45 Commercial Street
 Walla Walla, NSW 2659
 Australia

Mob: 044 855 4302
 ABN: 39151806021

Bovine Frozen and Fixed Semen Evaluation (n=19)

Animal ID	Batch	Sample No.	% Motile	Conc 10 ⁶ /ml	% Normal	Prox Drop	Distal Drop	Abn Heads	Abn Mids	Abn Tails	Acrosome	Detached Head	Comment
N4431	14.12.18	25715	75	214.2	83	3	7	3	2	2	0	0	

Highlighted areas = **below** or **borderline** satisfactory. DMR=distal midpiece reflex, DD=distal droplets, m/p=midpiece

Comments:

- samples are considered *satisfactory* re;
 1. Initial post-thaw sperm motility, &
 2. Sperm concentration.

- samples are *satisfactory* re sperm morphology

Please call if any queries

Sincerely - Peter Chenoweth BVSc PhD DACT, 042 718 6421

Note: These results apply only to samples examined by the procedures specified and on the date above. No responsibility can be assumed for storage and handling before receipt, or for the health status or disease history of the semen donor. Comments are qualified by the reality that many aspects of fertility are either beyond our control, or unknown.
