<http://www.alpa.net.au/UserFiles/File/Documents/ALPA%20Livestock%20Terms%20and%20Conditions%20FEB%202017.pdf>

A Buyers Number System will operate at the sale. All Prospective purchasers need to register.

GST

All bids are made on the understanding they are exclusive of GST

Freight

All freight and delivery cost will be the sole responsibility of the purchaser. Delivery is strictly to be coordinated only after payment is received.

Transfer

Ownership transfers are the responsibility of the Vendor.

Ownership

Ownership and risk will pass to the purchaser on the fall of hammer. Purchasers are encouraged to insure their purchases.

SHORTHORN BEEF
shorthorn@shorthornbeef.com.au
www.shorthornbeef.com.au

Guarantee

Live Lots – It is a condition of this sale that the Vendor warrants that all female lots sold as unjoined are capable of achieving pregnancy to natural service within 12 months of the sale, the Vendor agrees that the Vendor shall refund to the purchaser the purchase price paid, (not including any cost or expense of the purchaser), upon the Purchaser providing to the Vendor within 12 months of the sale date:

1. A report from a licensed veterinarian certifying that in his or her opinion:

- a) There is no evidence that the female has suffered any injury or illness subsequent to being sold to the Purchaser which could have affected her breeding ability &
- b) That there is no evidence of the female having been subjected to any Embryo Transfer procedure since the sale date.

2. The Purchaser must provide a Statutory Declaration to the Vendor warranting that in the opinion of the Purchaser the facts stated in the Veterinarian report are true and correct

Embryos – Packages comprise of no less than 4 A grade embryos and embryo lots to be sold on a per embryo basis.

Sale Settlement

The Shorthorn Society of Australia will invoice purchasers. Payment is strictly 30 days from the invoice date.

AUCTIONSPLUS
www.auctionsplus.com.au

Guarantee

Right to Flush – Lots must guarantee a minimum of 4 “freezable” A or B Grade embryos. The vendor agrees to reimburse the purchaser at a rate of 25% of the purchase price for each suitable embryo below 4 that are harvested.

Purchaser to pay all flush costs and provide semen for insemination for all Right to Flush lots unless previously stated in the catalogue.

Registrations

All live lots, semen lots and embryo lots are sold as Shorthorn Beef Herdbook registered and are eligible for transfer to Shorthorn Beef herds.

Neither the vendors, Shorthorn Beef, their officers and employees make any warranty, expressed or implied regarding the suitability for lots be registered in any other Herdbook. It is the purchasers express responsibility to ensure that any lots purchased are eligible for registration in their Herdbook.

DNA Requirements

Under the current DNA regulations of Shorthorn Beef all lots comply to Shorthorn Beef registration requirements. Not all lots have been pedigree verified by DNA.

Shorthorn Beef, their officers and employees do not make any warranty, expressed or implied regarding the accuracy of the pedigrees as stated in the catalogue.

AUCTIONEER - ALEX CROKER
alex@hfrancisandco.com.au

INTRODUCING *the new* PREMIUM SHORTHORN BRANDED PROGRAMME

THE STORY OF THOUSAND GUINEAS

The story begins in the North East of England in the 18th century, where Teeswater & Durham cattle breeds were being refined using selective breeding techniques by Charles and Robert Colling. This program would go on to give rise to one of the *most highly sought after beef cattle breeds* anywhere in the world... **THE SHORTHORN.**

The culmination of this breeding program was the birth of the bull Comet in 1804, who, in 1810 went on to fetch 1,000 Guineas at the Brafferton sale, breaking all records as the first bull to draw such a price tag.

THIS BLOODLINE would go on to be a key influencer in the Modern Shorthorn breed that is celebrated for its superb eating qualities.

SUPERIOR IN TASTE

WITH THOUSAND GUINEAS you will enjoy an open texture with a buttery flavour, a great bite *and lots of juice.* Perfectly suited for that special occasion when friends, family or colleagues come together to share a richly rewarding *moment in time.*

The \$22,000 top priced bull at the 2019 Futurity Shorthorn Bull sale.

This dark red, short coated sire is balanced in every way. Excellent structure, thickly made with a smooth laid in shoulder. This young sire is out of my favorite cow on phenotype Futurity Enia H8 by leading WA sire Crathes Hasting who is breeding exceptional carcass cattle. Prophecy's performance data covers all the bases low birth, high growth, good maternal performance and excellent carcass data.

FOR DOMESTIC SALE ONLY.

Selling 10 straws of semen from the second top priced bull at the Futurity 2019 sale selling for \$20000 to Wynyard Shorthorns. **No other seed stock semen to be sold in 2019.**

This bull is taking it to the Next Level for carcass quality. This Homozygous polled young sire has outstanding phenotype, he is very sound, has exceptional carcass characteristics, high growth rates and data that is matched by few in the breed. We used Next Level as a yearling on our best first calved cows last spring. Calves are light at birth and soon develop plenty of shape.

Dam History. Age 8 years, calves 7, 21 day reduction calving interval

This cow has that great Isobel look. Her prepotence as a donor can be seen by her first two natural calves - Royalla Uptown, Grand Champion at Brisbane and Melbourne in 2018 and Royalla Isobel Q005 at foot now. The foundation Isobel was purchased by the Job family in 1971 and upgraded. Isobel progeny can now be found in 6 countries. In 2016 Trent Johnstone & Lonnie Stone purchased a flush at a Society Auction in Royalla Susan 9200, and sold a bull this year at Dubbo for \$18000.

Guarantee a minimum of 5 transferable eggs. Can go straight into quarantine after the Conference.
WILL BE ELIGIBLE FOR AUS, NZ EU, UK, NTH AMERICA, STH AMERICA & SOUTH AFRICA.

FUTURITY ENIA (P)
Red JJJV6

First opportunity to purchase embryos from one of Futurity's top donor dams. Futurity Enia H8 has bred exceptionally well for us producing this year's top priced bull Futurity Prophecy P13 selling for \$22000. Futurity Enia H8 is one of my favourite cows in the herd for phenotype she is moderate framed, loads of volume, neat udder and perfect feet and structure.

No matter what we join this cow to she continues to breed very efficient cattle like herself.

We are extremely proud to offer the pick of the heifers. The selection of these females into the show team is not based solely on phenotype to win a ribbon but a combination of dam's performance, EBV's and phenotype. In doing this we believe we are exhibiting those females that will be our donors and leading matrons into the future. The females represent Southcote Lead Foot L13 who sold to Weebollabolla Shorthorns in 2017, Yamburgan Zeus H140 & Eloora Baker G31. For more in depth information of each female on offer, please visit our website www.southcotesorthorns.com.au where you will be able to find videos, pictures and a description of each female.

Without doubt, one of the most unique Shorthorn bulls we have ever been associated with. Very few British bred cattle can survive and thrive in the ticks, heat and buffalo flies of Central Queensland. Utopia does it with ease. Our breeding program is based on extreme selection pressure. This approach has zero regard for an animals historical pedigree, reputation and favoured treatment. Utopia has the maturity pattern and soggy body type for efficient production in a hard environment and the unique carcass data to keep Shorthorn Beef on the top end of the menu. GENOMIC SUPERSTAR.
