# SALE INFORMATION

## VENDORS WARRANTY

- All Sale Bulls and Females are fertile.
- Bulls are capable of Natural Service.
- Where disease or injury occurs after leaving the sale, which causes infertility or inability to serve, or in multiple mating situations, this warranty does not apply.
- Any claims to fertility to be accompanied by Veterinary certificate within 10 months, each vendor reserves the right for a second independent veterinary opinion at the vendor cost.
- All other claims or issues causing problems are warrantied for up to three years for terms and conditions please speak to individual vendors.
- This warranty does not replace an insurance policy and we strongly recommend you insure your purchases.

**REBATE:** 4% rebate to outside agents accompanying their clients (Commercial 1%).

**INSURANCE:** Please note Purchases from any Stud Sales are **not covered** under your Elders Vendor/Purchaser Transit Scheme if you want cover **make sure you insure under a Stud Stock Policy.**

**RAW DATA:** Scanned on **11th December 2019** with Max Bowman.

**INSPECTIONS:** Welcomed from **12pm** on sale day or prior to sale by contacting the vendors.

**FREE FREIGHT:** 150 kms from the Arki property, on all bulls. Where multiple bull lots are purchased to the same district, we will freight 150 kms per bull.

**BUYER'S INSTRUCTION SLIP:** Must be completed by all successful purchasers and registered with the selling agent on completion of sale or **No delivery.**

**TRANSFERS:** All registered lots will be transferred to the respective purchaser free of charge.

# WHEN COMPARING BREEDS OUR EBV FIGURES ARE ONLY FOR WITHIN THE MURRAY GREY BREED

EBV's are a tool that will help you to make more thorough decisions when you are choosing breeding stock. In this catalogue you have access to EBV's for fertility, weight for age and carcass. The best way to make sure of this information is firstly to decide YOUR breeding goals and secondly to select animals with EBVs that match those criteria. Most importantly inspect each animal visually to see if it conforms to your criteria for structural soundness.

**Birth Weight EBV (kg)** is based on the measured birth weight of progeny, adjusted for damage. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth.

**200-Day Growth EBV (kg)** This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

**400-Day Weight EBV (kg)** This EBV is the best single estimate of an animal's genetic merit for yearling weight.

**600-Day Weight EBV (kg)** This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

**Mature Cow Weight EBV (kg)** This EBV is an estimate of the genetic difference in cow weight at 5 years of age and is an indicator of growth at later ages. Steer breeders wishing to grow animals out to a larger weight may also use the Mature Cow Weight EBV.

# GREEN TRIANGLE SALE

We welcome you to our 10th Annual Green Triangle Sale, a joint venture between two siblings and their families. Geoff & Kate Buick of Arki – established in 1973, and Anthony & Denise Fabris of Beemma – established in 2002.

Well this year's season has been very mixed around Australia. Our district had a great start, then was hit by seven very impressive frosts in a row (as low as -4.3) in June. Ground temp and rainfall never got back on track, but compared to our Northern friends and the vast areas of bushfires we can't complain. On the industry side of things there have still been high female slaughter numbers. Thanks to China's swine disasters we have seen a rise in the price of older cows and bulls grinding beef.

The sale draft of 26 bulls and 50 commercial females are starting to show their potential as they are growing out. In the draft our bulls are displaying figures of Top 1% for 200, 400 & 600 day growth, Carcass Wt, Scrotal size and Milk. Top 5% for EMA, Top 15% for IMF, Birth Wt as low as +2.9 and 8 with positive fats.

The commercial heifers are also looking good, they are starting to heavily spring up now and are due to start calving from the 1st February onwards.

Both studs each year use the show ring to promote and benchmark our cattle against fellow Murray Grey breeders. Unfortunately this year the Beemma stud was not able to show due to an ankle injury to Denise, putting her out of action for three months. Arki stood up well with their National Show & Sale exhibit Arki Kate G23 winning Grand Champion Female & Supreme Exhibit. Then at the Adelaide Royal Show, Arki Foxy Lady M71 exhibited by Lochclyde Pastoral took out Senior & Grand Champion Female & Supreme Exhibit, then went on to win Reserve All Breeds Champion Female. Arki's steer which was exhibited by Bordertown High School won 2nd highest scoring M/G carcass with 87.8pts. Beemma steer exhibited by Trinity College, won 5th place on the Hook in the light domestic section. In Melbourne Arki Foxy Lady M71 was Senior Champion Female & got 3rd place All Breeds Senior Female, and Arki Marketable M79 was Reserve Senior Champion Bull and is now a sire at Beemma stud.

All cattle are fully guaranteed for structural soundness & fertility, J-BAS 6 & tested negative for Pesti virus, plus vaccinated with 7in1 & Vibrio, so you can buy with confidence.

If more testing is needed this can be arranged before traveling starts.

Both families would like to welcome all clients, potential clients and friends to our Green Triangle Murray Grey Sale. This year we are going to be interfaced with AuctionsPlus. So login to [www.auctionsplus.com.au](http://www.auctionsplus.com.au) or come to the Arki property on 4th March.

# We do a lot more for your cattle.

Elders markets more than 2.3 million cattle each year and offers a full range of animal health products and services to ensure the most productive stock. When it comes to selling, we also offer the

- Traditional Auction - offers access to regular sales with extensive competition, with quick and secure payment of sales proceeds.
- Over-the-hooks - Elders association with key processes presents a variety of over-the-hooks (OTH) options for producers.
- On-Property/Private Sale - Producers have the ability to minimise risk through Elders obtaining a price for livestock on-farm with prompt delivery payment at the agreed price upon delivery.
- Feedlots - Elders operates feedlots in NSW (Killara), and Victoria (Charlton), with 85-90% of the cattle passing through them marketed on back-to-back contracts.
- Auctions Plus - Electronic selling system for livestock that offers national competition, allowing buyers to log into and participate in the live sale, anywhere in Australia.
- Forward Contracts - Elders forward contracts are available for feeder cattle and over the hooks grades, for all NSW, VIC & SA producers (subject to timing and availability).

For more information on any of these selling options please contact the team at Elders Naracoorte on 08 8762 2022.

## What makes your new sire good value for money?

When looking to purchase a new or replacement sire for your enterprise, there are a couple of decisions you need to make. First you have to choose a bull/bulls which suits your business, incorporating key points, e.g. structure and desired industry traits which can improve the profitability of your herd.

With that done we now come to the hard part of the process, “what is the value of your new sire?” Look we would all like to buy the best animal possible for the cheapest price, but buying your new sire on price only can cost you thousands, as you can get a bull which does not suit your cows sending your enterprise backwards.

A good rule of thumb is your new sire will be cheap or good value at the cost of 5 to 7 of your calves.

*For example:*

Your bull is used over 40-50 cows/ year for 4 years with a conception rate of 92% therefore producing 148 to 184 calves over his 4 years of working life (making 5-7 calves very good value for your new sire).

Or, you're only a small breeder owning 10 or less cows, therefore your bull could last between 8 to 10 years of working life with a conception rate of 95%, so producing 76 to 95 calves (still making 5 to 7 calves very good value for your new sire).

*Now with this in mind you will probably have more chance of purchasing your first choice of the bulls on offer?*

***Geoff & Kate, Anthony & Denise, and families  
of the Green Triangle Murray Grey Sale  
thank you for attending our 10th sale.***

***We wish you every success with your purchases  
and look forward to seeing you next year  
at our 11th sale on 3rd March 2021.***

# TO BE SOLD FIRST
