# GILMANDYKE ANGUS

## SPRING BULL SALE THURSDAY 27 AUGUST 2020

COMMENCING 1PM ON PROPERTY  
"KANGAROOBIE", ORANGE NSW

70 ANGUS BULLS + 120 PTIC COMMERCIAL HEIFERS

**On behalf of the Bateman family I would like to welcome you to our annual bull and production sale.**

Breeding high performing Angus genetics is essential to our large commercial breeding operation (2,500 commercial cows). We are guided and driven by our own need to produce Angus genetics that perform in the paddock maternally and at the farm gate commercially.

To that end we are pleased to offer 70 outstanding sires and 150 PTIC heifers that are a direct result of our focus on meeting the needs of our own large scale commercial operation.

The sires offer a phenotype that is underpinned by structural soundness combined with muscle, depth of body and docility. They are an extremely consistent line that have high performing EBV's to meet the needs of your females without being extreme.

Musgrave Stunner is the new bull that we have introduced into our stud program. He has brought further enhancement to phenotype while adding more shape and depth of rib to the cattle. With great maternal strengths Stunner has left behind some cracking daughters that will enhance to our female families.

SAV Resource is again prominent in our sires lines. We have gone back to Resource as we love the power, capacity and soundness that he leaves in his progeny. These attributes convert into kilo's at the farm gate of our commercial herd.

Once's again the Premier Guardian J12 sons are a standout in the line-up, with huge capacity and softness and they provide breeders to get access to sons of an outstanding sire.

Females for sale are a unique opportunity to purchase from a large line of females who's genetics have underpinned our commercial success. Recent feedback from Solfarina Run Feedlot was that Gilmandyke commercial cattle achieved the highest daily gain to date. 'Gilmandyke cattle were very calm and settled easily and achieved 0.2kg average daily gain ahead of the rest'.

PTIC to the record priced bull Paratrooper NMMP15 and the record priced 12-month-old Chisum NMMP108 it is your once in a lifetime chance to get access to the leading high performing Angus genetics and be part of the Gilmandyke Program.

I am looking forward to seeing you on sale day.

Regards,

Wade Peatman | General Manager

Livestreaming and online  
bidding via AuctionsPlus  
Agent rebate available as per  
terms within the catalogue

# REBATES & DISCOUNTS

## 5% Rebate

We are pleased to offer a 5% rebate to all agents who attend with or on behalf of their clients, and settle within seven (7) days.

## \$500 Discount

We are pleased to offer a \$500 discount on bull purchase when combined with purchase of female lot.

## FREE Delivery

Gilmandyke Angus will deliver Bulls free of charge to the Regional Livestock Exchanges in Yass, Carcoar, Forbes, Dubbo and Tamworth.

Damien Sotter of Beef Genetics will be available on day as independent consultant to assist in bull selection

**EFTPOS:** For the convenience of our buyers B&L Livestock will have EFTPOS facilities on the day; accepting Visa and Mastercard

### ONLINE BIDDING AND LIVESTREAMING

AuctionsPlus will facilitate livestreaming and online bidding on the day. Please register with B&L Livestock and use your AuctionPlus account to access the sale.

# SALE INFORMATION

## Sale Location

Gilmandyke Angus Stud is located at "Kangarooobie"  
1346 Mitchell Hwy, Orange NSW.

## Inspection

Inspection from 10.00 am on sale day. Inspections at any other time are welcome.

## Refreshments

Morning Tea and a light lunch will be available.

## Insurance

It is our recommendation that insurance is taken out on all purchases. Representatives will be available on the day.

## Health

All bulls have been ear notch tested free of Pestivirus (BVDV). They have been vaccinated with 2 doses of Pestiguard, 2 doses 7 in 1 and 2 doses of Vibrovax. AM, NH, CC, CA and DD status is shown in each lot heading. No bulls on offer have had any feet treatment. All sale bulls are vet inspected for structure and breeding soundness.

## Guarantee

Gilmandyke Angus guarantees the structural soundness and fertility of the bulls for a period of six months after the sale. If a bull is proven to be infertile or unable to serve (providing not related to injury or disease) Gilmandyke will credit purchase price of bull less salvage value.

Whilst Gilmandyke has carried out every precaution with the working abilities of the bulls we are here to help if there is an issue with your purchase. **Please contact us immediately if there is a problem so we can attempt to rectify.**

## Multiple Bull Purchases

The bulls in this year's sale have been run in three separate groups to minimise injury if planning on making multiple purchases please discuss with Gilmandyke staff to find out if bulls are from same mob.

## Delivery

Gilmandyke Angus will deliver Bulls free of charge to the Regional Livestock Exchanges in Yass, Carcoar, Forbes, Dubbo and Tamworth.

## Bull Transfer

Bulls will incur no charge for transfer. Please provide herd prefix on registration.

## Safety

We select animals with traits of good temperament and ease of handling. However, all animals can be unpredictable, particularly if stressed.

Visitors enter pens at their own risk.

- Children are not permitted in the pens
- Do not overcrowd the pens
- Keep movement and noise to a minimum
- Be aware of your surroundings

## Semen Rights

Gilmandyke Angus retains the right to collect up to 300 straws of semen from all bulls sold. Gilmandyke Angus will collect the semen by agreement with the bull owner at Gilmandyke Angus' cost. This will be for Gilmandyke Angus use only.

## Disclaimer

People entering upon this property for any purpose whatsoever including attendance at cattle auctions do so at their own risk. We are not liable to you for any personal injury or death suffered by you or for theft, loss or damage to any property caused or contributed to by us or any other person whether caused or contributed to by or by negligence deliberate act or unlawful conduct. "We" or "us" or "our" refer to the owners, their employees, contractors and agents and each of them. While every care has been taken in compiling this catalogue to ensure accuracy of information supplied, no responsibility is accepted for any errors which may have occurred.

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder nor owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, neither the vendor, Angus Australia or the selling agents assume any responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

# 120 COMMERCIAL PTIC HEIFERS

As stud producers we see the value in the cows behind the bulls and in the same respect commercially we know that females are the profit drivers in any breeding operation. The heifers on offer are straight from the heart of the Gilmandyke commercial operation and 100% Gilmandyke blood. With nearly 3000 commercial breeders we see these females as an opportunity for purchases to Join the Gilmandyke Program.

With over 100 PTIC to the \$150,000 Millah Murrah Parratropper P15 and the \$40,000 Millah Murrah Chisum P108 sires these heifers are packed with breeding potential and due to calve from the 25th of September.

It is our intention moving forward to the future to provide large lines of productive females for the commercial operator, with 300 females locked in for next year, our goal is to allow others access to the breeding pressures we put on our commercial herd through large scale selection.

The first 6 sons of Mustgrave Stunner sons to sell at auction in Australia. P197 carries all the traits that Stunner has stamped on his progeny, with tremendous body and style this big hipped, clean fronted bull has a real sires head. The Stunner progeny have bred consistently with even meaty sons and soft fleshy females this bull would be perfect in a self replacing operation.

A real eye catcher to lead off a run of calving ease bulls, the next group of bulls have been put together for those looking for a safer option for joining heifers. P154 is part of a run of full ET brothers two of which have been retained for stud use. P154 is long with upstanding calving ease, with a strong maternal line an excellent opportunity to buy a bull out of a great cow family.

The first of the 15-month-old bulls and a cracker to start. These bulls show incredible consistency and are thick topped and are great on their feet and legs. As 15 months of age these calves offer the purchaser an opportunity to invest in some of the new genetics coming through our herd as well as extending the working life of their bull. We are leading towards selling our bulls at a younger age moving into the future. We feel that bulls respond better to work at an earlier age and grow out in working condition and if managed correctly these bull are more than capable of doing the job of an older bull, and the fact that the bulls are out working rather than learning to fight with each other we feel leaves them more athletic and increases their longevity.
