## TUESDAY 25<sup>TH</sup> FEBRUARY 2020

• AUSTRALIA'S LARGEST HOMOZYGOUS POLL SALE •

**PREFACE:** This is the 49th Annual Injemira Production Sale, and will be conducted at “Kiloran”, Book Book via Wagga Wagga NSW. 18kms north of Hume Highway on the Wagga Tumbarumba Rd. Inspection 9.30am. Sale 1.00pm.

**INSPECTION:** We encourage buyers to inspect the cattle prior to the sale. This gives us an opportunity to assist in selection of the best genetics for your herd, and to show you the strength of our sires and breeding herd. Contact Marc Greening at home on (02) 6928 1188, Mobile: 0411 043 039. An ideal time for inspection is the Stock and Land Field Day on Wednesday, 29th January, 2020.

**WEIGHTS:** Will be available on sale day, or prior to the sale by ringing / emailing the Injemira office.

**PAYMENT:** Special arrangements can be made by contacting Injemira.

**ACCOMMODATION:** There are excellent Motels in Wagga Wagga, and we or the selling agents can make the necessary arrangements.

**TRANSPORT:** We can arrange your transport to and from Injemira, as there is an excellent air service to Albury and Wagga Wagga.

**BREEDPLAN:** We utilise and recommend Breedplan, which is a pedigree assessment of an animal's genetic merit. This is expressed as estimated breeding values (EBV's) and is measured in kilograms of liveweight.

**TABLE 1:** Average EBVs for the 2018 born animals analysed in the DECEMBER 2019 Hereford GROUP BREEDPLAN.

	<b>Gest. Length</b> EBV	<b>Birth Weight</b> EBV	<b>Milk</b> EBV	<b>200-Day Growth</b> EBV	<b>400-Day Weight</b> EBV	<b>600-Day Weight</b> EBV
	-0.3	+4.4	+18	+33	+54	+76

	<b>Carcase Weight</b> EBV	<b>EMA</b> EBV	<b>Rib Fat</b> EBV	<b>Rump Fat</b> EBV	<b>RBV %</b> EBV	<b>IMF %</b> EBV
	+50	+3.2	+0.5	+0.5	+0.8	+0.4

**BULL SELECTION:** Group Breedplan provides the information required to make a considered selection for the sire suitable for your herd improvement, be it for growth, calving ease, milk, eye muscle area etc.

**HEIFER BULLS:** Sire lot numbers marked with an  are those sires we would suggest suitable for joining to heifers.

**THE BREEDPLAN SELECTION INDEXES:**

This Index gives you a single EBV that reflect the value of an animal, to your breeding objective, in dollar terms. Each lot is expressed in the following format.

Southern Self Replacing	\$	+119	2018 BORN HEREFORD BREED AVERAGES
Northern Self Replacing	\$	+104	
Southern Baldy Maternal	\$	+119	
Northern Baldy Maternal	\$	+87	

**AFTER SALES SERVICE:** We pride ourselves in the manner in which we look after our clients. Forming strong alliances can only enhance the product. Don't hesitate to contact us.

**BULL SOUNDNESS:** All the sale bulls have been examined by our vet, in accordance with industry best practice.

**SPECIAL ARRANGEMENTS FOR LATE WINTER/SPRING JOINERS**

Injemira can retain those bulls purchased by late Winter/Spring joining operators until the bulls are required, free of charge. Payment would be 50% at sale time, with the balance payable on delivery. Contact Injemira to make arrangements.

**Be sure of a catalogue and bring this one to the sale.**

### PRE SALE INSPECTIONS

A convenient time for pre sale inspections would be during the Stock and Land Field Days, at "Kiloran" on Wednesday, 29th January, 2020. All sale bulls will be on display from 9.00a.m. – 6.00p.m.

Injemira Beef Genetics is a family run and owned whiteface seedstock business with Polled Whiteface Genetics utilised to produce commercially orientated bulls for the Australian beef industry. In 2020 we will offer 92 Polled sires in our Annual Production Sale.

Our program is not your traditional stud business. Our breeding decisions are dictated by commercial reality and that alone. Many stud operations can claim this but at Injemira we do it ourselves. In 2020 Injemira will turn off from grass ~2000 cattle in the form of Grass Fed Steers and Heifers and Live Export Breeding Females along with 250 PTIC females for a July calving. With pedigrees analysed for “real world” performance and this analyses directs our breeding decisions for the upcoming stud breeding season.

This vertical integration with the commercial performance driving our stud herd not only enables us to offer bulls that we know will perform but it also allows Injemira to give relevant feedback to repeat clientele to give them the most desirable genetic package. “Seedstock production is not selling a bull, it’s selling a complete program”.

The Injemira stud herd consists of 350 registered stud breeders with a program of not culling any heifers. Natural selection does this for us. All females have to calve naturally before 2 years of age and rebreed to calve again at the age of 3. If any female does not do this she is culled. This enables Injemira to offer for sale every 4th year complete age groups of proven mature stud females as we have large numbers of replacement females coming through the system. This stringent commercially orientated program is why Injemira can offer to the industry ~120 bulls annually from only 300 stud females. The Injemira drop is very consistent with each bull being highly predictable genetically. We see in our industry far too often seedstock herds with large numbers of registered females selling relatively small numbers of bulls, you only get to see the top of the drop. At Injemira you will basically see the entire drop giving you the confidence that your “genetic package” will breed to a consistent level.

## 2019 - The year that was

**Stud**- The Annual Bull Production Sale in February was extremely solid and offered sires for all budgets. Having a sale that caters for all sectors of the industry is a goal at Injemira. In the sale breakdown it was pleasing that commercial producers had the ability to secure value for money sires, with 25 bulls selling between-\$4000-\$5999, 14 selling for \$6000-\$7999, 18 selling for \$8000-\$9999, 26 selling for \$10,000-\$19,999 and 2 selling over \$20,000 to top at \$54,000. Our sale again was the highest grossing and average price whiteface sale in Australia for the year and was one of the highest average price sales for all breeds for the Autumn selling season, proving that sires with quality carcass attributes are in demand no matter what the colour of the hair is. We have seen numerous new sire lines come to the fore in 2019 and we are very excited to offer these progeny in 2020. The Wildfire’s are just so consistent along with great calving ease sire lines of Fortune M152 and Kickstart. The Techno’s and Executive’s again are a fantastic line of modern Poll Hereford sires.

**Commercial**- In 2019 we didn’t get bulk rain but when it did rain it was at the right time. With this rain we produced quality feed through the growing season. The Injemira blood commercial steers/heifers performed well with the early maturity patterns enabling bodies to hit the premium ‘Grass’ branded programs of Southern Australia. At Injemira our premium market for steers and heifers ‘Coles Graze’ was a great marketing outlet taking Grass fed Injemira blood whiteface cattle for what is the industries premium market. The steers that got too heavy for the Coles market went to JBS’s Great Southern brand which was an exceptional outlet for the heavier bodies. Again the whiteface is proving to be perfectly suited to the grass fed industry which is currently the jewel of the Australian export industry. Our pregnant heifer program was solid with heifers going mostly to Injemira bull clients. Heifers both stud & commercial from Injemira also went to China as part of a breeding order.

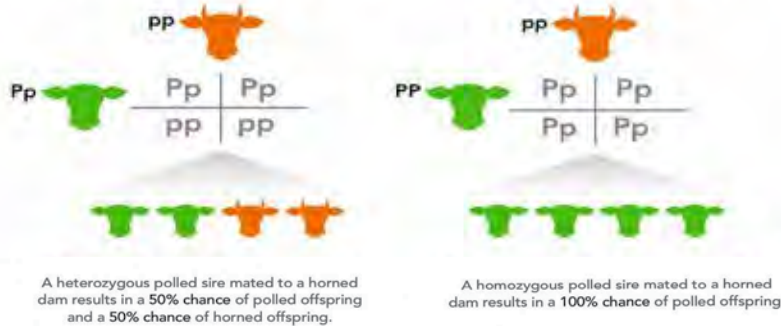

**Industry**- Injemira’s MSA Index for over 1500 bodies was a fantastic 61.8 putting Injemira in the top 10% of the entire industry. Gone are the days of producing huge growth cattle that don’t finish until 3 y/o on grass, we need early maturity patterns with the ability to finish off grass as a milk tooth animal. We need to concentrate on areas that we will be paid on in the future and that is my job as a seedstock producer to provide this, I cannot stress highly enough that this is **CARCASS YIELD & CARCASS QUALITY** and that is what gets you an MSA Index in the top 10% of the industry.

# 2020 - SCIENCE @ INJEMIRA

## All Poll Bulls - Poll Gene Tested in 2020 - Homozygous/Heterozygous

- Results for the Poll Gene testing are included in the individual lots of the 2020 catalogue.

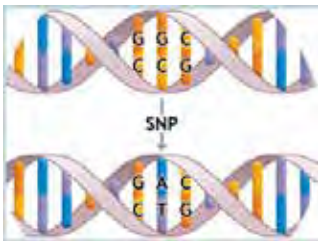

### Two Possible Scenarios of Breeding Using a Polled Sire

NOTE: A third breeding outcome is possible if a Pp (polled) sire is bred to a Pp (polled) dam – the heterozygous polled calves will result in 25% PP, 50% Pp and 25% pp calves.

Statistics courtesy Alfa Genetics

## Genomic Utilisation in 2020-

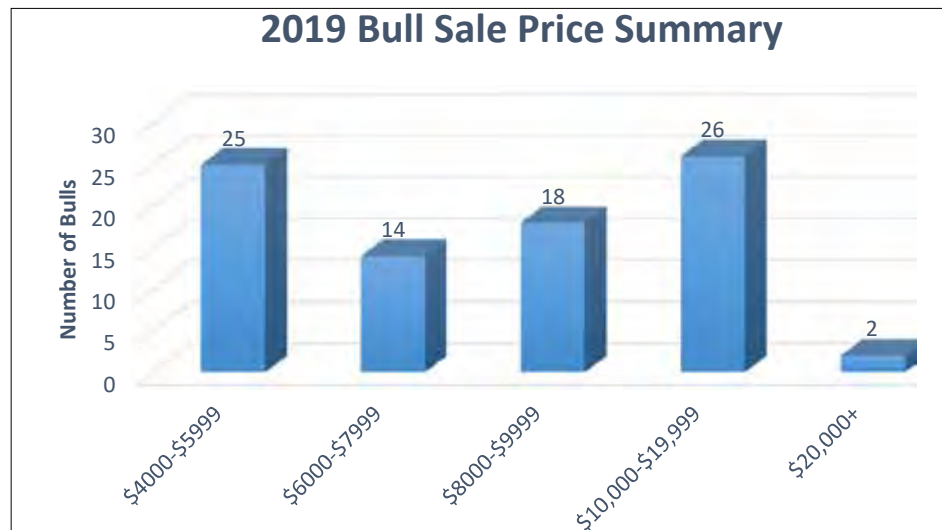

- All Bulls have been Sire Verified.
- All Bulls have been tested Negative for known genetic conditions.
- All Bulls have been SNP (Single Nucleotide Polymorphism) tested to Genomically enhance breeding prediction values.
- Results have been incorporated into the 2020 catalogue EBV's.

## Injemira is Affordable

- With the current market levels the bull you purchase is a relatively cheap input into your farm business. In a self-replacing herd that bull will have Daughters and Granddaughters still in production in 20+ years.

### 2019 Bull Sale Price Summary

- There is a reason that 87% of our bulls went to return clients in 2019 and that reason is they perform and are accepted as industry leading genetics suitable for the modern markets.

## QUALITY ASSURANCE AT INJEMIRA

Rest assured every step has been taken to offer the commercial buyer a disease free sire that will enhance your female herds reproductive rates.

- All Bulls Pesti Virus Vaccinated
- All Bulls 7 in 1 Vaccinated
- All Bulls Vibrio Vaccinated

## PESTI-VIRUS ASSURANCE

Pesti virus is a problem for southern cattle breeders, that in the whole has been left untreated due to the complex nature of not only the clinical symptoms but also the complex viral spread.

In 2009 Injemira took advantage of new technology by implementing an 'ear notch' test that identifies all persistently infected (PI's) within a herd. Along with the 'ear notch' test Injemira has continued with our vaccination and maiden heifer exposure programs that we have been implementing for the past 7 years.

## Birth Weight Measured at Injemira-

### Heifer Bulls Marked with an H

At Injemira we weigh and record all calves at birth. You will notice that in the catalogue a number of sires have been marked with an H this indicates that we consider this sire suitable for a heifer joining program. This recommendation has come from not only a structural observation but a Breedplan EBV and actual birth weight analysis. Many other Whiteface studs in our industry do not offer this to their clients and don't weigh any or only a few calves. They claim that a bull with low performance (600 day weight) will also have a low birth weight. We all know this is not the case! At Injemira we strive to achieve an animal with low to moderate birth weight and increased growth which can be seen by analysis of the sires catalogued.

# COMMERCIAL INJEMIRA PTIC HEIFERS

## - FOR SALE -

Selling **250 PTIC Commercial Heifers** - April/May 2020

- Rising 2 1/2 Years
- PTIC - 6 week Joining
- Commence Calving 17th July 2020
- Specialist Polled Heifer Bull Joining Sires
- EU Accredited
- PCAS Eligible
- JBAS 6
- Fully Drench & Vaccinated
- Sell in Lots to suit buyers

At Injemira we purchase annually weaner heifers from bull buying clients. These heifers are then drafted on constitution and market suitability traits with the best 300 joined to be sold annually for breeding.

The Heifers available in 2020 are a tremendous line of Injemira blood heifers that will suit any progressive breeding operation.

**PURCHASING** - Call Marc 0411 043 039 to lodge your interest with price on application (POA) in April.  
NB: First in first served.

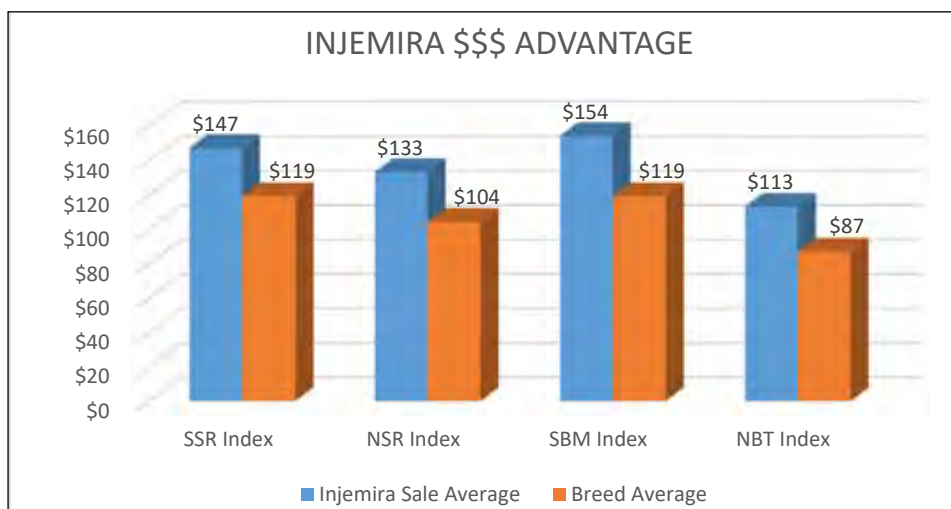

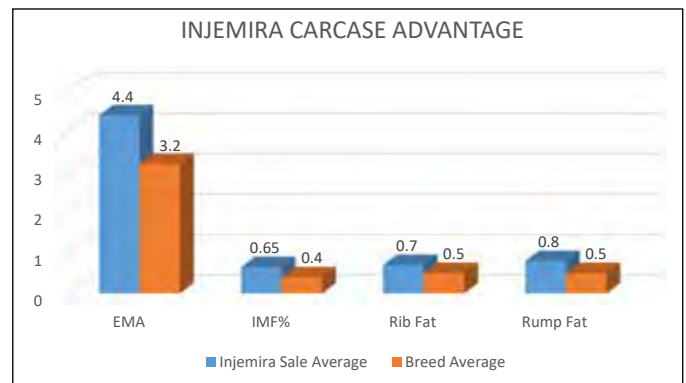

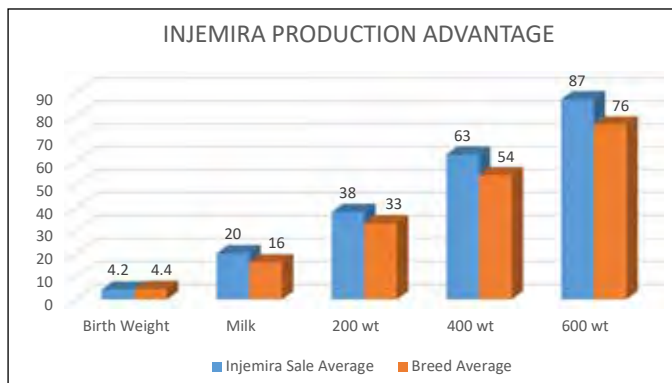

**AGENTS REBATE:** Inquiries from Livestock Agents encouraged with a 4% selling commission for Agents introducing and settling on behalf of their client.

## Injemira and Breedplan - Industry Proven!

The Average Sire at Injemira is nearly **DOUBLE THE BREED Av FOR MARBLING**, is **50% higher** than the breed average for EMA and is in the top 20% for all four \$ Index values. Making Injemira a leader for objective carcass measurement requirements.

It is very easy in our industry to blindly chase Breedplan figures and you will quickly be at the leader board in the race for the best figures. At Injemira we don't have this philosophy, figures are just a part of the breeding tools utilised. Our figures are outstanding with the Average bull at Injemira being in the top 20% of the breed for all four \$index values. We have reached this point with many other considerations in place and that is commercial realities of structure, carcass shape, finishing ability and overall eye appeal. I, like you, like to look at good cattle in the paddock and to have the data behind them is a very hard task to achieve. In 2020 I believe we have achieved this with the best phenotype and genotype bulls ever offered at Injemira.

**New Hereford Indexes for 2020** - You will notice a change in the index values presented for the Hereford breed. After close consideration I am recommending clients use these as an initial guide only in their individual bull requirements. I am of the firm opinion they don't reward the Hereford competitive advantage traits (carcass, finishing ability) strongly enough even though the average at Injemira is in the top 20% of the breed for all the values. I recommend that clients look carefully at individual figures for traits they consider necessary for their programs and not just use the summarised/weighted system of index values. I am a strong believer in performance recording and EBVs, this has not changed, and with Injemira providing genomic information for **ALL** sires they are enhanced considerably.

Its not often that a bull comes along that breeds so consistently and with such quality as this son of Robin Hood H38. A new era of Wildfire's has started at Injemira. His calves are just tremendous and have surpassed all expectations. They are everything a modern breeding program should be. Moderate framed functional cattle with the ability to finish and packed full of high quality red meat. Highlights of the 2020 catalogue include Lot(s) 2,3,4,12 & 76.

The sale topper of our 2016 sale (Jarrah Genetics QLD- \$50,000) has bred so well for us as a heifer joining sire. The birth weight and calving ease is incredible. Never have I seen calves hit the ground so small then just grow and grow and grow. A true curve bender. His Breedplan data is phenomenal with a 0.3 birth weight and a 7.5 EMA and 2.2 IMF%. What a set of data!! Sons are very consistent with many great herd improving sons with the highlights being Lot(s) 60 & 62.

An international sire we took a punt on joining many heifers and first calvers to. It has worked. The modern beef industry requires bulls with carcass shape, moderate frame and ease of calving attributes. Kickstart has all of these. We thought so highly of Kickstart we have used a son extensively in the breeding program at Injemira in 2019. The standout lots by Kickstart include: 19,21 & 22.

What more can I say about Anzac H006. One of the most influential sires in the Australian beef industry. Anzac H006 was sold to Jarrah Genetics Qld for a sale top of \$45,000 in 2014, since then he has gone on to sire sale toppers at influential studs such as Jarrah, Cascade, Mountain Valley and a number of others. Anzac H006 is one of those sires that produces everything up to scratch, just so incredibly consistent. If you haven't got an Anzac a son of his in 2020 is your chance.

Wallace L006 is a sire I purchased on pure phenotype. His butt shape and modern attributes are tremendous. Calves produced so far at Injemira demonstrate this quality. They are easy calving and have fantastic shape and skin and hair type. Wallace has produced a wonderful stud sire prospect in Lot 20. Just get behind him and look at the carcass. A real stud sire prospect.

What more can I say about Techno. In 2019 he took our sale by storm selling 18 sons to a top of \$54,000 and the entire drop averaging \$12,870. The sons this year are as good with them demonstrating weight for age and true carcass power along with cosmetic appeal. The highlight of this years sale is Lot 58 with him being a tremendous example of modern whiteface genetics. Techno could well have produced another sale topper at Injemira in 2020.

# REFERENCE SIRES

<b>Ref. Sire</b>	<b>DAYS EXECUTIVE K168 (PP)</b>																																														
	Calved: 41837	Tattoo: K168	ID No: DAYK168																																												
<b>MARKET INDEX VALUES</b>	Executive was purchased to compliment the Anzac females in our herd and he has done this. His first sons sold in 2019 and met very solid competition topping at \$20,000 wioth many selling in the \$15,000+ bracket. His sons offer growth and weight for age along with wonderful whiteface cosmetic appeal. Sons to look out for in 2020 include Lots 6 & 64. <b>Ref. Sire</b>	<b>YALGOO WARP H252 (PP)</b>																																														
	Calved: 41190	Tattoo: H252	ID No: SODH252																																												
<b>MARKET INDEX VALUES</b>	In 2020 we have more sons of Warp after they set the sale ring alight in 2017, topping at \$21,000. Warp was the top priced sire at Yalgoo's 2014 production sale and purchased by Injemira. He is a bull with tremendous length and carcass and a style unrivalled with a strong EBV set. His first group of calves proved to be tremendous with many 'Stud Sires' entering the industry. A number of sons are at the top end of the 2020 catalogue and crossed with Anzac or Redford are proving to be very special. Warp is physically outstanding as a mature sire with sound feet and a weight that is tremendous. Warp was working very strongly at Woakwine station as a 7 year old sire. **LOT 4 - by Wildfire (21 mths)**

**LOT 14 - by Wildfire (21 mths)**

**LOT 21 - by Kickstart (21 mths)**

**LOT 27 - by Executive (19 mths)**

# AUTUMN DROP - SALE PEN 1

<b>1</b>	<b>INJEMIRA WILDFIRE P005 (PP)</b>											
		Calved: <b>24/04/2018</b>		Tattoo: <b>P005</b>		ID No: <b>IHSP005</b>						
MARKET INDEX VALUES	The whiteface industry is evolving fast in 2020. We require genetics that have calving ease with carcass data and phenotype that enables cattle to be finished at an early age into premium markets. This lead off sire for 2020 certainly ticks those boxes. Fantastic calving ease with strong carcass data is what we are chasing. He is an eye catching individual with length of body, butt shape and perfect whiteface cosmetics. Don't overlook Lot 1 as it is often the bargain of the day for a 'front paddock sire'.

		Calved: <b>28/04/2018</b>		Tattoo: <b>P021</b>		ID No: <b>IHSP021</b>						
MARKET INDEX VALUES	<b>STUD SIRE:</b> The Wildfire calves have exceeded all expectations. As a group they are just so good and Wildfire P021 could be the lead sire of the entire catalogue. When analysing his pedigree this comes as no surprise. The maternal pedigree is the best we have at Injemira with his Great Grand Dam, D053 selling sons to a top of \$40,000 and gross sales from her exceeding \$200,000. His Grand Dam J042 produced our 2017 sale topper selling for \$45,000. These two females have contributed greatly to the Hereford breed with offspring standing at many studs throughout the country. Wildfire P021 is eye catching with a lovely smooth carcass and topline combined with perfect shoulder set and that 'Stud Sire' look and backed by a strong set of performance figures. NB: Absolute bomb proof temperament.

MARKET INDEX VALUES	<b>STUD SIRE:</b> The sheer raw power of this sire has to be appreciated upon inspection. We are red meat producers and this sire is packed full of red meat in all the right places. The maturity pattern is fantastic and this sire will be one of those that will breed large lines of consistent sale bulls. His performance data backs this carcass sire's phenotype, with EMA close to the top 1% of the breed combined with positive fats and an IMF% in the top 20%. A top Stud Sire prospect that will be one of the stand outs on sale day.

MARKET INDEX VALUES	<b>STUD SIRE:</b> I don't think I could design a lead sire that is more suited to the modern beef industry. He really has it all. Data is fantastic with low birth and high calving ease, above average growth and very strong carcass data culminating with an IMF% being at the top of the breed. The bull himself has a lovely soft fat disposition demonstrating an easy finishing ability with a perfect structure and smooth shoulder set. A top sire prospect suited to a stud heifer joining program.

<b>MARKET INDEX VALUES</b>		A potential stud sire that is tremendously mobile with an extreme almost 'Euro' style carcass and a skin and hair type suited to all climates of Australia. The Breedplan data set is fantastic with EMA in the top 1% of the breed backed by the rare combination of high marbling being in the top 10%. His dam is a very consistent breeder selling 2 sons for over \$10,000 and has 2 daughters retained in our breeding program. A top sire that will command your attention.

<b>MARKET INDEX VALUES</b>		NB: The young age. A sire prospect with potentially the highest natural growth of any sire catalogued in 2020. An eye catching sire with perfect whiteface cosmetics that is ideally suited to those producers selling EU weaner cattle at feature sales. The Executives over the last 2 years have been very good with a consistent predictable breeding pattern synonymous with the top stud sires. Sons with the Executive x Anzac pedigree sold to a top of \$20,000 in 2019. A top commercial sire.

<b>10</b>	<b>INJEMIRA EXECUTIVE P169 (S)</b>														
		Calved: 11/06/2018		Tattoo: P169		ID No: IHSP169									
MARKET INDEX VALUES		Aberdeen x Executive, we can't get a much better pedigree than this. This sire is packed with power, he has huge growth potential with a wonderful strong topline carried by a structure that is faultless. The Breedplan data backs this, with big growth placing this sire in the top 5% of the breed. Executive P169 comes with our highest recommendations and is extremely quiet.

<b>12</b>	<b>INJEMIRA WILDFIRE P013 (PP)</b> Calved: 27/04/2018    Tattoo: P013    ID No: IHSP013	<p><b>MARKET INDEX VALUES</b></p> <p>SSR <b>\$156</b></p> <p>NSR <b>\$139</b></p> <p>SBM <b>\$160</b></p> <p>NBT <b>\$115</b></p>	<p>ALLENDALE WATERHOUSE D1 (PP) DAYS ROBIN HOOD H38 (AI) (ET) (PP) ALLENDALE FANCY U5 (AI) (P)</p> <p><b>RAVENSDALE WILDFIRE L133 (ET) (PP)</b> KAIRURU ABERDEEN 03 0047 (IMP NZL) (P) MERAWAH IRISH ROSE B1 (AI) (P) MERAWAH IRISH ROSE X147 (P)</p> <p>ALLENDALE TIPPERARY D13 (AI) (ET) (P) DAYS WIZARD F84 (P) ALLENDALE DAWN Z21 (AI) (P)</p> <p><b>INJEMIRA BEGONIA L020 (P)</b> ALLENDALE ANZAC E114 (PP) INJEMIRA BEGONIA H024 (TW) (P) INJEMIRA BEGONIA E088 (TW) (P)</p>																																				
<p><b>STUD SIRE:</b> Wildfire P013 could be the pick of the catalogue for 2020. The more you look at this sire the better he gets. I can't fault him, he is the complete package. Wonderful hooded eyes and sires head, tremendous smooth carcass with a softness of fat cover throughout all backed by a 'bomb proof' temperament. His pedigree is packed with quality and is not the first standout sire to have Anzac, Wizard and Wildfire. The Breedplan data is outstanding with big growth and a carcass data set of EMA (top 5%), positive fat and strong IMF% (top 20%). A wonderful modern Poll Hereford sire that I am sure will get 3 big ticks from all the good judges on sale day.</p> <p><b>PEN 3</b></p> <p>Purchaser: ..... \$.....</p>		<p>PIGMENT: 100/100    GENETIC CONDITIONS: Tested free    POLL STATUS: Homozygous</p>

# AUTUMN DROP - SALE PEN 4

<b>19</b>	<b>INJEMIRA KICKSTART P093 (AI) (PP)</b>																																														
	Calved: <b>02/05/2018</b>		Tattoo: <b>P093</b>		ID No: <b>IHSP093</b>																																										
MARKET INDEX VALUES	<p><b>STUD SIRE:</b> The first Kickstart to be offered at Injemira and what an example of a modern sire. This bull has been a standout since a calf and he has only got better with age. Kickstart P093 is full of red meat in an eye catching, mobile phenotype. Then we turn to the performance data. Look at the calving ease traits, easily in the top 5% of the breed. Combine the calving ease with carcass traits culminating in the EMA being in the top 5% of the breed and you are getting the complete package. A truly modern beef stud sire. We thought so much of Kickstart P093 that we AI'd 100 stud heifers to him in 2019. NB: Remaining semen for in herd use only.</p>

MARKET INDEX VALUES	<p>A potential stud sire by Kickstart out of a first calf heifer that demonstrates wonderful softness and overall eye appeal. From a very good cow line going back to Prudence C078 who has produced a number of very good sale bulls. The Kickstart's are very low birth weight calves and when they hit the ground develop quickly into modern sires suited to the premium grass fed markets of our industry. A top sire that many good judges will consider for stud duties.</p>

What a maternal pedigree we have here! The best at Injemira. Going back to Happy Day D053 who has had multiple sale toppers and selling sons for a gross of over \$200,000, then we go to Happy Day J042 who's first son sold topped the 2018 sale at \$50,000 to Jarrah Cattle Co. We then combine all that maternal strength with Anzac, Kickstart and we have a pedigree I couldn't design any better. This individual is packed full of red meat and is a heifers first calf. The performance data is very strong with calving ease, low birth, big growth and strong carcass data. A top commercial sire suited to a heifer joining program.

<b>34</b>	<b>INJEMIRA WALLACE P131 (PP)</b>	Calved: 24/05/2018	Tattoo: P131	ID No: IHSP131								
MARKET INDEX VALUES	A calving ease sire with fantastic data. Could hardly design a data set any better. Our industry requires cattle that finish early with low maintenance and yield that will make you money. Wallace P131 ticks all those boxes. A great bull for your heifer joining program.

# AUTUMN DROP - SALE PEN 6

<b>40</b>	<b>INJEMIRA KICKSTART P038 (AI) (S)</b>													
	Calved: 01/05/2018		Tattoo: P038		ID No: IHSP038									
<b>MARKET INDEX VALUES</b>	A different style son of Kickstart who brings to the table a bit of extra growth whilst still maintaining the carcase attributes of Kickstart. The EBV data describes this bull very well with huge growth and fantastic carcase data with the highlight being the low birth to high growth spread.

# SPRING DROP - SALE PEN 8

<b>57</b>	<b>INJEMIRA CALIBRE K207 P193 (AI) (ET) (PP)</b>										
	Calved: <b>02/08/2018</b>			Tattoo: <b>P193</b>			ID No: <b>IHSP193</b>				
<b>MARKET INDEX VALUES</b>	<p><b>STUD SIRE:</b> The first of the 'Spring' drop sires catalogued for 2020. Calibre K207 P193 will most certainly catch your eye. The only ET bull calf born in 2018 from our great cow Plum E212. Plum E212 is the dam of our record breaking sire Anzac K220 that in 2016 sold for \$110,000 and is the Dam of Anzac M187 that sold in 2018 for \$22,000. This bull shows all the qualities of his maternal brothers. He is an eye catching sire with plenty of growth potential packed full of red meat in a cosmetically perfect package. The data set is very strong with EMA being in the top 5% and IMF% in the top 15% of our breed. The stud sire comes with our highest recommendation.</p>

	Calved: <b>29/08/2018</b>			Tattoo: <b>P300</b>			ID No: <b>IHSP300</b>				
<b>MARKET INDEX VALUES</b>	<p><b>STUD SIRE:</b> The first of the Techno sons for 2020 and this fellow could well be the best we have had. In 2019, 18 Techno sons sold at Injemira to a top of \$54,000 and averaged \$12,870. Techno P300 is a stand out and always has been, he is cosmetically perfect with a striking carcass shape and smoothness throughout. We then turn to his data, absolutely at the top of the tree. Moderate birth weight with curve bending growth in the top 5% of the breed, then we look at the great milk and the EMA/IMF combination. Absolutely outstanding! A top stud sire prospect that could well be the pick of the draft in 2020.</p>

<b>MARKET INDEX VALUES</b>	<p><b>STUD SIRE:</b> The first of the sons of our \$50,000 2018 sale topper and we are so very impressed with these as an entire group. I have never had calves born so small with calving ease then hit the ground and just grow. A true curve bending sire. This son is well and truly one of the elite bulls of the 2020 catalogue and as close to a clone of his sire as you could possibly get. Have a look at the data profile here. Tremendous calving ease, milk in the top 1%, EMA top 1% and IMF% top 1% - you could not get better than this! NB: A heifers first calf.</p>

<b>61</b>	<b>INJEMIRA WILDFIRE P339 (P)</b>											
	Calved: 08/09/2018		Tattoo: P339		ID No: IHSP339							
MARKET INDEX VALUES	I really am running out of things to say about the Wildfire progeny. They are all just peas in a pod. Moderate growth, carcass shape and early finishing ability in a cosmetically great package is what sums up all his calves catalogued in 2020. Then you look at the EBV set and its all good, moderate birth with huge carcass data with an EMA figure here of 6.1 being the highlight. A top commercial sire that will benefit any progressive breeding program.

	The first of the Anzac H006 sons offered for 2020 and he is a great example of his sire. Anzac H006 has taken the whiteface breed by storm after being purchased by Jarrah Genetics in 2014 for \$45,000. This son has the growth and finishing ability required by the modern industry. A commercially orientated sire that will be a consistent breeder.

<b>75</b>	<b>INJEMIRA KICKSTART P267 (AI) (P)</b>													
	Calved: 25/08/2018		Tattoo: P267		ID No: IHSP267									
MARKET INDEX VALUES	A potential stud sire carrying all the great attributes of Kickstart. Low birth, calving ease and carcass. Phenotypically he is potentially the best Kickstart catalogued, get side on and appreciate the depth of muscle. His dam is a striking daughter of the great Redford D935 so you can rest assured the females from this sire will be wonderful matrons.

## INJEMIRA FORTUNE M152 P239 (AI) (PP)

Calved: 18/08/2018 Tattoo: P239 ID No: IHSP239

A tremendous calving ease pedigree is presented here with the Redford J6 and Fortune M152 combination providing absolute certainty to ease of calving. This sire is very similar to his sire with a strong carcass and lovely soft finishing ability. Have a look at his EBV's 6.4 EMA (top 1%) and 2.2 IMF% (top 1%) just so rare in our breed. Top sire with fantastic data.

# CONDITIONS OF SALE

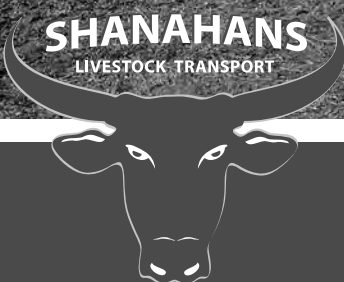

1. Subject to any reserve price, the highest bidder shall be the purchaser.
2. In the event of a dispute bid the auctioneer shall be the sole arbitrator and his decision shall be final.
3. The auctioneer may refuse to accept any bid which in his opinion is not in the best interests of the vendor without giving any reason therefor.  
No person shall be entitled to bid unless, prior to the commencement of the sale, he has made arrangements satisfactorily to the auctioneer for the payment of any stock which he may wish to purchase.
4. Where the vendor reserves the right to bid at the auction in respect of a lot and instructions the auctioneer to make more than one bid on his behalf, the auctioneer shall, prior to submitting the lot for sale by auction, announce in a clear and precise manner the number of bids reserved by the vendor in respect of that lot.
5. A bidder shall be deemed to be a principal unless, prior to bidding he has given to the auctioneer a copy of a written authority to bid for and on behalf of a person.
6. As soon as practicable after the fall of the hammer, the purchaser shall sign the agreement (if any) for sale. In the event that any lot is passed in unsold the highest bidder shall have the right of first refusal of the lot for one hour after the stock comprising such lot has passed out of the sale ring.
7. Subject to anything specifically to the contract contained in either clauses 16 or 17 hereof, the purchase money for stock agreed to be purchased shall become payable and responsibility for such stock shall be borne by the purchaser. All stock shall be paid for in cash before delivery and notwithstanding, the auctioneer may require a purchaser at any time either before, during or after the sale to deposit with him the whole or any part of the purchase money.
8. Title to stock agreed to be purchased shall not pass to the purchaser until the full purchase money for same has been paid and in the event of delivery being made to or possession obtained by the purchaser or his representative prior to payment of all of the purchase money or any cheque given on account of same and the purchaser shall hold the stock in trust as bailee only for the vendor and (notwithstanding anything herein to the contrary) no property therein shall pass to the purchaser, who shall nevertheless be responsible for the safety thereof from the fall of the hammer and until such time as the purchase money is fully paid and shall not deal with the stock in any way whatsoever inconsistent with the title of the vendor.
9. Notwithstanding the giving of delivery or possession of stock sold, the vendor or his agent shall be at liberty to repossess the same at any time while the purchase moneys remain unpaid and for that purpose to enter upon lands or premises of the purchaser and if the purchaser shall neglect or fail to comply with any of these terms and conditions, any stock knocked down to him may be resold by public auction or private contract in such lots and such manner as the agent of the vendor may decide, with or without notice, at the purchaser's risk, who will be held responsible for all loss and expense arising out of any such resale and who agrees to indemnify the vendor and the vendor's agent with respect thereto and shall not participate in the profit (if any) accruing therefrom.
10. The right of the vendor to make not more than five bids is reserved.
11. All conditions and warranties expressed or implied by law (including those implied by statute, but excluding such expressed or implied warranties which may be imposed upon the vendor, pursuant to the provisions of the Trade Practices Act 1973) are hereby excluded and subject as aforesaid all lots are sold with all faults or imperfections, if any, whether the same may be discoverable on inspection or not and no compensation shall be made in respect of any such fault or imperfection or any error of description or number in or of any lots sold or otherwise and no representation made by the auctioneer at the time of the sale shall bind the auctioneer or the vendor.
12. Any statement made by the vendor the auctioneer or the nominated selling agents, whether in writing or oral, to the effect that any female has been pregnancy tested and is pregnant shall mean and require only that a certificate in writing shall be furnished by the vendor to the purchaser, which shall be signed by a qualified veterinary surgeon certifying that he has pregnancy tested the said female on a date specified and that in his opinion the female was pregnant on that (being a date not more than six weeks preceding the date of sale).
13. No refund of commission will be made to the vendor by the selling agent on any sale cancelled after delivery has been made.
14. The auctioneer and selling agents shall be considered only the agents of the vendor and in all disputes the vendor and the purchaser must adjust the matter between themselves and not lot shall be returned to the auctioneer or to the selling agent.
15. Subject as may be otherwise notified herein, the selling agents are selling as del credere agents for the vendor and accordingly the full purchase price of each lot shall be payable by the purchaser to, and be recoverable by, the selling agents.
16. Attention is directed to the provisions of the Auctioneers, Stock & Station & Real Estate Agents & Business Agents, 1941-1957, and also to Sections 178B and 178C of the Crimes Act, 1900, and in particular to the material parts of Sections 45 and 85C of the Auctioneers and Agents Act, 1941-1980, warning as follows:  
**Section 45:**  
It is an offence against the Auctioneers and Agents Act, 1941, for any person to engage in, or to induce or attempt to induce another person to engage in, any collusive practice which may hinder free and open competition at an auction sale, whether by:  
(a) restricting the bidder,  
(b) abstaining from bidding; or  
(c) any other activity which may hinder free and open competition.  
**Section 85C:**  
The actual successful bidder at an auction sale must give to the auctioneer or an employee of the auctioneer on the day of the auction his name, or where he acts as an agent, the name of his principal. It is an offence not to do so.
17. **Sale Subject to Veterinary Testing:**  
Notwithstanding the provisions of clause 7 hereof and subject to any express agreement of the contract between the vendor and the purchaser prior to sale, the sale of any stock shall be subject to that stock passing such veterinary test or tests as may be necessary to enable the stock to be transported to such destination as may be required by the purchaser. The purchaser shall bear the risk and responsibility for such stock as may require veterinary testing immediately upon the satisfactory completion of such testing at which time the purchase money for same shall become immediately payable. In the event that such tests are not satisfactorily concluded, the sale shall be deemed not to have taken place and neither party shall have any claim for damages or compensation of any kind whatsoever against the other. The costs of all tests shall be borne by the purchaser upon such tests being satisfactorily concluded and otherwise by the vendor.
18. **Export conditions:**  
Notwithstanding anything else herein contained, all stock offered and purchased for export overseas shall be sold subject to their passing such veterinary tests, including fertility, as may be required by the country to which such stock are to be imported. The vendor or his agent shall arrange for the appropriate veterinary tests to be carried out as soon as practicable after sale, provided that all costs in relation to such tests shall be borne by the purchaser. All risk and responsibility for such stock shall pass to the purchaser immediately upon the satisfactory conclusion of all such tests, at which time the purchase price shall immediately become payable. In the event of failure of any requisite tests a sale shall be deemed not to have occurred and the stock shall be returned to the vendor and all costs associated with the sale, including veterinary costs, shall in such case be borne by the vendor. Should the purchaser fail to take delivery within three months from the date of the auction sale for whatsoever reason the vendor shall be entitled to cancel the sale and shall bear and pay all costs associated therewith.
19. Notwithstanding any agreement, custom, rule or usage relating to the liability of agents to principals in respect of payments for stock sold at auction, if any stock shall be sold to a purchaser normally resident outside Australia, or to another person acting on behalf of such a purchaser, the agent shall not be liable to pay to the vendor the proceeds in respect of such sale unless and until the agent shall have been paid in full by the purchaser. In the event of such stock being resold pursuant to the conditions of sale, the agent shall not be liable for any resulting deficiency or loss.

**Disclaimer:** Injemira and Thompson's Graphipress do not give any warranty as to errors or omissions, if any, particulars throughout the catalogue which they believe to be accurate when completed. Prospective purchasers should satisfy themselves by enquiry or inspection to the accuracy.
