Sunday 21st November 9am - 4pm

# WELCOME

## OUR PHILOSOPHY

To provide stud and commercial cattle producers access to Limousin genetics that will lift the carcase quality of their cattle and subsequently the dollar return to their bottom lines.

Our cattle must be easily managed with a strong focus on docility (scored in the animal and its breeding lines) that produce well-muscled, moderate framed sale bulls.

We are very passionate about maintaining Pure French genetics and stock both French and Australian Pure Limousins. We have acquired more polled animals, and we have especially pursued French Polled genetics, but not at the expense of superior muscling.

## KEY BREEDING VALUES

- Outstanding genetics including superior French Pure carcase qualities
- Docility and ease of management
- Herd base of exceptional females
- Double muscled commercially focussed bulls

## INTRODUCING GLENOLA LIMOUSIN STUD

Since establishing in 1973 as one of the first Australian Limousin studs by Jocelyn's father, Alan Turner, Glenola Limousin Stud has stood the test of time. The first Limousin calves were registered in 1973, after extensive research and visiting France to study first-hand the desirable traits and potential of this magnificent breed.

Situated on three properties within the picturesque Victorian Kiewa Valley district, Glenola Limousin Stud comprises approximately 170 registered breeders with a mix of Australian and French Pure genetics. We have increased the numbers of polled cattle within the herd, but not to the detriment of the superior muscling the breed is renowned for. Our emphasis on French Pure cattle is based on the knowledge that this optimises the likelihood of the F94L double muscling gene – scientifically proven to increase muscle growth. This gene has been proven to increase beef yield by more than 20% without the need for additional feed. It increases tenderness and means more meat for the same cost of production, making this gene highly desirable in our cattle. Almost all French Pure cattle (98.3%) possess this important gene.

We also place a huge emphasis on our females, as the maternal strength is paramount to our breeding program.

Our stud sets high standards for its cattle, particularly pertaining to:

- Docility – easy handling cattle with good temperaments
- Structural soundness – leading to greater longevity
- Low birth weight with high growth rates – greater returns for the producer
- Greater muscling – higher dressing rates and premium prices at market
- Efficiency – ability to finish quicker with efficient feed conversion
- Maternal traits – sound udders and high milking rates

Glenola Limousin Stud has continued to work on breeding sound, medium framed, well-muscled, early maturing, easy-calving cattle with great temperaments. Our paddock reared vealers regularly obtain top prices through the saleyards, and we supply approximately 30 commercial and stud bulls annually, many to repeat buyers who acknowledge the premiums they receive particularly for the vealer markets and the docility and longevity of our Glenola herd bulls.

We manage our herd using vehicles and motor-bikes (no dogs or electric prodders are ever used) as we acknowledge the treatment and well-being of all our animals as extremely important.

We are proud members of the Australian Limousin Breeders' since 1973 and use Estimated Breeding Values (EBVs) to record herd improvement against breed standards.

## STUD HISTORY

---

The stud was founded on the quality French Pure genetics from Weston Park bloodlines and from 2000 onwards focussed on French Pure bloodlines from the renowned Willow Park stud of Max Atkins.

During the 70's Glenola Limousin Stud was built on the quality genetics of the Gallic Stud with the purchase of Gallic Zulu ( 1982 Supreme Champion at Sydney Royal Show ) and Gallic Napoleon. In the 80's quality genetics were sought from well-known breeder Jack Edwards of Weston Park Stud with the purchase of Weston High Time and Weston Kendall - both bulls with super temperaments, great confirmation and sound feet. Together, these bulls formed the outstanding foundations of the Stud which we have built on over time.

In the 2000's the focus on French Pure genetics included the renowned Willow Park Stud with the purchase of Willow Park Uplift top priced bull at the 2001 Limousin National Sale). This bull had it all - the muscling, structure and docility from his world acclaimed sire Dauphin, traits passed onto his progeny. We are still using his sons and grandsons in the stud today with outstanding success.

Further purchases from Willow Park included Willow Park Zapper, a son of Highlander, Willow Park Zambuk, a 1-Way Polled Justice son, and Willow Park Valiant, a son of Tamis.

The blending of these genetics with an excellent breeding base that has been established over 48 years has been both exciting and rewarding for us as is the constant challenge of maintaining and improving our quality herd.

The breeding focus of Glenola Limousin Stud has been to produce sound Limousin bulls for the local commercial breeders with a strong emphasis on temperament, medium frame size, early maturing types with muscling and softness. We are proud to have a solid group of repeat buyers and the commercial viability of our product is emphasised by the reality of the majority of these buyers topping the market with their cattle when sold.

It gives us more pride to see our Glenola genetics topping the market quotes than wearing a show ribbon, as the moment Limousins are not commercially viable the breed will not flourish. Our secondary focus is the production of quality females to support our first breeding focus and then to ensure that our own business has commercial viability and our production traits are visible and dominant in the market place.

It is with regret that we are disposing of our beautiful herd of Limousin cattle that we adore. We will be maintaining a small number of cattle that will be de-registered due to us winding down into our retirement. We know our cattle will bring much joy and prosperity to their new owners for years to come and we wish them very happy new homes!

*Thank you!*

---

# SALE INFORMATION

## SALE INFORMATION:

Inspections: Inspections from 9am sale day at NVLX Barnawartha.

Auction Start Time: Auction will commence at 11am and will be sold by open cry auction under the ALPA terms and conditions. Bidding available via Auctions Plus or at NVLX in person.

Pre Registration: Available via [www.raywhitegtsm.com.au](http://www.raywhitegtsm.com.au). Fill out your details and submit the form. Your bid card will be waiting for you at the office on sale day.

Registration: Registration is required on Sale Day at Ray White GTSM Office as a Buyers number system will be in operation, therefore all prospective purchasers will be required to register prior to the commencement of the sale.  
\*\*All sale lots are sold exclusive of GST\*\*.

Settlement Terms: Settlement will be conducted through Ray White GTSM and due within 7 days of sale.

## SELLING AGENTS :

Michael Glasser (Stud Stock Manager)

[michael.glasser@raywhite.com](mailto:michael.glasser@raywhite.com)

James Brown Ray White GTSM  
0419 333 295

Lachie Williams Ray White GTSM  
0428 020 540

All settlements will be through Ray White GTSM

## BUYERS REGISTRATION AND SALE CONDITIONS

Buyers will be required to register as a bidder on AuctionsPlus. Any first time users will need to complete the buyer induction which takes approximately 30 minutes to complete online, so please allow enough time to complete this prior to the sale. All sale lots are sold exclusive of GST.

If you require any assistance with using the online bidding system, please contact the selling agents or the AuctionsPlus team prior to the sale.

## INSURANCE

Purchases become the responsibility of the successful buyer at the fall of the hammer. While all care will be taken by the vendors, we recommend buyers insure their purchases. An insurance representative will be available on sale day.

## INSPECTIONS OF CATTLE

Cattle will be available for inspection on our Open Days which will be held Saturday 20th November and Sunday 21st November from 9am – 4pm AEDT

Addresses:

- 22 Boundary Road Baranduda
  - 'Peppers Creek' 320 Miller Road Allans Flat.
- These locations are all within 10km from each other. Inspections are welcome at other times by appointment. All visits will be conducted under COVID-safe guidelines.

# SALE INFORMATION

## HERD HEALTH

All lots have been drenched and vaccinated with Cydectin and 5in1. Pregnancy Testing of Females was conducted by Dr Verity Bennett, BVSc, V5637, Veterinarian, Tallangatta & Kiewa Veterinary Clinics. A 'Certificate of Pregnancy Diagnosis' has been provided to the Vendor.

## SUPPLEMENTARY INFORMATION

Supplementary sheets will be available via AuctionsPlus with any updated information on the sale offering.

## STUD TRANSFERS & NLIS TRANSFERS

All animals are registered with the Australian Limousin Breeders Society. They are all eligible for transfer into the buyer's ownership. All purchasers of animals who require transfers will need to indicate this on their 'Purchase Instructions'. Any stud transfers requested will be completed by the vendor, but these are at the expense of the purchaser. NLIS transfers will be completed by NVLX as per buyer registration details.

## DELIVERY

Delivery from NVLX will be required on the day of sale. Joe Wilton Stud Stock Transport will be coordinating the delivery of all animals utilising Grealy Family Transport. Any animals not picked up from NVLX may incur fees that will be payable by the purchaser.

All genetic (semen) lots are stored at Agri-Gene Pty Ltd, Wangaratta. Shipping can be arranged by contacting Agri-Gene on 03 5722 2666. There is a \$25 handling fee payable to Agri-Gene on dispatch. Winning bidders who want semen sent to themselves, AI techs or a reseller in their own tank will incur a \$40 handling, liquid nitrogen ( \$4.90 + GST ) and freight to and from. Please contact Agri-Gene if you require clarification. Agri-Gene does not provide insurance coverage for private stock stored at their premises or for stock in transit. Email: [info@agrigene.com.au](mailto:info@agrigene.com.au)
