TALKOOK USE AND RECOMMEND

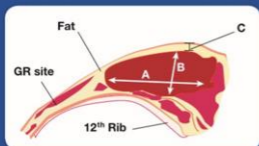

The only performance recording system delivering processed data on eye muscle width, depth and area measurements.

STOCKSCAN aim to provide breeders with measurements that are directly beneficial to the Prime Lamb Industry.

Provides definitive results to achieve:

- **MORE MEAT**
- **HIGHER YIELD CARCASSES**

Could you be missing out?

StockScan is the only performance recording system delivering **processed data** on eye-muscle width, depth and area measurements, providing definitive results to achieve:

- MORE MEAT
- HIGHER YIELD CARCASSES

An on-farm tool used by Stud & Commercial Breeders. Run by dedicated breeders who understand the Prime Lamb Industry.

Talkook Stud was established in 1968 by Robert 'Bob' Anderson for the purpose of both meeting the high demand for 1st cross ewe clients as well as the production & stocking purposes for Bob's family, trading as Mt Pleasant Pastoral Company in the Crookwell area. In the initial years the Stud was based on Yarra bloodlines. Over the last 52 years, Bob has carefully selected Rams into the stud for the purpose of both wool and meat quality. These sires have been selected from studs such as The Oaks, Raywil, & Chain O Ponds, with the introduction of sires more recently in the last 15 years from the Cadell and Retallack studs.

Talkook Stud has been & remains dedicated to its clients in producing high quality carcass traits within its sires as well as wool quality that sets the stud apart from most.

NSW Ovine Brucellosis Accreditation Scheme
CERTIFICATE OF ACCREDITATION

CERTIFICATE NUMBER SE 81/51
STUD NAME Talkook
PROPERTY Mount Pleasant
ADDRESS 906 Boobalaga Road CROOKWELL NSW 2853
OWNER Robert ANDERSON
COMPANY
ACCREDITATION OB-TR
EXPIRY DATE 30/09/2022

I certify that this flock is accredited in the NSW Ovine Brucellosis Accreditation Scheme. Accreditation does not provide a guarantee that the flock is free from ovine brucellosis. It is a statement that, on the basis of property inspection, sheep examination and testing, and agreement by the flock owner to comply with the rules of the Scheme, no evidence of ovine brucellosis has been detected in sheep on the property.
