From the Anden Stud

Welcome to the 24th Annual Anden Stud Sale. We are excited to present another outstanding line up of rams and ewes. We endeavour to provide the best genetics to suit the needs of the buyers and strengthen the sheep industry.

Congratulations to previous buyers of Anden flock rams, who have had much success with lambs at market again this year. We have had a tremendous amount of positive feedback from buyers regarding lambing ease, an increase in lamb and ewe survivability at birth and lamb viability. Buyers of the Ultra White rams are also reporting that kill weights are being met quicker and their skins are staying fresher for longer.

This year we find the season to be encouraging in some locations, while proving to be tough in others. With the unpredictable, we understand that it is essential to the buyer, to make decisions based on livestock growth and sustainability. Anden continues to be focused on genetics that will stand-up to whatever the climate has to throw at the industry.

This year the Auctions Plus team will be on site at the Sale with live streaming of the Specially Selected Suffolk Ewes & White Suffolk Ewes, followed by the Specially Selected White Suffolk Rams, Lots 1-64.

This year we offer 81 White Suffolk flock rams, followed by 72 Ultra White/EasyCare rams and 15 Kerangie Suffolk rams. All rams are accompanied by outstanding Lambplan figures.

From the paddock to display sites and show arenas: This year we attended the Hamilton SheepVention with an Anden Stud display site. Our site displayed three Anden White Suffolk rams and two Ultra White rams. Our intent was to promote the Anden Stud and get the news out about the new Ultra White breed. We were extremely happy with the three day event and received a lot of positive interest. The Adelaide Royal was our only showing this year. And what a showing it was for Anden 180179, winning Supreme Champion White Suffolk Exhibit. Initially he won Junior Champion, then Grand Champion White Suffolk Ram and later was awarded Reserve Interbreed Champion Ram. We are absolutely thrilled with the honours and look forward to reports of his progeny. Anden 180179 is lot 46 in the Sale.

Andrew had a busy showing at the Adelaide Royal (on his own!) as he also had the honour of judging four other breeds. It is a privilege to be asked to judge at such an elite Sheep Show.

On a personal note, we welcome Trent back home to work on the family farm. Trent returned in January, after seven years away and is a qualified electrician. We are extremely happy to have him home and it's definitely nice to have another set of hands around the farm. Trent's conscientious work ethic will only enhance the productivity here at Anden.

As always, we welcome your interest in the Anden Stud and look forward to seeing you on October 3rd.

Regards, Andrew & Denita, Joel & Lauren.

Flock History

Anden White Suffolks

The Anden White Suffolks, Flock No. 91 was founded in 1989, by Andrew and John Donnan. Initially using Suffolk ewes from Kerangie and Stone Haven Studs and have built a sire base, introduced from top White Suffolk Studs and breeding elite Anden White Suffolk rams. In 2016 John (86) sold his share of the Stud to Joel Donnan. Joel grew up on the farm and has worked full time since 2011. Joel's sheep knowledge and insight will be instrumental to the Anden Stud's future.

Anden was built on a passion to provide the best genetics to breeders and continues to strive for excellence. Results at market reflect the enhancement that the Anden rams have given to previous buyers. We have had much success at the Royal Adelaide Show over the years and acknowledge the Stud's achievements.

Anden Ultra Whites

2017 saw the mark of a new era, with the marketing of the Anden Ultra White Stud.

Andrew and Joel have been working on producing a consistent line of composite White Dorper/Poll Dorset cross rams since 2010. The breeding has come from the result of using high performance Dorper and Ultra White sires over our best performing **Viewdale Poll Dorset** ewes.

The Ultra White 'Easy-Care' criteria goal: Good fertility, Good milking and mothering instinct, Low/moderate birth weights, Good growth and sound structure, Good muscling, High yielding carcass across medium-heavy weight carcasses, The right amount of fat, Ability to maintain exceptional do ability and hardiness of the Dorper breed, Good shedding ability.

**The transition from Anden Easy-Care composites to Anden Ultra White is based on the Ultra White breed criteria, which clarifies the number of generations of cross breeding before registering as an Ultra White.

Kerangie Suffolks

The History of the Suffolks is one of John Donnan's passions. John and his wife, Melva, founded the Kerangie Stud in 1971 and had many highlights and much success at shows.

In 2010 Andrew re-activated the Suffolk Stud name Kerangie, Flock No. 2187. Andrew initially purchased Suffolk Ewes in lamb from the Burwood Stud. The Kerangie Stud is determined to maintain standards, with high performance and quality at the top of our agenda.

Viewdale Poll Dorsets

In 1960 George and Stan Donnan founded and registered the Viewdale Stud, Flock No. 368. This Poll Dorset Stud went into recess in the early 80's. In 2006 Andrew re-activated the Stud, which was once run by his grandfather and father.

With the introduction of the Ultra Whites, 2016 was the last time Poll Dorsets were sold in the Anden Stud Sale.

The genetics from the Viewdale Poll Dorset Stud have played a huge part in the development of the Anden Ultra Whites breeding program. We hope we haven't disillusioned those buyers with Poll Dorset backgrounds, but encourage them to try an Anden White Suffolk or an Ultra White... knowing they will be pleasantly surprised come market day.

All sheep are presented with across flock ASBVs as at August 2019. This year we have the inclusion of LEQ and TCP indexes. These indexes focus on maintaining/improving eating quality within the sheep industry.

LEQ (Lamb Eating Quality) is the equivalent to the old ‘Lamb 2020’ index, but ‘now incorporates eating quality into the index.

TCP (Terminal Carcase Production) will be the equivalent to ‘Carcase+’ but it will also include eating quality into the index. Carcase+ is being phased out in the near future.
