

Welcome to the 2019 Greenup Eidsvold Station Sale Team.

The sale will be on **Thursday September 19, 2019, commencing at 12 pm at the Eidsvold Saleyards.**

Note: This is a change to the usual Friday.

This year's team is jam-packed with muscle, fertility, growth and the renowned Greenup Eidsvold Station easy-doing constitution.

The country our bulls are bred on, underpins the doing ability of this line and the reason the bulls thrive north of the Flinders, and across arid rangelands of Australia, and also excel in feedlots and fertile scrub. Most of these bulls and their dams, were bred in rough, Ironbark forest country and weaned around 200 kgs, learning how to walk the steep slopes of the Great Dividing Range, while surviving on low protein, native pasture. Our bulls have had a tough start, but this is the foundation of a long, productive working life, and it forms the substance of a female cattle herd with exceptional constitution and doing ability.

We take pride in the standards we set for preparation, fertility and structure. These standards result in bull returns/breakdowns that are well below 0.5% over the last decade. As well as placing the highest standards on our bulls, we offer a 100% money back guarantee for fertility and temperament to ensure our clients are 100% satisfied and confident with their purchases.

Our bulls' soundness and fertility is sacred. This is one of the ways we can maximise the returns for your investment!

Our preparation regime does mean that our adolescent bulls are not the largest and the fattest in the Spring sale circuit. Inevitably we get the calls after summer exclaiming how well the bulls have continued to grow and thrive, while working. Most importantly, our preparation program ensures our bulls' fertility and structure is preserved, and they are fit to walk and travel distances and will provide a long working life for our clients.

This 2019 team offers 100 bulls, of which 78 are poll/pollscur and 87 are Classified 'S' bulls.

This team offers several exceptional trait leaders and the usual exciting standouts. However, what pleases us most is the consistency and standard of the draft, which average in the top 15-20% of all Santa Gertrudis Breedplan Cattle.

Genetics pays a handsome return for the well-considered investment. Desirable genetics have true value in the market place every day of the year, whatever the market conditions. Genetics make money through premiums, market access, feed conversions and weight for age, as well as using reducing costs of production where soundness and fertility are preserved through a healthy preparation program.

The current market provides an excellent opportunity to turn over older bulls with cull bulls achieving around \$2,000. On a \$7,000 bull bought five years ago, that is a cost of approximately \$15 per calf. This is a tiny sum, especially when compared to the hundreds of dollars variation between a high and low value beast through its lifetime.

This year's sale team is selected from the largest registered Santa herd and draws from a pool of over 100 sires, but as always, the cream rises to the top and thirty sires are represented in this year's draft. One quarter of the draft are by New Release Sires including Greenup Legacy, Dangarfield Yabberwocki and Rosevale Gallipoli.

The sale will be livestreamed and interfaced with AuctionsPlus. Bulls may be inspected any time. Full catalogues are available at www.greenup.com.au or contact us or your agent for a hard copy. Free delivery is offered to major selling centres and on-property wherever feasible.

We hope to see you at the sale and wish you all the best for the season and beyond.

Rick and Alice
