Nindooinbah's Spring Sale

In June this year we celebrated our 15th Birthday at Nindooinbah. Kaye, I and the Nindy Team looked back on a what has been achieved during this time. The property was unbelievably run down. However in many ways this was to our advantage as we were able to start Nindy's renovation and rejuvenation from scratch. Everything from fencing, laneways, irrigation, pasture improvement and the necessary infrastructure all needing to be replaced or built. It certainly was a big challenge but a very rewarding one for all involved.

We introduced Ultrablacks into Australia, have undertaken more than 14,500 embryo transfers and are currently involved with 16 research and development program with various collaborators to rapidly accelerate the rate of the genetic gain of our herd for our clients to benefit in their breeding programs. Our collaborators include the UQ Vet School, the Australian Institute Bioengineering and Biotechnology, Uni of New England, James Cook Uni and QUT.

We believe this years sale is our best offering to date and Kaye and I and our Nindy Team look forward to catching up at our sale on the 8th October.

Best regards,

Euan & Kaye Murdoch

NINDOOINBAH STUD CATTLE MANAGEMENT PROGRAM:

At birth all calves are weighed and tagged with management tags, Dam ID tag and electronic ID. This data is submitted to Breedplan for calving traits. Prior to weaning all calves have had 7 in 1, Botulism injections. At weaning they are weighed and vaccinated with three-germ blood. Post weaning they finish their “calving vaccinations” with Pestigard.

The weaners are freeze branded with their tattoo number and have carcass ultrasonic scan data taken between 400 and 600 days plus a weight by an accredited technician. The weaners are kept in large management groups, so we can make full use of the Nindooinbah Breedplan analysis.

The stud cattle are pasture fed and supplemented in the paddock at key points in the year. Their weights and condition are monitored so that they develop well during this critical phase of their life.

Annual boosters 7 in 1, Pestigard, Botulism and BEF (three-day sickness). Bulls receive Vibrio. Booster vaccinations are due according to the table below. All sale animals have been tested free of BVDV by Swans Vet.

The bulls undergo full Veterinary Bull Breeding Soundness Evaluation (VBBSE) results will be available via the web and a supplementary on sale day.

During mustering at Nindooinbah we expose our cattle to as many different styles as possible. We regularly use horses, dogs and motorbikes using Low Stress Stock Handling principals. A great deal of time is spent with them in the paddock on foot or with vehicles.

Preliminary tick treatments have been done and cattle will be cleared either on farm or at an accredited clearing dip facility.

All cattle are eligible to move to Western Australia, Nindooinbah is JBAS 7. Please contact us prior to sale so we can provide you with treatment details and transport times (please note clearance for WA will begin post sale).

A MESSAGE FROM NICK

Nindooibah's 2020 Spring Sale, held at Nindooibah at 1:00pm on the 8th of October, is a great opportunity to secure some outstanding genetics from the Nindooibah breeding program. This year's sale will see an offering of 31 Ultrablack bulls, 17 Brangus Bulls and 36 PTIC Brangus and Ultrablack heifers. All cattle are fully vaccinated and ready to work. All bulls have had BBSE carried out and the heifers were pregnancy tested on the 18th of September.

The 2020 year has been an unusual year...to say the least. On a positive note, the EYCI is sitting at 784

today. A great market if you have cattle to sell. This indicator appears to be one of the only indicators in positive territory at present and I think it further highlights the importance of the beef industry in testing times.

The sale day held at Nindooibah will follow COVID protocols in place at the time of sale. Our auction will also be interfaced with Auctions Plus for those that can't make the sale.

I look forward to seeing you at the sale and catching up for a beer after the dust settles.

All the best. *Nick Cameron*

Nindooinbah BREEDPLAN

Nindooinbah is committed to performance – recording their beef cattle for objective traits of economic value. Those traits include Birth weight, growth to 18 months, scrotal size on bulls and ultrasound carcass scanning for carcass traits including IMF% (Marbling).

For the last 10 years Nindooinbah has evaluated the genetics of the Ultrablack and Brangus herd by being part of the Angus Multi-Breed Register. 15,000 animals have been recorded for multiple EBVs in that time with additional animals added as they enter our system.

In 2016 Nindooinbah has changed its genetic evaluation to Nindooinbah BREEDPLAN – a within-herd system supplied to Nindooinbah exclusively from ABRI (Agricultural Business Research Institute), the exclusive commercialiser of BREEDPLAN.

The Nindooinbah team believe that the new within-herd genetic evaluation, based uniquely

and solely on the performance and measurement of the Nindooinbah Brangus and Ultrablack cattle in our sub-tropical environment, in the presence of ticks and sub-tropical grasses, will give more accurate EBVs than ever before.

The new EBVs, though of lower magnitude than previous catalogues will more accurately rank the animals for their performance at Nindooinbah with more relevance for northern Australia based on the 15,000 animals previously recorded and incorporated in these new EBVs plus the 2018 drop of calves.

Any questions call or text Don Nicol on 0416161146 or Nick Cameron on 0409348491 or email: breedlink@a1.com.au or nick@goannacorp.com.au

The Nindy “10 out of 10” EBV EZI-Guide

To minimise the numbers you need to look at to assess if a bull or female meets your breeding aims we have developed an EZI-Guide. The within-herd BREEDPLAN EBVs are converted into decile rankings (a block of 10 percentile points) and displayed as a single number for each trait.

- 10 = Trait Leader
- 9 = ranked in the top 10% for the trait
- 8 = ranked in the top 20% for the trait
- 7 = ranked in the top 30% for the trait
- 6 = ranked in the top 40% for the trait
- 5 = is herd average for the trait
- 4 = ranked in the bottom 40% for the trait
- 3 = ranked in the bottom 30% for the trait
- 2 = ranked in the bottom 20% for the trait
- 1 = ranked in the bottom 10% for the trait

So look at the numbers ranking how your bull's EBVs rank for a trait and quickly assess if he suits your needs. We recommend a balanced profile of numbers.

Remember: A 10 for Birth weight is the trait leader for low birth weight. Bulls with a score of 5 to 10 are recommended as heifer bulls.

In contrast a 10 for Scrotal Size means the trait leader for Scrotal circumference EBV, a 5 means herd average for Scrotal Size and 1 for the bottom 10% decile for Scrotal Size.

The abbreviations for the traits are as follows:

- BW – Birth Weight
- GL – Gestation Length
- 200 – 200 day Growth
- 400 – 400 Day Growth
- 600 – 600 Day Growth
- MCW – Mature Cow Weight
- SS – Scrotal Size
- ADAP – Adaptation
- EMA – Eye Muscle Area
- RIB – Rib Fat
- RUM – Rump Fat
- RBV – Retail Beef Yield
- IMF – Intramuscular Fat

The highest bidder shall, subject to Conditions 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneer's absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.

2. The sale will be conducted on a "Sale" or "No Sale" basis, whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.

3. The details of the purchaser, the purchase price and the lot sold as recorded by the Sale Clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.

4. The auctioneer expressly reserves the right, without giving any reason therefore to:-

- (a) Refuse to acknowledge any bid;
- (b) Withdraw any lot or lots before or during the sale;
- (c) Exclude any person from the auction venue should it think fit.

5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.

6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these conditions as made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee, warranty or condition whatsoever was given or implied.

7. In the event of any dispute in respect to the sale of any lot:-

- (i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions;
- (ii) The vendor and the purchaser shall resolve the dispute between themselves;

(iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and

The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.

9. (a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidders' offer by the vendor and prior to delivery. Notwithstanding that delivery is given to ar possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated and until property shall pass, the purchaser shall hold such lot as Bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:

(i) Rescind the contract on behalf of the vendor and repossess and resell any lot;

If at any time the AMBA Bill Rate becomes unavailable for any reason, the auctioneer shall determine and advise the purchaser for the interest rate to apply for the purpose of this condition.

9. (b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.

14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf, for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.
