Friday 31st January 2020
on Auctions Plus ONLY
Commencing at 1.00pm

30 WHITE SUFFOLK RAMS 30
30 MATERNAL RAMS 30

SPECIALLY SELECTED FLOCK RAMS

ACCREDITED BRUCELLOSIS FREE FLOCK No. OV/AC/044

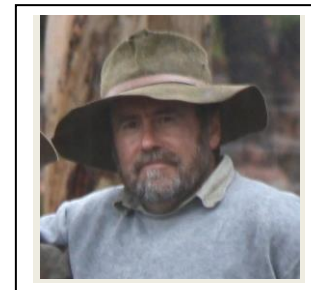

**A group of Mount Ronan 2020 Summer Sale rams
....world class profit genetics in an athletic package.**

"The profitability of our producers' prime lamb enterprises is the key to the future of Mount Ronan."

WELCOME TO MOUNT RONAN.....

We are trialing a new format for this Summer sale because we are concerned about possible heat wave conditions, and we also want to be able to provide our Eastern States producers with better Auctions Plus service.

This year we have provided photographs and videos of the rams which are being offered.

We hope that you find it a relaxed and successful experience.

Joanne and I are really proud of the young rams we are offering for sale this year. They are fit, healthy and athletic, and are definitely the best offering so far from a production perspective.

Included in the Terminal White Suffolk catalogue are progeny of highly-proven, elite performance, new blood sires. There are young rams which offer stud sire potential, and they are eligible for transfer and registration.

The Maternal offering also includes grandsons of specially selected Merino rams which have been evaluated on MerinoSelect. These ram lambs contain 25% Merino genetics, and we are particularly impressed with them. They will reduce micron in maternal flocks, whilst retaining carcass attributes, or they will be valuable for mating with Merino ewes to greatly improve carcass quality.

The young sale rams were weaned in mid-October and have received a daily trail feed of sheep pellets up until sale time. They received their first worm drench since birth on the 14th January, after we had collected manure samples for worm egg counting for LAMBPLAN evaluation. Their worm egg count ASBV's will be available after the next LAMBPLAN run.

As usual, all the rams have been vaccinated with Guidair, Glanvac B12 3 in 1, Scabiguard and vitamins A,D & E. They are guaranteed to be free of lice and the flock is accredited free of brucellosis.

Young sale rams, keen to go to work - 21st January 2020.

**WORLD CLASS PROFIT
GENETICS IN AN ATHLETIC
PACKAGE**

Signing up with AuctionsPlus - www.auctionsplus.com.au

Please register 24 to 48 hours before the start of the sale.

1. Go to the home page and click 'sign up'

2. Fill out the required information to create an account. A confirmation email will be sent to your email inbox, which will need to be actioned.
3. Once you have created an account and confirmed your email, you then need to upgrade to a buyer on the system
 - a. Once logged in go to your dashboard
 - b. From your dashboard click on the green button "request approval to buy"
 - c. Enter your details, like PIC, Trading Name & Property Address
 - d. Complete the buyer training – this can take up to 30 mins

4. Once your buyer training has been completed, the AuctionsPlus office will be notified and will approve your request.
5. An email will be sent to you once it has all been approved.

AuctionsPlus Sequential Online Only Sale – How to guide:

www.auctionsplus.com.au

First and foremost in order to bid in any AuctionsPlus livestock sale buyers need to be registered with A+ as a buyer. Follow the steps in the “sign up doc”

The sale will run so that one lot at a time is offered/available for bidding.

The screenshot below indicates the set up of the auction where the lot number is shown next to the ‘bid’ button, followed by photos/videos and lot information on the right hand side.

The screenshot displays the AuctionsPlus interface. At the top, a table shows the status of previous lots: Pen 505, 506, 509, and 510, all sold to the user at various prices. Below this, a 'FINISHED' banner is visible. The main section is titled 'Now Selling Pen 511' with an increment of \$5.00/Head. A large blue button labeled 'click to start \$250.00' is present, along with an 'unlock' button. To the right, there are options for 'Or Enter Auto Bid' with 'Autobid' and 'Apply' buttons. Below the main lot information is a 'NEXT UP' section with a table of upcoming lots:

Lot	Increment	Price	Status	Bid	Auto/Limit
Pen 512	\$5.00/Head	\$240.00		\$240.00	Auto Bid
Pen 513	\$5.00/Head	\$250.00		\$250.00	Auto Bid
Pen 516	\$5.00/Head	\$240.00		\$240.00	Auto Bid

On the right side, there is a 'Now Selling Pen 511' section with photos of sheep and an 'Assessment' section with details: Desc: 104 NSM Ewes, Maj Breed: 100% Border Leicester/Merino, Live wt: AVG: 64.3 | RANGE: 60 - 69, Dressed wt: 27.6, Sex: Ewe, Maj Fat: 5 (40%), Age: 17 to 18.

As there is no auctioneer to determine when each lot will finish, a 60 second timer will be utilised.

Every time a bid is placed on the lot, a 60 second timer will start again keeping the lot open.

In the last 10 seconds of that timer a “Going” message will appear to indicate the lot is about to be sold.

The bid button will be green and “your bid” will be displayed if you are holding the lot

Insurance Disclaimer

Stud Animals are not covered by commercial livestock insurance.

Insurance risk of stud animals sold at auction transfers to the purchaser at the fall of the hammer, including animals remaining on the vendor's property.

Purchasers therefore are advised to insure their animals at the completion of the sale.

Please note:

Mount Ronan stipulates that all rams which are to be registered and transferred into stud flocks will require a total payment of \$2500 (excluding GST).

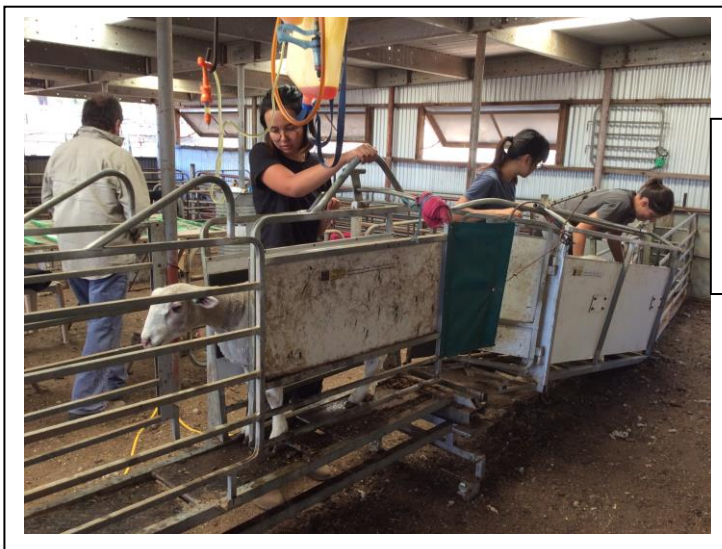

If rams are purchased at the auction for less than \$2500 and the buyer wishes to have the rams transferred and registered for stud use, then the purchaser will be required to make up the difference between the purchased price and \$2500 (plus GST) before the transfer and registration can take place.

The accuracies of the ASBVs are extremely high because Mount Ronan has measured more sheep on LAMBPLAN than most other stud flocks in Australia.....and

The ASBV's of the Mount Ronan White Suffolk flock are impressive compared to the average ASBVs of all the White Suffolk flocks that are recorded on LAMBPLAN, particularly because the ASBV lines are so well balanced.

	BWT	WWT	PWWT	PFAT	PEMD	TCP	LEQ
Mount Ronan average	0.36	9.73	15.15	-0.13	2.64	148.0	145.5
White Suffolk average	0.35	9.95	15.62	-0.33	1.88	142.0	137.5

Vaccinating and drenching young lambs, with the help of Farah from Singapore, Janice from Hong Kong, and Sabina from Germany – very willing and able helpers!

SHEEP GENETICS

LAMBPLAN'S TRAIT LEADERS

Many of our sale rams are trait leaders. In other words, they are in the top 10% of the LAMBPLAN database for growth, leanness, muscling, or a combination of these traits. They are in the top 10% of all the rams of all breeds measured in the LAMBPLAN program in 2019 in Australia and New Zealand.

Trait leaders are noted in the comments for each ram and boxes are shaded to make them more visible.

SHEEP GENETICS

MATERNAL SIRE REFERENCE

(With ASBVs as at 15/01/2020)

PLEASE REMEMBER: Don't compare Maternal ASBV's with Terminal ASBV's because they are different data sets. Comparisons will be misleading due to the use of different breed runs on LAMBPLAN.

MOUNT RONAN 150214

BWT	WWT	AWT	PFAT	PEMD	NLW%	MCP+
0.5	8.4	14.9	-0.6	1.3	15	136.6

A Maternal embryo transfer son of LAMBPRO 142399, and out of the aged, elite White Suffolk flush ewe MOUNT RONAN 070793. Strong growth and muscling and excellent daughter fertility.

MOUNT RONAN 160047

BWT	WWT	AWT	PFAT	PEMD	NLW%	MCP+
0.4	7.4	12.6	0.5	2.9	14	150.0

A Maternal son of Maternal ram MOUNT RONAN 150334. Strong growth, excellent muscling and daughter fertility. His daughters recorded the highest average ewe efficiency of all sires used for the 2019 lambing.

MOUNT RONAN 170131

BWT	WWT	AWT	PFAT	PEMD	NLW%	MCP+
0.1	6.7	13.2	-0.1	2.9	9	137.7

A White Suffolk embryo transfer son of the elite, aged White Suffolk sire ASHMORE 080179, and the elite, aged White Suffolk flush ewe MOUNT RONAN 070793. Strong growth and muscling genetics, coupled with higher daughter fertility.

MOUNT RONAN 170206

BWT	WWT	AWT	PFAT	PEMD	NLW%	MCP+
0.4	8.3	14.4	0.0	2.5	9	143.4

An embryo transfer flush brother of the above ram. Very similar ASBV's.

MOUNT RONAN 180012

BWT	WWT	AWT	PFAT	PEMD	NLW%	MCP+
0.7	10.7	15.1	-0.1	2.5	14	161.6

A Maternal artificial insemination son of the maternal ram GATES 140069. Used as a ram lamb on Maternal ewes for the 2019 lambing. Outstanding growth and excellent daughter fertility.

MATERNAL SIRE REFERENCE

(With ASBVs as at 15/01/2020)

MOUNT RONAN 180063

BWT	WWT	AWT	PFAT	PEMD	NLW%	MCP+
0.3	8.1	14.5	0.1	3.3	-1	142.1

A Maternal artificial insemination son of selected Merino sire TRIGGER VALE 130981. Used as a ram lamb on selected Maternal ewes for the 2019 lambing. Sale progeny are 25% Merino genetics. Lower birth weight genetics, strong growth and outstanding muscling. Spinning fineness of 21 micron and comfort factor of 97.7%. Ranked fifth out of all the Mount Ronan Maternal rams tested on the Merinotech Index Report. (Micron Man)

MOUNT RONAN 180088

BWT	WWT	AWT	PFAT	PEMD	NLW%	MCP+
0.6	7.4	15.0	-0.3	1.5	4	131.0

A Maternal artificial insemination son of selected Merino sire ANDERSON 140474. Used as a ram lamb on selected Maternal ewes for the 2019 lambing. Sale progeny are 25% Merino genetics. Higher fleece weight genetics, coupled with strong growth. Spinning fineness of 21.8 micron and comfort factor of 95.1%. Ranked second out of all the Mount Ronan Maternal rams tested on the Merinotech Index Report. (Micron Man)

Notes:

Anderson	(WA)	MR = Mount Ronan
Ashmore	(SA)	
Gates	(NSW)	SOD = Sire of Dam
Lambpro	(NSW)	DAM MS = Dam Mothering Score
Trigger Vale	(NSW)	
Woolumbool	(SA)	

Shaded ASBV boxes indicate trait leaders – top 10% or better for that trait.
