Greenland is offering Medium Wool Rams, Finewool Rams and Poll Merino Rams in our sale this year.

Greenland was founded in 1985 on Snowy Plain blood ewes.

We formed 3 families of ewes to breed sheep that suit differing environments and specialist flock requirements.

In 1987 we formed a Poll Merino Stud based on Emu Hill ewes to cater for anyone wishing to purchase Poll Merinos.

We believe the ewe base is the most important part for breeding progeny that will breed predictable and repeatable. Greenland has been pedigreeing and performance recording the stud ewes since 1986 enabling us to maintain, predictability, fibre diameter but increase bone, frame, staple length and fleece weights.

Accredited Brucellosis & Footrot free

Anyone wishing to inspect the rams prior to the Sale Day would be most welcome, by contacting us on the above phone numbers.

Conditions of Rams

This years rams have grown out well being run on rape and ryegrass from January to may. Then on ryecorn and ryegrass. The rams have had no supplementary feed this year. They were run at Mountain View where they have had 540mm of rain on them this year, so the wools have been tested as they are not shedded at all.

Breeding Objectives

At GREENLAND we are continuously concentrating on improving the genetics to breed a well balanced animal that is correct in structure with good bone on a large frame and yet maintain fibre diameter with supple skins and a rich well nourished distinct crimped wool that performs well in processing and a versatile sheep that are suitable to most environments as well as various options such as sheep that will reach the desired body weight for the meat trade or ewes that are suitable for first cross lamb mothers. Large framed sheep usually create strong competition from restocker interest. Greenland is concentrating on improving these characters which determine net returns to woolgrowers, this enables us to progress far more effectively. The strong demand for sheep and mutton make a merino operation very profitable, Greenland sheep are versatile and are highly fertile.

Our clients Pat & Bev O’Ryan have had a successful year with their merino operation selling their wether lambs to Wagga Wagga sale for \$220. Their older wethers have also had a respectable \$100 wool cut for the past two years. They have been buying rams for several years and are extremely happy with the breeding program, producing self-replacing merino ewes and wethers.
