Reference sire details pages 50-52 inclusive.

WELCOME

What difficult times we live in; droughts, fires and Corona virus. But there again, the industry we are involved in is so resilient. Apart from the above, we are experiencing unprecedented values for protein (mainly beef and lamb). For those who have managed to hold on to stock, the future is very bright and to others, now is the time to start rebuilding, as the future is very exciting.

Now to the cattle on offer. The bull line up is of very high phenotype quality. Add to this the Breedplan figures and we have an exciting catalogue of bulls. We have catalogued more bulls this year to help keep the average price down, but I think “the virus” may do this job for us.

The quality of the bulls and females can readily be assessed by the photos Janet and I have taken. The cows and calves are exceptional for breeding, with some calves very worthy of show success. The heifers are the usual line up of quality with outstanding Breedplan figures to boot. All cows and heifers are pregnancy tested in calf.

Commercially we are finding that at the saleyards and over ‘the hooks’, there is no difference in pricing between Murray Greys and other breeds. We are also finding more and more, that cattle breeders are appreciating the qualities of the Murray Greys in the paddock, ie shape, temperament, muscle, and fat scores, especially IMF.

I would ask that you read the loose leaf we have put in the catalogue to help with your decisions. Who knows, in six weeks time, there may be open travel across state borders.

Again, thankyou for your interest and understanding and I hope you secure the animals you require.

For help at any time, I am only a phone call away.

Charles

WOODBOURN SALE NOTES

1. Morning tea and lunch

Please join us from 9.30am for morning tea and for lunch immediately after the sale.

2. Rebate

A rebate of 4% will be paid to outside agents accompanying buyers on sale day, provided that they have nominated the buyer in writing 24 hours prior to the sale and settle on their behalf within 7 days of the sale. A rebate of 2% will be paid to outside agents who do not attend the sale, but who nominate a buyer at least 24 hours prior to the sale and settle on the buyer's behalf within 7 days. In all cases the agent must be nominated on the Buyer's Registration form. Please email studstock@robertsltd.com.au.

3. Transport

WOODBOURN WILL PAY THE FREIGHT TO MELBOURNE ON ALL ANIMALS SOLD AT AUCTION.

Woodbourn will contribute up to \$250 towards road freight from Melbourne on each lot that has been bought at auction and which fits the criteria below.

Bulls \$4500 and above

Cows and calves \$4000 and above

Heifers \$3000 and above.

Free freight to the mainland is dependent on all cattle moving as one, as has been the case for many years. If sale cattle are moved individually the purchaser will carry all expenses associated with freight.

4. Group Breedplan

Murray Grey Group Breedplan has been used throughout the catalogue.

5. Feeding regime

All cattle have been raised under natural conditions with no grain or pellets.

6. Feet

Foot trimming is not conducted at Woodbourn.

7. Animal Health

All bulls:have been

a. tested to show that they are not Bovine Viral Diarrhoea Virus (BVDV) Persistently Infected animals

b. Vaccinated against Pestivirus (BVDV) to ensure they are protected from the effects of this infection
c. Vaccinated against Leptospirosis, a reproductive disease and potential health risk to cattle handlers
d. Vaccinated against Vibriosis, a sexually transmitted cattle disease
e Vaccinated with 7-in-1.

All females:

a. All females, including calves have been tested to show that they are not Bovine Viral Diarrhoea Virus (BVDV) Persistently Infected animals
b. All females, including calves have been vaccinated against Pestivirus (BVDV) to ensure they are protected from the effects of this infection
h. All females, including calves have been vaccinated with 7-in-1.
c. All adult females have been pregnancy tested in calf and found to be sound for breeding

8. Semen tested

All bulls were semen tested by Robertson Livestock Services on the 13th and 14th February and found to be sound for breeding.

9. Guarantee

All cattle are covered by the Woodbourn guarantee. The bulls are inspected and semen tested and are in the best possible health for the sale. In the unlikely event of a bull becoming infertile or incapable of natural service, within two years of the sale date, the vendor will supply a suitable replacement, if available, or credit the purchase price, less salvage without interest, costs or damages, to be used at the next sale on any one animal. This is on the provision that the problem was not caused by injury, disease or environmental factors after the fall of the hammer.

The first year 100% will be refunded less salvage, the second year 50% will be refunded less salvage.

Any claim must be accompanied by a veterinary certificate.

Woodbourn will not be held liable for loss of income in the event of empty cows.

Insurance is highly recommended and is your responsibility from the fall of the hammer.

We strongly recommend you observe your new bull when he is first introduced to the cows and if you have any concerns, please do not hesitate to contact us.

WOODBOURN SALE NOTES

10. Joining sires

Lots 18 and 19 have been used in the spring as joining sires. Please take this into consideration when assessing these bulls.

11. Murray Grey Society stud registration transfers

All cattle are eligible for stud registration transfer. Stud transfers will not be issued on any animal under \$2500.

12. Inspection

Cattle may be viewed on Sunday 10th May from 2pm until 4pm, in their paddock and from 10.00am on sale day, 11th May.

13. Insurance

Please insure your purchase as the animal's ownership transfers on the fall of the hammer. We recommend Nutrien Insurance or John Wilkinson of Steadfast Insurance, who will be in attendance on sale day.

14. Stock travel

The agents will organise all cattle movements to the mainland and King Island. Woodbourn will deliver Tasmanian cattle upon request. The truck will be the same, but there may be a different driver. Charles and Janet will follow up some time after the sale.

15. Buyer's instruction slip

Please leave clear instructions on the buyers instruction page, with the agents at the conclusion of the sale. Please write your name and phone number clearly.

16. Safety

Under normal conditions our bulls and females are placid and quiet, however, care must be taken when inspecting sale animals as crowd pressure can alter their behaviour. Please do not crowd the bulls, and please ask for assistance if you would like a closer inspection, or are feeling at all nervous. Visitors enter the pens at their own risk. Children must not enter the pens at any time.

17. Supplementary sheets

On sale day the supplementary sheets will have weights, scrotal and frames scores.

18. GST

The cattle sold GST exclusive and will be invoiced with GST included.

18. Johnes status

Woodbourn is J BAS 6

Born: 20/09/2018 **Colour:** Silver **Tattoo:** 4W P154 **Genetic Conditions:** CAI AMU NHU

Sire: WOODBOURN MIDNIGHT M39 (PB)
 WOODBOURN MISS HEATHER G66 (PB)

Dam: WOODBOURN MISS HEATHER H3 (PB)
 WOODBOURN MISS HEATHER A12 (PB)

NOTES: A very very good bull to start the sale with. Firstly, please note his age - one of the youngest in the catalogue. This most attractive young bull has great capacity and thickness right through his body. Extremely good figures across the board, top 5% for 400 and 600 day growth and in the top 10% for milk. His +2.2 EMA, IMF and indexes are well above breed average. A beautiful headed bull with a great top line and outlook. Certainly one of the picks of the catalogue.

Sire: AYR PARK HUGH H77 (GR2)
 AYR PARK TRIAL & ERROR F92 (PB)

Dam: WOODBOURN MISS PANSY G26 (PB)
 WOODBOURN PANSY D49 (PB)

NOTES: At lot 2 this bull is the complete package. Moderate birth, very high growth with his 400 and 600 day EBV's in the top 5% and excellent carcass data. His indexes are very very high and should appeal to those who rely on indexes to do the job for them. He is a very well structured bull and moves very well. A typical Hugh son showing depth, length and smoothness with softness throughout. I consider him a stud sire prospect.

NOTES: This bull certainly is a big standout especially when his figures are analysed. From moderate birth to extreme 600 day (in top 5% for the breed), above average milk and exceptional carcass, especially IMF at +1.2 (top 1% for the breed). Great length of body and thickness in this mobile bull. Definitely a stud prospect.

NOTES: What an absolutely outstanding bull. Those looking for growth figures must surely look here. Huge 600 day figure, milk at three times breed average, and an enormous EMA number of +3.8. Please also note that his indexes are well above the top 1% for the breed. Visually he is an upstanding, structurally correct bull, who moves very well for a bull his size. Certainly one of the picks of the team. He is exceptional. Please note his young age.
