\$SuperBorder\$

SuperBorders is the brand name for Border Leicester rams that are of high genetic merit for a first cross lamb production system. The 2020 SuperBorder cut off is 120.5, any ram on or above this figure qualifies as a SuperBorder for 2021. The official SuperBorder yellow ear tag easily identifies SuperBorder rams.

The BLX Index

The BLX Index is a Border Leicester crossing Index, developed by Lambplan to better reflect the preferred traits for a first cross lamb production system, balancing mature size with significant improvements in early growth and reproduction.

Not all rams sold by SuperBorder members qualify as SuperBorders, but are bred by committed, registered breeders striving for genetic gain. SuperBorder rams must be structurally sound and of good breed type.

First cross lambs sired by SuperBorder rams may be sold as 'Bred from SuperBorders'. Special yellow pen cards are available to identify these lambs in physical sales and virtual cards for online sales.

Percentile report for Maternal 1st cross sire breeds (Border Leicesters) dated 15/08/2021 for 2020 drop animals.
