46 Bulls On Offer - All POLLED

Helmsman Selling System

Selling Agents: Elders Clermont

VIEW VIDEOS OF FEATURE LOTS AT WWW.GLENLEABEEF.COM.AU

Welcome to our Annual Clermont Bull Sale.

THE Glenlea Beef Stud Charolais herd now in our 48th year and based on the Sub Tropical North Coast of NSW our cattle adapt quickly when moved north and west. The North coast as with most coastal environments in QLD, feed quality and trace element deficiencies have to be managed constantly.

With sales this year in Richmond, Winton, Emerald, Roma and Monto it's been busy with our bulls topping multi vendors sales and our own sales have sold to repeat and many new clients. Our focus is Queensland with our bull sales, now and into the future.

Our performance recording and genetic testing is a key part of our growth, and we are committed to providing full performance data, from collecting and submitting Raw data for analysis to BREEDPLAN. Traits such as gestation length, birth weight, calving ease, live weights and carcass scans(ALL OUR BULLS ARE CARCASS SCANNED TWICE, ONCE FOR EBV's prior to sale preparation and again PRE SALE). DNA Testing and identifying PP polled bulls, all bulls in this sale have been tested, and PP bulls identified in the catalogue. THE EBV's you see have higher accuracies that many other Charolais bull sales because we submit the data on all bulls so that the figures produced are fair more reliable and predictable and therefore useful.

We have been selling over 100 bulls per year over the last few years, privately and at Auction and in 2021 will exceed 150 with 200 the target for 2022! Our stud cattle are our primary business and selling bulls that add value to our client's bottom line, and the entire supply chain is what we strive to produce in everything we do with our cattle. Our after sales service we take very seriously and back our stock with 100% guarantee.

Our bulls have thrived at their new homes in the Clermont area, along with Emerald, Alpha, and further north and west to Charters Towers, Prairie and Julia Creek, feedback has been very positive with repeat buying the benchmark, we attributed this easy adaptability to having generationally bred cattle with natural doing ability as our number 1 selection criteria, with performance recording and all the other selection and breeding tools we use being applied after that.

The bulls we have on offer in this sale include our lead sire prospects, which include some of the most outstanding bulls we have produced to date. The draft includes 5 bulls, personally selected by myself from the Calmview Stud, with whom we work with often in sales. Joint prefix bulls are from our joint venture breeding program and is the cornerstone of our growth now and in the future.

Bulls have been vaccinated for 3 germ blood, pesti, botulism, 3 day and 7 in 1. All bulls have been Semen tested and physically examined by qualified practitioner.

All actual sale weights and raw carcass scan data will be provided as a supplementary sheet several days before sale this will be available on the Elders Clermont Facebook page and on our Glenlea Beef website or by email from any of the contacts in catalogue.

We will be selling under the Helmsman selling system, and through Auctions Plus and any questions related to this call any of the contacts in catalogue, direct phone bidding will be available for anyone, especially if your internet is unreliable.

Lunch and refreshments will be complimentary to all attendees, provided by local service club in Clermont and we hope to meet as many people as possible, so even if you have made your bull purchases this year or don't need any until next year, we extend an invitation to come along and inspect our Bulls and welcome your feedback and enjoy lunch on us.

Regards Roderick Binny GLENLEA BEEF

CLERMONT BULL SALE

1pm on Friday the 8th of October 2021

Sale to be held at Clermont Saleyards, QLD and via AuctionsPlus
Helmsman selling system

46 Charolais Bulls on offer

Conditions of Sale

INSPECTIONS

Bulls will be available for inspection from 12noon on Thursday 7th October and from 9am on Friday 8th October at Clermont Saleyards.

BULL HEALTH AND FERTILITY

All bulls have been vaccinated for 3 germ blood, 3 day, pesti virus, botulisum and 7 in 1.
Bulls have all been semen tested.
Glenlea Beef is a JBAS 7 herd.

GUARANTEE

All bulls are guaranteed to be able to serve cows naturally at the time of sale and are guaranteed for 6 months from sale day. If a bull should prove infertile or unable to serve cows naturally, provided the inability not caused by injury or disease contracted after sale, the bull will be replaced with a bull of similar quality or credit given for another of our sales by discussion with purchaser. Less salvage value of the bull.

INSURANCE

We recommend you insure your new bulls. Elders can arrange this at fall of hammer sale day.

AGENT REBATE

A rebate of 2% to all licensed agents is available, introducing buyers 24 hours prior to sale and settling accounts within 7 days.

REFRESHMENTS

A complimentary lunch and drinks will be provided on sale day by a local service club on behalf of Glenlea Beef, so even if you don't require a bull this year come along, inspect the bulls and enjoy lunch on us!

TRANSPORT

Delivery will be coordinated by Elders Clermont.
Delivery South to Emerald Saleyards, Springsure, Roma, Toowoomba is available from the sale by vendor.

PHONE BIDDING

Phone bidding is available by contacting the agents or vendor prior to sale to arrange for a dedicated agent to call you and assist you with your bidding.

HELSMAN SALE SYSTEM

This is where all lots are offered at the same time, with a time limit to bidding, same as AuctionsPlus weekly sales. Once the normal bidding period has ended, the initial period of 30 minutes, all bids are displayed along with bid card number on a display board. Bidding stays open past the initial 30 minutes while ever there is bidding taking place. Once bidding ceases for 1 minute the sale is closed and all successful purchasers declared.

Advantages for the purchaser are that it is a more relaxed form of auction and if your first pick exceeds your budget, you can go to your second pick, and so on.

For any clarification talk to the agents or vendor.

ACCURACY OF CATALOGUE

Every effort is made to be as accurate as possible. However mistakes can happen in the construction of catalogue and printing, we will resolve any issues at best as possible but make no warranty.

Can't make the sale?
Register in just seven easy steps and log onto AuctionsPlus to bid from anywhere on your phone, tablet or desktop.

- 1 REGISTER ONLINE**
FREE once off registration for all auctions.
- 2 COMPLETE BUYER INDUCTION**
The buyer induction will help you understand the roles and responsibilities of everyone on the AuctionsPlus system.
- 3 VIEW CATALOGUE**
Stock history, photos, videos, pedigrees and more. You can also favourite lots you are interested in.
- 4 ENTER AUCTION**
Log into the auction anytime, anywhere and bid on your mobile, tablet or computer. Auctions can end after 30 minutes so get in early.
- 5 Auto bid**
Can't stay for the whole sale? Set your maximum bid on the lot that you want to purchase and let the computer bid for you.
- 6 CONTACT SELLER**
If successful, contact selling agent to arrange payment and delivery. Or if you are the highest bidder you can log into your dashboard to meet the reserve.
- 7 PAYMENT**
Via the selling agent's terms and conditions.
- 8 DELIVERY**
Arrange transport of livestock at your expense.

or www.auctionsplus.com.au

~ Glenlea Beef ~

Background, Bloodlines, Breeding Strategy & Customer Service

Australian Charolais breeders have embraced performance recording as other countries have reduced their efforts, I have seen this first hand in north America. Our data now is more accurate and detailed, making looking overseas less likely to add genetics that take your herd forward in genetic development than using **Australian evolved genetics that are the best in the world for our environments and markets** with large amounts of individual data to help us as seedstock producers, identify positive influences.

Glenlea beef is now a large seedstock enterprise, including JV herds total over 500 Charolais females. We have been using **Australian bred sires** to continue the evolution of the herd over the last 10 to 15 years with limited use of overseas sires. Where you will see overseas as well Australian sires in the Glenlea herd is in our E.T. program using **exclusive proven sires** in very specific planned matings to produce elite progeny from our highest genetic merit females, our donors!

Our genetic base of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and different phenotypes to produce an Australian type Charolais. We have a degree of type variation, which is necessary with our range of markets and geographic footprint, from higher growth and yield types for northern markets over bos indicus cows to more moderate, early maturing types that suit more southern markets, but all assessed through the same process for all economic traits. This will be evident through the catalogue and comments, and EBV's on individual lots will highlight this.

Our breeding strategy is to produce powerful performance cattle in a medium to moderate frame score with a complete carcass. By that we mean above average yield, EMA, fat cover and IMF%. Measuring birthweights to be able to assist our bull clients to make the best selections for their operation and maintaining calving ease through BW and early gestation length.

Maternal strength focus on fertility, milking ability with great udders and moderate sized teats for longevity. While we are primary a terminal breed, in northern markets especially, Charolais x heifers are retained in there 1000's, so as seedstock producers we must always have our customers and in turn their customers in the front of mind in our breeding decisions, as those decisions ripple down the supply chain and leave big impacts, both positive and negative.

Polled genetics have progress in our breed to match horned bloodlines for every economic trait. Our herd still has a number of horned females and these are joined to homozygous polled sires. 98% of our calves born in the last 5 years are polled, many homozygous, and all testing will be available in catalogue or supplementary sheet.

BREEDPLAN is a genetic evaluation tool now over 30 years old and proven across many breeds and countries. We no longer print a detailed general explanation in our catalogues for bull sales or female sales as that information is available at the touch of your phone screen or click of your mouse! We are happy to explain any of the finer points of EBV's as they relate to the Charolais breed and specifically to our cattle, just call and ask! In the comments of each lot, you will see our summary of the EBV's printed for that lot.

Customer Service is at the heart of what we do, we spend much of our time travelling to clients both commercial and stud to help with a full range of services. We provide many services to all our clients from the most basic to full stud breeding and marketing support. Your success is our success. We are here to assist and work with you and your agents to help you achieve the highest possible price for your Glenlea sired stock.

REFERENCE SIRE

GLENLEA HONOURABLE (AI) (ET) (P) (R/F)

TATTOO: VLW H25E

DOB: 20/09/2012

COLOUR: Red factor

Photo at 5 years, joining cows.

COMMENTS: Impact sire that adds extra overall mass to all his progeny, as powerful a sire as we have used ever in the stud. Progeny have amazing docility, breed leading growth and muscle. BREEDPLAN trait leader for 200,400- and 600-day weight. In the Top 10 sire used in the breed in 2019 by breed registrations. Sons have sold to \$18,000 daughters to \$11,000. We will continue to use this sire in our A.I. program for years to come to add mass, bone and growth to females that get a little to refined in their type. Sired the Grand Champion female Sydney Royal 2021 and Junior Champion Heifer at BEEF 2021.

Sire of lots 4,5,6,12 & 29.

TATTOO: GLE J5E

DOB: 6/02/2013

COLOUR: Red factor

Age in photo 7.5 years (Feb 2021) Has been joining with different mobs of cows continuously since June 2019.

COMMENTS: Most consistent stud sire we have used in 48 years of stud Charolais breeding. All progeny are red, so is Homozygous Red. Also Homozygous Polled. Growth, perfect balance of muscle and fat cover, fine hair type, big strong feet. His sons have been our highest selling bulls in our history and his daughters will produce our leading bulls and females well into the 2020's. Sire of Reserve Heifer Calf Champion and Reserve Champion Bull 2021 at BEEF 2021.

Sire of lot 3.

Photo at 4.5 years.

COMMENTS: Unique Bloodlines with performance polled genetics combined with original import Old French bloodlines recognized for maternal strength, calving ease and extra carcass yield. Progeny are medium framed, thick and square, with plenty of ability to lay down fat cover, and have that eye appeal that sets them above the average. This sire has been used heavily at GLENLEA and his daughter offered in this sale will produce outstanding progeny. HOMOZYGOUS POLLED. Sire of Grand Champion sale heifer at Charnelle invitational sale in March and Reserve Junior Champion female at BEEF 2021.

Sire of lots 9,18,19,21 & 35.

GLENLEA NOLANA31ST R/F (GLE C20E)

COMMENTS: Powerful Dark Red Polled Sire to lead off the sale.

Phenotypically his thickness, depth of body and big pelvic capacity, medium frame, big strong feet and fine hair type and docility are why we selected him to use in the stud. His natural doability is what we strive to produce.

His sire Lannister is producing high performance progeny with carcass and easy finishing, while moderating frame.

Q405's Dam is a big powerful Red Charolais cow that is from one of our most prominent cow families, perfect udder, docile and has produced some outstanding progeny, with Q405 her best son.

EBVs show all his growth traits, carcass weight and IMF in the Top 1% to 5% of the breed with EMA top 15%.

¼ Semen share retained. No further call on bull, semen has been collected.

ALLEDNAW NUNCIATA C28 (AKT C28E)

COMMENTS: Young Polled Red Sire with growth, carcass and finish. Really is very balanced in his phenotype. Docile, fine hair, great structure, moves like a cat. We had hoped to exhibit this bull at Ekka in 2021 but was not to be.

His dam is a deep easy doing red cow with a perfect udder and is in our donor herd. Ideal sire to retain heifers from.

EBVs top 10% for milk, moderate BW with all growth and carcass traits above average, a total of 11 traits above breed average.

GLENLEA JANET U6E R/F (GLE U6E) (P)

VALLEY VIEW REBBY BRAVO 17TH (VLW J1E) (P)

COMMENTS: Our junior bull for Ekka 2021. We had hoped this young sire would have been very competitive at the Ekka. Length, very correct structure, along with excellent overall muscle and even fat cover. A very balanced sire that will produce progeny for any market and heifers to progress the herd.

Q96 was his Dam's first calf and is a maternal half-sister to our \$18,000-second-high seller at last year's sale Glenlea Quartermaster (P) R/F. Stud breeders would recognize Q96's dam is a daughter of Tattenhall Impeccable one of the most influential French sires in the Breed in Australia and many sons and grandsons have been used across the country in stud herds.

EBVs top 20% 600-day weight with 10 measured traits including all growth traits, fat cover and IMF above breed average.

ORARA WATERFALL ELSA 1ST (WFA K3E) (P)

COMMENTS: Powerful Red Polled sire. Tremendous overall carcass and bone and still easy finishing. Strong sires head, wide deep rump, big volumed body and very docile.

Sired by one of our most impactful sires whose progeny attract attention every time we offer them for sale.

Dam is a perfect young cow, zero faults and that will progress to the donor herd I am sure. From the Elsa cow family, one of our oldest in the stud.

EBVs top 1% of breed for all growth traits, and 11 traits well above breed average.

FERNVALE CHIFFON (FEN C22E)

JACKSON GRETA (MEJ G10E) (P)

COMMENTS: Very similar to his brother lot 4, they make a perfect pair. Overall carcass yield, maximum growth in an early to medium maturity pattern on a medium frame. These two bulls had loads of overall carcass shape from young calves through weaning, yearling to sale day. Progeny would top markets at any age you wanted to market them.

Strong sires head, great eye appeal and fine hair type.

Dam is a lovely big strong young cow with another outstanding calf just weaned.

EBVs top 5% growth traits, with 8 traits well above breed average.

FERNVALE CHIFFON (FEN C22E)

PIPECLAY G2E (ROL G2E)

COMMENTS: This sire, like his brothers in lot 4 and 5, has that maximum punch to work perfectly with any brahman cow. Fine coated, extra bone, quiet and very structurally correct. Will add value to all of the supply chain.

Dam is in our donor cow herd, heavily French influenced pedigree with perfect udder and fine hair type. Ideal for siring progeny intended for the feedlot, for maximum conversion and gain.

EBVs top 2% of breed for all growth traits and 10 traits well above breed average.

DAM: SHANDON JANET 1ST (GWN N5E) (P)

GLENLEA CHAROL 72ND (GLE J8E) (P)

GLENLEA JANET 90TH (GLE K73E) (P)

COMMENTS: A real keg on legs. Early maturing, very thick and easy finishing. Strong sires head with good bone and a nice smooth shoulder set and fine hair type. Perfect for siring weaners or heavy feeders that stand out at the saleyards.

Dam is from one of our leading cow families and Q9 was her first calf. Strong maternal traits make this another sire ideal to retain heifers from.

EBVs Low BW below breed average, Top 10% Carcass weight, Top 15% all growth traits, 12 traits in total above breed average.

Semen share retained. No further call on bull, semen has been collected.

THW TATT MAC D10E (THW D10E) (P)

JAY TEES ADELPHI (JT A12E) (P)

COMMENTS: What a great package of a bull. Early maturing, big strong carcass, very square, great sire's head and good bone. Another sire whose daughters would be ideal to put back into the herd.

Dam is a great breeding female - extra milk, perfect udder, deep bodied and great doability. Her next son will be in our 2022 Ekka show team. Her 2018 drop bull was a high seller at our Roma sale last year.

EBVs show milk in top 20%, Low BW, with above average growth, with a total of 11 recorded traits better than breed average.

VALLEY VIEW NOLANA 52 (VLW H52E) (P)

COMMENTS: Performance, easy fleshing with added finishing ability. Great loose skin and fine hair type, good bone, very docile and in a medium frame score. We have used this PP polled bull in the stud as a yearling and retaining a semen share.

He has had a lighter sale preparation as was being used to join select cows naturally during the winter. Photo is at 15 months weighing 750kg. His heifers will be ones to retain in your herd, they will all be polled, easy doing and raise heavy, sappy weaners.

Dam is one of our highest performance and maternal cows. Being double the breed average for milk EBV she is in our donor herd and her 2020 heifer calf will be in our 2022 show team.

EBVs top 5% all growth traits, top 10% IMF%, top 15% carcass weight, Top 20% EMA, total of 12 traits above breed average including all carcass traits.

¼ Semen share retained. No further call on bull, semen has been collected.

SHANDON GLENLEA Q-FORCE (P/S)

TATTOO: GWN Q1E

DOB: 11/07/2019

COLOUR: White

COMMENTS: Big strong sire, long bodied with great yielding carcass, poll/scur.

Sired by a Fairfield sire purchased several years ago that's producing growthy, powerful polled progeny.

EBVs Top 10% Beef yield, Top 25% EMA.

PINEDOCK FITTING

The Dockrill family are an integral part of Glenlea Beef and provide a range of services, from feeding and showing our cattle, preparing bulls for our range of bull sales, marketing photos, clipping and video taking, production and editing. Additionally an increasing amount of private bulls directly from their Casino, NSW property.

All the rest of the Glenlea Beef team thank them for all their support, input and hard work without which Glenlea Beef could not operate in the way it does currently.
