# PREMIER'S HISTORY

Derek first registered the Premier prefix in 1993 when he established Premier Polled Herefords with two heifers from Koanui & later several heifers were purchased from Maungahina. With many purchases from Maungahina over the years, not only did these females develop the foundation of the Premier herd but also the association with the McKenzie family was established. In 1999 the 12-month-old Premier PQ Irane T9 won the prestigious Meat & Wool Cup (Supreme All Breeds Exhibit) at the Hawkes Bay Show, she was the youngest beef exhibit entered.

2001 would be the year that Premier and Derek achieved two of the greatest successes, in June at the NZ Hereford National Premier 25C Standout U43, after not placing in the top six bulls sold for the top price of \$43,000 to Maungahina. This would be the highest selling bull of any breed in NZ in 2001, he went on to leave his mark in the Maungahina program as one of their most influential sires. Later that year Derek accepted the invitation to be sole All Breeds Judge at the NZ Royal Show in Canterbury, at the time he was the youngest to have the honour. In 2002 after being heavily involved with the family livestock operation Derek ceased the opportunity to purchase his parents dairy herd which included a Jersey content backed by 35 years of breeding and the more recently developed Oakview Ayrshires, it was at this time Premier Jersey and Ayrshire's were added to the Premier business.

Premier Ayrshires have enjoyed many awards including 2nd highest Ayrshire Production Herd in NZ and then at the 2013 NZ Dairy Event Premier Danehill Frost was awarded Senior & Grand Champion & Senior Best Udder Ayrshire while her stable mate Premier Pardna A Emanuel was

awarded Intermediate Champion & Best Udder. Not to be out done Premier Jersey's produced the 2013 NZ Royal Jersey & All Breed Intermediate Champion with Premier B'Stone Cameo a young that traced back to one of Derek's school calves. After genomic testing was done Premier Cent Synergy was selected as a potential bull mother by Semex which resulted in the collection of Premier SCD Simba.

In 2008 Derek & Catherine were married and "Premier Cattle Co" began, a move to Fencourt Road which has now allowed the dairy herd to expand to 450 cows. The decision was made in 2011 to disperse the Hereford's to allow us to focus on the dairy side of the business. In 2014, "Premier is Back in Beef". The opportunity to purchase 'Speckle Park' was presented to us by Mark & Melissa McKenzie, the original purchase of 7 females and a focussed embryo transfer program Premier Speckles grew to over 50 purebred females.

In 2016 we sold our first Speckle when a 6-month-old bull made \$8500 to a commercial producer. The growth and the interest in our program has seen us already export genetics, with embryos going into some of the leading programs in Australia and in 2017 semen from Premier 101Y Logic L11 selling to cover Nth & Sth America as well as the UK & EU. In June 2018, Premier 60A Molly N8 sold for \$23,000, eight heifers offered by Premier & Maungahina sold with an average of \$21,750. We have been fortunate to work with Mark & Melissa McKenzie to grow the strength of our program and to secure breed leading genetics to enable us to produce a quality product for our clients.

# SALE FORWARD

It goes without saying that it is a pleasure for Catherine and I to welcome you to our 3rd on farm bull and female sale.

We are extremely pleased with the progress our program is making. At Premier, our focus remains strong and true to my belief that our cow herd is not only our most valuable asset but also our most valuable and powerful tool in producing industry relative sires for the livestock industry. Structural correctness is extremely important to us as its correlation to longevity will add value to any livestock business. We aim to produce bulls with moderate birth weight, above average growth and optimal carcass traits that will produce progeny capable of adding value to your business.

All cattle are performance recorded with Breedplan and DNA Tested for Parent Verification, Horn gene, Red gene and Myostatin on a 50k SNP Test. At Premier we are constantly watching advancements in this space and are committed to testing our cattle as opportunities arise that will improve the product and service we can provide our valued clients.

Our commitment to developing the genetic base and diversity of herd saw me in Canada for 2 weeks in November last year touring 16 farms in the search for genetics to add to our program. We have been fortunate to be able to secure genetics that will mostly be new to Australasia and allow the Premier program to offer further genetic opportunities to our clients both stud and commercial.

The bulls will come forward on sale day well grown and in great condition. We are seeing the consistency in the line constantly improving, they have tremendous scrotal measures and great temperament. The environment at Brunskill Road with the rolling to steeper contour combined with a solid stocking rate provides an environment where the bulls can develop to their potential.

We have selected 5 heifers right out of the top of our program which we are proud to offer to new and existing breeders. We are offering one heifer from each sire that had multiple daughters in the 2019 calf crop, these include the first daughters of Logic and Banjo to be offered for sale in NZ. The female section of the catalogue is supported by an outstanding line of crossbred heifers all sired by our senior herd sire Premier 101Y Logic.

We have again worked closely with our vet to ensure we present our cattle to you with the highest health status necessary especially relative to M'Bovis. The support we receive from family and friends is humbling and we are very thankful for it. Catherine and I also acknowledge the dedication to our business of our team at "Premier"

We look forward to you joining us on the 1st of October for the "2020 Premier Sale"

Regards  
Derek, Catherine, Max & Jake Hayward

# HEALTH & SAFETY

As occupiers of the land (400 Brunskill Road, Cambridge, NZ) & hosts of the Premier Cattle Co bull sale it is our responsibility to make sure that every care has been taken to ensure your safety while on the property.

We ask that you wear appropriate footwear as you will be walking in paddocks, on gravel and should the weather be wet these areas can become very muddy & slippery. During the sale you will be able to move around, we ask that you be considerate of others especially the auctioneer by waiting until the lot in the ring has sold before moving. We ask that you avoid climbing up on any rails of the yards, if you need to enter please use the gate and be respectful of those working in the yards.

As you can appreciate we ask you to take every precaution while walking around the paddocks amongst the cattle, whilst we will try to minimise any possible area of hazard animals are unpredictable and have a mind of their own. Also give consideration to the fact that the cattle are not used to large groups of people, we ask you to please keep this in mind while moving through the mobs.

# NOTICE & CONDITIONS

**INSPECTION:** Cattle will be available for inspection prior to the sale by contacting the Agents or the Vendor.

**DELIVERY:** Please leave clear delivery instructions for your purchase, Derek can be contacted to arrange deliveries.

**SELLING ORDER:** The vendor reserves the right to alter the lot order. The highest bidder for any lot shall be the purchaser, should any dispute arise, the dispute maybe settled by the auctioneer at his opinion or the lot maybe put up again & resold.

**BUYER REGISTRATION:** A buyer's number will operate at the sale therefore it will be necessary to for all prospective purchasers to register prior to the sale commencing.

**REBATE:** Outside companies to contact Kelly Higgins, Carrfields Livestock 027 600 2374 to discuss.

**GST:** All lots sold exclusive of GST.

**INSURANCE:** All care will be taken with the cattle awaiting delivery, but they become the responsibility of the purchaser at the fall of the hammer, therefore insurance is strongly advised.

**TERMS & CONDITIONS:** The NZ Stock & Station Agents Association Conditions of Sale and, to the extent deemed relevant by Farm Source Livestock (FSL), FSL's Term's of Sale apply to this sale. These terms can be inspected at the registration desk and on the wall in the auction room.

**FAULTS:** While all care & responsibility has been taken by the vendors, agents and CubeMedia, no responsibility can be taken for any errors or omissions. All animals are sold in an as is where is condition and any perceived faults cannot be readdressed by the above parties.

The bulls listed below to be offered for sale by the Premier Cattle Company have been tested and vaccinated as follows by me on the 18<sup>th</sup> August 2020

- A direct tonsil swab for Mycoplasma bovis processed with the PCR test and giving a “Not detected” result.
- A caudal fold test for TB giving a negative result.
- Vaccination for BVD and Leptospirosis.
- A testicular examination for abnormalities.

The direct tonsil swab processed with the PCR test is currently the most accurate way of detecting M bovis with a high confidence level in lines of yearling bulls.

## UNDERSTANDING GENE TEST

The presence of two copies of the Red Gene will result in a Red coat colour. The results you will see for this gene are:

RGF	FREE	NO COPIES OF RED GENE
RGF	CARRIER	ONE COPY OF RED GENE
RGA	AFFECTED	TWO COPIES OF RED GENE

The presence of two copies of the Myostatin nt821 gene result in double muscling of an animal and cause health issues.

The results you will see for this gene are:

NT821F	FREE	NO COPIES OF MYOSTATIN GENE
NT821C	CARRIER	ONE COPY OF MYOSTATIN GENE
NT821A	AFFECTED	TWO COPIES OF MYOSTATIN GENE

The Polled gene is dominant to the recessive Horn gene. The presence of two copies of the horn gene (HH) will result in a horned animal. The results you will see for this gene are:

PCPC	HOMOZYGOUS POLLED
HPC	HETEROZYGOUS POLLED *COULD BE SCURRED
HH	HOMOZYGOUS HORNS

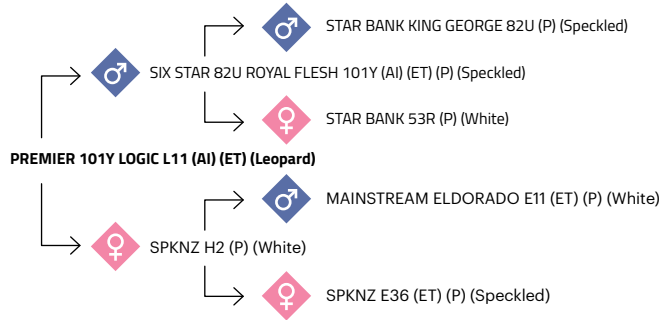

\*Only Hpc animals will show scurs and, this is more common in males than females. Not all Hpc animals will have scurs.

# REFERENCE SIRES

REF

## PREMIER 101Y LOGIC L11 (AI) (ET) (Leopard)

ID: PMR L11 | Colour: Leopard | DOB: 09/08/2015

As quoted by a long time professional in the stud industry "one of the best bulls of any breed in NZ in 2017". From one of our best cows Logic will be used heavily and I believe will have a major impact on our program. Nth & Sth American and UK & EU semen rights secured by Riverhill Farm & INC Cattle Co, Canada.

## MAUNGAHINA NEON (P) (White)

ID: MAU N306 | Colour: White | DOB: 27/09/2017

The high seller out of the 2018 Maungahina Yearling Sale, Neon was selected on phenotype and pedigree. Super correct structure, a front quarter that we knew would allow him to be used as a heifer bull, combined with outstanding locomotion NEON was an easy choice to add to the Premier sire group when we weren't really looking for a bull. His pedigree...and the individuals in it... backed up his herd sire traits, sired by the outstanding performance bull Maungahina Legacy who's full sister and dam are the highest performance cows in the breed and from the great MSM E12, this Baker daughter also produced the world renown Kidman's Cove. A genetic mix of low birth weight, high performance growth, positive carcass traits and maternal power Neon is siring wide based calves with deep flanks and width through the top. We are extremely excited about what NEON will bring to the Premier Cattle Co program, he will be a lead herd sire in our spring program.

## MAUNGAHINA KIDMANS COVE (P) (Leopard)

ID: MAU K247 | Colour: Leopard | DOB: 23/09/2014

Cove, through his pedigree and ability as a sire to produce industry-relevant cattle, is a household name in the world of 'Speckle Park'. A combination of maternal and carcass genetic, we are excited by Cove's contribution to our program.

ID: PMR Q8 | Colour: White | DOB: 17/07/2019

**TOP 1% MILK, 5% 200, 400, 600 DAY, 10% EMA.**

Quantum exhibits the growth and softness of carcass I would expect from his pedigree. His dam is the highest performance cow of the breed and in fact 3rd generation of female in the top1% for performance. The joining to Cove has added the smoothness of front end leaving a young sire that can be used across any breeding program. Q8 is scurred.

## PREMIER 01B QUICKSILVER Q19 (ET) (P) (White)

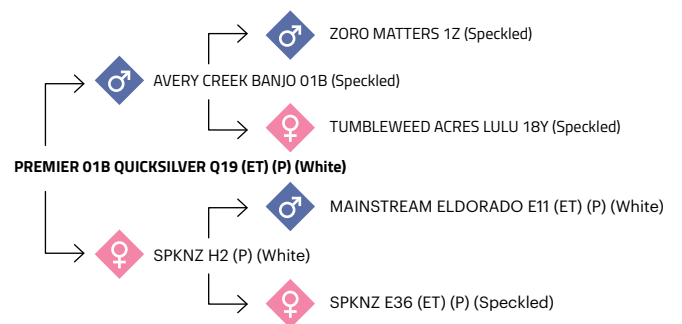

ID: PMR Q19 | Colour: White | DOB: 09/08/2019

### TOP 25% IMF, 30% BW

Quicksilver is a bull I consider has definite stud sire potential. White, smooth fronted, long bodied and sound structured Q19 is certain to have a positive impact on any program. Banjo has passed on his tremendous mobility traits into his progeny along with extra dimension of frame he offers. Quicksilvers dam continues to be one of the most valuable brood cows in the Premier program, she consistently delivers progeny that perform at the top end of the group.

## PREMIER N306 QUOTA Q23 (P) (Leopard)

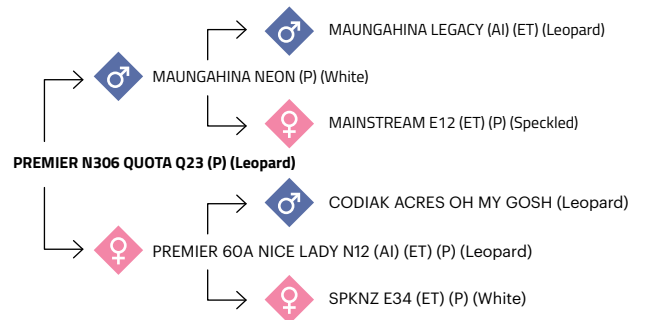

ID: PMR Q23 | Colour: Leopard | DOB: 12/08/2019

### TOP 25% EMA

Quota is another Neon from a first calving heifer who goes back to E34 so he will make an outstanding choice for heifer mating.

## PREMIER 01B PRAIRIE Q11 (ET) (P) (Speckled)

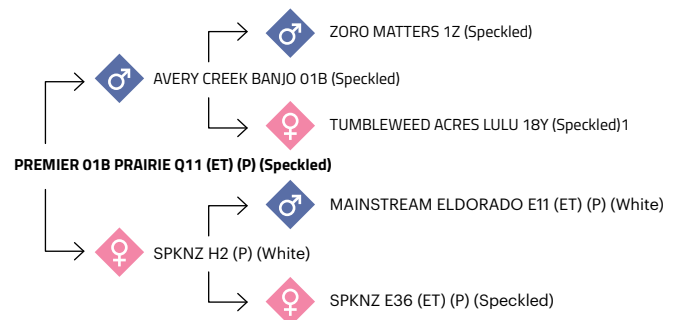

ID: PMR Q11 | Colour: Speckled | DOB: 30/07/2019

### TOP 20% IMF, 30% GROWTH & MILK

Prairie Q11 has been a standout heifer from day one, she is the first Banjo daughter to be offered for sale in NZ. There is so much to like about her, long bodied, big volume yet all Lady! She has the look and the pedigree to be a foundation female in any program, her dam is an outstanding brood cow and foundation female in our program, she is also the dam of Logic.

## PREMIER L11 LADY Q35 (P) (White)

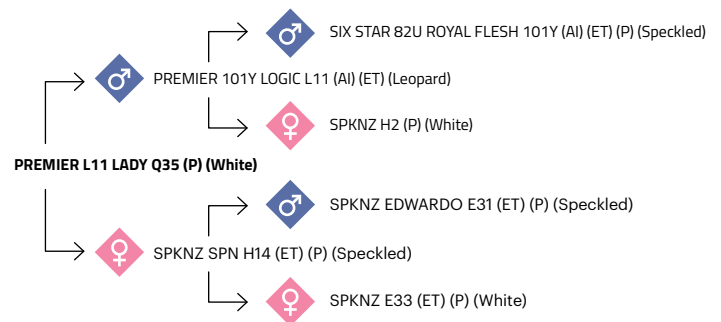

ID: PMR Q35 | Colour: White | DOB: 05/09/2019

### TOP 1% 400 DAY, 5% 200, 600 DAY, 10% MILK

Lady by name and lady by nature & the first Logic daughter to sell in NZ. Q35 is so beautifully balanced, structurally correct and everything a new or existing breeder could want in a future brood cow. We are using Logic heavily in our program, we want the temperament, length and great foot structure he has firmly cemented in our foundation female herd. Her dam was the pick "H-drop" heifer in the SPKNZ herd and like so many of the Edwardo cows has developed into an outstanding cow.

## PREMIER K247 MOLLY Q7 (ET) (P) (Leopard)

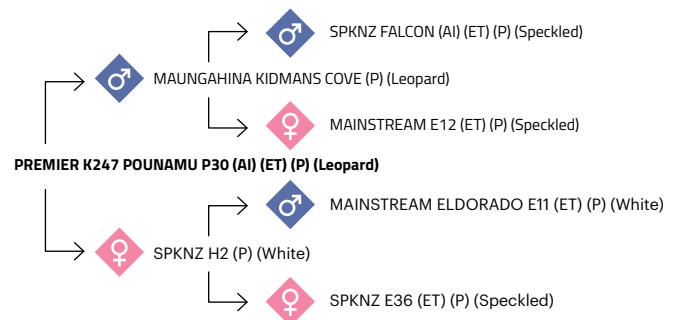

ID: PMR Q7 | Colour: Leopard | DOB: 11/07/2019

### TOP 1% MILK, 5% 200, 400, 600 DAY, 10% EMA

If you want to add a performance cow family to your herd then this is that female! Molly Q7 exhibits optimum bone and carcass for a young female while retaining ample refinement to support being in the top 1% of the breed for milk. Her dam is breeding exceptionally well for us to multiple sires, she also produced Molly N8 who sold to the Reader family for \$23,000, sired by the world renown Kidmans Cove, Molly Q7 will appeal to the most discerning breeder.

## PREMIER N306 NICE LADY Q24 (P) (Leopard)

ID: PMR Q24 | Colour: Leopard | DOB: 12/08/2019

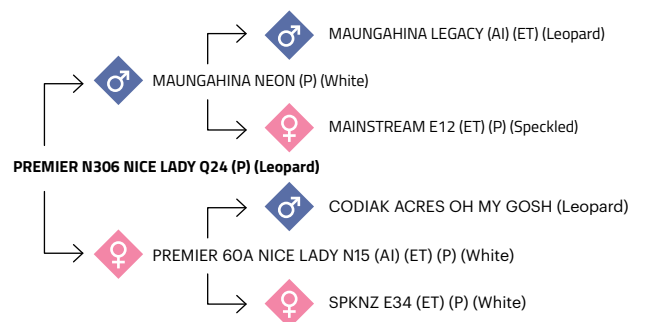

### TOP 25% BIRTH WEIGHT

Nice Lady Q24 offers breeders a genuine low birth weight family.

Q24 is a deep sided heifer with a tonne of capacity. I am very excited about how Neon is going to add to our program, he has a proven pedigree and is delivering in the pasture. Her grandam SPKNZ E34 (full sister to Extreme) who is still breeding and is in our autumn calved group with a calf at side. Is a direct daughter of one of the original foundation cows, Codiak 25N.

## PREMIER N5 LASS Q36 (P) (Leopard)

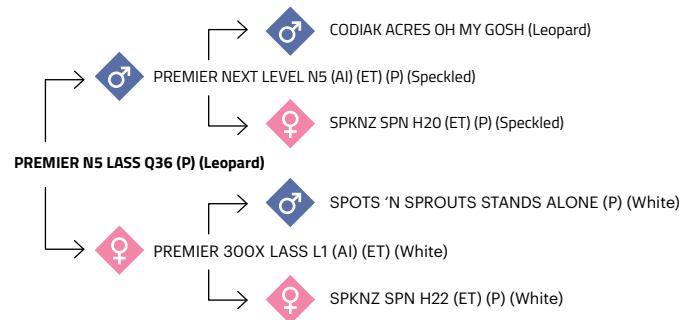

ID: PMR Q36 | Colour: Leopard | DOB: 05/09/2019

### TOP 1% 200, 400 DAY, 5% 600 DAY, MILK

Big framed, tonne of performance and from an extremely well performed cow family. Lass Q36 will be a little later maturing but has so many great cows behind her she will undoubtedly make a great cow, just look at her two grandams, SPKNZ H22 & SPKNZ H20.

These 2019 born heifers are all sired by Premier 101Y Logic L11. Their Hereford/Friesian cross dams are an outstanding group of cows who still make up a large portion of our embryo recipient herd. Well grown and long bodied this group of young females will make great cows in the future, take the opportunity on sale day to see how Speckle Park genetics can play a part in commercial programs.

# Notes

# BULL POWER PLAN

## *Have your service bulls covered this season*

*Purchase your Spring Service Bulls now and pay only \$60 per head admin fee with the balance due by the end of February 2020 \**

### *Maximize Cash Flow*

- *Sell the bulls when you are finished and pay the difference*
- *Sell your cull cows or other livestock to offset the balance due*

### *Service Bull Auctions / Paddock Sales*

- *Purchase your bulls in the paddock or at one of our service bull auctions*

*Contact your local Carrfields Livestock representative for all your service bull requirements*

**Carrfields**

**Livestock**

To view our bull auctions / listings or locate a representative visit: [www.carrfieldslivestock.co.nz](http://www.carrfieldslivestock.co.nz)

*\*Terms and conditions apply*

## *Exclusive Bull Cover*

### ***What is Exclusive Bull cover?***

All bulls auctioned at this sale up to the value of \$50,000 will automatically be covered under FMG's Exclusive Bull cover for 14 days at no cost to the purchaser.

### ***Length of cover***

To extend cover for the specified bull beyond 14 days you need to tick Exclusive Bull cover 12 months on the Purchaser Instruction and Insurance Slip in this catalogue. The specified bull is then covered for the remaining period of 12 months. The premium is payable to FMG and is in addition to the purchase price of the bull.

If you require an alternative cover period talk to an FMG representative.

### ***Your bull's value***

Any bull covered under this policy must be purchased for \$50,000 or less. For any bull purchased over \$50,000 talk to an FMG representative.

### ***During the period of insurance, the specified animal is covered for:***

- Death or infertility as a result of accident, disease or illness.
- Transit.
- Theft.

### ***What we will pay***

Fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.

### ***Disclaimer***

Please note this is only a summary of the product and is subject to our specific product documentation. For full details, you should refer to the policy document. You can get these documents, and any other information you need, from your FMG representative, by calling us or visiting our website.

# WE'VE MADE BULLS MORE ATTRACTIVE.

14 days  
**FREE**  
cover

**6.5%**  
for 12  
months

The handsome beasts in this catalogue will look even more appealing on sale day, thanks to FMG – the country's leading rural insurer. With 14 days free Exclusive Bull Cover, they'll be automatically insured from the fall of the hammer, covering their transit and infertility. And you can keep that cover going for the remaining 12 months for just 6.5% of the purchase price, for bulls up to the value of \$50,000. So don't miss this chance to buy bulls covered by FMG. It's a mighty attractive offer.

Please note this is only a summary of FMG products and services and is subject to our specific product documentation. For full details, refer to the relevant policy wordings at [fmg.co.nz](http://fmg.co.nz)

*We're here for the good of the country.*
