41st Annual Sale - Welcome to our on-property sale, this year we enter 54 years of breeding registered Poll Dorsets; 1966-2020 and we are thrilled to be in our next half century of breeding quality rams. Due to the unforeseen year of Covid19 we were unable to exhibit or display our stock as all events were cancelled. The 2020 ram offering are all structurally sound, showing great muscling for early maturity and true to the Shellal Dorset type. We also have our Shellal SOUTHIE (Southdown x Dorset) rams available. Although not new to the lamb industry, we consider our Shellal cross to deliver the best attributes of both breeds in the one ram and this is not luck but due to the strong bloodlines of our Poll Dorset ewes and the strong predictable breeding pedigree of the selected stud Southdown rams we use. Feedback from our clients has been positive from all our breeds, not one breed is better, rather one's choices in breeding programs differ and therefore so does their choice of ram.

SheepMAP - OJD - Biosecurity – Health – Brucellosis -Shellal is a voluntary SheepMAP participant flock and our sheep flock biosecurity is audited every 12 months by an official SheepMAP veterinarian and monitored daily by ourselves to preserve our future. We hold the market assurance of MN3V (highest level of assurance) and can trade into all Australian states and territories.

Full Health Accreditations

SheepMAP Certificate Number VS1129

Brucellosis Accreditation Number 3270

All Rams have had their Full Annual Vaccinations – Glanvac 6 in 1 @ 4-6 weeks and again at weaning and Glanvac 6 B12 on 6th February 2020.

(All Rams Poll Dorset and Shellal SOUTHIE Rams due on or before 6th February 2021 or prior to joining)

All Southdown rams due on or before 1st September 2021

Watch out for this ram's progeny in 2021
Sale! They are looking awesome!

STUD RAM SALES & TRANSFERS

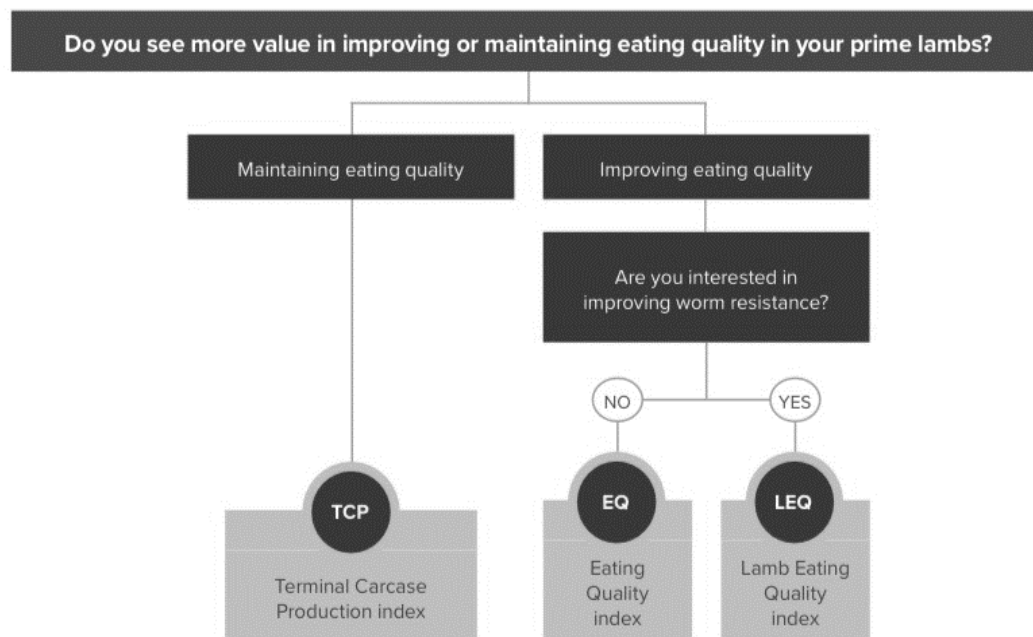

Stud rams are eligible to be registered and transferred to another stud with 100% semen rights to the purchaser. Any rams requiring registration and transfer will incur a min purchase price of \$2000

***LAMBPLAN; Our 2019 drop of Rams and Ewe Lambs were weighed at weaning and again weighed and scanned between 12-24 weeks of age for submission to Sheep Genetics which is a relevant age for the prime lamb industry. We are seedstock breeders with a commercial attitude, we want our clients to have a more comparable result from us scanning and weighing at a younger age when its relevant to the lamb industry. Please note that we use a trained, and independent and industry Accredited & Approved Sheep Genetics Scanner.**

ASBV's Explained	
TCP	Terminal Carcase Production – This Index replaces Carcase + The sheepmeat industry has found that Carcase + index was having a negative impact on eating quality. Carcase + was retired in March 2020 and is an obsolete Index. TCP is for a prime lamb production system where terminal sires are joined to ewes of Merino/Maternal breeds or Crossbreeds. This index concentrates on increasing weight and muscle while reducing carcase fat. TCP also has emphasis on modest improvements in eating quality.
LEQ	Lamb Eating Quality – This Index is for prime lamb operations where terminal sires are joined to Merino/Maternal breeds or Crossbreeds in either a high rainfall or high input management systems where internal parasites may cause significant economic losses. Producers who select this index can improve the eating quality of their lambs to a greater degree than possible using the TCP alone whilst growth and carcase traits will still improve. We choose to use the LEQ Index rather than the EQ in our sale catalogue due to our environment and high rainfall.

Choosing the right index

The following flowchart helps producers determine the best index for their terminal production system:

ASBV TIPS & ADVICE MLA: For the majority of commercial producers; BETTER GROWTH is vital, Rams should have + EBV's for weight (All the Shellal Rams are +).

*For trade lambs sold in a saleyard – FAT & MUSCLE are not so important

*For Heavier or Export lambs sold on a grid or contract then FAT & MUSCLE should be considered

ALL INDEXES ARE A GUIDE ONLY

Due to Covid19 the SHELLAL on-property sale will still be proceeding as per previous years on the property but also in conjunction with AuctionsPlus for 2020.

COVID19 On-Property Rules and Regulations

On sale day we will be setup to adhere to all the rules set out for Covid19, and ask that you follow these rules at all times . As we are still a few weeks out from sale day the 8th October, we are unsure what rules will actually be in place. We will however be making everything as safe as possible for you to attend on actual sale day with full confidence. We will provide hand sanitizer at entry points, regardless of regulations at the time and we ask that you use this before entering the shed. We will be adhering to the rules set out at the time and taking advice from our sale agents to keep everyone safe.
