carcass. Semen retained for own
stud use and export.**

DELL AFRICAN DUMISA Dorpers and White Dorpers welcomes you to our 10th On Property Ram Sale, held on the 8th of October 2021 at Fairfield Farm, Thyra Rd, Moama.

In fourteen years of dedication to the breed, this year's rams are of the very highest quality presented for sale Australia wide. Dell African Dumisa rams are extremely fertile, with exceptional length & depth in our genetics to produce Dorper prime lamb with outstanding doing ability, that can adapt & thrive anywhere in Australia. We are extremely proud of this year's draft of rams. Due to increasing our sheep numbers over the last 2 years we can offer a larger number of high-quality rams than previously.

We will be offering 102 Dorper Rams and 36 White Dorper Rams. You will truly be "Spoilt for choice", at this year's sale.

All our sheep are from a dermatosporax free flock and are brucellosis accredited. We are in the Riverina Biosecurity area which means our sheep can go anywhere in Australia.

This is also the first year we will be including Sheep Genetics- Lambplan EBV's in our catalogue. We have been uploading our flock onto Lambplan over the past 12 months.

Inspections of sale animals starts at 9.30am with the sale starting at 12.30pm. The sale will be interfaced with Auctions Plus which will include an online catalogue, EBV's, photos and videos of individual rams in lot order. All photos & videos will be up on the following website by Friday the 1st of October 2021.

<https://auctionsplus.com.au/auctions/sheep/10th-dell-african-dumisa-on-property-ram-sale/76709>

If you are not able to join us and want to bid online, please note all new registered AuctionsPlus buyers are required to complete Buyer Induction Training prior to bidding. AuctionsPlus recommends that all intending bidders have completed their registration and training 24hours prior to auction.

If your internet isn't working well, please contact Lachlan Collins from Nutrien Ag Echuca on 0477 325 948, he will be happy to assist you.

Morning tea and prime Dorper lamb lunch will be served before the sale.

We are a CovidSafe business, and we ask that you follow Covid 19 safe practice if you are attending our sale.

We look forward to seeing you all.

Kind Regards

Jean & Moozie van Niekerk

Andrea, Ryan, Abigail, and Isabel Vagg

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select “**Sign Up**” in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select “**Dashboard**” and then select “**Request Approval to Buy**”.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

CONDITIONS OF SALE

AUCTIONSPLUS

Dell Dorpers, Dumisa & African White Dorpers; 10th On Property Ram Sale, will be interfaced with AuctionsPlus. Prospective buyers who cannot attend the sale can place bids online over the AuctionsPlus system. To bid via AuctionsPlus, contact your local Nutrien Ag Solutions agent or register online at <https://auctionsplus.com.au/register> at least 48 hours prior to the sale commencing. If you are already a registered user log on, then click to connect to the sale. For more information on AuctionsPlus please call them on (02) 9262 4222.

Another option is phone bidding.

Please contact Lachlan Collins 0477 325 978 (Nutrien Ag) to organise this.

Auction selling terms

Available at registration desk.

Outside Agents

A 3% rebate will be available to outside licensed agents who introduce buyers to Nutrien Ag Solutions Echuca in writing not less than 24 hours prior to the sale.

Directions to Dell African Dumisa Dorpers & White Dorpers Sale.

From DENILQUIN, follow sign to Echuca, go into Mathoura, at the CALTEX in Mathoura turn right, go over a railway line and out of Mathoura for 16km, Turn left onto THYRA Rd, Go about 7km, Turn Right into Fairfield Farm

MOAMA, you will see a SAFEWAY SUPERMARKET on your left and a brown sign saying PERICOOTA RD, Turn Left onto Perricoota Rd & go for 7.5km, Turn Right @ Thyra Rd, Go along Thyra Rd for 25km, Turn left into our drive way at FAIRFIELD FARM, Our sign is bright orange with a WDR & a DR ram on it.

NUTRIEN AG SIGNS WILL BEAT THE BEGINNING OF THYRA ROAD

SALE INFORMATION

CLASSIFICATIONS

Due to Covid-19 restrictions, we have been unable to have our rams classed by a breed inspector. All the rams have been through a strict on farm selection. We have split them into 2 groups STUD & COMMERCIAL.

SHEEP GENETICS– LAMBPLAN

Over the past 12 months we have been uploading our flocks to Sheep genetics– Lambplan. Sheep ASBVs have been included for the first time in this sale. Information explaining ASBVs has been included in sale information.

No Colour Guarantee

Due to the nature of genetics White Dorpers can be known to occasionally throw colour. As this is out of our control, we cannot guarantee that our rams and ewes will breed only pure white lambs.

HEALTH

Dell, African & Dumisa Dorpers & White Dorpers are Ovine Brucellosis accredited flocks. All sheep are within the Riverina Biosecurity area & from a flock not infected or suspected of being infected with Ovine Johnes Disease. All rams have been vaccinated with Guardian 6-1 and Maximus Injectable drench on 31st August 2021. Dell, African and Dumisa Studs are all dermatosparaxis free flocks.

FERTILITY GUARANTEE

All rams are sold with a guarantee of being fertile. Any claim against the breeding ability of an animal purchased should be made within six months of the date of sale. The guarantee covers the purchase value of the ram. The guarantee does not cover infertility due to injury or disease contracted since the sale of the ram. Insurance covers this. A veterinary certificate would be required in the case of infertility. The ram shall be returned in the event of an animal failing to be fertile and either be re-placed with an animal of comparable value or a credit to the full purchase price will be given at the following sale or on a private sale animal (if available).

FREIGHT AND TRAVEL

We are willing to hold animals for a reasonable period of time at the buyers risk to allow for coordination of transport. We can provide recommendations of suitable stud stock carriers and will assist wherever we can for a safe and efficient transport of animals to your home property.

DELIVERY

Nutrien Ag Solutions agents will be handling the delivery of rams after the sale.

NO stock will be loaded until after the sale is complete.

INSURANCE

Animals will become the responsibility of the purchasers at the conclusion of the sale. We strongly recommend insuring your animals after the sale. Insurance can be arranged with Nutrien Ag if required.

SHEEP GENETIC ASBVS

Australian Sheep Breeding Values are an estimate of an animal's genetic potential to pass on traits to its progeny. It is based on pedigree (genes), performance recorded information (e.g., weights at certain ages, scanning for fat depth and muscle) and the environment in which it is raised (e.g., birth type, old or maiden mother, amount of feed). They are essentially a projection of how that animal's progeny will perform for a range of traits.

It is important to know that ASBVs are a tool for breeding sheep, they do not provide all the answers. Visual selection is very important to cull sheep that will not be functional in a commercial production system, regardless of how good the ASBVs are. ASBVs provide a measure of the animal's genetic potential independent of environmental influences that can affect the physical appearance.

WEIGHT ASBVs describe the animals' genetic merit for growth rate.

WWT - Animals with a more positive weaning weight (WWT) will on average, produce lambs that grow quicker to weaning – 100 days. Average for Dorpers is 5.5 and the **top 10% is > 7.6** PWT - Animals with more positive ASBVs for post weaning weight (PWT) produce lambs that grow quicker and reach target weights in a shorter time. Post weaning weight estimates the genetic difference between animals at 225 days of age. Average for Dorpers is 8.7 and the **top 10% is > 11.7**

CARCASE FATNESS ASBVs describe the value of an animal's genes for fat depth at a constant weight – a negative ASBV means a genetically leaner animal. We recommend a positive PFAT. PFAT - Animals with a more negative ASBV for post weaning fat (PFAT), will produce lambs that are leaner, at the same weight. Post weaning fat estimates the genetic difference between animals at 225 days of age. Dorpers with positive fat will survive better in tough conditions and dry times. Fat increases the ability of breeding ewes to maintain weight and condition, conceive twins, better milking and mothering ability and survivability. Also, increases the eating quality due to intramuscular fat.

CARCASE MUSCLING ASBVs describe the value of animals' genes for eye muscle depth at a constant weight – a positive ASBV means a genetically thicker-muscled animal, and one that will have slightly more of its lean tissue in the higher-priced cuts. PEMD - Animals with more positive ASBVs for eye muscle depth (EMD) produce lambs that have a higher lean meat yield. Post weaning muscle depth estimates the genetic difference between animals at 225 days of age. Average for Dorpers is 1.3 and the **top 10% > 2.2** A positive PEMD is best as it increases the value of the carcass, by increasing the amount of lean meat it contains and increases dressing percentage. Increases the amount of meat on higher priced cuts. Higher muscling is favourably related to reproductive rate.

MCP INDEX (MATERNAL CARCASS PRODUCTION) AND SRC INDEX A combination of ASBVs into a single value. Each ASBV is weighted to reflect the traits emphasis in the breeding objective. The Maternal Carcass Production (MCP) index ranks animals on their suitability for a self-replacing system with a carcass production focus. This index balances the main economic traits relevant to Maternal breeders. This allows higher gains to be made for growth and carcass traits. The index aims to maintain adult weight at current levels. Average for Dorpers is 131.5 and the **top 10% is > 140.7**
