## ABOUT KIRKDALE.....

Welcome to our fourth on property ram sale. Kirkdale Southdowns was founded in 1884 and is the second oldest registered stud in Australia. The stud is now run by 5<sup>th</sup> generation, Andrew Hogarth and his partner Aneika and their two boys Cooper & Jack. Our focus is on producing structurally sound, smooth shouldered, long bodied and well-muscled rams with the aim of easy lambing and producing fast growing lambs for the prime lamb industry.

## Sires used in 2019

- **Kirkdale 239-14:** He was awarded “all breed sheep of the show” at Warrnambool Show 2016. A very powerful and well-muscled ram.
- **Kirkdale 206-16:** A long bodied, correct ram with a great hindquarter and exceptional EMA. Reserve Champion Ram at Geelong National Southdown Show 2018. Three New Zealand studs have used him by AI along with several leading Australian studs. We believe he is one of the best rams Kirkdale has bred.
- **Kirkdale 211-17:** Moderate frame, thick, neat ram.
- **Kirkdale 351-17:** Sire Clifton Downs 279-14. Out of same dam as 239-14. Big powerful ram with good hindquarter.
- **Kirkdale 353-17:** Sire Clifton Downs 279-14. Big, long, heavy boned ram. Impressive from day one.
- **Kirkdale 358-17:** Clean head, moderate frame, great hindquarter.
- **Burando 56-16 (Tank):** Known as ‘Tank’ as he is built like a tank! Not a big sheep but all meat.
- **Fairbank 867-17:** Clean head and points. Long bodied with nice hindquarter.

**SOD:** Clifton Downs 241-10

**Gaucher Tested:** Non Carrier

## Understanding Lambplan

Lambplan has been used for the last five years at Kirkdale.

**Bwt – Birth weight:** The lower the ASBV for birth weight on a ram, the lighter their progeny will be born.

**Wwt – Weaning weight:** A positive ASBV means the animal is genetically faster growing.

**Pwwt – Post Weaning weight:** Rams that have a higher post weaning weight normally produce lambs that grow quicker and get to their target weight faster.

**Pfat – Post fat:** A ram with a negative ASBV means a genetically leaner animal.

**Pemd – Post Eye Muscle Depth:** A ram with a positive ASBV means a genetically thicker muscled animal, and one that will have slightly more of its lean tissue in the higher priced cuts.

While the lambplan figures are important to ensure a balance and consistency of progeny, they are only a guide. We believe that the build and structure of the rams should also play a part in the selection process.

Please note – ASBVs are at 01/10/20.

## Three specially selected Southdown Rams

These first three rams have been specially selected as we believe they have stud sire potential.

For anyone interested, there are videos and full pedigrees of the three individual rams on our Facebook page, just search for Kirkdale Southdowns. If you'd like any further information, please feel free to contact Andrew on 0438 918 177.

**Lot 1** – Big powerful ram with a good hindquarter.

**Lot 2** – Exceptional ram. Upstanding, great back end. Thought long and hard about offering this ram, probably should have kept him.

**Lot 3** – More moderate framed ram with another great back end. Very neat and tidy.

## Southdown/Charollais x Rams

We are also offering 14 Southdown/Charollais rams.

This year's offering is sired by a pure Charollais ram over a few select pure Southdown ewes.

As a result, we are offering the progeny, which are 50% Southdown and 50% Charollais genetics.

This line of rams are very impressive. They are real meat machines!

Charollais X are lots 26-39, followed by the remaining Southdowns.

***10 Romney Rams to follow straight after Southdowns  
(Not on AuctionsPlus)***

## **Ridgeside Romneys**

Cross bred lambs out of  
Merino ewes by a Romney  
ram at 16 weeks at  
weaning

BRUCELLOSIS FREE

## About Ridgeside....

Ridgeside Romneys was founded in 1948 by PE & NA Seager at “Ridgeside”, Evandale, and is the third oldest registered stud in Australia. The stud is now run by Peter & Nora’s grandson, Andrew Hogarth.

Currently running 150 stud ewes and around 200 pure bred commercial ewes, our focus is to breed cleaned faced, moderate frame, easy doing rams, that will produce exceptional cross bred ewe lambs as future breeders and wether lambs that are easily finished out of both Merino and crossbred type ewes.
