Tourella Fleckvieh Dispersal Sale information

Offering: 23 Fleckviehs Stud cows / heifers – 9 commercial Fleckviehs – 10 semen straws

Blood lines of the cattle include:

Munga Park PROSTOCK Hugo (USA),	Steinadler (Germany) Evolution	Zottel Kensylia	Matalanka Daniel Eando
---------------------------------------	-----------------------------------	--------------------	---------------------------

- Date:** Friday 20 November 2020 commencing 5.00pm AEDT
- Tourella location:** RMB 4947 Muttama Rd, Cootamundra NSW 2590
- Sale format:** AuctionsPlus online only simultaneous (helmsman) sale). Intending buyers MUST register to bid with AuctionsPlus and have completed registration form available here via link <https://auctionsplus.com.au/>
Assistance with registration process is available from the AuctionPlus website.
- Inspections:** Inspections by appointment only due to COVID restrictions-please contact Heather Emonson on 02 69 422827 or email Rhonda Emonson – rm.emonson@bigpond.com to make an appointment to inspect cattle.
- Covid-19:** Currently Covi-19 protocols will be adhered to. Visitors will be required to complete visitor register, maintain social distancing and practice hand hygiene. If you are feeling unwell, you must not attend Tourella in paddock inspections. Due to Covid-19, there will be no luncheon supplied however (if permitted) we will provide light refreshments providing we adhere to necessary and current health guidelines.
- Delivery:** Purchasers are responsible for delivery; cattle are to be taken from Tourella with in five (5) days of sale unless prior arrangements are made. We also suggest you take responsibility for insuring your cattle from the date of purchase. We recommend Graham Butt Transport 0427 497 058 as we have engaged this service for many years and he is familiar with cattle.
- Herd Health:** All relevant drenches and vaccinations administered prior to sale date. Stud cattle are appropriately tattooed, with young calves having 'registration pending'. Pregnancy status confirmed by Veterinarian Dr Simon McPhee from Coolac Veterinary Clinic on 14th October 2020.
- Society transfers:** If you require lots purchased to be transferred to your ownership with Fleckvieh Society, please ensure you complete the relevant section of the buyer registration form and buyer instruction slip providing your membership details.
- Semen lots:** Semen sold in 2 lots of five straws. Semen are stored at Coolac Veterinary Clinic. Storage, collections, and any freights costs are the responsibility of the purchaser.
- Farm Inspections:** Visitors enter the property at their own risk.

Our story

Fleckvieh are a dual-purpose breed specifically bred for superior beef and milk qualities. Tourella Fleckvieh cattle exhibit many years of diligent breeding and strict culling. The emphasis has always been on producing cattle for a niche market of return customers, those that return year after year looking for cattle that have not been overfed and overprepared.

Purchasers of cattle have come from northern QLD, northern and central NSW, the regions around Cootamundra, South Australia, Wodonga, Canberra, and Indonesia. Our values are based on honesty and transparency and not on *'bigger sheds', bigger machinery, or bigger feeding programs'* but rather sound cattle. The benefit to you is that *'what you see, is what you get'*.

Members of the Fleckvieh Society are encouraged to breed a middle of the road animal with easy doing ability. Cattle are structurally sound, highly fertile, able to fit into ANY breeding operation, purebreds, or cross breeding. Importance is also placed on efficiency, early maturation, and ease of birth.

The plan was always to progress slowly over the coming years to build on bloodlines and generational knowledge and then to acquire land to enable Tourella Fleckviehs to 'flourish' for future generations. While this plan was 'hatching' the cattle have been on leased land waiting for the right time to take a leap of faith into the next stage.

However, that plan had to abruptly change with little warning. Some of the cattle were placed on agistment while I searched high and low for land to enable the project to continue however this has not been found. Agistment is not a long-term option for Stud Cattle so I had to make a hard decision and abort the dream.

This is sad for Tourella Fleckvieh but a wonderful opportunity for you. Cease the opportunity to continue what has been started.

Rhonda Emonson

DISCLAIMER: While all due care and attention has been paid to accuracy in the compilation of this catalogue and presentation of cattle for sale, neither the vendors, the selling agents or representative thereof assume any responsibility whatsoever for the correctness, use of interpretation of the information on animals included.
