

# ASCOT

CHAROLAIS & ANGUS

## SPRING BULL SALE

FRIDAY 20TH SEPTEMBER 2019, 1PM  
'NORTH TOOLBURRA', WARWICK QLD

AuctionsPlus

SALE WITH LIVE VIDEO STREAMING

**65 ANGUS BULLS**

**50 POLLED CHAROLAIS BULLS** (25 DNA tested Homozygous Polled)

**ASCOT**  
CHAROLAIS & ANGUS

## Welcome to the Ascot 2019 Spring Bull sale. On Property, 1PM Friday 20th September 2019.

Most importantly a big Thankyou to all past buyers & under bidders at our previous 10 on property bull sales.

### MSA CARCASS FOCUS

With the tough environment we mostly live in these days, animal efficiency is everything. There has never been a more important reason to upgrade genetics of perhaps smaller herd sizes, so the progeny are higher quality, have heavier weight for age & more valuable, so we are maximising profits from the cattle we have. Or if still able to maintain larger herd sizes improving quality to maximise returns through using modern bull genetics still makes a lot of sense.

Ascot's approach to both breeds is to produce bulls with all aspects of MSA meat quality in mind plus HIGH WEIGHT FOR AGE. From temperament, to calving ease to shorter days to calving (fertility), to quick early growth, fat cover & adequate marbling - these are all covered in our program. This is reflected in the endless data we collect & our animal's EBVs.

### ADVANTAGE & BENEFIT OF POLLED CATTLE

With animal welfare & activist activity front of mind in the industry, we think there is also an urgent need to poll all cattle. Whether it's the fact that buyers of the future may not buy dehorned cattle or the extra cost & time involved in sedating cattle for dehorning there are good reasons to naturally poll our herds. With the genetics available now you don't have to lose performance with poll cattle as many might suggest & may have been the case in the past. For those not familiar with the breed All "PURE BRED" Angus are homozygous polled which means all progeny from even horned cows bred to angus bulls should be polled or scurred which is a great advantage of the breed. Ascot's homozygous polled breeding &

testing program for its Charolais herd also means nearly every Ascot Charolais bull sold is polled. More importantly in this upcoming sale we have 29 DNA tested homozygous polled Charolais bulls. The largest number we have put forward. We cannot over emphasize the advantage of this.

### STRUCTURALLY CORRECT

All Ascot sale bulls are independently structurally assessed by industry expert Jim Green who has been doing this for nearly 30 years. In addition all bulls are vet & semen tested by Ced Wise veterinarians. A bull breeding soundness certificate is issued with every bull. Also all bulls are blooded for tick fever, vaccinated for 3 day sickness, 7 in 1, pestivirus, botulism & Vibrio. They are also Pesti tested negative.

### THE ASCOT BALANCE

MSA carcass focus & weight for age combined with polledness & structural correctness equals the ASCOT BALANCE.

### 2019 ANGUS SALE BULLS

The sale will include approx. 54 rising 2 year old angus bulls and approx. 12 x 16 to 18 month old yearling bulls.

This sale features sons of the following sires:

- Millah Murrah Loch Up L133 - A bull we bought as top priced Australian Angus bull in 2016 for \$85,000. He is living up to what we had hoped with sons with extra carcass attributes & extra bone. The Millah Murrah stud will feature many top end sires by him as well as us in their sale this year.
- Millah Murrah Highlander G7 - His sons are always popular at our sales.
- Ascot Hallmark - One of the highest regarded bulls in the breed with high selling bulls for many studs in the last 2 years. You can't beat his sons.
- Ascot Lion Heart L305 - The bull we sold for \$70,000 to Ben Nevis & Trio Angus studs. Adds great weight for age & thickness.
- Coonamble Hector H249 - He is producing many top line sires.
- Texas Global G563 - Who is still performing well for us & the Texas stud
- Clunie Range Kahlua - A bull that adds extra Marbling, EMA & slick skin.
- Clunie range Juno - Top priced bull at their sale in 2016. A bull that adds great depth & thickness.
- SAV International - A bull that adds extreme thickness.
- K5X Legend - His sons have sold to \$10,000 & daughters to \$14,000 for us.
- FIRST SONS OF Nampara Liberty - The bull we bought with Keringa Angus for \$85,000 in 2017. He is certainly stamping his sons.

A number of the angus bulls should suit heifer joinings & will be identified in the catalogue.

### 2019 CHAROLAIS SALE BULLS

The sale will include approx. 43 rising 2 year old bulls & approx. 12 x 18 month old yearling bulls.

This sale features sons of the following sires:

- Ascot Juggernaut J134E - The Homozygous polled red factor bull who we sold to Nick Mather for \$30,000 & sired our top priced bull in our April this year at \$26,000 & last year's Spring sale at \$22,000.
- Palgrove Kudos - The Homozygous polled red factor bull we purchased for \$40,000 in 2016.
- Rosedale Lump Sum - Rosedale's Top priced Homozygous polled bull we bought in 2016. He adds extra carcass attributes & bone.
- Paringa Kilo Packer K330E - The top priced homozygous polled bull we bought at the Paringa 2016 sale. Top-of-the-tree carcass EBVs for most traits & is a real meat machine.
- The tried & proven Homozygous polled Ascot Galaxy G131 that has sired many top sires with breed leading Carcass EBVs.
- The homozygous polled bull Ascot Kingtide K39E who was sold for \$20,000.
- The homozygous polled bull Ascot Kingmaker K11E who was sold to Nick Mather for \$15,000. He adds great thickness & carcass attributes.
- The homozygous polled bull Ascot Eldorado E14E - the sire of Ascot Juggernaut.

A number of the bulls in the sale will suit heifer joinings & will be identified in the catalogue.

### THE SALE WILL BE INTERFACED WITH AUCTIONS PLUS WITH LIVE VIDEO FEED.

### PHONE BIDDING IS ALSO AVAILABLE THROUGH THE AGENT OF YOUR CHOICE.

### OUTSIDE AGENTS COMMISSION OF 4% PAYABLE.

FREE DELIVERY is offered on Frasers Transport to the following centres:

Emerald, Rockhampton, Goondiwindi, Roma, Toogoolawah, Casino, Glen Innes, Tenterfield, Inverell, Moree, Narrabri, Tamworth, Gunnedah, Dubbo.

We recommend insurance on all stock purchased & will be available on sale day.

Should you wish to inspect the sale bulls before the sale contact us - otherwise will be available sale day from 9 am.

Complimentary morning tea, lunch & after sale refreshments will be provided on sale day.

We look forward to seeing you on sale day. Sale starts at 1 PM Friday 20th September.

**Yours Sincerely,**

Jim & Jackie Wedge.

# SALE INFORMATION

## SALE DATE AND PRIOR INSPECTION TIME:

Selling will commence at 1pm on Friday 20 September 2019.

Bulls may be inspected from 9.00am on the morning of the sale, or at any other time by arrangement with the agents or vendor.

## SELLING SYSTEM:

Sale of animals will be conducted under normal auction conditions. Please check with the Selling Agents to obtain a buyer's number if you are considering making a purchase. Successful Purchasers are requested to give written advice to the Selling Agents, regarding transport arrangements, at the conclusion of the sale.

## REBATE:

4% Rebate to outside agents registering Bull buyers, in writing, PRIOR to the sale, and settling on their behalf within 14 days of the date of invoice.

## PHONE BIDDING:

We have full mobile phone coverage at the sale. If you intend purchasing over the phone, please contact the selling agents to reserve a line.

## GST:

All animals are sold exclusive of GST.

## INSURANCE:

Bulls are like any other piece of valuable farm equipment and it is wise to insure them, especially for their first six months of working life. There are a number of options available through Elders Insurance at the sale venue.

While all care and attention will be taken liability of bulls falls to the purchaser at fall of hammer.

## AUCTION PLUS

This year we will have live video and audio streaming all done through Auctions Plus. Please register 24hrs before the sale.

## REGISTRATION:

Ownership transfer of bulls will be registered by the vendors with Angus Australia or Charolais Australia provided accurate transferee details are supplied with the Buyers Instruction form.

## CATERING:

Please join us for complimentary morning tea, lunch and after sale drinks.

## PHYSICAL EXAMINATION OF BULLS

All bulls and PTIC heifers offered for sale have been structurally assessed by Jim Green and vet checked. A veterinary bull breeding soundness evaluation certificate will be issued before sale date and animals only sold if deemed satisfactory for the following inspections:

- Palpation of internal genitalia
- Palpation of Scrotal Contents
- Semen Testing
- Physical examination of feet, legs, gait, head and joints.
- Structural soundness evaluation & temperament score.

## TEMPERAMENT

The bulls have been handled with horses, ATV utilities and on foot. We know their temperament individually and are confident that under normal circumstances each animal in the sale is of sound temperament. Understandably each year on sale day an occasional bull misbehaves due to the big change to the yard area and the pressures of strange people invading their space.

## HEALTH QA:

The bulls are ready for immediate use.

We have treated them as follows:

- Pesti tested Negative
- Double vaccinated them with Vibrovax
- Vaccinated for Tick Fever
- Double Vaccinated with 7 in 1 & Pestigard
- Double Vaccinated for 3 Day
- Drench with Cydectin Pour On prior to sale
- Botulism

## JOHNES STATUS:

Each lot will have their Johnes Status listed, depending on their place of birth, as follows:

Ascot Warwick Qld property - JBas 7 (QLD, tested annually) \*

Ascot Glen Innes property - JBas 7 (NSW, tested annually) \*

ET calves originating from Glen Innes - JBas 6 \*

**\* Purchaser to ensure bull's entry eligibility meets their Johnes Status requirements. Please check with your state's relevant authority**

## BULL HANDLING

On arrival at their new home it is important a suitable mob of animals is yarded to greet the bull and minimize the stress on the bull. Suitable animals include pregnant cows, steers, certainly not other bulls.

The bulls are in good joining condition at point of sale, but it is imperative to ensure good nutrition for the bull during the joining period. You should check the bulls regularly to see they are working, especially in the early stages of joining when the majority of problems occur and early intervention can minimize the damage to the bull and to conception rates.

When joining is complete, bulls should be drenched and placed on good pasture to get back into first grade health without being allowed to get over-fat.

## FEEDING REGIME & MANAGEMENT.

The life cycle of our bulls consists of running on crop or pasture all of their lives until just prior to sale time when they receive a high hay base ration. This ration contains a nutritionist formulated supplement with added vitamins, minerals and antioxidants for foot, fertility and

general health. The high roughage ration also

includes chopped hay, straw and rolled barley at very low percentages. This ration also helps adjust the rumen to help them cope with whatever pasture conditions they encounter at their new homes.

### DISCLAIMER

Every care has been taken during the compilation of the catalogue to ensure the accuracy of information supplied. However, no responsibility will be accepted for any errors that may have occurred.

### WARRANTY

#### THE VENDOR WARRANTS THAT:

1. Bulls are fertile and capable of natural service within 6 months of date of sale to the purchaser ("Warranty Period"); and

#### THE VENDOR WILL EITHER:

1. Provide a satisfactory replacement or
2. Provide a credit for use at the next Ascot Cattle Co Bull Sale equal to the purchase price (excluding any costs and expenses of the purchaser in taking delivery) minus salvage value:

#### WHERE:

1. The purchaser claims a bull is infertile, upon purchaser submitting a veterinary report after the expiration of the Warranty Period stating that the bull is infertile or incapable of natural service, and a Statutory Declaration by the purchaser to the effect that the substance of the report is true and correct. The veterinarian must state that in his/her opinion there is no evidence that the bull has suffered any injury or illness during the Warranty Period which could have affected his breeding ability. The veterinary report and Statutory Declaration must be forwarded to the seller within 14 days of the Warranty Period expiring.

#### THE PURCHASER ACKNOWLEDGES THAT:

The purchaser does not rely and it is unreasonable for the purchaser to rely on the skill or judgment of the seller as to whether the bulls supplied are reasonably fit for any purpose for which they are being acquired.

To the extent permitted by law all other conditions and warranties implied by law in respect of the state, quality and condition of the bulls which may apart from this clause be binding on the Seller are excluded.

The Seller has no liability (including liability in negligence) to any person for any loss or damage consequential or otherwise suffered or incurred by that person arising from the sale of the bulls to the purchaser.

### HEALTH & SAFETY OF VISITORS TO OUR SALE (RULES & ADVICE)

All the sale bulls have been screened for temperament and are quiet to handle under normal circumstances. However there are inherent risk associated with cattle handling.

#### VISITORS ENTER THE CATTLE PENS AT THEIR OWN RISK. CHILDREN MUST NOT ENTER THE YARDS.

People entering the yards are at risk of injury. Be especially alert of bulls fighting and if one is playful with you, do not respond by patting his head.

What a bull considers a playful nudge can break human legs! We do not expect the bulls to be aggressive with humans, but sale day places extraordinary pressure on them as they experience an entirely foreign environment. Remember the quietest bull is in fact an unpredictable animal.

Do not crowd the bulls or loiter inside the pens. We cannot cover every example of the dangers of cattle handling, so please use common sense and be alert at all times. Don't enter the pens unnecessarily.

Please call upon any of the agents for an escort through the bulls if required. The days of bravado with stock have passed under current OH&S legislation.

### DELIVERY

Agents Elders, Landmark and Colin Say & Co will be handling the organisation of delivery of Sale Cattle. Free freight is offered to Emerald, Rockhampton, Goondiwindi, Roma, Toogoolawah, Glen Innes, Tenterfield, Inverell, Moree, Narrabri, Tamworth, Dubbo, Gunnedah & Casino.

Responsibility goes to purchaser at fall of hammer. We recommend insuring all bulls.

### SEMEN RIGHTS

All bulls sell with 80% semen marketing rights attached. In doing this we leave the great majority of any potential semen revenue in the buyer's hands.

However, by keeping a 20% share, it gives us, as the breeder and party with the greatest knowledge of the bull's background, a seat at the table, in any possible negotiations with semen companies and other parties.

Should any purchaser wish to operate at the sale on the basis of 100% semen ownership, please contact the vendor at least 24 hours prior to the date of the sale.

Under all circumstances, the vendor retains the right to collect up to 200 straws of semen from a bull in the sale for use within herd. Any semen collection would be at vendor's expense and purchaser's convenience.

### ACCURACY OF CATALOGUE

While every care and attention to details in catalogue has been made we cannot guarantee that some mistakes have occurred during printing or construction of catalogue.

### POLL TESTING

Ascot Charolais bulls have been tested by the Animal Genetics laboratory at the University of Qld with the SEQ\_POLL Prediction test to identify their poll status. While this is the most accurate poll test available to determine if an animal is PP (homozygous polled) there is no guarantee by Ascot that this is 100% correct. We rely on the university to determine an animals status. Therefore Ascot cannot bear direct liability or any consequential losses incurred by the purchaser should this test deemed to be incorrect.

# SELECTING GENETICS FOR IMPROVED MSA

**The different components affecting whether carcasses meet MSA compliance specifications are all influenced to some extent by genetics and can be improved through the selection of animals with appropriate genetics.**

## 1. MEAT COLOUR & PH

Dark meat colour (ie. over an AUSMEAT score of 3), commonly referred to as 'dark cutting'; is associated with low muscle glycogen levels in the live animal prior to slaughter, thus resulting in an unappealing product for consumers. Similarly, if there is only a small amount of muscle glycogen present pre-slaughter, pH may not decline to the required level.

Maintaining glycogen levels pre-slaughter is consequently of utmost importance and can be achieved by minimising stress and/or activity both on-farm and in the lead up to slaughter. Cattle with poor temperament have an adverse effect on the cattle around them, all of which results in higher pH carcasses and a higher incidence of dark cutting.

Selection for improved temperament can be achieved by ensuring that all animals used in a breeding program have acceptable temperament, and when available, selecting animals with superior Docility EBVs. Docility EBVs are estimates of genetic differences in the percentage of an animal's progeny that will be scored with acceptable temperament, with higher EBVs associated with superior temperament. For example, an animal with an EBV of +20% would be expected to on average produce a greater percentage of progeny that have acceptable temperament than a bull with an EBV of -2%.

Research has also demonstrated that animals with higher muscle content, as defined by size of carcass eye muscle area (EMA) adjusted for hot standard carcass weight, is strongly associated with reduced incidence of dark cutting. A reduction in the incidence of dark cutting in high muscled cattle also complements the other advantages of muscular cattle, such as increased retail beef yield and processing efficiency.

Selection for increased muscle content in a standard weight carcass can be achieved by selection of animals with higher EMA EBVs. EMA EBVs are estimates of the genetic differences between animals in eye muscle area at the 12/13th rib site in a standard weight steer carcass, with higher EBVs associated with larger eye muscle area. For example, an animal with an EMA EBV of +4.4 mm would be expected to produce calves with larger eye muscle area than an animal with an EMA EBV of + 1.0 mm, relative to carcass weight.

## 2. RIB FAT THICKNESS & FAT DISTRIBUTION

Rib fat thickness is the measured depth of subcutaneous fat over the quartered rib site between the 5th and 13th ribs.

A covering of fat is needed to protect the high value primal cuts from rapid chilling, which can cause toughening, and to enhance eating quality and appearance.

In addition to minimum fat levels, a key requirement for all beef markets is to have adequate cover over the high-value cuts along the loin (back) and rump. MSA requires carcasses to have adequate fat coverage over all major primals, with an area of inadequate fat distribution not being greater than 10cm x 10cm over each individual primal.

Selection for adequate rib fat and fat distribution can be achieved by selection of animals with appropriate Rib and Rump Fat EBVs. Rib and Rump Fat EBVs are estimates of the genetic differences between animals in fat depth at the 12/13th rib and P8 rump site respectively in a standard weight steer carcass, with higher EBVs associated with greater fat depth. For example, an animal with a Rib Fat EBV of +0.4 mm would be expected to produce calves with more fat than an animal with a Rib Fat EBV of -0.6 mm, relative to carcass weight.

## TAKE HOME MESSAGES

Whilst many of the factors that affect the eating quality of a carcass and its suitability for MSA programs are heavily influenced by animal handling and management, many factors are also influenced by the genetics of an animal.

Selection of animals with acceptable temperament, higher Docility EBVs, higher Eye Muscle Area EBVs and appropriate Rib & Rump Fat EBVs can improve MSA compliance, whilst selection of animals with higher IMF EBVs to increase marbling score, higher Growth EBVs to reduce ossification score, higher Rib Fat EBVs to increase carcass fatness and higher Carcass Weight EBVs to increase HSCW at the same maturity, will increase MSA Index values and thus increase the eating quality of your herd.

To further discuss breeding for MSA programs, please contact staff at SBTS and TBTS. More information about Meat Standards Australia is also available from the MLA website

[www.mla.com.au](http://www.mla.com.au)

# WHO'S YOUR DADDY?

## WHY SIRE VERIFY?

At Ascot we Sire Verify all our sale bulls to ensure that the bull you are investing in is as portrayed in the catalogue. Why is this important?

You are making an investment in genetics. These genetics, or pedigree of the animal you are buying, need to be independently verified as correct, not what we think it is.

## FIT FOR PURPOSE:

An example - You are looking for a bull with certain EBV's for calving ease and low birthweight - if the bull you purchase was by a different sire to what was thought, then these values would be incorrect. He may have poor calving ease & high birthweight - not desirable if you were needing a bull to join with heifers for instance.

Another scenario - You have chosen to invest in a bull with particular traits - fat, muscle or marbling for example to influence your herd. If the bull you have selected is not sire verified, then there may be a possibility of it having different carcass trait values altogether.

EBV's are influenced by historical data from the animal's pedigree, so an incorrect pedigree means incorrect EBV's. This then is an issue as the bull you have purchased is not fit for the purpose you intended.

At Ascot we strive to give as much accurate information as we can. As well as all measurements collected and submitted to the breed society, we submit DNA to identify pedigree, and also the homozygous polled gene in our Charolais herd, to give you as much information as we can to help you in making your purchase.

Parts of this article provided with the permission of AA

# HOMOZYGOUS POLLED

All animals stated as Homozygous polled in this catalogue have been tested with the SEQ\_POLL Prediction test at AGL, University of QLD prior to sale, and are PcPc or PcPf Homozygous.

## HOMOZYGOUS POLLED EXPLAINED

Recently, candidate mutations associated with polled phenotype in European breeds of cattle were found. There are two independent origins of polled, one found in Holstein-Friesian and Jersey breeds (Pf), the other in many European breeds of Celtic origin (Pc) such as Angus, Blonde d'Aquitaine, Dexter, Limousin, Charolais and Hereford, among others. Polledness is dominant; a polled animal can have one or two copies of the gene. All offspring of a bull with two copies of polled (homozygous) will be polled. Genetic testing is a cost effective means to determine if a polled animal has 1 or 2 copies of the gene.

**Pc/Pc Polled.** Two copies of the Polled-Celtic molecular marker are present. All offspring will be polled.

**Pc/Pf Polled.** One copy of the Polled-Celtic and one copy of the Polled-Friesian molecular markers are present. All offspring will be polled.

## Reference:

Medugorac I, D Seichter, A Graf et al. Bovine Polledness - An autosomal dominant trait with allelic heterogeneity. PLoS One 7(6): e39477, 2012. (as supplied by AGL, UQ, Gatton, Q.)

*Poll testing: Ascot Charolais bulls have been tested by the Animal Genetics laboratory at the University of Qld with the SEQ\_POLL Prediction test to identify their poll status. While this is the most accurate poll test available to determine if an animal is PP ( homozygous polled) there is no guarantee by Ascot that this is 100 % accurate. We rely on The University to determine an animals status. Therefore Ascot cannot bear direct liability or any consequential losses incurred by the purchaser should this test deemed to be incorrect.*

# BETTER BREEDING DECISIONS

THE PERFECT COMPLEMENT TO YOUR HERD, ASCOT BULLS WILL ADD KILOS, CARCASE AND FINISHING ABILITY.

THE OPTION OF 2 BREEDS PROVIDES YOU WITH MORE OPTIONS AND GENETIC DIVERSITY FOR YOUR HERD.

2019 CHAROLAIS BREEDPLAN

2019 ANGUS BREEDPLAN

■ BREED AVERAGE ■ ASCOT AVERAGE

■ BREED AVERAGE ■ ASCOT AVERAGE

### GENETIC INVESTMENT

- Renowned for investing in leading Charolais and Angus genetics
- Search Australia and the world to source genetics that meet their high breeding standards
- Ascot sires are now being used as AI sires throughout Australia & New Zealand

### PERFORMANCE FOCUS

- Weight is money
- Focused on cattle that can grow quickly to MSA standards
- Breeding decisions are made with MSA carcass traits as our main focus
- Phenotype is a major part of our breeding program.
- Our bulls are quiet, thick, polled, have great skin type and exhibit good weight for age

### POLLED FOCUS

- Polled cattle is a major focus at Ascot
- All PURE Angus are naturally polled, extremely attractive for commercial cross breeding programs
- Aim is to have a totally polled (nearly achieved) and eventually a totally homozygous polled herd
- We conduct a homozygous polled testing program

### FERTILITY FOCUS

- Cattle are designed to breed and perform in a range of Australian climates
- Breeding herd is put under strict fertility pressure from conception to weaning.
- Non-performing females are culled, which makes for a very fertile herd

### DATA & MEASUREMENT

- We weigh nearly every calf ensuring data accuracy
- We hold a 5-star rating for recorded traits for the Charolais Breed
- We submit data to the highest standard available with the Angus breed
- Ultrasound scanning for EMA, IMF% and fat cover is used for submission to Breedplan
- We supply this data to clients prior to sales

### QUALITY ASSURANCE

- Every animal sold at Ascot is independently assessed for feet, structure and temperament by Jim Green
- All bulls are semen tested and vetted for soundness
- Vaccinated for Pesti Virus, 7 in 1, 3 day, tick fever, Botulism and Vibrio.
- Every animal sold comes with a fertility guarantee, plus our great after sales service and support

### MARKET SUITABILITY

- MSA grading is the basis to our selection criteria
- Our bulls will add carcass value and eating quality to your progeny
- We select for early weight for age, positive fat cattle, (for both fertility and finishing ability) and for cattle that can exhibit marbling
- Our breeding program is a balance between carcass EBV's & phenotype

# STRUCTURAL ASSESSMENT AT ASCOT

Jim Green – 0402 003 137

## At Ascot we are 'Raising the Bar'

All sale bulls & PTIC females will be independently assessed for feet, structural soundness & temperament by industry renowned accredited assessor Jim Green. Jim Has over 20 years' experience in doing this & this is all he does. He does it for many seed stock producers all over Australia. As can be expected he knows his stuff!! Each animal will have its structural & docility result stated in our sale catalogue. We feel this is one more way we can give our buyers more comfort & confidence in the animals we are selling.

Good structure in cattle has a direct effect on growth and

reproductive performance of a beef herd. Structural problems have detrimental effects on longevity, conception rates, calving timeframes and therefore directly impact on profitability.

Leg and feet issues, and temperament are highly heritable, therefore identifying animals with these issues allows you to improve your herd through assessment and selection.

At Ascot, independently assessing structure and temperament, measuring and collecting data, along with the use of performance recording gives us a better picture of how individual animals perform. This aids genetic selection and helps us breed animals with desirable traits.

## SCORING DIAGRAM

## 1-9 Scoring System for feet and leg structure

- A score of 5 is ideal. (Note: Temperament score of 1 is ideal)
- A score of 4 or 6 shows slight variation from ideal, but this includes most sound animals
- An animal scoring 4 or 6 would be acceptable in any breeding program
- A score of 3 or 7 shows greater variation but would be acceptable in most commercial programs. However seedstock producers should be vigilant and understand that this score indicates greater variation from ideal.
- A score of 2 or 8 are low scoring animals and should be looked at cautiously and inspected very closely before purchasing
- A score of 1 or 0 should not be catalogued and are considered immediate culls

## Temperament

Temperament or docility score separates animals from the same contemporary on their calmness in a confined area. Animals which are extremely quiet score '1'. Animals that are aggressive and extremely agitated in the crush score as '5'.

### HHV Percentiles for ASCOT HALLMARK H147 (AI)

### COMMENTS

Angus Sire Benchmarking Program Cohort 5 – Hallmark is rated No.5 for 200D wt, No.7 for 400D wt, No.2 for 600D wt, No.5 for Rib Fat and No.2 for Rump fat.

Outstanding sire for the future by Te Mania Emperor out of a Millah Murrah D108 daughter.

Great temperament, good bone and great muscling complement his sire's outlook. Good footed. Tight sheath. Huge scrotal. Frame score 7.

- Growth: Top 1% 200, 400 & 600D & Carcass Wts
- Carcass: Top 5% Rump Fat, Top 15% IMF
- Fertility: Top 2% Scrotal size
- Indexes: Top 2% ABI, Heavy Grain & Grass Indexes

Top 1% 200D,400D,600D & Carcase Wts. Top 5% Rib fat, Scrotal size & Shorter days to calving. Top 10% Rump fat & Shorter gestation length. Top 15% Heavy Grain, Heavy Grass & Angus Breeding Indexes. Top 25% Feed efficiency. A tremendous Ascot Hallmark son here that is very powerful with great bone, thickness, softness, depth of body & great sire's head. Don't forget all the important carcass traits he also has including top 1% all growth EBVs, Very positive fats, above breed average IMF & very short days to calving. Very good structural scores. STUD potential out of a top end Millah Murrah donor cow. Top drawer bull to start the sale & one of our favourites.

Top 2% Shorter days to calving. Top 10% IMF,600D wt, Scrotal size & Heavy Grain Index. Top 20% 400D wt, Rump fat & Angus Breeding Index. Top 25% 200D & Carcase wts. An upstanding, powerful bull here with great thickness & softness, very deep, clean coated with a true sire's head. Combine this with good carcass data including top 10% 600 day Wt & IMF, very positive fats & top 2% days to calving (fertility). This is a top bull. Good disposition. Typical of his now renowned sire Ascot Hallmark (who is still working as a natural sire at Ascot). His Millah Murrah dam is in the top 5 donor cows in our herd.

Top 5% 200D & Carcase Wts. Top 10% 400D & Scrotal size. Top 15% 600D wt & Shorter days to calving. Above breed average IMF. Lot 4 - New York is a great example of the muscle & bone that his sire Millah Murrah Loch Up is stamping on his progeny. Loch Up was the top selling angus bull in Australia in 2016 at \$85,000. Ascot purchased the bull along with ABS as the semen distributor. His dam has been a tremendous cow in the herd with her pedigree going back to Te Mania Infinity & W109. We feel New York is the best Loch Up son we have seen. He has tremendous thickness, softness, bone, muscling & very deep sided & broad across the backline. Combined with good structure, large scrotal & a massive sire's head he is a STUD SIRE. He has a very quiet disposition. We used him in the stud last year as a yearling. Ben Simpson quoted at time of taking photos in early August that "he was the best bull Ascot has bred & we have bred some good ones". If we did not own Loch Up we would not be parting with this bull. My pick bull of the sale. We retain a 20% semen share in this bull.

▶ Video of LOT 5 available at [ascotcattle.com.au](http://ascotcattle.com.au)

Top 1% Scrotal size & Shorter days to calving. Top 10% Rump fat. Top 15% carcass wt. Top 25% 400D & 600D wts. First of the Ascot Lion Heart sons in the sale. We sold Lion Heart in our 2016 sale for \$70,000 to Ben Nevis & Trio studs. These are the first 2 year old bulls by him we have sold. Lot 5 is very typical of his sire with extreme thickness, softness, depth & muscling with a strong sire's head again. Large scrotal & good sheath structure with near perfect structural scores. Good balance of carcass data including short days to calving EBV. Great bull here and one of the best in the sale. Stud sire potential.

Top 1% 600D wt. Top 2% 200D, 400D & Carcass Wts & Shorter gestation length. Top 5% Rib fat. Top 15% Rump fat & Shorter days to calving. Top 20% Heavy Grain Index. Top 25% Feed efficiency. Full brother here to Lot 1 if you liked him. Similar to lot 1 but perhaps a bit more frame & growth. A bull with tremendous length, large scrotal, well structured sheath & a powerful polled head just like Hallmark. Top of the tree growth EBVs & fats to match the bull. Another good bull not to overlook.

Top 1% 200D & 600D wts. Top 2% 400D wt. Top 5% Scrotal size & Carcase wt. Top 15% Heavy Grass Index. Top 20% Shorter days to calving. Top 25% Retail Beef Yield, Shorter gestation length & Angus Breeding Index. Top 30% Eye muscle area. Yet another tremendous Hallmark son & a full ET brother to Ascot Lion Heart who sold for \$70,000. A very soft bull like his brother he is extremely thick, moderate framed, full of red meat right through with very strong top line. Well balanced carcass data with very high 200,400, 600 Day wts, good EMA & positive fats. It's hard to split these Hallmark sons.

Top 10% 600D & Carcase Wts. Top 15% 200D,400D wts, Calving ease & Shorter gestation length, Heavy Grain & Grass & Angus Breeding indexes. Top 20% Feed efficiency. Top 25% milk. Top 30% IMF. First of the Clunie Range Kahlua bulls in the sale. Sons of Kahlua were a highlight at the Clunie Range sale this year. As with his sire this bull is upstanding, exhibits extra length, a slick coat with good scrotal & sheath set up. Very balanced EBVs from moderate birth weight to high growth & good IMF. Excellent structural scores.

TRAITS OBSERVED: BWT,200WT,400WT(x2),600WT,SC,Scan(EMA,Rib,Rump,IMF)

Top 1% Shorter days to calving. Top 2% 400D & 600D wts & Scrotal size. Top 5% 200D & Carcase wts & Heavy Grass Index. Top 10% Rib & Rump fats & Angus Breeding Index. Top 20% Domestic & Heavy Grain Indexes. First of the next management group of bulls this bull could easily have been in the first 5 bulls in sale. A very heavy, powerful yet soft easy doing Hallmark son out of a Millah Murrah cow who has one of the best calves every year without a miss. As well as being very thick he has added length & depth with a slick skin & large scrotal & powerful polled head. He has balanced data including good weight, positive fats & very low days to calving EBVs. Good temperament with good structural scores means who could easily fit into a STUD operation. One of the best here.

Top 5% 200D,400D & Carcase wts. Shorter days to calving & Gestation length. Top 10% Feed efficiency & 600D wt. Like lot 17 this bull is one of the best. Another great Loch Up son by a Kansas cow that has sold sons to \$20,000 for us in previous sales. She has one of the best calves every year as well. Strong data set with very high weight EBVs. Short days to calving & positive fats. He exhibits extra bone, thickness, softness & muscling & would suit a grass fed program well. Very good structural scores.

Top 10% Carcase wt & Milk. Top 20% 400D & 600D wts. Top 30% 200D wt & Lighter birth wt. First of the K5X legend sons who's sons sold to \$10,000 & heifers to \$14,000 at our Autumn sale this year this bull exhibits extra muscling, thickness & depth like his sire. Balanced data from low birth weight to above average growth EBVs. EBVs suggest HE SHOULD SUIT HEIFERS OR COWS.

TRAITS OBSERVED: BWT,200WT,400WT,600WT,SC,Scan(EMA,Rib,Rump,IMF)

Top 10% Scrotal size & Carcase wt.Top 15% Eye muscle area,Rump fat,200D & 400D wts,Shorter gestation length & Days to calving.Top 20% Domestic Index.Top 25% IMF & Angus Breeding Index.Top 30% Milk,Heavy Grain & Grass Indexes. A special young bull here. First of the 16 to 18 month old bulls he will be 17 months at sale time. He is by the \$85,000 Millah Murrah Loch Up bull by the dam of Ascot Lion Heart who sold for \$70,000. He has that balance of being thick, deep bodied, well structured with a clean skin type with good scrotal & sheath development combined with carcase EBVs nearly exactly where you want them to be. And has super docility. He has lower birth weight, high growth, short days to calving, good milk, high scrotal,high EMA & high IMF EBVs. STUD POTENTIAL. Making him even more versatile his EBVs SUGGEST HE SHOULD SUIT HEIFERS OR COWS.

Top 5% 200D,400D & 600D wts & Shorter gestation length. Top 10% Carcase wt & Feed efficiency. Top 15% Milk. Top 20% Shorter days to calving. Top 25% IMF, Heavy Grain, Grass & Angus Breeding Indexes. Another standout yearling bull here by one of my favourite cows & Loch Up. He stands out in the paddock, is upstanding, with great thickness, spring of rib, extra bone as most of the loch up's have & with slick skin & large scrotal. Well balanced EBVs with Top 2% for all 3 growth EBVs & good IMF. Fantastic weight for age.

Top 3% Rump fat. Top 5% Rump fat & Shorter gestation length. Top 15% Eye muscle area, Shorter gestation length. Top 20% 200D & Carcase wts. A good combination here Coonamble Hektor over a Hallmark daughter. These yearling bulls present a good opportunity to access new genetics. This is a very good bull with thickness & depth of body like most of them. A good combination of carcase EBVs including above average growth, short days to calving, carcase wt, EMA & positive fats. Good structural scores. The real Ascot balance here. Don't miss him.

Top 2% 200D,400D & 600D wts & Retail beef yield.Top 5% Eye muscle area.Top 10% Carcase wt & Heavy Grass index.Top 20% Scrotal size.Top 25% Angus Breeding Index & Shorter days to calving.Top 30% Rib fat & Feed efficiency.High Eye muscle EBV of 9.3. PLEASE NOTE: I think this is the first Nampara Liberty son to be sold in Australia. Ascot & Keringa Angus in SA bought Liberty for \$85,000 in 2017. Liberty is a real powerhouse sire. This young son looks the goods with extra thickness, heavy bone,depth of body & a strong polled sire's head.Add to this excellent structural scores, very good temperament, good scrotal & sheath structure plus top 2% all 3 growth measures, very high EMA he shouldn't be overlooked.

| 7 | 6 | 6 | 7 | 5 | 5 | 4      | 1     |

Top 1% 200D wt & Scrotal size. Top 2% Northern Terminal Index. Top 5% 400D, 600D & Carcase wts, Domestic & Export Indexes. Top 10% Calving ease, Lighter birth wt & Shorter gestation length. Top 15% IMF. A great bull to start the Charolais with. He was selected to use over heifers as a yearling that's why he will be separate from the other bulls on sale day. He is moderate, very thick set, very soft, meaty & an easy doing bull with slick skin type. He is hard to fault with good scrotal & sheath structure, very docile & good sire's head. Top end EBVs with low birth to high growth, good carcase weight & good IMF. Very versatile as his EBVs suggest he should suit cows or heifers. To top it off he is DNA tested **HOMOZYGOUS POLLED** & RED FACTOR.

Top 1% Carcase wt. Top 5% Milk. Top 10% 400D & 600D wts, Scrotal size, & All Indexes. Top 15% Rump fat. Top 20% IMF, Rib fat & Calving ease dtrs. Top 25% Eye muscle area & Lighter birth wt. This is a very good bull we like a lot. Thick right through, clean coated with large scrotal & good softness as well. To top it off his carcase EBVs are nearly perfect with low birth weight, high 400 & 600 day weights, good milk, carcase weight, positive fats & IMF. Versatility here as his EBVs suggest he should suit cows or heifers. Doesn't get much better than this in a bull package.

Top 2% Rib & Rump fats. Top 5% 200D, 600D & Carcase wts & Northern Terminal Index. Top 10% 400D wt, Milk & Export Index. Top 15% Eye muscle area Scrotal size & Export Index. First of the Rosedale Lump Sum sons in the sale - he is extremely thick right through with extra muscling, yet still retaining the softness we need. A moderate bull, he has a very large hind quarter, large scrotal, large sire's head & strong bone. Carcase EBVs are nearly perfect across the board from low birth to high growth, high milk, high carcase weight & very positive fats. Puppy dog quiet & DNA tested **HOMOZYGOUS POLLED**. A bull we like a lot with Stud potential.

Top 1% Northern Terminal Index. Top 2% Milk, Carcase wt, Calving ease & Shorter gestation length, Domestic & Export Indexes. Top 5% 200D & 600D wt. Top 10% 400D wt & Lighter birth wt. Top 20% Scrotal size. Top 25% IMF & Rump fat. Navigator is another Lump son who is breeding very well for us. This is real favourite of mine in the sale. He pretty well has everything you could ask for in a STUD SIRE. Super thick & broad right through with great muscling & softness, strong polled sire's head, clean coated & very quiet. The all important carcase trait EBVs are exactly where you want them with low birth to very high growth for all 3 growth measures, high milk, high carcase weight, good EMA & positive fats & IMF. His structural scores are nearly perfect including good scrotal & sheath structure. To top of this great package he is DNA tested **HOMOZYGOUS POLLED**. Doesn't get much better than this.

Top 5% 600D wt & Scrotal size. Top 10% Milk, 400D & Carcase wts. Top 15% Rump fat & Northern Terminal Index. Top 20% Rib fat. Top 25% 200D wt & Eye muscle area. A larger framed bull here by Ascot Eldorado's dam & Galaxy. A bull with extra length, bone, strong polled head & slick skin type. He also has large scrotal, good sheath & very quiet. Balanced EBVs with good growth, milk, carcase weight, EMA & fats. Another very good young bull that would suit many markets including cross breeding over Brahman content cows.

TRAITS OBSERVED: CE, BWT, 200WT, 400WT(x2), 600WT, SS, FAT, EMA, IMF

Top 5% Rump fat & Scrotal size. Top 10% IMF, Rib fat, Eye muscle area, 400D & 600D wts & Northern Terminal Index. Top 25% Carcase wt & Export Index. Another top end bull here out of one of our top donor cows we bought from Palgrove as a heifer for \$20,000. She has bred many top stud sires for us. His sire was one of our sale toppers in 2016 selling to Nick Mather. This bull has extra length, slick skin type, ideal bone & has the softness we breed for. Balanced carcase trait EBVs across the board with good growth, milk, carcase weight, EMA, positive fats & IMF. Good bull not to miss.

Top 1% 200D,400D,600D & Carcase wts. Scrotal size & All Indexes. Top 10% Calving ease & Shorter gestation length. Top 20% Milk. This bull is first bull of the next management group & first of the Paringa Kilo Packer sons that sold very well in our April sale this year. He is extra thick right through, slick skinned, with extra muscle but still retaining softness. A good combination. Curve bending carcass trait EBVs from lower birthweight to top 1% all 3 growth indices, high milk, extremely high carcass weight, positive fats & IMF. A super, industry-focused package here when you add in he is DNA TESTED **HOMOZYGOUS POLLED**. Great all round bull.

Top 5% Eye muscle area. Top 10% Rump fat & Scrotal size. Top 15% Rib fat & Lighter birth wt. A stand out RED FACTOR bull here by Ascot Eldorado who has sired many of our top priced bulls over the years. He is very mobile, thick right through, with good muscling, & good hind quarter. He has very slick skin, large scrotal with good sheath structure & strong polled head. Very high EMA & positive fat carcase trait EBVs make him a good industry bull.

## Congratulations to Tanya Haynes of River Run Charolais

- her bulls sired by Ascot Gunn and Ascot Goldrush topping the recent Coolibunia Classic sale at \$11,500 and averaging \$8250.

**"Ascot bulls have always had that sire power and have put a consistent line of cattle on the ground for us year after year"**

Tanya Haynes

Pictured is Tanya Haynes at the Coolibunia Classic sale with buyer Erin Duncombe, with River Run Nipper - Homozygous Polled, 1050kgs, fat 18/13, EMA 150 cm, sired by Ascot Goldrush G136.

Tanya says of her Ascot Gunn sire **"He's so consistent, great feet & a Temperament second to none"**

Top 1% IMF. Top 5% 200D, 400D & 600D wts, Rib & Rump fats, Shorter gestation length & Northern Terminal Index. Top 10% Scrotal size & Export Index. Top 15% Eye muscle area & Carcase wt. Top 20% Domestic Index. First of the next management group this is an exceptional younger bull. Thick right through with good bone, muscling & yet retaining softness. Strong Polled head with good scrotal & sheath structure. Absolutely balanced carcass EBVs from moderate birth weight, top end growth, high EMA, very positive fats & top 1% IMF. Doesn't get much better than this. A DNA TESTED **HOMOZYGOUS POLLED** BULL makes him an outstanding commercially focused bull.

Top 1% 200D wt. Top 2% 400D wt. Top 5% 600D & Carcass wts. A yearling bull we really like here he is 17 months at sale time. By Ascot Juggernaut who was bought by Nick Mather in 2016 for \$30,000 & who sired our April sale topper at \$26,000 he has all the traits of his sire. He is thick, with good bone, good muscle yet still retains softness & a strong top line. Top end EBVs for all 3 growth measures & carcass weight. He puts it all together with very good structural scores & he is DNA TESTED **HOMOZYGOUS POLLED**. This is an opportunity to get a rare Juggernaut son who will be magnificent as a 2 year old.

Top 10% Scrotal size. Top 15% Rump fat, Shorter gestation length & Lighter birth wt. Top 25% Rib fat & Domestic Index. Top 30% Eye muscle area & Export Index. This young, RED FACTOR bull is by Ascot Juggernaut, who sired our top priced bull in the Autumn sale at \$26,000. An autumn calving bull that had a tough start, in dry conditions, he will mature into a stylish bull. He has good thickness, good length & good scrotal & sheath structure. Good carcass traits of positive fats & EMA. His EBVs suggest he should SUIT COWS OR HEIFERS. He has the added advantage of being DNA tested **HOMOZYGOUS POLLED**. Don't overlook him because of his age.

Top 1% Rib & Rump fats. Top 2% Lighter birth wt. Top 5% Calving ease, Domestic & Export Indexes. Top 10% IMF & Shorter gestation length. Top 15% Northern Terminal Index. Top 20% Scrotal size. This is a very thick, soft, earlier maturing young bull with a lot of style. He has a strong polled sire's head with good scrotal & sheath development. He has very positive fats & IMF EBVs. His EBVs SUGGEST HE SHOULD SUIT HEIFERS OR COWS so very versatile young bull here. On top of all this all his calves should be polled as he is DNA TESTED **HOMOZYGOUS POLLED**. Very nice bull.

# HOW TO GET THERE

ASCOT

## Coming from Toowoomba

- From the New England Hwy at Allora, turn right into Allora Dve.
- Stay on this road through Allora continuing south towards Warwick for 15 km.
- North Toolburra is on your right

## Navigating by GPS

- If navigating by GPS:  
Enter 1123 Warwick-Allora Road,  
Massie

## Coming from Stanthorpe

- Coming in to Warwick on the New England Hwy, go straight ahead at the 1st set of lights (at Wood St.).
- Continue straight ahead along Rosehill Rd, past the Racecourse, and past John Dee Meatworks.
- Follow this back road to Allora for 9km past the meatworks.
- North Toolburra is on your left.

QUEENSLAND LIVESTOCK AGENTS ASSOCIATION LIMITED

# STANDARD STUD STOCK - AUCTION TERMS AND CONDITIONS OF SALE

IMPORTANT NOTE: All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.

1. The highest bidder shall, subject to Conditions 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneer's absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.
  2. The sale will be conducted on a "Sale" or "No Sale" basis, whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.
  3. The details of the purchaser, the purchase price and the lot sold as recorded by the Sale Clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.
  4. The auctioneer expressly reserves the right, without giving any reason therefore to:-
    - (a) Refuse to acknowledge any bid;
    - (b) Withdraw any lot or lots before or during the sale;
    - (c) Exclude any person from the auction venue should it think fit.
  5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.
  6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these conditions as made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee, warranty or condition whatsoever was given or implied.
  7. In the event of any dispute in respect to the sale of any lot:-
    - (i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions;
    - (ii) The vendor and the purchaser shall resolve the dispute between themselves;
    - (iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and
    - (iv) No lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.
  8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.
  9. (a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidders' offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated and until property shall pass, the purchaser shall hold such lot as Bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-
    - (i) Rescind the contract on behalf of the vendor and repossess and resell any lot;
    - (ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the AMBA Bill Rate and two percentum. For the purposes of this condition, the expression "The AMBA Bill Rate" is the rate published by the Australian Merchant Banker's Association in good faith as at the date of the sale as its Bill Rate for 180 day Bills of Exchange expressed as a percentage per annum. If at any time the AMBA Bill Rate becomes unavailable for any reason, the auctioneer shall determine and advise the purchaser for the interest rate to apply for the purpose of this condition.
  - (b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.
  10. If the purchaser shall neglect or fail to comply with any of the within conditions any lot purchased by him may be immediately resold by Public Auction or Private Contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.
  11. Any vendor or purchaser removing the Sale Number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damages should the lot be wrongly delivered.
  12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions and shall jointly and severally carry out and perform sale.
  13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however that this condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.
  14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf, for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.
  15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.
  16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trades Practices Act or any applicable State legislation which cannot be contractually these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby executed. The auctioneer is not liable in respect of any error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.
  - (b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to remain with the vendor.
  17. In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser, and the auctioneer, while he shall use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions.
  18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.
  - (b) If any vendor brings to the premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right in its absolute discretion, to exclude from the sale venue or dispose of any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
  19. DELIVERY. Except at the discretion of the auctioneer, no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer, pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
  20. In these Conditions:-
    - (a) References to "auctioneer" shall be taken to mean as the contest so admits, the Selling Agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot.
    - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1.
    - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm.
    - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.
- IMPORTANT NOTICE The Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.
- All persons who attend the sale do so entirely at their risk and the Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.
