# Welcome to Merawah

**WELL, WHAT A YEAR** it has been so far. The worst drought in living memory followed by, for many, the best season they've seen for many years. Just as things looked like they may be getting back to some kind of normal, the global COVID-19 pandemic tipped everything on its head and caused a tragic number of deaths worldwide and untold hardship for many business operators across the country. Australia appears to have weathered the virus much better than many countries and is taking significant steps to return to normality as soon as it can.

The cattle market has reached new levels over the last few months due to the combination of low numbers and many producers with an abundance of feed looking for trade cattle along with producers looking to rebuild herds. The grass fed markets are starting to really ramp up with forward contracts up to \$7.00/kilo dressed weight already out there at the moment along with a number of exporters looking to procure Hereford heifers at very attractive rates.

On the home front, many of our cows have seen a lot of the country over the last 6-8 months including a stint in southern Victoria until early April when they finally returned home and joined up with those that stayed behind. A 95% pregnancy rate on all of them is a testament to the fertility of those cows. While Merawah is still very much in need of good follow up rain, they have powered ahead since they returned. So many people have helped us along the way and we are very grateful for all their assistance. Hopefully we will never need to go to those extremes again!

The bulls have handled the trying conditions well at home along with a bit of agistment on a few failed crops around the district last spring. With our last oats crop here being in 2017 and with this years barely being ready to eat, they have been out in the paddock and have been getting a canola hay/barley straw mix with some gradings mixed in for the last few months and have done extremely well. This is a very strong set of bulls with good numbers, plenty of growth and thickness that are ready to go out and work in your herds. There are a number of bulls in the offering that we recommend for heifers – look for the H symbol on their lots.

**The sale will also be interfaced with Auctions Plus for those who can't make it (or would prefer to stay home in these unusual times)– contact your preferred agent if you're not a regular user of this platform and they will be able to set you up to use it.**

**We will be observing whatever the current COVID-19 rules are that will be in place in July – we WILL certainly be having a physical sale and if everything stays on course most people should be able to attend as normal – fingers crossed!**

We look forward to seeing as many of you as we can on July 14 – we're very proud of these bulls and the cows that produced them and look forward to catching up.

**Regards,**  
**Andrew Mackay**
