Welcome to our 17th Annual Ram Sale

We are very proud of the sale rams for 2020, particularly the evenness throughout. We feel the rams handled the challenging seasonal conditions of Spring and Summer 2019, during the early part of their lives very well, and have benefited greatly from the favourable conditions of Autumn and Winter 2020. It certainly has been an excellent few months locally for sheep, with some seriously impressive weights at young ages achieved with lambs on improved pastures and grazing crops.

The sale draft of rams will be made up of 111 Autumn born rams and 89 spring drops, comprising the largest draft we have offered at our sale. Once again the line-up is dominated by Pocock progeny, with an impressive 69 sons in this catalogue. They are peas in a pod, displaying terrific carcass shape and commercial qualities.

There will be a few changes to the day due to COVID and we will be adhering to all guidelines. The layout of the shed is slightly different and we will be interfacing the live auction with AuctionsPlus for the first time. We ask you all to do your best with regard to social distancing.

Thanks, as always, needs to be given to all the people who help us put the day on each year. We simply couldn't do it without you all.

Thank you for attending the 2020 sale and we wish you well with any purchases.

Dane and Lisa, Dennis and Jo-Anne

SIRE SUMMARY

POCOCK

Springwaters 66-16

The lead sire in our stud, his year represents the second draft of sons in our on-property sale. We are thrilled with the consistency in the progeny. An impressive 69 sons are catalogued, backing up from 62 in 2019. Muscling, bone and constitution are hallmarks of Pocock's progeny. He is producing flock rams for the commercial sector and is leading the way for our potential stud sires.

GUINNESS

Springwaters 22-18

Only a small selection of rams available in this years draft, but an exciting look at what is to come in future sales. Progeny are displaying the excellent muscling he is known for. The majority of his rams are catalogued at the front of the sale. Guinness scanned the largest EMA we have bred and is a very early maturing sire.

SIRE SUMMARY

INVESTMENT

Abelene Park 232-15

We purchased Investment for \$24,000 in 2016. His genetics will feature prominently in future sales through his best son Guinness. He is a ram with outstanding shoulder settings and body length.

SPRINGWATERS 310-14

The sire of Pocock, the 2017 top priced ram purchased for \$16,000 by Armdale Park as well as the 2018 top priced ram purchased for \$10,000 by Rene. It is the consistency in his breeding that has made him such a fantastic sire. 310 has had 142 sons catalogued in sales over the last four years.

SPRINGWATERS 27-17

A son of 310-14 and out of one of the best ewes in our stud. 2020 is his first draft of sons and he has 34 catalogued. His progeny display good structure, muscling and length, following on from the 310 rams.

SPRINGWATERS 19-17

Used in the Autumn lambing. Very early maturing ram, was an outstanding lamb at five to six months of age. Plenty of bone and carcase shape with good skins.

Musgrave Stunner

LD Capitalist 316

Millah Murrah Klooney K42

SPRINGWATERS ANGUS

EST. 2017

Once again this year, we are offering a selection of yearling bulls from Springwaters Angus. Very few know this but Dennis first love was cattle, not Dorsets.

Alongside his brother Phil, they grew their business on the steers back. The commercial Angus herd has continued to be an important part of the family business and we hope to continue this passion in our new stud offering.

ET CONSISTENCY

The herd is based on a small number of stud cows purchased at Millah Murrah's 2017 record breaking female sale. Through the use of embryo transfer (ET) we have been able to start the stud from a consistent female base. We have put in nearly 300 embryos in the last three years, some on a contract basis, but the majority are the foundation of our stud herd.

The predominate sires are Millah Murrah Klooney K42 (sold for \$80,000 at Millah Murrah) and LD Capitalist 316 (USA). Klooney progeny have been sort after – 24 sons sold to average \$17,500 in the Millah Murrah 2018 sale – and his daughters are building a fantastic reputation. Visiting Musgrave Angus in Illinois during 2018 we saw first-hand how consistently 316 stamps thick, attractive progeny. We are also looking forward to progeny from Millah Murrah Paratrooper (\$160,000 record price Angus bull), Millah Murrah Kruse Time and Musgrave Stunner in coming years.

Scanning for performance traits in animals has become a significant on-farm measuring tool over the last 10 years within the stud industry.

Australian STOCKSCAN Services P/L scanners assess sheep at around 12 months of age for the following:

- Weight (LW)
- Eye Muscle Width (A)
- Eye Muscle Depth (B)
- Fat Measurement (C)

Eye Muscle Area (EMA) is calculated using the eye muscle width and eye muscle depth measurements.

The meat index is based on the Eye Muscle Width, Eye Muscle Depth and Fat Measurement with an adjustment for the age of the sheep.

STOCKSCAN figures as at 22nd July 2020
