# FLOCK HEALTH

- Ovine Johnes Disease MN3 Status (No. S8).
- Ovine Brucellosis Accredited (No. 997).
- Drenched March 10th with TriGuard & Keymin.
- All outside WS sires DNA tested Hypotrichosis free ( HrF ).
- Glanvac 6:1 and B12 March 10th.
- All ewes injected with Campyvax in December. Footrot free.
- White Suffolk ewes have Sire & Dam Hypotrichosis Free (HrF).
- All sheep treated with Coopers Diazinon March 11th.

# FLOCK PERFORMANCE FIGURES

Performance figures in the catalogue are provided by LAMBPLAN from information collected on our flock by Rachel Chirgwin of Advance Livestock Services, Hamilton Victoria ( Ph. 0428 600 265 )

The figures shown are estimated breeding values ( EBV's ) for growth, fat depth and eye muscle depth at post weaning ( 9 months ).

They are compared with all White Suffolk sheep in the LAMBPLAN data base.

The index value shown - Carcass Plus - is a combination of the above EBV's describing the value of each ram a breeding programme.

# WHITE SUFFOLK STUD HISTORY

The Bundara Downs White Suffolk stud was founded in 1993 with the purchase of elite genetics from highly successful studs within Australia. From this solid foundation, we are producing high quality soundly structured rams that are making a positive impact on the prime lamb industry. To do this we evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. The Lambplan data is compared across studs within Australia to give us a comparison of our performance, not just within our stud.

Acquisition of leading sires has enhanced our excellent muscling and growth without restricting our genetic pool, allowing us to produce rams with varied traits to suit different production systems of our clients. In 2011 Bundara Downs joined the Super Whites group, to further increase genetic gain within the stud through access of high performing sires.

# POLL DORSET STUD HISTORY

The Bundara Downs Poll Dorset stud was founded in 2002 with the purchase of stock from renowned studs within Australia. The initial breeding program was based on artificial insemination allowing us to source elite genetics from influential studs. The Poll Dorset stud was established to allow us to diversify and cater for different production systems utilised by clients in different regions. We evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. This diversity has enabled us to breed, to suit a wide range of markets within the prime lamb industry.

The Poll Dorset stud produces rams with exceptional muscle while maintaining sound structure and conformation. We target sires with clean points to reduce grass seed issues as well as a smooth modern shoulder to maintain the lambing ease. In 2006, Bundara Downs joined the Meat Elite group to identify, develop and utilise superior genetics.

# SUFFOLK STUD HISTORY

The Bundara Downs Suffolk stud was founded in 2015 with the purchase of stock from Anna Villa & Kurrabi Park studs. The initial breeding program was based on artificial insemination allowing us to source elite genetics from influential studs. The Suffolk breed has exceptional eating qualities ( EQ ) and our main aim is to stabilise fat ( Pfat ) to just positive with a positive eye muscle ( Pemd ).

We evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. This diversity has enabled us to breed, to suit a wide range of markets within the prime lamb industry.

# HYPOTRICHOSIS

## *USE BUNDARA DOWNS WHITE SUFFOLK GENETICS WITH CONFIDENCE*

Bundara Downs takes its responsibilities as a producer of seed stock genetics for the prime lamb industry seriously. Not only do we need to provide the industry with genetics that improve profit driving traits such as growth, efficiency, yield, muscling and fertility, we have a responsibility to ensure genetic conditions that could have a negative effect on productivity are identified, managed and eliminated.

When Hypotrichosis was identified as an issue in the terminal breeds, Bundara Downs took the bold, (and expensive) step of DNA testing all of our White Suffolk stud sheep resulting in a DNA tested Hypotrichosis free flock.

Because Hypotrichosis is recognised as a simple autosomal recessive trait, meaning that both parents must carry the gene for it to be expressed in the progeny, using DNA tested free Bundara Downs rams or ewes means the problem will not appear in their progeny in your flock.

By the end of 2012, over 2000 Bundara Downs sheep will have been DNA sampled and tested, by far the largest and most comprehensive Hypotrichosis testing program in the breed. As a result Bundara Downs' large input of DNA data into the Sheep Genetics Australia database, a GeneProb analysis is available for the Lambplan membership. This generates a carrier probability percentage for each individual animal.

# MEMO OF SIRES

|                        |  |
|------------------------|--|
| Detpa Grove 110308     | Purchased in partnership with Illoura stud \$13000, used very heavy in stud.     |
| Bundara Downs 122261   | Leading White Suffolk ram in Australia - 2839 progeny in 60 studs.               |
| Bundara Downs 122026   | Well muscled ram, good structure with leading RBV's and Lambplan figures.        |
| Ashbourne 120020       | Purchased half share. An industry leader for figures.                            |
| Langley Heights 130572 | Outcross sire with balanced figures. Kindly loaned by Langley Heights stud.      |
| Somerset 130153        | Outcross ram with balanced figures.  |
| Bundara Downs 133529   | Well muscled ram used as a ram lamb.   |
| Bundara Downs 133562   | Very clean, muscled ram with good type and Lambplan figures.                     |
| Bundara Downs 133266   | Exceptional ram used extensively in stud. Very correct & proud ram with good EQ. |
| Old Woombie 130219     | Outcross ram with balanced figures.  |
| Hillcroft Farm 130156  | Outcross sire with balanced figures and leading sire in EQ.                      |
| Warburn 140289         | Top price ram Bendigo show. Good muscle and length.                              |
| Warburn 140512         | Half share purchased with Warburn. Exceptional type and Lambplan figures.        |
| Oakwood 140107         | Suffolk ram purchased for correctness and muscling.                              |
| Kerangie 140532        | Suffolk ram with balanced figures and good type.                                 |
| Bundara Downs 155016   | Well muscled ram with exceptional loin sired by Ashbourne 120020.                |

## MEMO OF SIRES cont.

|                        |   |
|------------------------|---|
| Lynburn 150247         | Top price Suffolk ram 2016. exceptional muscling, purchased half share Telpara stud.        |
| Marocara 150049        | HF130156 son used extensively. Bred well with good muscle.                                  |
| Bundara Downs 157712   | BD133266 son used for type and correctness.   |
| Bundara Downs 156930   | HF130156 son bred by MEA group. Used extensively.   |
| Curlew Creek 151626    | Well muscled ram with out cross pedigree.   |
| Leith 150003           | Used for outcross pedigree and low birth weight. Kindly loaned by Gemini stud.              |
| Bundara Downs 157394   | Best described as a pig on legs - well muscled outcross ram. Exceptional flock ram breeder. |

| Boooloola 170093     | Supreme ram Hamilton show. Semen used, good balance & type.                                 |
| Farrer 170211        | Semen used in outcross ram with excellent figures.  |
| Ella Matta 170300    | Super white YST ram, semen used and has bred very well.                                     |
| Bundara Downs 181398 | Used as a ram lamb for type and presence. I160621 sire.                                     |

# MATING DETAILS OF ALL EWES

All White Suffolk & Poll Dorset ewes from 2016, 2017, 2018, were mated on December 17th through AI, except for some ewes backed up as detailed below. These ewes scanned in lamb on the 10th February by Greg Fitzgerald 0427944625. Back up ram put in December 29th. The ewes are due to lamb from 11-5-20.

The 2019 White Suffolk ewe lambs and Suffolk's were mated on January 21st through AI - back up ram put in on 2-2-18. These ewe lambs and Suffolk's were scanned in lamb on 5th March by Greg Fitzgerald 0427944625. The ewe lambs and Suffolk's are due to lamb from 11-6-20, except for some back up rams detailed below.

There were 32 ewes that did not take to the AI and are scanned in lamb to back up rams. These were scanned in lamb on March 5th by Greg Fitzgerald 0427944625. All back up rams removed March 28th.

White Suffolk's : Lot 28, 51, 49, 78, 88, 89, 90, 101, 109, 114, 134, 141, 145, 148, 159 ( will lamb from Early June )

Poll Dorset's : Lot 168, 180, 189, 194, 196, 208, 209 ( will lamb from Early June )

Suffolk's : Lot 230, 232, 233, 236, 237, 240, 247, 253, 257, 260 ( will lamb from early July )

At time of scanning, it was our contractors best intention to confirm these ewes " scanned in lamb ".

All due care has been taken for the well being of the ewes, but no responsibility accepted.

If any purchases have any concerns, please feel free to contact us.

Any veterinary testing required for interstate purchases, e.g. Liver Fluke testing, cost to be purchases responsibility.
