

# **Ready to Work Bull Sale**

**Wednesday 6th May 2020**

**12.30pm**

**At our Naracoorte Sale Complex SA**

# STONEY POINT PERFORMANCE ANGUS

## 10 STAR ANGUS ASSURANCE

### **AVERAGE EBV'S EXCEEDED ANGUS BREED**

Many of the sale bulls are indexing in top 1% of Angus breed. Using Stoney Point bulls will make sure your herd is right up there for all the critical performance traits, however, we do not compromise on phenotype. All bulls must be structurally sound.

### **BULLS ZOETIS i50K TESTED**

This Genomic enhancing test on bulls where indicated using individual DNA provides extra certainty to the figures of the bull you purchase. It also means they are parent verified and the DNA figures confirm we are ahead of breed average.

### **BULLS SIRE VERIFIED**

### **STONEY POINT 6 POINT HEALTH ASSURANCE**

Surpasses Zoetis 5 Star breeder program.

### **ACCURATE AND INDEPENDENT MEASURING**

All non visual traits are accurately and independently measured by recognised experts.

### **SEMEN TESTED**

To ensure live sperm are delivered, we have semen tested all bulls and only those with more than adequate motility are being offered.

### **STRUCTURALLY ASSESSED BY INDEPENDENT EXPERTS**

Dick Whale has structurally assessed all bulls in the sale.

### **REPLACEMENT WHERE STRUCTURALLY UNSOUND, INFERTILE OR INCAPABLE OF SERVICE – 1 YEAR BREEDING SEASON GUARANTEE**

Any such bull that will be replaced or refunded providing no causal agents post leaving the Stoney Point Performance Angus property.

### **DEATH COVER**

All bulls are insured for death including transit until 19th June 2020 and the insurance can be continued by the purchaser. Your investment is protected.

### **ANGUS AUSTRALIA**

Our Sale Lot catalogue is prepared by Angus Australia. You can be ensured of the accuracy and truth of the figures.

**Bulls that *DO*, Bulls that *STAY***

# WELCOME

In this year's Ready to Work sale we present the best line up we have had for this particular sale – including a very high proportion of the bulls that are suitable for **use over heifers**.

We continue to drive the stud's genetics forward but are always mindful that success is about what the bull does for your herd rather than sets of figures on pieces of paper. Assessing cow structures is a key to making sure that the bulls we offer will last but also transfer that characteristic to his progeny. Culls don't make you money, performers do.

A key feature of our stud herd is that through years of rigorous culling, we did not pull a calf last calving season. Figures can be deceptive here. If you like the bull have confidence in him to do the job for you.

We all trust the rebound in the market price and a good season will justify any investment in a good bull and there are plenty of them in our sale.

Best of luck!!

**Perry Gunner**  
Principal

# SALE INFORMATION

## Selling System

Sale will be conducted under auction conditions as posted by the Agents on the day. Selling price will not include GST.

## Accommodation

NARACOORTE SALE:

Naracoorte Hotel/Motel (08) 8762 2400

Country Roads Motor Inn (08) 8762 3900

Naracoorte Cottages 0408 810 645

For any other accommodation or travel assistance please contact Peter Colliver 0428 723 640.

## AM – NH – CA – DD

All bulls selling are either free of these defects by parentage, or have been tested free. No carrier bulls will be offered for sale.

**Johnes Status** – the Stoney Point herd is JBAS6.

## Delivery

Stoney Point Performance Angus offers free delivery to buyers within a 500km radius of the sale location. Delivery will be co-ordinated immediately after the sale, Any testing requirements for interstate travel, will be at the purchaser's expense. Buyers wishing express delivery of their purchases are encouraged to use their own carriers.

All bulls are purchasers risk from the fall of the hammer. Freight assistance is given to those outside the 500km radius, speak to Peter 0428 723 640 for more details.

## Registration Status

All bulls selling are either Herd Book Registered (HBR) or Angus Performance Registered (APR) and can be transferred at no cost.

## Inspections

Bulls can be inspected from 2 hours before sale. We encourage buyers to inspect the bulls prior to sale. This gives us the opportunity to assist in selection of genetics to best fit your herd.

## Rebates

A rebate of 3% is allowed to agents nominating and accompanying buyers to the sale. Agents not meeting the above terms will receive 1% if settling for a client.

## Phone Bidding

Phone bidding can be arranged prior to the sale by speaking to the selling agents.

## Buyers Instructions

No buyers instruction form is included in the catalogue. Sale Agents prefer their own "Buyers Instructions" cards. All purchasers must complete one of these cards prior to leaving the sale. No verbal instructions will be accepted.

## Catering

Refreshments will be available throughout the sale, and we would also like to invite all cattle producers for lunch and get together.

## After Sales Service

We offer ongoing support to our clients. All at Stoney Point Performance Angus are available to discuss any aspect of your herd and can be contacted on the numbers listed in this catalogue.

## Insurance

Bulls are insured for death including transit until 19th June 2020.

Bulls that *DO*, Bulls that *STAY*

# MATING ASSURANCE

**A working fertile bull in a well managed cow herd is our mutual aim. We strive to do our part in presenting bulls for sale by implementing stringent pre-sale procedures.**

These involve:

1. Physical examination
2. Semen testing to ensure more than adequate motility of semen
3. Feeding a fertility ration in the weeks leading up to the sale.

In addition we provide the Stoney Point Guarantee as follows:

## **The Stoney Point Guarantee**

**All Stoney Point Performance Angus Bulls are backed by a 1 breeding season guarantee. In the event of a bull proving to be infertile, or incapable of natural service within 1 breeding seasons or 12 months (whichever comes first) of the purchase date, the vendor will credit the purchase price less the salvage value of the bull, provided the problem is not caused by injury or disease incurred since taking delivery.**

**Any claims must be made within 48 hours of occurrence and be accompanied by a relevant veterinary certificate.**

**The vendor reserves the right to obtain an independent veterinary assessment to confirm any claim.**

**It should be noted this guarantee is **NOT** a substitute for the proper care of your bull.**

The sale day is not the end of the bull's life and caring for your bull post sale is still an important process:

1. Upon arrival ensure your bull is properly socialised
2. Pre-joining – reassess the bull for any injuries or issues likely to impact its performance with your cows – keep up the vaccinations
3. At joining, limit numbers to be served by a new bull and rotate if possible. Best results are obtained with multiple matings rather than single matings
4. Always monitor your bull and cows. Look for injuries or higher than expected numbers of cows still cycling after 3 weeks of joining
5. Post-joining re-socialise in a suitable paddock with adequate good quality feed but don't overdo the condition of your bull.

**Insurance** – we provide death including transit insurance to get your bull home for a few weeks after the sale. If you want to extend this cover or in fact include loss of use, your stock agent can help or contact us.

**After Sales Service** – at all times feel free to contact us with any concerns or further information for your bull.

**Bulls that *DO*, Bulls that *STAY***

# UNDERSTANDING ANGUS BREEDPLAN EBVs

## What is Angus BREEDPLAN?

Angus BREEDPLAN is the genetic evaluation program adopted by Angus Australia for Angus and Angus influenced beef cattle. Angus BREEDPLAN uses Best Linear Unbiased Prediction (BLUP) technology to produce Estimated Breeding Values (EBVs) of recorded cattle for a range of important production traits (e.g. weight, carcase, fertility).

Angus BREEDPLAN includes pedigree, performance and genomic information from the Angus Australia and New Zealand Angus Association databases to evaluate the genetics of animals across Australia and New Zealand.

Angus BREEDPLAN analyses are conducted by the Agricultural Business Research Institute (ABRI), using software developed by the Animal Genetics and Breeding Unit (AGBU), a joint institute of NSW Agriculture and the University of New England. Ongoing BREEDPLAN research and development is supported by Meat and Livestock Australia.

## What is an EBV?

An animal's breeding value can be defined as its genetic merit for each trait. While it is not possible to determine an animal's true breeding value, it is possible to estimate it. These estimates of an animal's true breeding value are called EBVs (Estimated Breeding Values).

## Using EBVs to Compare the Genetics of Two Animals

Angus BREEDPLAN EBVs can be used to estimate the expected difference in the genetics of two animals, with the expected difference equating to half the difference in the EBVs of the animals, all other things being equal (e.g. they are joined to the same animal/s).

For example, a bull with a 200 Day Growth EBV of +60 would be expected to produce progeny that are, on average, 10 kg heavier at 200 days of age than a bull with a 200 Day Growth EBV of +40 kg (i.e. 20 kg difference between the sire's EBVs, then halved as the sire only contributes half the genetics).

Or similarly, a bull with an IMF EBV of +3.0 would be expected to produce progeny with on average, 1% more intramuscular fat in a 400 kg carcase than a bull with a IMF EBV of +1.0 (i.e. 2% difference between the sire's EBVs, then halved as the sire only contributes half the genetics).

## Using EBVs to Benchmark an Animal's Genetics with the Breed

EBVs can also be used to benchmark an animal's genetics relative to the genetics of other Angus or Angus infused animals in Australia and New Zealand.

To benchmark an animal's genetics relative to other Angus animals, an animal's EBV can be compared to:

- ◆ the breed average EBV
- ◆ the percentile table

The current breed average EBV and percentile table is provided in these explanatory notes.

## Considering Accuracy

An accuracy value is published in association with each EBV, which is usually displayed as a percentage value immediately below the EBV.

The accuracy value provides an indication of the reliability of the EBV in estimating the animal's genetics (or true breeding value), and is an indication of the amount of information that has been used in the calculation of the EBV.

EBVs with accuracy values below 50% should be considered as preliminary or of low accuracy, 50- 74% as of medium accuracy, 75-90% of medium to high accuracy, and 90% or greater as high accuracy.

## Description of Angus BREEDPLAN EBVs

EBVs are calculated for a range of traits within Angus BREEDPLAN, covering calving ease, growth, fertility, maternal performance, carcase merit, feed efficiency and structural soundness. A description of each EBV included in this sale catalogue is provided on the following pages.

# Important Notice for Purchasers

## ~ SALE CATALOGUE DISCLAIMER ~

All reasonable care has been taken by the vendor to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor nor the selling agents make any other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

## ~ DNA PATERNITY VERIFICATION ~

It is a requirement of Angus Australia that all bulls used to sire calves for registration in the Angus Australia Herd Book Register, Red Angus Register or Angus Performance Register must have been DNA paternity verified if they are born in or after the 'Y' year (2003). Buyers intending to use bulls listed in this catalogue to produce calves to be registered in these registers should obtain DNA paternity verification on those bulls before they are used for breeding.

## ~ PRIVACY INFORMATION ~

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must advise Angus Australia.

### **BUYER'S OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO THE ANGUS AUSTRALIA**

*If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its databases and disclosing that information to its members on its website.*

*I, the buyer of animals with the following registration numbers*

..... *from member*

..... *(name) do not consent to Angus Australia using my name, address and phone number for the purposes of effecting a change of registration of the following animal(s) that I have purchased, maintaining its databases and disclosing that information to its members on its website.*

*Signature: .....*

*Date: .....*

*Please forward this completed consent form to Angus Australia, Glen Innes Road, Locked Bag 11, Armidale NSW 2350. If you have any queries, please telephone 02 6772 3011 or e-mail [office@angusaustralia.com.au](mailto:office@angusaustralia.com.au).*
