BULL PHYSICAL EXAMINATION CERTIFICATE

BREEDER DARLEY STUD
ADDRESS CONDLINGTON
IDENTIFICATION TATTOO tag N17

SCROTAL CIRCUMFERENCE 52 cm

I have palpated the epididymis, spermatic cord, prepuce, prostate, seminal vesicles, penis and testes of this bull and found them to be consistent with normal physical state.

I have examined the feet, legs, joints and track of this bull and found it to have unimpaired mobility.

I have found the eyes to be free of lesions, jaw occlusion normal and dentition to show  adult incisors.

On the day of examination I considered the bull to be free of physical abnormalities that could reduce its breeding potential.
