27th Annual Bull Sale

Saturday 18th July 2020 at 1pm

Offering 19 Angus & 32 Poll Hereford Bulls

“Mountain Valley” Coolatai NSW

www.mountainvalleystud.com.au

Reference Sires

Reference Sire Peakes Gabba EVTK556

New Sire Yamba Naxos DZNN190

Welcome to our 27th Annual Bull Sale

Hello and welcome to our 27th annual sale. What a turnaround we have seen! The resilience of people on the land and the ability of the country and the stock to endure and respond the way they have is nothing short of amazing. With confidence restored and markets breaking new ground the future for beef looks bright.

We managed to keep the bulls at home, however most of the females at one time or another have criss crossed the country in search of feed. From Longreach to Victoria on the mainland and 3B doubles to Tasmania the girls have calved and rejoined under all types of conditions.

The majority are home with the balance on their way home soon.

We are pleased with the bulls we have on offer. They have done well since going onto oats in April and are the same thick, easy doing soft cattle that are consistent in type and have the quality we demand in our program.

With the Covid 19 restrictions currently in place, we encourage anyone who would prefer not to be here on sale day to pre-inspect anytime by appointment.

Looking forward to catching up with you on sale day if not before.

Left to Right: Stephen, Shelley, Matthew, Ian and Jorja

Settlement

C.L. Squires & Co will attend all settlement details.

Inspection

Sale Lots will be available for inspection from 10am on sale day. Prior inspections welcome; contact vendor or the selling agents to arrange a time.

Insurance

We strongly recommend you insure any purchase. Representatives will be in attendance on sale day.

GST

This sale is a GST exclusive sale, GST will be added to the purchase price.

Disclaimer

The owners, employees, sale staff and representatives accept no liability for accidents that occur; although these are rare at cattle sales, any person attending does so at their own risk. While all care has been taken in preparation of the contents of this catalogue, Mountain Valley Poll Hereford stud principals accept no responsibility for any errors or omissions contained in this publication.

Phone Bidding

Good mobile reception at sale venue. Contact selling agents prior to sale.

Sale Information

Refreshments

As rules are changing daily due to COVID-19 we will follow health guidelines applicable for the sale day. If allowed morning tea and lunch will be available from the Coolatai Hall Committee.

Selling System & Buyers Registration

All lots will be sold subject to the usual terms and conditions governing auction sales. Intending purchasers should obtain a buyer's number and registration slip from the selling agents prior to the sale.

Sale will be interfaced using AuctionsPlus. Log onto AuctionsPlus to bid from anywhere using your phone, tablet or desktop. For more information contact AuctionsPlus on (02) 9262 4222 or www.auctionsplus.com.au.

Delivery

A delivery instruction slip must be filled out and handed to the selling agents. Local carriers will be in attendance. Delivery can take place at the completion of the sale.

Fertility

All bulls have been semen tested by Brendan Coonan of Northern Artificial Breeders Score.

Herd Health

JBAS 6. 7 in 1 and Vibrio vaccinated.

Sale Safety

All the sale bulls have been screened for temperament and are quiet to handle under normal circumstances. However, there are inherent risks associated with cattle handling. Visitors enter the cattle pens at their own risk. Children must not enter the yards. People entering the yards are at risk of injury. Be especially alert for bulls fighting and if one is playful with you, do not respond by patting his head. What a bull considers a playful nudge can break human legs!

We do not expect the bulls to be aggressive with humans, but sale day places extraordinary pressure on them as they experience an entirely foreign environment. Remember the quietest bull is in fact an unpredictable animal. Do not crowd the bulls or loiter inside the pens. We cannot cover every example of the dangers of cattle handling, so please use common sense and be alert at all times. Do not enter the pens unnecessarily. If you feel threatened whatsoever, please do not act hardy. The stigma of a person screaming as he dives over a fence is a preferable option to a broken body resulting from "standing up to" an unfamiliar beast. Please call upon any of the agents for an escort through the yards if required. The days of bravado with stock have passed under current OH&S legislation.

ATTENTION BUYER: Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Breedplan Explanation

BREEDPLAN is a performance valuation program that describes the genetic profile of bulls for a number of commercially important traits. This profile is given as an Estimated Breeding Value (EBV), expressed as a figure (+/-) relative to the breed benchmark of zero (0) for each trait.

The EBVs in this catalogue are Angus Group Breedplan EBVs and can be directly compared with Angus Group Breedplan EBVs from other herds. To evaluate the performance profile of a bull, its EBVs can be directly compared with the EBVs of other bulls, against the breed benchmark of zero (0) or against the current breed average EBV for each trait, which for the 2018 calving year was (for Angus):

Angus Group Breedplan Average EBVs for 2018 Drop Calves								
CE DIR	CE DTRS	GEST	BWT	200	400	600	MCW	MILK
+1.9	+2.4	-4.4	+4.3	+48	+86	+112	+98	+17
SS	DTC	CWT	EMA	RIB	RUMP	RBV%	IMF%	DOC
+1.9	-4.7	+64	+5.7	-0.1	-0.4	+0.5	+2.0	+5

EBVs are Provided for the Following Traits

Birth Weight: The lower the birthweight EBV, the lighter is the birthweight potential of the progeny.

Genetic Milk: Reflects extra calf weight at weaning due to the genetic influence a sire has on his daughters milking and mothering ability.

200 Day Weight: Indicates the relative weight advantage of a sire at 8–10 months of age.

400 Day Weight: Indicates the relative weight advantage of a sire at yearling age.

600 Day Weight: Indicates the relative weight advantage of a sire beyond yearling age. This EBV is important if selecting sires to breed steers for grained export markets.

Fat Depth: Bulls with negative (-) EBVs for this trait are expected to produce relatively leaner progeny than bulls with positive (+) EBVs.

EMA: Bulls with positive (+) EBVs for this trait are expected to produce more muscular progeny than will bulls with negative (-) EBVs.

Accuracies The accuracy provides a measure of the reliability of the EBV. The higher the value, the less likelihood of the EBV changing with the addition of more performance records on the animal.

We cannot guarantee the accuracy or credibility as they are only an estimated breeding value not a guaranteed breeding value.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal’s name are as follows:

PV: both parents have been verified by DNA

SV: the sire has been verified by DNA

DV: the dam has been verified by DNA

#: DNA verification has not yet been conducted

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Can't make the sale?

***Log onto AuctionsPlus to bid from
anywhere on your phone, tablet or desktop.***

1

REGISTER ONLINE

Simply click 'Sign Up' to begin your free registration. To register as a buyer for livestock, you will need to provide us with a few more details.

2

COMPLETE BUYER INDUCTION

The buyer induction will help you understand the roles and responsibilities of everyone on the AuctionsPlus system.

3

VIEW CATALOGUE

Photos, videos, pedigrees and other information will be available in the online catalogue.

4

ENTER AUCTION

Log into the auction anytime, anywhere and bid on your mobile, tablet or computer.

5

AUTO BID

Can't stay for the whole sale? Set your maximum bid on the lot that you want to purchase and let the computer bid for you.

6

CONTACT SELLING AGENT

If successful, contact selling agent directly after the sale to arrange payment.

7

DELIVERY

Arrange transport of livestock at your expense.

***Contact AuctionsPlus on (02) 9262 4222
or www.auctionsplus.com.au***

Boost Livestock performance

Anipro
Liquid Supplements

Customised nutrition
supplements delivered
straight to your paddock

Improving results in livestock systems requires year-round nutrition planning. Anipro is a molasses-based liquid supplement that complements the forage you have available to optimise health and condition and therefore boost production, performance and profitability in your herd.

KEY BENEFITS

- ✓ Molasses based liquid supplement
- ✓ Provides essential protein, minerals and vitamins
- ✓ Up to 27% improvement in forage intake
- ✓ Fully serviced program saves time and money
- ✓ Promotes improved digestibility in dry feeds, hays, and stubbles
