Lynwood Border Leicesters

At Lynwood Border Leicesters our breeding strategy is to strive for continuous improvement to produce an even line of high quality Border Leicester rams. Since the Stud's inception in 2010, we have used flock breeding values to further our breeding objectives whilst also placing a high priority on visual appraisal when classing our stud sheep.

This year's sale rams were scanned on the 24th September 2021 by Trevor Pearce Scanning Services for Fat Depth (yfat) and Eye Muscle Depth (yemd) with the rams averaging 4mm in fat depth and 29mm in eye muscle depth. These raw data measurements are an indication to buyers of what the rams can potentially pass on to their progeny and for us as a Stud, confirmation of continuous improvement in our breeding objectives.

Our sale will be interfaced with AuctionsPlus to provide buyers with the opportunity to bid online. Photos and videos of all lots are available on the AuctionsPlus website.

Our business has been registered with COVIDSafe and our on property ram sale will abide by COVID19 measures as stipulated by the NSW Government. If attending in person, we ask that you check in either using the QR code or sign in sheet, wear a mask and social distance to ensure your safety as well as others.
