Lot 4: Monarch 384. This young 10 month Sire is special in the SheepMaster Stud. They are very strong shedders and have excellent feet and conformation. Monarch 384 shed 100% in July. This trait is very important to SheepMaster.

Lot 3. Zerc has had three mating programs in the SheepMaster Stud in his 14 month life and has the potential to grow and breed to become equal to Hercules. We have retained Zerc 1, his brother, an exceptional Sire. The Zerc family are bred from an introduced ewe line, sired by Hercules.
