

PALGROVE

35th Annual
BULL SALE

Friday 13th Sept 2019
'Strathgarve' Dalveen QLD - 12 Noon

Lot 7

PALGROVE

Committed to Breeding Excellence for 50 Years

Welcome to our 35th Annual Bull Sale and what a milestone 2019 is for Palgrove.

The Charolais

This year we celebrate 50 years of breeding these amazing cattle. In that time, we've heard the breed described as 'a novelty' - 'exotic' - 'Euros' - even 'powder puffs' and 'fluffies'.

We're pleased we didn't listen to the critics who said that Charolais would never last in Australia... "They won't survive, they won't marble, they won't fatten off grass, they're not maternal etc etc..."

We can only speak for Palgrove, but we are proud to say that we have proved them wrong in so many ways!

The Charolais bulls in this sale demonstrate in every single Lot, our commitment to the profit traits - fertility, carcase and growth. Throw in exceptional temperament and a focus on powerful polled genetics and you've got bulls to breed progeny that feedlots and processors just can't get enough of.

There is no doubt, Palgrove's proven quality Charolais genetics make a very real difference in a cross breeding beef business. Our consistent wins across local and export weight gain and carcase competitions independently prove the value add.

The Ultrablack

In 2019 we're pleased to present our most consistent offering of Ultrablack bulls ever and what a draft they are!

We responded to clients needs for an Angus based breed option to use in their breeding program. We designed the UB genetics with inbuilt hybrid vigour and the best of the Angus/Brangus profit traits to produce bulls that outperform their parent breeds.

Our UB bulls are recording spectacular IMF and weight gain data - way beyond our expectations. They're hardy; they marble extremely well; they grow fast; make fantastic cows and are now being used by several of the large pastoral companies across Australia to add the 'Angus influence'.

We hope clients can source all of their sire requirements on one day at Palgrove. The Charolais and Ultrablack complement each other so well in a balanced commercial beef operation in so many environments and markets. It's as simple as that!

The team at Palgrove have worked hard to present bulls that represent the very best we know how to breed. We would be very excited to show you why we're so proud of the 2019 sale bull draft. Join us on **Friday 13th September** (yep Black Friday!) at Strathgarve, Dalveen or online at AuctionsPlus.

SALE INFORMATION

Inspection:

Cattle may be inspected any time prior to the sale by arrangement. If you can't make it on sale day, we encourage you to inspect the bulls at a time convenient to you and bid via phone or AuctionsPlus.

Sale Day Safety:

We pride ourselves on the excellent temperament of our bulls, however, there are risks associated with bull behaviour on sale day and it is our responsibility to keep you safe.

If you wish to enter the pens please be aware that bulls may fight with each other or they can be playful. We cannot accept responsibility for your safety if you do not follow the instructions of our staff.

If you are limited in your mobility or if you have children accompanying you, **please do not enter the sale pens.**

AuctionsPlus:

AuctionsPlus is an alternate bidding option if you can't attend the sale in person. However, it is only available to registered users. We recommend registering online as soon as possible - at least 24hrs prior to the sale.

Register at www.auctionsplus.com.au

Breeding Soundness:

All sale bulls offered for sale have passed a semen test by Veterinarian, Ced Wise.

All bulls offered for sale have been examined by the stud's Veterinary consultant for structural and physical soundness to Australian Veterinary Association standards. A Bull Breeding Soundness Evaluation Certificate will be available.

Guarantee:

All stock are guaranteed breeders. Any claim against the breeding ability of an animal purchased should be made in writing and accompanied by a Veterinary Certificate within six months of the date of sale. In the event of a bull failing to breed, it may either be replaced with an animal of comparable value or credit to the full purchase price will be given at the following sale or on a private sale animal.

Health:

Palgrove maintains a J-Bas 7 status, so bulls are free to move to anywhere in Australia. **However, only our Qld born and raised bulls are eligible to travel to Western Australia.**

We urge WA buyers to check these Lots with Ben Noller M:0427 700 949.

Sale bulls have been inoculated twice with 7-in-1; Pestigard, Vibrio and 3 Day Sickness and 3 germ tick blood vaccinated.

Delivery:

We take personal interest in the efficient delivery of all stock after the sale. George & Fuhrmann and Landmark will be handling the delivery of sale cattle.

We offer Freight Assistance to several major centres including Emerald, Roma, Inverell and Glen Innes. Please talk to Ben Noller M:0427 700 949 *prior* to the sale.

Palgrove Stud:

The Palgrove stud is based near Warwick QLD, with breeding properties also located at Ben Lomond and Inverell. Our bull depots are located at Emerald and Drillham.

For 50 years, we've adapted our Charolais genetics through a commitment to research, education, new technologies and a common sense 'cattleman's eye' to suit clients' environmental and management conditions.

We've grown the stud to a size where it ranks as the largest Charolais stud in Australia and by all accounts, the second largest in the world.

In 2009, we started developing our Ultrablack bull breeding program. We're positive that they offer another profitable option to our clients' production and target markets.

Our Ultrablack female herd is now around 1400 breeders.

The Sale Bulls:

Our policy has always been to prepare our sale bulls on pasture and oats, so that they remain structurally and reproductively sound. This means that the sale weight of our bulls may be slightly less than bulls at other sales that have been fully prepared on a high grain ration.

A bull's career begins rather than ends on sale day - so be cautious about comparing bull weights and fat scans between the various sales. Comparison of bulls in a contemporary group is a far more reliable indicator.

It is in your best interests to purchase bulls that have had a moderate long term feed ration rather than one that has been 'pumped up' for sale day.

Our Approach:

Even though the scale of the registered herd has increased substantially since 1969, our breeding objectives haven't wavered. We aim to be leaders in genetic improvement and customer satisfaction.

Palgrove buyers expect the best from our cattle - whether it's a one stud sire or a draft of 100 commercial bulls. Our job is to deliver cattle and service that is beyond our clients' expectations.

Commercially Focused Genetics:

Since the early beginnings of the Palgrove stud, we have been using raw data and Breedplan to measure the genetic improvement in our cattle for the three main profit drivers:

- a) Fertility
- b) Growth and Weight Gain
- c) Carcass Merit

It's been a systematic selection process over 50 years with Palgrove possessing the largest and most comprehensive Charolais and Ultrablack EBV data in the country.

We've always focused our breeding programme on the commercial profit traits, but until now it was difficult to verify the value of Palgrove genetics - particularly for eating quality and the carcass \$ value that Palgrove genetics add.

Over the last few years, we've entered cattle in the Paddock to Palate competition which has enabled us to verify the profitability of Palgrove commercial progeny. Our cattle have risen to the top consistently with winning pens across weight gain, carcass and eating quality. We don't just make claims - we deliver value!

Please refer to Terms and Conditions of Sale at the back page of this Catalogue.

PERFORMANCE INFORMATION

In this sale, there are two separate BREEDPLAN figures presented:

- Charolais Group Breedplan
- Angus MBR Breedplan

Each breed runs a separate BREEDPLAN evaluation. As the genetic base for each breed is different, only EBVs for animals *within* a particular breed can be directly compared.

Putting this in practical terms, a 600 day weight EBV of +41 on an Ultrablack bull is not equivalent to a 600 day weight EBV of +41 on a Charolais bull.

Our Ultrablack bull EBVs are provided to us as registered animals on the Angus Multi Breed Register (MBR). Only pure Angus cattle are recorded on HBR/APR registers.

We have not included the \$Indices on our Ultrablack bulls as they are only relevant for purebred Angus genetic comparisons.

Perhaps we may even live long enough to see breed societies produce one single Breedplan report for all breeds.

When assessing cattle performance it is essential to always compare 'apples' with 'apples'.

Therefore, we suggest you use the Angus Society EBV information provided in this catalogue to assess the Ultrablack bulls as a contemporary group only (ie. compare Palgrove bull to Palgrove bull within this sale).

Charolais Group Breedplan Averages 2017 born calves

	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	Dom\$	Exp\$	N'th\$
EBV	0.5	6	12	23	31	1.0	1.5	0.3	0.2	24	33	17

Angus Group Breedplan Averages 2017 born calves

	BW	Milk	200	400	600	SS	EMA	Rump	IMF%
EBV	4.3	15	45	81	106	1.8	5.1	-0.2	1.7

Parent Verification Assurance:

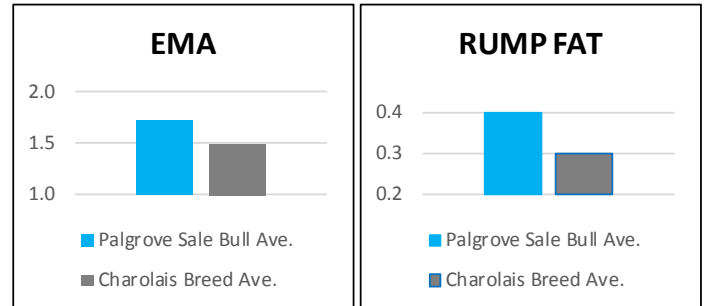

PV - these lots have been DNA Parent Verified (both Sire & Dam) with either Angus Australia or the Charolais Society

SV - these lots have been DNA Sire Verified with either Angus Australia or the Charolais Society

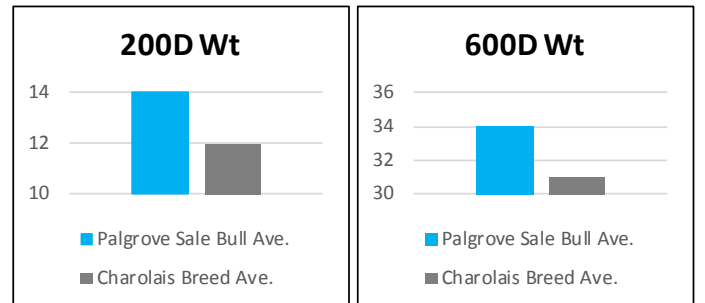

DV - these lots have been DNA Dam Verified with either Angus Australia or the Charolais Society

DNA verification improves the integrity of the pedigree & EBV information that is displayed in this sale catalogue.

CARCASE

GROWTH

Extra Yield = Real Profits!

Assume two steers that both have a liveweight of 670 kgs were sent to a processor at a price of \$5.60 kg carcass weight.

One steer dressed at 55% (368.5 kg x \$5.60 = \$2,064.10) & the other dressed at 57% (381.9 kg x \$5.60 = \$2,138.60)

That's an extra \$37 per 1% extra dressed weight in your pocket for every animal. Or in this example, another \$74 *per head* for the same liveweight steer.

Palgrove bulls have been generationally bred for increased yield **without sacrificing finishing ability, Fat Cover and MSA compliance.**

The carcass data now available to all producers in our feedback sheets tells a real story about profitability.

It's confirming again and again for us and our clients, what the 'Estimated Breeding Values' (EBVs) are predicting.

Our top performing steer in our recent Paddock to Palate win at the Brisbane Ekka dressed at 60.87% - but still had optimum fat cover!

Bring on the Value Based payments for carcass!

50 YEARS COMMITTED TO BEEF

Palgrove is very proud of its 50 year history. It has always been our aim to produce the very best genetics for our stud and commercial clients during this time.

Charolais was the first breed that Palgrove put its name to and we have continued the journey by replicating our breeding philosophies into the production of Ultrablack cattle over the last 10 years.

Highlights:

- 1969:** Bondfields part of 1st importation of Charolais
- 1979:** 1st Grand Champion Charolais at Brisbane
- 1985:** First on property sale at Palgrove
- 1985:** First Charolais herd to enroll in Breedplan
- 2002:** BIA National Seedstock Producer of the Year
- 2002:** Aust record priced Charolais Bull - auction \$61,000
- 2008:** Record priced Charolais female - auction \$70,000
- 2009:** Commenced breeding Ultrablack
- 2015:** Australian Livestock Producer of the Year (ABC)
- 2016:** Australian Farmer of the Year (Coles/Weekly Times)
- 2018:** 1st Australian to export semen back to France
- 2019:** 50 years breeding registered Charolais

Since the arrival of the Charolais breed 50 years ago, the first item of business was to adapt these large French cattle to Australian conditions. We hope that in some way we have contributed to both the adaption and adoption of the cattle during this time.

Palgrove is the largest registered breeder in Australia and by all accounts, 2nd largest in the world.

In 2019, Charolais are considered one of the most versatile terminal sires both in Australia and around the world.

They deliver on growth rate, survivability, carcass and as a result of massive genetic strides in the last 10 years, on eating quality.

To witness these changes and the universal adoption of the breed by producers, feedlots and processors in the last 50

years has been extremely satisfying.

We now have a very Australian 'type' Charolais that is easy calving; fertile; smooth muscled; able to thrive in harsher environments and with more than enough fat cover meet all premium market requirements. We haven't lost the growth rate and carcass yield that have made these cattle so valuable to the beef industry. And we've been able to retain these traits and add polled genetics to the industry's wish list.

The Future:

We look forward to what lies ahead for Palgrove - our Charolais now sit side by side with our Ultrablack herd and we won't be resting on our laurels anytime soon.

We aim to continue our genetic development in these two industry focused breeds. Continual improvement never stops.

We have welcomed a new generation of industry leaders to the Palgrove team. We have the greatest confidence in our Genetics Manager, Ben Noller and his ability to drive our genetic improvement over the next few years.

We thank all of our stud and commercial clients (past and present), friends and associates for the support and your belief in the Palgrove breeding program over the last 50 years. Here's to 50 more!

REFERENCE SIRE: PALGROVE JUSTICE (P)

- Homozygous polled. An impact first year sire whose progeny excel for weight gain; softness and quality
- The first Charolais bull from Australia to have semen sold back to France - the home of the breed! Semen also exported to Canada and the UK.
- His first 2 daughters shown at the Canadian Agribition in 2018 - awarded Junior & Reserve Junior Champion heifers.
- Ranked in the breeds top 5% for EMA. A proven sire that breeds with real consistency.
- Semen available for sale
- Represented by 10 sons in this sale

REFERENCE SIRE: WINN MAN SKAGGS (P)

- One of the hottest bulls in Canada.
- Australian rights owned exclusively by Palgrove.
- Outcross sire to add thickness; volume and commercial appeal.
- Daughters are exceptional
- An opportunity to get in on the ground floor on this standout breed improver
- Sons sell in this sale including 3 outstanding sires selling as lots 1, 3 & 5

REFERENCE SIRE: SILVERSTREAM HOLSTER (P)

- When we first saw Holster (P) as a yearling (and then saw his dam) at Silverstream stud, NZ, we knew we had to have him! Palgrove owns the exclusive Australian rights in Holster.
- Holster's first progeny have exceeded our expectations. His bulls are thick and powerful with exceptional performance but also show that much desired softness. He is an absolute "no miss" breeding bull.
- 23 sons have sold in our 2017 & 2018 Bull Sales to a top of \$40,000 & an average of \$13,350
- A breed Trait Leader for 200D, 400D and 600D Weight.
- 8 sons sell in this sale.

REFERENCE SIRE: PLEASANT DAWN CHISUM (P)

- Outcross Calving Ease sire whose progeny consistently have higher fat cover & IMF%
- High performing Canadian Sire - exclusive rights owned by Palgrove
- First progeny at Palgrove are all we expected
- His first yearling son sold for \$15,000 at our 2018 Sale
- A low birth weight sire that ranks in the top 5% for fat cover
- Trait leader for Scrotal sire. Represented by 6 sons in this sale

LOT 1

PALGROVE NEBRASKA (P) ^{SV}

Tattoo: PK N1228E Calved: 21/09/2017 (23½ mths)

S: MD Ali Trade U1059 (P)

D: Winn Mans Beverly 663S

S: Palgrove Charm ET (P)

D: PALGROVE FELICITY G1156E ET

D: Palgrove Felicity T201D

This years' sale starts with an opportunity to select "hot off the press" genetics from exclusive Canadian bloodlines now renowned across the world.

Dam - 6 calves by 7 years of age; 369 DCI. An awesome female out of our ET program that confirms the predictability and breeding potential of this sire.

Nebraska was used as a yearling for his extra sire appeal and combination of carcass and softness. His progeny should reward you with depth of rib, easy fleshing and that soft supple skin - all indicating they will be the first to finish.

A 'front paddock' bull that would suit stud duties.

The first bull through the ring is always the best value.

Charolais	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	Dom\$	Exp\$	N'th\$

D: Palgrove Amy E479E (P)

S: Palgrove Blitz R/F ET

D: PALGROVE NANETTE H905E R/F

D: Palgrove Nanette E517E

The first of the bulls by our homozygous polled sire Justice and 'Wow' - his progeny are impressive.

Nockout was used as a yearling in the stud and you'll appreciate his sire's presence; skin type, overall capacity and softness. Traits we consider essential in profitable breeding programs.

He is backed by a balanced cross section of EBVs with 10 traits ranking in the top 30% of the breed. Breeding for *balance* is more profitable than breeding to *extremes*.

Dam - 5 progeny by 6 years of age (371 DCI). Sons have sold to \$10,000.

One of the softest bulls you'll see this selling season.

A front paddock bull that has always impress.

Semen retained by Palgrove.

 D: Winn Mans Beverly 663S

 S: Palgrove Viagra (P)
D: PALGROVE BRONWIN C1001E ET
 D: Palgrove Bronwin Y275E ET

Everything we look for in a true breeding bull - bone, substance, weight for age and efficiency.

Nirvana has plenty of 'grunt'. One of an impressive draft of Skaggs sons (3 in the first 5 lots).

Dam - A son sold to Moongool Stud in 2017 for \$17,000. 9 progeny in 9 years (367 DCI). Super fertility and a pedigree bred in the purple.

Position yourself in the premium markets with this high indexing bull - moderate birth to breed-leading growth, positive carcass and top of the breed for Scrotal (1%).

Used as a yearling by Palgrove. Stud or commercial breeders - this is a great bull!

Semen retained by Palgrove.

 D: Palgrove Gayle G824E (P)

 S: Hopgood Dignity (P)
D: PALGROVE RITA H483E
 D: Palgrove Rita Z55E

Palgrove has been breeding cattle for 50 years and we know how hard it is to breed sires like this.

Dam - 5 progeny by 6 years of age (366 DCI).

Kudos is our 'go to' AI sire, with 3 sons in the first 8 lots of this sale.

Top of the breed rankings in EMA and Fat Cover, should position his progeny well.

Great potential in this young sire. He should suit breeders aiming to finish progeny off grain or grass. He has extra weight plus fat cover to ensure early turnover.

Thick butted, long as a train and soft as butter. This is a pretty special bull that should find home in a stud.

Used as a yearling by Palgrove.

Charolais	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	Dom\$	Exp\$	N'th\$

 D: Winn Mans Beverly 663S

 S: Palgrove Beefmaster ET
D: PALGROVE COUNTESS F494E
 D: Palgrove Countess X284E

Length - Thickness - Substance. These Skaggs sons have it all and carry it with ease.
 Dam - 7 progeny by 8 years old (364 DCI).
 Moderate birth, fast early growth and top of the breed Fat and Scrotal.
 There's generational bred-in predictability to ensure these Palgrove bulls actually achieve their EBV potential.
 He's a really soft skinned, deep flanked bull - has natural constitution and doing ability.
 There is no doubt this is a profit making sire who will add efficiency to a 'bull breeding' enterprise or to produce top end commercial progeny.
 Used as a yearling at Palgrove.

Charolais	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	Dom\$	Exp\$	N'th\$

 D: Palgrove Gayle G824E (P)

 S: Palgrove Emerge (P) ET
D: PALGROVE APPEAL K23E (P)
 D: Palgrove Appeal C147E

Kudos has 3 sons in the first 8 lots which confirms his breeding consistency.
 We love Nemo's smooth muscle pattern; soft skin and depth of flank. Fast early growth EBVs; high positive carcase and Scrotal.
 Dam - 3 progeny in 3 years (367 DCI). Fertility is a trait now well embedded in our herd!
 Great disposition with an ideal maturity. His progeny should be suited to grass or grain finishing.
 Stud potential or terminal sire to produce commercial premium market progeny.
Homozygous Polled, Red Factor, don't miss him.

 D: Palgrove Freisia F1035E

S: Palgrove Enterprise (P)
D: PALGROVE PANACHE J1157E
 D: Palgrove Panache F187E (P) ET

Sit up and take a look at this quintessential 'Beef bull'. Best son of Legacy we have bred to date, who was our sale topper in 2017 at \$40,000.

EBVs indicate top of the breed growth (1-5%); high positive carcass, EMA and Retail Beef Yield.

Phenotype, Performance and a 'bred in the purple' pedigree - some of the greats that have shaped Palgrove's female herd over the last 50 years... Holster, Viagra, Enterprise and the Panache cow line.

Smooth polled, plenty of thickness, volume, weight gain ability and the ideal structure that you want to see in these performance bulls.

Would be ideally suited to a northern bull breeding program.

Used as a yearling at Palgrove. Semen interest retained.

D: PALGROVE ESTELLA B703E
 D: Palgrove Estella Y388E

WOW! Wait until you see this guy in the pen.

A touch more frame but he does it so easily. A smooth pattern, plenty of stretch, balance and that soft supple skin we love in these Kudos sons.

Dam - 11 progeny by 10 years of age, including a set of twins (364 DCI). Profitable combination of fertility and performance.

Ranked in the top 5% of the breed for 200D Growth, EMA and Fat Cover. Balance - balance - balance.

Has the growth and grunt to sire progeny for that heavier weight target markets.

Double tick for stud or top end commercial breeders.

Homozygous polled.

 D: Palgrove Appeal W22E R/F

Netflix's sire, Justice has been delivering a magic skin type, sire appeal and grunt to his sons.

Dam - 9 progeny recorded; still in the herd at 12 years of age and is the dam of one of our walking sires, Majestic M132.

Thick butted, long bodied, big scrotal with the ideal combination of carcase and softness.

Fantastic spread of EBVs; high positive growth, carcase, Scrotal and balance of EMA and Fat Cover.

Type wise - has the flexibility to breed progeny for a range of markets.

You get to select which are the most profitable.

 D: Palgrove Freisia F1035E

 S: Palgrove Calibre (P)
D: PALGROVE OLIVIA J292E (P)
 D: Palgrove Olivia A182E

Nation is almost a clone of his sire, Legacy. He's doing a great job producing moderate framed, functional progeny.

Dam - 3 progeny (368 DCI), also the dam of Masterclass who sold in 2018 for \$14,000.

One of the most complete sires in the sale - moderate framed, thick as a brick with that early maturity. Efficiency and profitability!

EBVs rank him as one of the higher \$indexing bulls in the draft; curve bending from breed average for low birth weight to top 5% weaning weight.

Nation has always stood out in his contemporaries. Used as a yearling at Palgrove. Semen interest retained.

The first of our Evolutions in this year's sale and a sire who needs no introduction to the international Charolais world.

Dam - 5 progeny (360 DCI). Moderate framed cow with a perfect udder.

Neptune has that extra bone, performance and character that we have come to expect from the Evolution sons. Awesome thickness; easy fleshing; ideal maturity with a big scrotal.

This is the bull to improve yield and provide all the options to market his progeny from domestic to export categories.

Charolais	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	Dom\$	Exp\$	N'th\$

S: Palgrove Courage
D: PALGROVE APPEAL G33E
 D: Palgrove Appeal C147E

Consistency of pedigree has been the backbone of Palgrove's success throughout our 50 year history.

A super pedigree - Evolution and out of one of our top producing females, Appeal (dam of Jericho and Kenworth, sold for \$28,000 and \$38,000 respectively). The Jericho sons were the highlight at last year's sale.

New Vision is a balanced bull with plenty of grunt and carcass - packaged into an ideal maturity pattern.

His phenotype is backed by his EBVs with a top (1%) ranking in Retail Beef Yield and EMA, with top end weight gain and scrotal figures.

Another predictable polled Justice son.

Charolais	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	Dom\$	Exp\$	N'th\$

 D: Palgrove Amy E479E (P)
 S: Palgrove Benchmark
D: PALGROVE SHOWGIRL G1072E
 D: Palgrove Showgirl D580E (P) R/F

A Justice son that is moderate framed; long as a train and weighs like lead.

Typical of what we would expect in a Justice x Benchmark pedigree.

Dam - 6 progeny by 7 years of age (371 DCI). The Benchmark daughters are some of our most consistent producers.

This is a soft hid; thick butted carcass bull that should breed shape and weight into his progeny.

These well balanced bulls add real value to the supply chain - versatility, plenty of market options, high yielding and value to everyone along the line.

Homozygous Polled.

Charolais	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	Dom\$	Exp\$	N'th\$

 S: Palgrove Florida (P) ET
D: PALGROVE UPTOWN GIRL J989
 D: Palgrove Uptown Girl C494E

The first of a great draft of beef focused Holster bulls. 23 sons have sold at the past two sales to average \$13,350, topping at \$40,000.

Nobleman is typical of what Holster has added to our program - great skin, easy fleshing, plenty of stretch and the 'type' and maturity to punch weight into heavier weight progeny.

Dam - 4 progeny in 4 years (370 DCI). Plenty of strength in the maternal side of the pedigree.

A great commercial bull, plenty of weight for age, substance and constitution. He wraps it all in a soft supple skin.

Suggest he's an ideal bull to breed progeny to feed out to heavier weights.

Charolais	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	Dom\$	Exp\$	N'th\$

Homozygous Polled & Gold!

Nacho could have easily moved up into the lead group. First Landmark son to be offered at auction - his sons have that extra softness and substance.

Dam - 3 progeny in 3 years (376 DCI). The Calibre daughters keep featuring in the pedigrees of these top sires.

A stack of profitable traits here - highest Export \$index bull in the draft. He's got it all - moderate birth to 'top of the breed' weaning weight; high positive carcass, fat, marbling and calving ease.

Super soft, deep flanked with that extra sire character and butt shape.

Suit bull breeders or a commercial program looking to add doing-ability.

The complete package - don't overlook him!

D: Palgrove Julie Z52E (P)

An impressive big, stretchy Evolution son that will add plenty of weight gain to his progeny.

Dam - 6 progeny by 7 years of age (362 DCI). A very fertile, consistent producer.

Never Never is well above average for almost all of the 'profit traits' - these type of bulls are real stars because they offer plenty of flexibility.

A long bodied carcass bull who's ideal maturity pattern would ensure his progeny meet all the specs in your target market.

Well suited to cross over Bos Indicus cows.

LOT 17

PALGROVE NOCKALONG ^{SV}

S: Rangan Park Bluegrass D55 (P) ET

D: PALGROVE GAYLE F739E

D: Palgrove Gayle D384E

One of the most impressive performance bulls in the sale.

Super stout; square with a massive butt; easy fleshing with an ideal maturity pattern. We love putting our brand on these types of bulls.

Dam – 6 progeny in 6 years (375 DCI). A consistent breeding female and is also the dam of Harlem who was used heavily in the Palgrove herd for many years.

He is the type of bull to improve carcase shape in his progeny without sacrificing weight gain. Progeny will feed out to fit the heavier grid weights.

Ideally suited in a northern production system over Bos Indicus cows.

Charolais	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	Dom\$	Exp\$	N'th\$

Another standout bull - carrying all the profitable indicators.

He's moderate in frame; super stout, soft skinned, deep flanked.

Dam - 10 progeny in 8 years (including 2 sets of twins).

His sire Eclipse, sold to the Clare stud. We still use him extensively in our AI program to moderate frame without compromising carcass and Fat Cover.

Solid EMA and Yield EBVs + positive carcass and growth - a great all-rounder.

Top commercial bull.

Purchaser.....\$.....

Palgrove's Polled Charolais

We are now producing 92% polled Charolais cattle. We set out to achieve this without compromising the Palgrove growth and carcass traits that have been bred into our herd over many years.

First and foremost the profit traits should decide breeding selections. There has been a push to promote cattle that are homozygous polled as superior to other polled cattle.

Be careful when making bull selections on this single 'description' and remember that homozygous polled is not a performance trait!

Whilst it's tempting to 'blanket join' our females to homozygous polled bulls, we've taken the long road to polling our herd in order to maintain the integrity of our breeding principles.

This means that the Palgrove key profit traits of fertility; weight gain; carcass and temperament are not compromised in our genetics.

We thank you for your patience - the results will be a better polled product for you, as we hope you will see in this year's bull draft.

One of the youngest bulls in the draft. In terms of performance, he's matching it with his older contemporaries.

Dam - 5 progeny by 6 years of age (377 DCI). Sons have sold to \$9,000.

Powerful EBVs for 200D to 600D weight and 'top of the breed' numbers for Marbling.

A great commercial bull, plenty of weight for age, substance and capacity.

Legacy, and his sire Holster have been real benchmark sires in our breeding program. They have a great strike rate and their sons are ideal commercial bulls.

Dam - 3 progeny by 4 years of age (359 DCI). Fertility in our herd has been a cornerstone breeding objective throughout our 50 year commitment to breeding beef cattle.

EBVs indicate moderate birth to 'top of the breed' Weaning Weight, with positive carcass, Yield and Fat Cover.

Don't let this bull slip under your radar, we rate him as one of the best in the draft - Stud or commercial.

Softness, doing ability and the objective data to match.

Dam - 6 progeny in 6 years (367 DCI). Great breeding female.

He has a very unique cross section of top percentile data that could be a game changer for your program. Top 5% of the breed for EMA, yet ranks in the top 15% for Fat Cover & Yield; top 10% for carcass and high positive growth. Every profit driver is covered.

Moderate framed, soft as butter with that perfect hip and skin we expect in these top end bulls.

Anything missing? He's also **Homozygous Polled...**

Jubilee, was the high selling Charolais bull in Australia in 2015 (\$35,000) . We've joined him to an Eclipse daughter which resulted in the perfect blend of maternal and performance traits.
 Out of a first calf heifer, his EBVs indicate a lower birth option, with high positive Milk, carcass, EMA and a top ranking Scrotal.
 Use Nesken to improve carcass shape and yield - a very safe bull as an all round sire to breed for a host of markets.

Stud sire alert!

Nate's sire, Logic was used as a yearling and 6 of his sons made it to this sale- super consistency bred into our herd over 50 years.

Dam - 3 progeny in 3 years (373 DCI).

Appreciate his thickness, softness. He carries EBVs for lower birth weight without compromising growth, carcase weight or Fat Cover.

Plenty of maternal strength in this pedigree (Bluegrass & Gridmaker) Use him to breed a great line of replacement females or sale topping steers.

Homozygous Polled

D: Palgrove E963B

We hope that you will see the consistency of type coming through this sale.

Nardoo is a long bodied bull with a smooth muscle pattern; ideal maturity and a great skin type.

His EBVs reinforce his easy doing ability with 'top of the breed' Fat Cover. These easy finishing types give you versatility in market options during these tougher seasons.

Moderate birth to high positive growth and EMA - the list could go on...

You won't go wrong with *any* of these Logic sons.

Navajo's sire, Lucca was used as a yearling before selling in 2017 for \$31,000. He is an absolute clone of his sire - deep sided with softness written all over him.

Dam - 4 progeny in 4 years (384 DCI). A fertile, heavy-milking Formula daughter.

Ideal maturity pattern with that extra volume; capacity and softness.

High positive IMF EBVs - a bull to use if you want to retain some flexibility in your progeny's marketing options.

A bull we really like - don't miss him in the pens!

An upstanding bull with 'eye catching' balance and sire appeal.

Nascar will definitely add plenty of weight to his calves.

Dam - 6 progeny in 6 years (368 DCI). The Estella cow family is renowned for fertility.

Balanced set of figures - moderate birth and growth numbers blended with top of the breed milk, EMA and yield.

A 'value adding' bull because Extra yield = Real profits!

ELDER'S HONCHO

Grand Champion Bull at the Canadian Western Agribition 2018. Australian rights purchased by Palgrove.

He's attracted a lot of interest in Canada and we look forward to his calves arriving here in 2019.

Astute cattlemen won't let this bull slip through the cracks!

Dam - donor with 7 natural calves. A full brother to Neal, sold in 2016 for \$31,000 and another maternal brother for \$16,000 in 2017.

His balance of maturity pattern, carcase, fleshing and butt shape is exactly where we aim to be with our Palgrove bulls.

You could back your judgment on pedigree alone, but check out the 'X Factor' style, substance and constitution that says 'Palgrove'.

Stud or top commercial prospect - we think a whole lot of this bull!

The first of the Chisum sons to be offered and what a cracker bull to start with. (EBV Fat Covers in the top 5-10%).

We introduced Chisum to our program as an outcross calving ease specialist - his sons are moderate framed; extremely easy doing with plenty of softness.

Dam is a 2 year old first calf heifer.

NASA is a smoothed muscled; early maturing type with that volume we love to see - he's moderate framed and easy keeping.

He's a low birth weight option whose grassfed progeny we expect should turn off quickly.

A smooth polled bull with plenty of thickness and 'weight gain' potential.

Dam - 2 progeny recorded, with her first selling to Barambah-Dale stud in our 2018 sale for \$15,000. Another Evolution daughter with the breeding consistency we select for.

These Palgrove bulls are bred with constitution; balance; the right maturity plus positive carcase traits. It's what makes you profits!

Norfolk fits the brief - we suggest he will improve yield in his progeny to fit a range of markets.

Purchaser.....\$.....

Palgrove was excited to have its beef on the Menu at the award winning Boatshed Restaurant, Regatta Hotel in Brisbane in August.

RNA Paddock to Palate Menu 2019

Every year The Boatshed purchase the champion pen of cattle from the RNA Paddock to Palate competition. This award winning beef is exclusive to the Boatshed.

JBS Royal 100 from Palgrove Pastoral Co

- Eye fillet 200grms / 57.9
- Rump 500grm / 56.9
- Rib Fillet 500grm / 59.9
- Sirloin 250grm / 58.9
- T-Bone 700grm / 59.9

All steaks cooked to your liking, served with chips or baked potato & sour cream and choice of sauce.

ABOUT PALGROVE

The winning Charolais cattle were bred by Palgrove Pastoral Co P/L - a generational beef producer based near Stanthorpe on the elevated, cool climate pastures of the Granite Belt, Qld.

Palgrove is the largest breeder of Charolais cattle in Australia and the family was one of the first to import the Charolais breed from France. In 2015, the company celebrates 50 years of breeding these cattle that have had a huge impact on increasing the efficiency of the beef industry in the country.

Palgrove is proud to be recognised in the RNA Paddock to Palate competition under the JBS Royal 100' brand and is excited about this opportunity to showcase their commitment to producing the very best eating experience for our guests.

Innovative management tools for beef cow-calf operations.

This young sire catches your eye every time you walk into the paddock. He's all style, but with that extra grunt.

Dam - 3 progeny by 5 years.

A long bodied bull with a tremendous hindquarter and displays the performance we've come to expect from the Justice sons.

Big Eye Muscle Area EBV which should set his progeny up for any market - as his \$index values show.

A real beef bull - whether you're breeding bulls or commercial cattle - this is a front paddock sire.

PALGROVE PAC MAN (P) ^{SV}

Tattoo: PK P72E

Calved: 11/04/2018 (17 mths)

S: Silverstream Evolution (P)

S: SILVERSTREAM HOLSTER (P)

D: Silverstream Jilly E105 (P)

S: DSK Edge E79E (P/S) ET

D: PALGROVE CHARLOTTE H1250E (P)

D: Palgrove Charlotte D63E R/F

Another appealing Holster son - a bull that features heavily in our pedigrees.

Dam - 3 progeny by 5 years of age. She is an easy keeping female with a perfect udder.

Pac Man is medium framed; oozes softness with that excellent skin type. Appreciate his depth of flank and how he carries his muscle deep into the hock.

Moderate birth to 'high end' weight gain figures with positive Fat Cover.

An easy keeping type that we are proud to offer - stud or commercial, Pac Man has the 'herd improving' credentials to fit both.

S: SILVERSTREAM HOLSTER (P)
 D: Silverstream Jilly E105 (P)
 S: Palgrove Bolster
D: PALGROVE G1325A (P)
 D: Palgrove X9355

An earlier maturing herd bull with ample softness and substance.
 Popstar is as stout as you can make them, with a really impressive hindquarter.
 Dam - 4 progeny by 6 years of age.
 He is moderate framed; super thick & deep ribbed.
 Holster X Bolster daughter resulting in a bull with fast early growth in a medium frame. Add to that solid EMA and Fat Cover EBVs.
 Should mature into a really impressive sire - his progeny will feed out to heavier weights with ease.
Homozygous polled.

A low birth weight bull with plenty of positives to recommend him.

Dam - first calf heifer combining two great breeding bulls - Bond & Gallant.

You will be impressed with the doing ability in all of these Chisum sons. Noah has a medium maturity, big scrotal and is super thick.

EBVs match his phenotype - Low Birth, high positive Fat & Scrotal.

Use him as a vealer or weaner market specialist.

ULTRABLACK BULLS LOTS 91 - 153

PALGROVE ULTRABLACK:

We've been breeding Angus bulls since 1989 and in 2009 began breeding Ultrablack in response to client requests for a suitable third breed to use over replacement females in a Charolais X breeding program.

We knew that our clients needed clean sheaths; sleek coats; growth and carcase quality, so we focused our genetic design on these when selecting for both phenotype and objective data.

We have been careful to select predictable Brangus and Angus breeding sires from commercially focused herds with high accuracy Breedplan data.

Performance data:

We see the most sustainable genetic gain being achieved by using practical, commonsense physical selection alongside objective performance data to ensure the best bulls are produced for the next generation.

Our Ultrablack bull EBVs are provided to us as registered animals on the Angus Multi Breed Register (MBR). Only pure Angus cattle are recorded on HBR/APR registers.

When assessing cattle performance it is essential to always compare 'apples' with 'apples'.

Therefore, we suggest you use the MBR Angus EBV

information provided in this catalogue to assess the Ultrablack bulls as a contemporary group only (ie. compare bull to bull within this sale).

Note: If required, any of our bulls can be registered on the Brangus Society's Enrolment Register.

Palgrove is fast becoming a leading supplier of Ultrablack genetics in Australia. We now sell over 350 bulls a year with production continuing to expand annually.

Our Ultrablack breeding programme continues to develop, and we now have a larger percentage of generationally bred Ultrablacks (UB2s and UB3s).

Reports from our clients have been overwhelmingly positive - "the heifer progeny mature at an earlier age and fertility percentages have risen markedly".

Also, "the UB steers are weighing heavier earlier than our purebred Angus and we are able to sell them into the same markets, at the same rate"

And this..."the Ultrablacks are outperforming any other tropical cross cattle we've trialled at all points of our supply chain - weaners, background and feedlot weights as well as in the feedlot".

GENETRUST GROUP

Palgrove is now the Australian partner of the GENETRUST group, a large-scale USA based seedstock cattle company.

GENETRUST is the leading supplier of Brangus and Ultrablack genetics in the US and is consistently ranked among the top 20 seedstock suppliers. They are the breed leader in registrations with the International Brangus Breeder's Association, and this influence continues worldwide as their semen and embryo sales

have stretched throughout South America, Africa and Australia.

We're excited about the potential of the new partnership, having identified Genetrust as producers with a shared breeding philosophy to Palgrove. We are both focused on producing phenotypically correct cattle that fit their environment maternally and structurally, while still maintaining the performance and carcase merit that the marketplace requires.

The alliance will enable Palgrove first access to Genetrust genetics for exclusive use in their extensive stud and commercial herds. It will enable Palgrove to evaluate the suitability of the progeny for Australian conditions and markets. The result will be that Australian Brangus and Ultrablack breeders will have a direct evaluation of a sire's impact on breeding outcomes.

Suitability of type and constitution can't be accurately evaluated by producers simply by looking at a photo or objective data in a semen catalogue. Through this alliance, we will be able to provide verification of bulls and identify genetics that best fit conditions here in Australia.

It will also provide a platform for performance data to be shared with Genetrust to enhance USA EPD weight and carcase information in the future.

ULTRABLACK REFERENCE SIRES

PALGROVE KINGPIN (P)

- Kingpin holds the Australian record price of \$24,000 for an Ultrablack bull sold at auction
- His raw carcass data when scanned at 23mths was 40cm² for EMA & 7.3% for IMF%
- He ranks in the top 20% in Angus Breedplan for EMA as well as above average for Low Birth Weight & Calving Ease Direct
- He is breeding extremely consistently at Palgrove & has mainly been used as a heifer bull
- A sire with a faultless phenotype & a powerful pedigree. Represented by 5 sons in this sale.

TJM THREE D 302A (P)

- 3D is currently the 'hottest' Brangus bull in the US, with sons selling to \$100,000.
- Curve bending EPDs (EBVs) - low birth - high performance, easy doing progeny.
- His Palgrove progeny are exceptional - wonderful disposition, moderate framed & consistent.
- Ranks in the top 20% of the Angus breed for EMA.
- 4 sons sell in this sale.

HOLLYWOOD OF SALACOA

- Hollywood is phenotypically very correct & eye appealing with plenty of dimension & substance
- He sired our highest selling UB bull at \$22,000 at our 2018 sale & has worked really well in our program.
- Represented by 2 very good sons in this sale.

MILLAH MURRAH KLOONEY

- Klooney came to prominence when he sold for \$80,000 and is now considered to be one of the best 'all round' performing bulls Millah Murrah has bred in 50 years.
- Consistently adds length, softness & style with the added bonus of great Calving Ease & commercial appeal.
- He has been used at Palgrove with great success in our ET & AI programs, improving IMF%, EMA & Growth.
- His 3 yearling sons in this sale are our first to sell.

TRIPLE B GLOBAL (P)

- Global was purchased for \$21,000 and was selected for his overall capacity and carcass, plus the ideal maturity pattern that we require in our UB breeding program.
- His EBVs rank him in the top 5% for EMA and top 2% for low birth weight in Angus Breedplan.
- His progeny excel for their carcass shape, skin type, calving ease, great temperament and eye appeal. Daughters are outstanding.
- 5 sons sell in this sale. He has been used heavily in our Ultrablack program & still remains perfectly sound at 8 years of age

S: Ardrossan Admiral A2

D: BULLIAC MILDRED D9

D: Bulliac Mildred A28

The first bull in the ring in what is arguably the most consistent line of Ultrablack bulls we have ever offered.

Neon is an ET son by the super consistent Hollywood, who also sired last year's top price UB bull, at \$22,000.

His dam is one of three donor cows in our program sired by Admiral A2, who has over 4971 progeny recorded with Angus Australia.

This is a true sire – he's moderate framed, sleek skinned with excellent sheath design and butt shape.

A bull with the quality to work in a bull breeding or commercial program. Two maternal brothers sell as Lots 103 & 145 (yearling).

Palgrove will retain a semen share.

Another ET Hollywood son with a touch more frame than the previous Lot.

Nicabar's dam was a prolific donor cow with plenty of substance and capacity. She has been a great producer with 21 progeny recorded, 5 sons have sold at auction for an average of \$9,000.

If you want to add 'power' into your black breeding program and get the advantage of extra weight gain, thickness, and finishing ability – this is your bull.

His progeny should grow on to heavier weight categories with ease.

Purchaser.....\$.....

Ultrablack sired Champion Carcase 2019 Paddock to Palate Competition

From a field of 189 steers in the 120 Day (Non HGP class) of this year's prestigious RNA Paddock to Palate commercial feedback steer competition, one of our Ultrablack sired X Charolais steers was awarded Champion Carcase with a total of 96 from a possible 100 points.

It had ideal Fat Cover of 15/11mm; a Marble Score 2; 104cm² Eye Muscle Area; MSA Index of 63.7 points and a dressing percentage of 57%.

The Palgrove team of 7 Ultrablack sired steers also came third in the Eating Quality section with an average MSA Index of 62.13 points.

This exciting win comes off the back of the win at the Primex MSA domestic trade competition (also with Ultrablack x Charolais steers).

We are building a huge bank of data for use in our Ultrablack program, but what we are now assured of the ability of our Ultrablack cattle to 'mix it with the best' of the best when it comes to weight gain ability; carcase merit and eating quality.

D: Belview Vo

The first Kangshan son to sell at auction and what a cracker he is.

He shows a touch more Bos Indicus phenotype. You have to admire his obvious sire appeal; volume; smooth muscle pattern and depth of rib.

A true sire with a great disposition.

High positive EBVs for carcase, positive milk and the highest ranked IMF% in the draft.

Nickleback would be ideally suited in a northern cross breeding programme with the 'free lunch' advantage of weight gain and hybrid vigour.

He perfectly delivers on our Ultrablack breeding objectives - fertility, weight gain, carcase and survivability.

Next Step is a 3rd generation Ultrablack that's all quality and typifies our breeding direction.

We are now confident that the Ultrablack has an important role to play in beef production systems across Australia.

From all angles you will admire this bull - length, bone, sire appeal, body capacity, skin...

Would be ideally suited to a Brangus bull breeding program.

Upstanding sire designed to put that extra weight into your steers.

Nash is a 3rd generation UB by homebred sire Knockout (sold for \$20,000 and used heavily in our AI program).

A bull with a smooth muscle pattern and clean sheath design. He ranks in the top 5% for EMA & top 10% for Yield.

Suggest he should breed progeny for premium MSA or EU markets anywhere in the country.

An impressive UB bull with plenty of natural substance who was used as a yearling at Palgrove.

His dam is a foundation Donor female (36 progeny recorded) - 4 sons sold in our 2018 sale (topping at \$22,000). His full brother sells at Lot 97.

We admire Nitro for his extra length of body, carcass, big scrotal and great disposition.

The type of versatile UB we like to sell - a versatile sire whose progeny should fit both the heavy domestic to export weight categories.

A 2nd generation Kingpin son with bred in calving ease and was used over stud females as a yearling at Palgrove.

A medium maturity bull that impresses for his ideal sheath design; smooth muscle pattern; big scrotal and natural balance.

EBVs confirm his pedigree with low Birth Weight and positive Eye Muscle Area.

This heifer bull will add hybrid vigour over your purebred or crossbred females - remember it's a free lunch!

Palgrove Ultrablacks Win MSA Feedback Trial 2019

Palgrove's team of 10 Ultrablack x Charolais steers were awarded Grand Champion Overall Performance Pen at the recent Primex MSA Feedback Trial held in Casino, NSW.

Teams were assessed for feedlot weight gain (70 days), carcass quality (yield, fat cover and EMA) as well as MSA Eating Quality.

The competition complies with the Woolworths MSA grain-fed program and aims to benchmark performance in conditions that replicate as closely as possible cattle entering the grain-fed, MSA graded, domestic supply chain.

The Palgrove steers averaged 2.6kg daily gain; had an average yield of 58.5% and 'near perfect' Fat and EMA points.

This was the first time we have benchmarked our Ultrablack x Charolais cross steers in any independent trials, so we were very keen to see the results.

It's pleasing to see Palgrove Ultrablack cattle performing at the top end of industry specifications in both export and domestic weight categories.

It provides us with verifiable 3rd party data to demonstrate what our UB bulls can achieve in a variety of commercial markets.

Very few studs can validate the \$ value of their genetics in 'real world' beef supply chains.

The highest bidder shall, subject to Condition 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneer's absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.

2. The sale will be conducted on a "Sale" or "no Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the vendor who will immediately after the fall of the hammer declare "Sale" or "no Sale". Should the vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the terms and Conditions herein set forth in so far as they shall apply.

(a) All Sales will be conducted on the basis that the bid price will be exclusive of Goods & Services tax (GST). GST will be added to the bid price after the fall of the hammer for those sales subject to GST.

3. The details of the purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.

4. The auctioneer expressly reserves the right, without giving any reason therefore, to:-

- (a) Refuse to acknowledge any bid;
- (b) Withdraw any lot or lots before or during the sale;
- (c) Exclude any person from the auction venue should it think fit.

5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.

6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee warranty or condition whatsoever was given or implied.

7. In the event of any dispute in respect to the sale of any lot:-

(i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these terms and conditions.

(ii) The vendor and the purchaser shall resolve the dispute between themselves;

(iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and

(iv) no lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.

8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.

9. (a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-

- (i) Rescind the contract on behalf of the vendor and repossess and resell any lot;
- (ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the 90 day Bill Rate plus two percentum. For the purposes of this condition "the 90 day Bill Rate" is the rate published regularly in the Australian Financial Review, expressed as a percentage per annum. If at any time the Financial Review ceases to publish a 90 day Bill Rate, the auctioneer shall determine and advise the purchaser of the interest rate to apply for the purpose of this condition.

(b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.

10. If the purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.

11. Any vendor or purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.

12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.

13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however, that this Condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.

14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.

15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.

16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby excluded.

The auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the descriptions or pedigrees of any lot offered for sale and no such error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.

(b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot, such tests to be undertaken at the purchaser's expense and concluded immediately following the

sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to or remain with the vendor.

17. GUARANTEES OF FERTILITY:-

17.1 BULLS. All bulls are guaranteed breeders and to so prove within six months of the date of sale or by reaching the age of 30 months whichever date shall be the later.

17.3 Claims under Clause 17.1 guarantees of fertility shall be made to the vendor within six months from the date of sale or prior to the animal entering a quarantine area other than on the vendor's property.

17.3.1 All claims must be accompanied by a veterinary certificate which shall clearly identify the basis of the claim.

17.3.2 Infertility resulting from injury or disease occurring after the sale of the animal shall not be covered by this guarantee.

17.3.3 The vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.

17.4 LIABILITY OF A VENDOR. Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or to provide mutually agreed upon replacement animals.

17.5 REFUNDS. In the event of a claim being substantiated and the purchase price being refunded, the animal/s shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.

17.6 This guarantee shall be voided by the purchaser if -

- (a) The animal is returned to the vendor -
 - (i) in poor physical condition or with any injury;
 - (ii) tests carried out on behalf of the vendor within fourteen days of such return proved positive to any diseases which may affect the animal's fertility or ability to breed naturally;
- (b) the purchaser has collected and stored semen from a bull or embryos from a female.

17.7 In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other monies or interest payable by the purchaser in accordance with these Terms and Conditions.

18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.

(b) If any vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses, or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.

19. DELIVERY - Except at the discretion of the auctioneer no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.

20. In these Conditions:-

- (a) References to "Auctioneer" shall be taken to mean as the context so admits, the selling agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot;
- (b) "Purchaser" shall have the meaning ascribed to it in Condition 1;
- (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;
- (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.

IMPORTANT NOTICE

The selling agent, its members, subsidiary or related corporations, officers, agents, and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy. All persons who attend the sale do so entirely at their risk and the selling agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

ACCURACY

Every care has been taken in compiling this catalogue to ensure accuracy of information supplied, but no responsibility is accepted for any errors which may occur. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

BREEDPLAN

Breedplan data is reviewed on a monthly basis and may vary from printing to sale day. Changes to data may occur and alter significantly without notification. We have no control over changes made to ABRI.

ENTRY TO PALGROVE

People entering upon the Strathgarve property for any purpose whatsoever including attendance at the cattle auction do so at their own risk.

We are not liable to you for any personal injury or death suffered by you or for theft, loss or damage to any property caused or contributed to by us or any other person whether caused or contributed to or by negligence, deliberate act or unlawful conduct. "We" or "us" or "our" refer to the owners, their employees, contractors and agents and each of them.

Entry to the property is by invitation for the purpose of inspection or purchase of the sale cattle on offer. Palgrove may request any member of the public to leave the property at any time without warning. Palgrove reserves the right to ask for assistance from authorities should that request be ignored.

Lot 114

PALGROVE WINS PADDOCK TO PALATE BACK TO BACK

Palgrove has taken top honours in one of Australia's most prestigious commercial cattle competitions for a second year in a row.

Following on from our win in 2018, Palgrove was again named the Overall Winner (100 Day class) as well as picking up the Runner Up award in the 'blue ribbon' Paddock to Palate competition held at the Brisbane Ekka 2019.

Palgrove's results were as follows:

- Overall Winner - 100 day (Charolais)
- Runner Up - 100 Day (Charolais)
- Weight Gain 100 day (Charolais) (3.095ADG)
- Champion Pen - Carcase 100 day (Charolais)
- Champion Carcase 100D (Ultrablack x Char)
- 3rd Eating Quality 100D (Ultrablack x Char)

Some of Australia's best producers participate in what is the country's richest cattle competition. The competition provides Palgrove with an opportunity to benchmark our steers against the best and validate the commercial production focus we place on our genetics.

Now in its twentieth year, the event attracted the nation's top beef producers and saw over 1,000 steers entered (up almost 25% on the previous year).

The competition consists of three phases. The Overall Winner is awarded on the best aggregate points for a) weight gain in the feedlot b) a carcass appraisal and finishes with c) the MSA eating quality section.

Since we started entering in 2016, we are very pleased with the consistent performance of the Palgrove commercial cattle in this competition. If our purebred Charolais can achieve the results that enable them to win competitions like this - imagine what the bulls are doing in our clients' crossbreeding programs!

We firmly believe that our bulls should add value to the whole industry - weight gain, optimum carcass and eating quality. These attributes should be part of a bull's DNA.

We congratulate the RNA cattle committee, Mort & Co and JBS for the foresight to organise this prestigious and 'industry relevant' event.

Presentation at the Brisbane Ekka in August 2019
