnal N70! The only offering today by River Hill 12X A'Man 94A.

Nocturnal is a well-structured bull with adequate muscle and frame. He moves well, and has a very good scrotal EBV. Nocturnal's dam, Codiak Acres Attitudenous (GNK 15Y), is a moderate-framed cow out of the great Codiak Good Golly GNK 11U. 11U has bred on extremely well - she is the dam of: Royal Show Champion sire, Wattle Grove Smoke And Mirrors L275; then-Australian record-breaking bull (\$30,000), Wattle Grove Project A L264; and another very successful dam in our 2017 program in Codiak Acres Zahrah 50Z. GNK 15Y is by one of the breed's most renowned sires in Codiak Trump, GNK 20T.

Nocturnal's sire, River Hill 12X A'man 94A, has been a strong performer for his Canadian owners, McAleer Ranching, breeding 2017 Farmfair International Champion Bull Calf and Reserve Champion Bull, D.A.M. Dots 94A Electric 31A.

JAD 60A Zig N37 is a high-growth, larger-framed heifer with tremendous length and style about her. We expect her calf by Kidman's Cove to be a cracker!

JAD N37 is a trait leader for several growth and fat EBVs, and just like her Lot 33 full sister, she got in calf to the first round of AI. She is PTIC to New Zealand sire, Maungahina Kidman's Cove (MAU K247), and we look to following the progress of this calf! JAD N37 is also a full sister to Lot 16.

JAD N37 has been a stylish, upstanding female right from birth, and is a very good-footed heifer. Her pedigree is certainly impressive, being by an 8R sire and out of an Unrivaled dam.

The Oh My Gosh daughters have scanned exceptionally well for fats, which leads us to believe they will be very strong maternally.

The success of any business venture comes down to people. Our family is committed to the Speckle Park breed and we look forward to the partnerships we are about to form with new clients. Thank you for your interest in what is our passion.

*Dickens*

COMING IN AUTUMN 2020

# NEXT GEN. NEW PEDIGREES. SAME JAD.

We're bringing our next-gen thinking,  
to our next-gen drop.

## THE JAD ADVANTAGE

### A GLOBAL INFLUENCE

We make annual trips to Canada and New Zealand to get to know the different breeders and their breeding programs, to see genetic lines first-hand, and to select the very best to infuse into our herd through extensive ET and AI programs.

### INDEPENDENTLY ASSESSED

All bulls are semen tested, reproductive organs are examined in all bulls and purebred females, and all bulls and purebred heifers are independently assessed for structural soundness and temperament.

### DATA RECORDED

We submit more raw data to BREEDPLAN than any other Speckle Park stud, to improve the accuracy of resultant EBVs and deliver real value to our clients to assist them in their decision-making.

### TEAMWORK + CUSTOMER SERVICE

We are both just as passionate about Speckle Park cattle as each other, and we are committed to helping our clients achieve their goals in a long-lasting partnership.
