

NATIONAL CATTLE HEALTH DECLARATION

Version
24/10/2016

Owner of cattle Coastal Farm Services Pty Ltd
 (Full trading name)
 Property/place where the journey commenced 284 Cohuna
 (Address) (State) (Postcode)
Estate School Rd Horefield Vic 3567
 (Address continued) (Town/suburb) (State) (Postcode)

Property Identification Code (PIC) of this property 3GATH162
 This MUST be the PIC of the property that the stock is being moved from
 Details of other statutory documents relating to this movement e.g. NVD
 (Document type) (Document number) (Office of issue) (Expiry date)
 Note: If NVD accompanying this declaration then you may go straight to question 1

Description of cattle

Number	Description (Breed, sex e.g. Hereford Cross Steers)	Brands or Earmarks
2	wagyu bulls	
Total		

Consigned to Charles L King & Co
 (Name of person or business)
7 Market Street Cohuna Vic 3568
 (Address) (Town/suburb) (State) (Postcode)
 Destination (if different) of cattle (Location address)

1. Has the owner stated above owned these cattle since birth?
 Yes No
2. On the property stated above, has an on-farm biosecurity plan been implemented?
 Yes No
 If yes, which plan (e.g. Farm Biosecurity, LPA, Grazing BMP) On-farm Plan
- 3a. Have these cattle been tested for the presence of pestivirus antigen?
 If tested, were any cattle found to be persistently infected? Yes No
 3b. Have these cattle been tested for the presence of pestivirus antibody?
 If tested what percentage of the tested cattle were antibody positive? Yes No
4. Enzootic Bovine Leucosis (EBL) test result for animals being moved:
 Date of test/...../.....

5. Are the cattle from an EBL accredited or certified free herd: Yes No
6. Are these cattle from a herd or property with an occurrence of Johne's disease (JD) in any susceptible species within the last five years?
 Yes No Don't know J-BAS of 6 (optional)
7. On the property stated above, have cattle been co-grazed with dairy cattle and/or sheep?
 Yes No Don't know
8. Source herd has a negative JD test result: Check Test Sample Test
 Date of test/...../.....

9. If dairy cattle, the consignment has a Dairy Assurance Score of:
 Part A (herd base score) Part B (calf credits) Part C (total Dairy Score)

10. Treatments

Treatments	Product	Date of treatment within last 6 months
Drench		
Liver fluke treatment		
Other treatments (type)		

11. Current vaccinations for the cattle being moved (see explanatory note)
 Clostridial vaccination (e.g. 5 in 1): Yes Clostridial vaccination (Botulism): Yes
 Pestivirus vaccination: Yes Bovine ephemeral fever vaccination: Yes
 Leptospira vaccination: Yes Vibrio vaccination: Yes
 JD (Silirum) vaccination: Yes
 Other vaccinations (specify):

12. Any other relevant health information

DECLARATION (see explanatory notes for further information)
 I Russell John Sniehota
 (Full name) (Full address)
284 Cohuna Estate School Rd Horefield 3567
 (Address continued) (Town/suburb) (State) (Postcode)
 declare that I am the owner or the person responsible for the husbandry of the cattle and that all the information in this document is true and correct. I also declare that I have read and understood all the questions that I have answered, that I have read and understood the explanatory notes, and that I have inspected the animals and deem them to be healthy, free of disease and fit to travel.
 Signature* R Sniehota Date 31/9/2019

Average wt (kg)

Ayrlie Park M67 (AI)

A 36 month old bull weight 765 kg.

A very handy all around bull with an ebv of +1.2 marble score puts him in the top 10% of the breed. A self replacing index of 168 puts him in the top 15% and eye mussel area of +2.4 also very good. He is everything you would expect with a pedigree that includes 003, michifku' fukutsuru j068 and tf 148. Hard to find a better pedigree for marbling. He has many calves on the ground and has proved very fertile.

We have collected semen for our own use.

Ayrlie Park N64 (AI ET)

Weight 588 kg.

A 20 month old bull 98.5% Pure breed Homozygous polled bull already has calves on the ground. He was used extensively in our herd last year and proved very fertile. Impressive ebv for carcass weight of +34 kg puts him in the top 10% +3 for milk puts him in the top 25% should be very good for producing polled females with size and milk. His pedigree includes such famous bulls as TF 147, TF 148, TF 40/1 and Bar r 52y.

We have collected semen for our own use.

Ayrlie Park L76.

A 98% pure breed polled bull.

Sired by the famous Bar R 52y His Dam Ayrlie Park Z22 was chosen as a bull dam because her sire was TF 148 and she had produced 12 calves on time every time and still going strong when we sold her. This bull was bred for fertility and longevity. He has a self replacing index of +142 putting him in the high 25% for the wagyu breed. We have many good progeny by this bull. His semen has proved very fertile.

Ayrlie Park L71. A 98% Pure breed polled bull.

Sired by the famous Bar R 52y bull

Dam sired by ETJ 003 out of a TF148 cow she has produced 10 calves on time every time and is due again very soon. L71 was purpose bred to get marbling into polled wagyu and it worked a +0.9 puts him in the top 25% of the wagyu breed for marble score. His semen has proved extremely fertile.

Breeding Quality

Breeding quality relates to the quality of the breeding programme and suitability for their end use. Descriptions of Breeding Quality should not be affected by condition.

Excellent

Top sires used and top standards of selection and management, i.e. the small percentage of really first class stock. A line with a large culling taken out.

Very Good

Good quality sires used with heavy culling and selection programme – stock with a reputation for growing out/fattening/producing well. A line with a reasonable culling taken out.

Good

Quality sires used, reasonable selection practices i.e. average stock. A line that has had some culls removed.

Fair

Average quality sires used, but otherwise little selection practiced. A line that needs a heavy cull taken out.

Plain

Very poor breeding quality, egg inbreeding, structural or conformation faults expected to limit future growth and/or fattening/production ability. Could apply to culls or at best seconds or thirds from a line of stock.

Frame

Frame specifies the likely mature size, fattening pattern, etc. Frame is relative to the BREED and AGE of the cattle. Frame is described as Very Large, Large, Medium or Small and is entered as a percentage.

Very Large Frame

Very tall and long bodied. Tendency to very late maturity and difficult to “finish” on some feed types.

Large Frame

Medium Frame

Small Frame

Short legs and body, early maturing and tendency to over fatness unless killed at light weights.

Temperament

Docile

Settled and somewhat dull disposition. Gentle and easily handled, moves slowly when in a mob, needs encouragement to move away from handler. Cattle easily handled individually in yards and paddock, without eagerness to return to mob. Does not pull on headgate when in crush and exits calmly.

Quiet

Displaying a quiet & calm disposition. Cattle easily handled individually and in mob. Handler in control at all times. May exhibit some stubbornness. Exits crush promptly, may try to back out of crush, pull on head gate and some flicking of tail.

Slightly Stirry

Manageable but impatient and moves quickly. Handling individually increases nervous behaviour, and exhibits clear signs of eagerness to return to mob. Handler in control when handled in a mob. Reluctant to stand quietly in crush, tail flicking, repeated pushing and pulling on headgate. Exits crush briskly.

Stirry

Out of control and jumpy. Struggles and clearly uncomfortable when handled in a mob. Runs fenceline and may jump when penned individually. Continuous tail flicking and bellowing in crush. Large flight distance, exits crush wildly. Considered scared of human interaction rather than aggressive. Not recommended for inexperienced handlers.

Aggressive

Aggressive behaviour, fearful, extreme agitation. Continuous movement when handled in a mob, disrupts handling of other cattle in mob. May exhibit attack behaviour when handled alone. May jump or continuously bellow while in crush. Exits crush frantically.
