## About us...

Knowla Livestock is a family owned and operated company comprising of James and Annie Laurie, Ted and Alison Laurie, and Marie Laurie. Children, Sandy, Doug, Rob, Jack and Georgia play an active role in the properties operation when time permits outside of their own commitments. Marie's husband Cliff passed away in 1992 and was the boy's inspiration through his work ethic and passion for livestock.

We are the fourth generation to run beef cattle on the headwaters of the Barrington River at Moppy west of Gloucester. Surrounded by the Barrington Tops National Park 2000 hectares and a further 600 hectares of leased land is managed. Whilst it is undulating to steep grazing country it is ideal for cow calf production. The 130 hectare Kia Ora property, Kanangara on the outskirts of Gloucester was purchased in 2007 and is the site for our annual production sale.

Traditionally Devon/Shorthorn crossbreeders, progeny from the Kholwha Devon stud were sold at the Gloucester bull sale from 1981. 2019 saw us celebrate 25 years of breeding registered Angus cattle, with the foundation bloodlines purchased from Dulverton, Forres and DSK Angus studs. Today, just over 250 registered and performance recorded Angus females are joined, with elite cows placed into an embryo transfer program as well.

Just over 500 commercial cows are joined to produce feeder steers for either the EU grain fed market, or the heavy grass-fed MSA domestic and export markets. An annual pasture improvement program over approximately 250 hectares produces winter feed and establishes high performance pastures to increase overall production. As a result, the total kilograms produced has almost doubled in the past twenty years.

## The Genetics

We spend a lot of time researching and identifying the genetics that we feel best suit our environment and target markets. Our commercial herd is a great proving ground for any new sire that we introduce.

Several sire lines return this year, having proven their worth in both our stud and commercial herds. Bowmont King K306 made an impact last year, and his influence is even more apparent this year with 11 sons catalogued. They are moderate framed, with volume and softness. With high accuracy he is the No 1 HBR sire in the breed for EMA whilst also in the top 3% of the breed for IMF, not an easy combination to attain. Sons selling at Lots 7, 8, 11 and 20 are very easy to recommend. U.S. A.I. sires Baldridge Bronc and LD Capitalist 316 return this year. Both are exceptional calving ease sires with very light birth and several of them in the top 10% of the breed for direct calving ease EBV's. Keep an eye out for Lots 2,5, and 12, all with the light birth, but are keeping up with the lead bulls for growth.

Proven sire lines, Dunoon Highpoint H744, Dunoon Decimal K1354, and Wattletop Lock L4 will all have prominent sons in the catalogue. Eastern Plains Estate H38 also returns after two full years in our commercial herd and he continues to produce expressive carcase progeny.

Highpoint has without doubt been the go-to sire at several sales now and whilst his progeny is now limited to ET calves they will not disappoint, take particular note of Lot 21. The Highpoint son Lofty L175 will also be represented with 6 sons. We continue to offer a range of new genetics each year to give clients a variety of choice. Top selling yearling at the 2017 Booragul sale, Booragul Revenue M4, purchased in conjunction with Coffin Creek Angus and Palgrove Ultrablacks, first sons will present. If you want to add bone, scale and style have a good look at donor cow F40's son at Lot 10.

The first Australian offering of progeny of US AI sire GAR Drive will lead off in the younger bulls. They are very stylish types with excellent structure as well as light birth, moderate growth and exceptional carcase attributes. Take a look at Lots 19 and 24. Also in the younger bulls Knowla Montana M13 and Ben Nevis Manchester M53 have a number of calving ease and light birthweight sons that also carry the carcase traits we strive for.

A number of AI sires are represented with smaller numbers, such as Millah Murrah Lock Up L133, Aryvale General G18, Musgrave Mediator and GAR Fail Safe. The G18 son at Lot 3 comes with an exceptional data set and his dam is one of the best cows in the herd. Have a look at the power and volume in the Lock Up son at Lot 9, and he is the natural calf of donor cow F36.

It has been a more difficult task than other years to prepare the 110 EU accredited commercial Angus females we have put aside for the sale. We are confident that they will comfortably make the weight for a spring joining. Almost all our stud sires will be represented in both age groups, as well as snapshot of next year's genetics. For the first time we will also offer a pen of joined females. All bred in the stud they will be offered in two lots as 81A and 81B. PTIC to Knowla Nobleman N127 they are a selection of the sisters of our younger bull group.

# Sale Details

## HOW TO GET THERE

From Gloucester travel 3.5 kms towards Barrington and turn right into Bowman Farm Road, (from the north turn left 2 kms on southern side of Barrington) for 1km over Barrington River then turn right onto Kia Ora Road for 2km and on top of hill continue straight on into Old Kia Ora Road for 2 km to Sale complex.

## COVID-19 REGULATIONS

The sale will operate under the current Covid-19 requirements and will be subject to change. We anticipate all persons attending the property will be required to register and record contact details. Hand sanitizing and social distancing will need to be carried out. Please do not bring the whole family, as it is not a social outing this year. We strongly recommend presale inspections allowing bidding over the phone or online.

## INSPECTION

Sale bulls and sale commercial females may be inspected by arrangement with either vendors or the agents. All lots will be penned on sale day by 10 am at the sale complex, Kanangara. **NO CHILDREN ALLOWED IN SALE PENS.**

## ADDITIONAL INFORMATION

A supplementary sheet will be produced for sale day.

## REBATE

The vendors will provide a 4% rebate to outside agents introducing buyers in writing 24 hours prior to the sale and settling on their behalf within seven days.

## PHONE BIDDING

Mobile phone bidding on the day can be arranged prior to the sale through the Agents, Elders Walcha, on 6777 2011 or Nick Hall 0427 437 203. The sale will also be on Auctions Plus. To register contact (02) 9262 4222 or visit [www.auctionsplus.com.au](http://www.auctionsplus.com.au)

# Sale Details

## CATERING

Morning tea, light refreshments and lunch will be provided with all proceeds going to the Barrington Public School P and C.

## INSURANCE

It will be the responsibility of the purchasers to insure their bulls if required which can be arranged through Elders immediately after the sale.

## BUYERS INSTRUCTIONS

Please complete the buyer's instruction slip at the rear of the catalogue. No verbal instructions will be accepted.

## DELIVERY

The vendors will provide delivery on all bulls to all major centres in NSW at their expense, as soon as possible following the sale.

## TAKING DELIVERY

Upon taking delivery of your purchase it is very important to realise that our bulls have been run in large mobs since weaning. If you are a single bull purchaser the day he arrives at your property can be quite traumatic as it will be the first time he is away from his contemporary group, and into a strange environment. Have some other cattle in the yard to ease him into his new surroundings, a few steers or a pregnant cow will do. Our bulls are handled with horse and dogs all their life and whilst we educate them to be comfortable with people on foot or motorbike, they have only been moved on horseback. Again it is important that the first time you move your new bull that it is in the company of other cattle that are comfortable with your methods.

## HERD HEALTH

All the bulls have been fully vaccinated for 7 in 1, Vibrio, and 3 Day Sickness, but require boosters in autumn 2021. They have been tested free of Pestivirus. Both properties involved in the sale, Knowla and Kanangara were in Bovine Johones disease protected areas, and have had no history of the disease. Biosecurity plan implemented, JBAS 7. A National Cattle Health Declaration will be supplied to all purchasers.

Stuart Knox of Taree Veterinary Hospital will subject the bulls to a breeding soundness examination on 6th July, 2020. This will include internal and external examination of the reproductive tract, palpation and scrotal measurement, as well as a semen quality test.

## PRIVACY INFORMATION

The majority of the animals included in this catalogue are registered with the Angus Society of Australia. The buyer is encouraged to have transferred to his or her membership any animals purchased. In order for the transaction to be effected, the buyer will need to provide certain personal information to the Society and consent to the collection and disclosure of that information by the Society in certain circumstances. If the buyer does not wish for his or her personal information to be collected and disclosed by the Society, the buyer must opt out of the option to consent by completing the form which will be available on sale day and forwarding it to the Society. If the form is not completed, the buyer will be taken to have consented to the collection and disclosure of that information by the Society.

## DNA PATERNITY VERIFICATION

Please note that DNA paternity (sire of sale animal) verification has not been conducted on some or all of the animals listed in this catalogue. It is a requirement of the Angus Society of Australia that all bulls used to sire calves for registration in the Society's Herd Book Register, Red Angus Register, or Angus Performance Register must have been DNA paternity verified if they are born in or after the year 2003. Buyers intending to use bulls in this catalogue to produce calves to be registered in the Angus Society's Herd Book Register, Red Angus Register, or Angus Performance Register should conduct DNA paternity verification on those bulls before they are used for breeding.

## DISCLAIMER

The owners, employees and representatives of Knowla Livestock accept no liability for any accidents that may occur. Although such occurrences are rare, any persons attending the Knowla Livestock sale do so at their own risk.

All reasonable care has been taken by the vendor to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor or the selling agents make no other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

The King sons made an impact last year and he has proven himself as a breed leading carcase sire since then. Carcase results from Cohort 7 of the Angus Benchmarking program now have him as the number 1 sire in the breed for EMA at high accuracy as well as being in the top 3% for IMF - a hard combination to achieve. Many of his 11 sons in the catalogue are outstanding prospects.
